J. A. CHAPMAN,

Offg. Principal, Calcutta Madrasah,
andOffg. Registrar, Central Examination of
Bengal Madrasahs.

Pleadership and Mukhtarship Examinations.

As there exists some misapprehension in consequence of the High Court order, published on page 1641 of the *Calcutta Gazette*, dated the 22nd August 1906, it is hereby notified that there has been no lowering of the qualifications for the Pleadership and Mukhtarship Examinations, which remain the same as heretofore. The High Court's order refers only to certain nominal change in the standard of qualification for the Mukhtarship Examination and is confined to natives of the districts comprised within the Commissionerships of the Assam Valley and the Surma Valley and Hill districts only, and in no way affects other candidates.

W. GRAHAM,
Secy., Pleadership and Mukhtarship
Examination Board.

THE CIVIL ENGINEERING COLLEGE, SIBPUR.

THE following courses of instruction are provided at this College.—

I.—Engineer Department.

A four-year course leading to the Engineering Degrees of the Calcutta University. Admissions made yearly in June. Admission qualification, the First Arts examination of the Calcutta University or its equivalent.

II.—Apprentice Department.

The full course of study covers five years. There are special classes in Mining and in Electrical Engineering.

After 1½ years the Sub-Overseer examination is held.

After 3½ years the Final or Overseer examination is held with special modification for Mining students.

After a further 1½ years' practical training the certificate of Foreman Mechanic or Upper Subordinate is given.

Admissions are made yearly in June to 1st year and in March to 2nd and 3rd years. Admission qualifications—

To 1st-year class, Entrance examination of Calcutta University or equivalent, to the Middle School.

To 2nd-year class, the Final examination of B Course of zilla schools.

To 3rd-year class, the Sub-Overseer examination of affiliated Technical schools.

III.—Workshops.

Artisan classes in the following shops :—

Carpenters';	Fitters';	Machine,
Blacksmiths';	Turners';	and Foundry.

IV.—Agricultural Department.

Admission made by nomination of His Honour the Lieutenant-Governor. Application to be sent to the Principal. A two-year course leading to the Agricultural Diploma of the College. Admission made yearly in November.

Admission qualifications—

As general student, B. A., B Course, of Calcutta University or equivalent.

As special student, satisfactory evidence that the candidate can benefit by the instruction.

For further information apply to the Office Superintendent and Bursar, Civil Engineering College, Sibpur.

SIBPUR,

The 7th June 1906.

B. HEATON,
Principal.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 6472B.

NOTICE is hereby given that the Twelfth Sale of Opium, the provision of 1904-05, will be held at the Government Opium Sale-room, No. 2 Bankshall Street, on Tuesday, the 4th December 1906, at 11 A.M., and will comprise 4,400 chests, viz.—

Opium manufactured at the Patna Factory consisting of	...	Chests. 2,200
Ditto at the Ghazipur Factory consisting of	...	2,200
Total	...	4,400

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the notification issued on the 28th November 1905, and published in the *Government and Exchange Gazettes*, or on personal application at the office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 10th and 19th December 1906, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P.M. of Monday, the 10th December 1906, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Wednesday, the 19th December 1906.

By order of the Board of Revenue, L. P.,

J. P. YAKCHEE, for *Offg. Secretary*.

BOARD OF REVENUE, L. P., CALCUTTA, the 24th October 1906.

No. 6508B.

NOTIFICATION.

CUSTOMS.

THE HON'BLE MR. W. C. MACPHERSON, C.S.I.

Dated Calcutta, the 29th October 1906.

IN supersession of the rules published under Notification, dated the 25th September 1894, in Part I, pages 1108 and 1109 of the *Calcutta Gazette*, dated the 31st October 1894, as amended by the Resolution by the Government of India in the Finance and Commerce Department, No. 399S.R., dated the 19th January 1904, published at pages 157 and 158 of the Supplement to the *Gazette of India*, dated the 6th February 1904, the following rules framed by the Board of Revenue, L. P., under section 75 of the Sea Customs Act, 1878 (VIII of 1878) for the landing and shipping of passengers' baggage and the passing of the same through the Customs House are published for general information. The fee to be charged under rule 17 has been sanctioned by the Lieutenant-Governor of Bengal.

BAGGAGE RULES.

EXAMINATION ON BOARD-SHIP OR AT THE LANDING PLACE.

1. Ordinarily in Calcutta an Inspector with a staff of Baggage Officers will board passenger steamers at Garden Reach, and proceed to examine all cabin baggage and such hold baggage as can be conveniently produced, before the vessel reaches her moorings. But when there is not likely to be time to complete such examination before the vessel is ready to discharge her passengers, as in the case of large passenger vessels proceeding direct to the docks or jetties, or in the case of vessels discharging passengers by launch at Garden Reach, in such cases the examination shall be conducted at the place at which the baggage is landed, and will not be commenced on board-ship.

2. Upon boarding a vessel, the Baggage Officers shall distribute declaration forms in Customs Form No. 478, and give all necessary information to passengers for filling them up.

3. The Inspector shall also obtain from the Chief Officer a list of the passengers and of the unaccompanied baggage carried by the vessel. The Baggage Officers on board are not permitted to pass the latter. In the event of there being no unaccompanied baggage, a certificate to that effect must be obtained from the Chief Officer.

4. In examining, Baggage Officers shall be guided by the following directions :—

(a) When no suspicion of an attempt to smuggle dutiable goods, or introduce merchandise or firearms, etc., is entertained, the officers may dispense with the examination of hand-bags, rugs and parcels and satisfy themselves by the examination of a selected portion of the other baggage to the extent of one or more representative packages according to the number brought by each passenger or set of passengers.

(b) The right to open any or every package remains, however, and can be exercised at the discretion of the officers.

(c) The officers are to put to each passenger the following question :—

“Have you anything in your possession liable to duty, such as firearms, ammunition, alcoholic liquor, perfumed spirits, or any other article which is for sale?” They shall at the same time draw attention to the rules printed on the reverse of the declaration form.

(d) The utmost tact and courtesy are needed in every case. The rights of the revenue must be asserted, but no delay or unnecessary annoyance must be caused on any account to passengers.

5. If no dutiable articles are declared or detected, the Baggage Officer shall issue a pass in Customs Form No. 479. The declaration form entered by the passenger shall also be taken by the Baggage Officer at the time of passing and the entries completed.

6. If any dutiable articles are declared or found on examination, the passenger will be referred to the Baggage Inspector, who will receive duty, and issue a receipt in Customs Form No. 480.

7. Should a claim be made to pass dutiable articles free of duty under the concessions allowed for articles of private personal property re-imported, the Inspector may pass such goods free only if there are authenticated documents, in each case, substantiating the claim. In all other cases the passenger shall be referred to the Collector of Customs, with the option, should he wish to remove the article at once, of paying duty and applying for a refund afterwards.

The receipt in Form 480 shall be issued for all dutiable articles whether duty be levied or not, and shall contain a sufficient description of each article to permit of subsequent identification, as well as, in the case of any on which duty is not levied under the preceding clause, a note explaining the reasons. In the case of firearms, the details on the back of the form shall be filled up. Firearms of every description must be carefully examined.

8. Baggage Inspectors are authorized to pass free of duty firearms and ammunition in reasonable quantities belonging to passengers from Customs ports, or forming part of the equipment of an officer entitled to wear diplomatic, military or police uniform, etc., provided that the following particulars should in such cases be noted on the back of the receipt form, namely, the name, rank, position and address of the passenger, under his signature, in addition to the particulars of the arms required under the preceding rule, and particulars of the ammunition, if any.

Baggage Inspectors are also authorised to pass a gun, pistol, sword or knife, the property of a native officer or soldier arriving from a coast port when covered by a license from the Commanding Officer of the regiment to which he belongs.

9. Baggage Inspectors may not, however, pass the following, which shall be sent to the Custom House, and reported for orders :—

- (1) Arms imported by a native officer or soldier arriving from Hongkong.
- (2) Martini-Henry rifles and rifles of .303 bore and ammunition for these weapons imported by any passenger, or any other rifles of a military pattern or ammunition the importation of which is prohibited.

Exemptions.—When an officer of the British or Indian Army or of the Imperial Service Troops arrives in Calcutta by sea on duty and carries a rifle or carbine ostensibly as part of his military equipment, such weapon, even if of a prohibited bore, may be passed by the Baggage Officer on board, provided it is of a service or military pattern and bears the stamp and mark that indicate that it is the property of the State, or in the case of Imperial Service Troops, of the Native State concerned.

10. Passengers' baggage need not be detained owing to arms or ammunition or other dutiable articles being found in their boxes, unless they have in any way attempted to conceal them. In such cases the articles shall not be passed, but shall be sent to the Custom House with a special report.

11. Baggage shall be marked with the Baggage Officer's initials as soon as passed, and may then be removed. An officer shall be deputed to see that no packages leave the vessel without being marked. Passengers on vessels proceeding to the jetties or docks should be instructed to send the baggage pass along with the baggage to enable it to pass the jetty or dock gates. Baggage Officers must see that packages are removed as soon as possible after examination.

12. All packages which cannot be conveniently presented or opened for examination on board-ship, or at the time of landing, and all unaccompanied baggage, shall be sent to the Custom House.

If the vessel is discharging in the stream, such packages shall be forwarded by the baggage staff in charge of a Baggage Officer or peon, with a green boat note. Unaccompanied baggage shall be shown separately in the boat-note.

If the vessel is discharging at the jetties, such packages shall be forwarded by officers of the Port Trust as soon as possible after landing with a challan.

If the vessel is discharging at the docks, such packages may remain at the docks for a day or two before being forwarded by the officers of the Port Trust. In this case passengers shall be informed how long their baggage will remain in the docks before transfer to the Custom House.

The list of passengers and of unaccompanied baggage obtained under rule 3, or the certificate in the case of there being no unaccompanied baggage, shall be forwarded by the Baggage Inspector to the Inspector in charge of the Custom House Division when the baggage is forwarded to the Custom House. Unaccompanied baggage may only be passed at the Custom House.

Articles detained for any special reason shall be forwarded by the baggage staff to the Superintendent of the Preventive Service in charge of a Baggage Officer or peon.

13. Baggage Officers must see that no delay occurs in forwarding packages to the Custom House.

14. The Baggage Inspector on board shall forward the duty collected with a statement in Customs Form No. 453 accompanied by his receipt book and the passengers' baggage declarations to the Superintendent of the Preventive Service who shall compare the items in the statement with the foils of the receipts issued, initialling the last foil in token of his examination.

The statement with the cash shall then be sent to the cashier through the accountant, the amount remitted being entered in a register in Customs Form No. 403 in which the cashier shall give his acknowledgment.

15. The Superintendent shall forward the necessary reports to the Collector in the case of articles detained with the least possible delay.

16. Receipts shall be granted in Customs Form No. 576 for all baggage received in the Custom House; the receipts shall be serially numbered.

17. A landing charge of 8 annas shall be leviable for every package brought into the Custom House.

EXAMINATION AT THE CUSTOM HOUSE.

18. Baggage brought into the Custom House shall be examined by the Inspector of the Custom House Division and his staff. Fresh declarations in Form No. 478 are not required, but otherwise, except in the case of unaccompanied baggage when manifested, the procedure in examination shall follow the rules already laid down. The Inspector shall assess and realize landing fees and any wharf rent that may be chargeable in addition to duty. Such realization shall be entered in counterfoil receipts in Form No. 349 and brought to account in the manner prescribed in rule 14. Persons applying to clear unaccompanied baggage that is manifested shall be directed to present a bill-of-entry, which will be passed under the ordinary import procedure.

19. A register in Form No. 570 shall be maintained for all baggage upon which wharf rent accrues. Entries shall be commenced as soon as the rent becomes leviable, and be completed when the goods are passed out. A weekly inspection must be made to ensure that entries are regularly made. The boat-note or chalan number to be shown in column 2 of this register will be the serial number given under rule 16.

APPARATUS AND APPLIANCES INCLUDING THEATRICAL PARAPHERNALIA.

20. Article 41 of Schedule IV of the Tariff admits apparatus and appliances and parts thereof free, when imported by a passenger as part of his personal baggage and in actual use by him in the exercise of his profession or calling. Theatrical paraphernalia may be admitted free under this article, provided that the goods fall under the conditions specified therein, and in any orders issued from time to time by the Government of India. The examination of theatrical paraphernalia may be conducted on the importer's premises under suitable precautions.

EXPORT. SHIPMENT OF BAGGAGE.

21. Shipping bills are not required for the shipment of *lona fide* passengers' baggage.

22. Preventive officers shall at their discretion examine baggage brought for shipment to China, the Straits, Mauritius, and Ceylon, and report for orders any case in which they have good reasons to suppose that baggage for other ports contains dutiable or contraband articles.

23. When passengers embark at Diamond Harbour, it shall be the duty of the Preventive Officer in charge of the station to see that neither opium nor ganja is taken on board in their baggage.

LIST OF FORMS.

				C. H. No.
1.	Passenger's Baggage Declaration	478
2.	Baggage Pass	479
3.	Receipt for Passenger's Baggage	576
4.	Statement of duty and charges realized on Baggage	453
5.	Baggage Receipt	480
6.	Register of Passenger's Baggage	570
7.	Register of Baggage Duty	403

Rules for the exemption of passengers' baggage from Customs duty.

1. The *bond fide* baggage of a passenger is exempt from duty when it accompanies him; does not form part of the cargo; and is not included in the manifest.

2. *Bond fide* baggage shall include wearing apparel and personal effects, provided that the articles are not for sale and are imported for the personal use of the passenger or for the use of members of his family travelling with him; but it shall not include the following articles on which duty must be paid in all cases:—

- (a) Arms, ammunition and all other articles enumerated in Schedule II of the Tariff Import Schedule.
- (b) Alcoholic liquor, exceeding two quarts, perfumed spirit, exceeding one quart, and all other articles enumerated in Schedule III.
- (c) Cigars and cigarettes exceeding 100 in number, whether in opened or unopened boxes, and other tobacco exceeding 1 pound in weight.
- (d) Pianos, pianolas, carriages, motor-cars and motor-cycles.
- (e) Articles for household use such as furniture, pictures, carpets, glass, crockery, cutlery, and silver and plated-ware, except such articles (other than furniture or carpets) as shall appear to the Customs authorities to be imported in a moderate quantity and to be required for the personal use of the passenger whilst travelling or immediately upon his arrival at his destination.

3. Notwithstanding anything to the contrary in Rule 1, *bond fide* baggage landed at any Customs port within one month before or after the arrival of a passenger in India may, subject to the exceptions specified in Rule 2, be passed free at the discretion of the Collector of Customs.

* Published under the Resolution by the Government of India, Department of Commerce and Industry, No. 6095-6099 - 68, dated 3rd August 1906, at page 1630 of the Supplement to the *Gazette of India*, dated 4th August 1906.

NOTICE

1. Any person making a false declaration or attempting to pass dutiable goods without payment of duty is liable to a heavy penalty in addition to having his goods confiscated.

2. For all information regarding the landing and clearing of baggage, passengers are requested to apply to the Baggage Officers on Board or in the Baggage Godown at the Custom House.

3. A charge of eight annas per package is made upon all baggage sent to the Custom House to cover the expenses of landing and removal.

4. A further charge is made on account of wharf rent if baggage is not cleared from the Custom House within seven days from date of its receipt.

Nos. 1304—11.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

ESTABLISHMENTS.

ALLOTMENT OF MEMBERS OF THE INDIAN CIVIL SERVICE APPOINTED TO THE
BENGAL PRESIDENCY IN 1906.*Calcutta, the 9th November 1906.*

RESOLUTION.

THE undermentioned gentlemen have recently been appointed in England to the Indian Civil Service (Bengal Presidency) in the order specified below:—

John Johnston	Lower Provinces.
Alexander Keith Jameson	Lower Provinces.
Sankara Balaji Dhavle	Lower Provinces.
Francis George Rowland	Lower Provinces.
Joseph Charles French	Lower Provinces.

2. The Governor-General in Council has been pleased to attach the abovementioned gentlemen to the Provinces shown below against their names:—

Mr. J. Johnston }
„ A. K. Jameson }
„ Sankara Balaji Dhavle } Bengal.
„ F. G. Rowland }
„ J. C. French }

3. The Governor-General in Council is further pleased to direct that the gentlemen posted to Bengal shall, on arrival at Calcutta, report themselves to the Chief Secretary to the Government of Bengal. * * * Gentlemen who land at Bombay should enquire of the Chief Secretary to the Government of Bombay whether any orders are awaiting them from the Government of the province to which they have been posted.

G. B. H. FELL,
for Secy. to the Govt. of India.

The following order, issued by the Government of India in the Department of Commerce and Industry, is republished for general information.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

CUSTOMS ESTABLISHMENT.

Calcutta, the 8th November 1906.

No. 8693-25.—In supersession of the Notification in this Department, No. 6495—25, dated the 17th August 1906, Mr. W. D. R. Prentice, r.c.s., an Assistant Collector in the Imperial Customs Service, is granted privilege leave for fifteen days, with effect from the 4th October 1906.

W. L. HARVEY,
Secy. to the Govt. of India.

No. 432 Organization, dated Simla, the 31st August 1906.

NOTIFICATION—By the Government of India, Army Department.

In accordance with an arrangement agreed upon by the Home, Colonial, and Indian Governments, it is hereby notified that, with effect from the 1st January 1907, all Indian recruits required for the Police in China will be selected by the recruiting staff of the Indian Army, through whose agency alone men will be entertained for such service. The local recruitment of natives of India by Colonial and Municipal Administrations, in their own settlements, will cease entirely.

2. Applications for employment in the Police of Hongkong, Shanghai, and Tientsin should be made to the Recruiting Staff Officer charged with the recruitment of the classes to which the applicants belong.

3. All men enlisted for the Police in China will serve under an agreement, the terms of which will be settled by the Government of India in communication with the Colonial and Municipal authorities concerned. Copies of the conditions of service in the Hongkong, Shanghai, and Tientsin Police will be furnished to Recruiting Staff Officers in due course for the information of candidates desirous of such employment.

4. The period of service of the men will in every case terminate in India. On the expiry of their term of service in, or on discharge or dismissal from, the Colonial or Municipal Police, they will be sent back to India in every case for disposal.

Advertisements.

[N. B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the undermentioned plot of land, no longer required by the East Indian Railway Company, situated along the East Indian Railway, chord line, in the subdivision of Jamtara, district Sonthal Parganas, will be put up to sale at 12 A.M. on the 10th day of January 1907, corresponding with the 26th Pous 1313, Bengali, in the Court compound, Jamtara.

The purchaser of the plot of land will be subject to the following conditions:—

1st.—The purchaser will have no power to make any excavations on the land nearer than 15 feet from the railway boundary or to plough the land nearer than 3 feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by the noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the plot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plot of land will be sold revenue-free to the highest bidder.

5th.—The purchaser shall be put in possession on receipt by the Subdivisional Officer of the orders of the Board confirming the sale.

Serial number of plot.	Name of the sub-district and district.	Pargana and mauza.	Number of mile on which land is situated.	Situated on which side of the railway.	APPROXIMATE AREA OF THE PLOT IN BIGHAS AND ACRES.

NAGENDRA NATH CHATTERJEE, Munsif.

Baruipur, the 2nd November 1906. (1107-3)

Notification.

The premises sold pursuant to a decree of the High Court of Judicature at Fort William in Bengal in its Ordinary Original Civil Jurisdiction, in suit No. 319 of 1904 (wherein Pulis Behary Dutt and others are the plaintiffs and Mohendranath Dutt and another are the defendants), and dated the 13th day of January 1906, by the undersigned in the Registrar's sale-room in the Court-house at 12 o'clock noon, on Saturday, the 1st day of December 1906, the following properties belonging to the estate of the late Prosad Das Dutt:—

Lot 1.—An undivided half part or share of and in all that rent-free land called the Dhohlat estate in the Sagore Island, in the district of 24-Parganas and sub-district of Diamond Harbour, containing according to Settlement Map 17,726 bighas 10 cottahs, more or less, but of which some portions in the south have been washed away by the sea and, excepting Bisalakhipur and Radhakantapur, measuring about 1,260 bighas, together with all bounds and protection works, canals and tanks around the same, dedicated and covered by the Bengali deed, dated the 29th day of June 1890, executed by Prosad Das Dutt and Kedar Nath Dutt; the whole of the said estate being bounded on the north by the creek Satbanki khal, on the east partly by the said creek and partly by the Channel creek or Baratola river, on the south by the Bay of Bengal and on the west by a portion of the Ganga Nagar khal. This estate is held rent-free under a grant dated the 9th day of July 1876.

Lot 2.—All that undivided half part or share of and in all that river-side garden land and premises, comprising a one-storied brick-built house and out-offices, boundary walls, privy, ghats, tank and trees, containing by measurement 7 bighas 1 cottah and 12 chittaks, more or less, situate, lying and bearing No. 227 in the Register of the Kamarhaty Municipality, Revenue Division I, subdivision Kamarhaty, thana and sub-registry Casipore, district 24-Parganas, and bounded on the north partly by the land of the late Oparba Kissen Sett and partly by the land of Dinonath Mulick, on the east partly by a private passage and partly by Bhuitacharjee's land, on the south partly by the burning place and partly by a road leading to Doorga Churan Pathoories Ghat, and on the west partly by the said burning place and partly by the river Hooghly. Out of the entire land 6 bighas are rent-free, and the rest is held under a *mawraisi* lease at an annual rent of Rs. 2-12-16 gundahs payable to the zamindars of Panihatty.

Lot 3.—All that undivided half part or share of and in all that partly two-storied and partly three-storied brick-built messuage and premises, together with the piece or parcel of rent-free land thereunto belonging, and containing by measurement 2 cottahs and 6 square feet, more or less, situate, lying and being Nos. 1, 2 and 3 Cross Street and Nos. 51, 52 and 53 Clive Street, being holding No. 162 of block No. 12 in the North Division of the town of Calcutta, and bounded on the north by Cross Street, on the east by the house No. 4 Cross Street, on the south by the house No. 50 Clive Street and on the west by Clive Street.

Lot 4.—All that one-storied brick-built messuage and premises, together with the piece or parcel of *mawraisi* land, thereunto belonging, containing by measurement 7 cottahs 14 chittaks, more or less, situate, lying and being No. 4 King's Road, Howrah, thana and sub-registry Howrah, district Hooghly, and bounded on the north by the yard of Messrs Martin and Company, on the east by the St Agnes' Convent School,

on the south by King's Road, and on the west by the house No. 5 King's Road. Annual rent of Rs. 9-9-6 is payable to Giris Chunder Banerjee of Sulkea for this property as well as for Nos. 5 and 6 King's Road, Howrah.

Lot 5.—All that piece or parcel of rent-free *bustee* land or ground measuring 2 cottahs and 7 chittaks, situate, lying and being No. 64 Sovaram Bysack's 1st Lane, being holding No. 338 of block No. III of the North Division of the town of Calcutta, and bounded on the north by Sovaram Bysack's Lane, on the east partly by the house No. 63-1 Sovaram Bysack's 1st Lane and partly by a Siva's temple, on the south by Sovaram Bysack's 1st Lane, and on the west by premises No. 12 Sovaram Bysack's Lane.

The abstract of title and conditions of sale and plans of the properties to be sold may be seen at the office of the undersigned at the Court-house or at the office of Babu Nibaran Chandra Datta at No. 9 Old Post Office Street, Calcutta, and will be produced at the sale.

W. R. FINK,

Commissioner of Partition in
suit No 319 of 1904.

Nibaran Chandra Datta, Plaintiff's Attorney.

High Court, Original Side, the 2nd day of September 1906. (1118-1-960)

Berhampore, the 12th November 1906.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.
CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depot, Calcutta,

or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PRICES.

The terms of subscription, and the terms on which current issues and back numbers are sold, are as follows:—

	Without postage.	With Indian postage.	With Foreign postage.
COMPLETE SERIES—			
Current issues, per annum	Rs. A. P. 22 8 0	Rs. A. P. 22 8 0	Rs. A. P. 28 0 0

MADRAS, BOMBAY or ALLAHABAD SERIES—		
All Parts for one year	4 4 6	4 11 8
Any one Part	0 5 8	0 6 9

If any Part is lost in transit to a subscriber, and the fact is reported to the office of distribution within three months from the date of publication, a duplicate will be supplied at the following rate:—

	Without postage.	With Indian postage.
CALCUTTA SERIES	Rs. A. P. 0 8 9	Rs. A. P. 0 10 8
MADRAS, BOMBAY or ALLAHABAD SERIES	0 5 8	0 6 9

REPRINTS.

The Complete Series for the years 1876 to 1881, 1883, 1886, 1888, 1890, 1892 to 1896 and 1899 to 1903 has been reprinted, and may be purchased at the Bengal Secretariat Book Depot, Calcutta, either wholly or in part. All Parts required to complete the stock of the Reports for other years are now being reprinted. Complete Reports from the beginning, to date will therefore shortly be available at the Bengal Secretariat Book Depot.

ADVERTISEMENTS FOR THE CALCUTTA SERIES.

ADVERTISEMENTS of law publications only are received. Rates can be ascertained on application to the Bengal Secretariat Book Depot.

THE BENGAL LAW REPORTS.

SEVERAL volumes of the Bengal Law Reports, from August 1868 to December 1875, and Full Bench Rulings, Parts I and II, are available at the Bengal Secretariat Book Depot, Calcutta, at the following rates:—

* Agents for sale of the Legislative Department publications.

NOTICE.—Books and Acts required for private use only can be purchased. Applications should be accompanied by a remittance, unless it is wished that the books should be sent by value-payable post, in which case, besides the ordinary postage, an additional charge is made for registration and commission.

Books and Acts required for the public service should be obtained through Local Governments, to whom the applicant is subordinate.

Application for Government publications which are no longer in print should be made to the Agent of the particular Government under whose orders they were originally issued.

(The amounts within parentheses are for packing and postage.)

The Calcutta Gazette.

WEDNESDAY, NOVEMBER 14, 1906.

PART IV.

Bills of the Bengal Council.

GOVERNMENT OF BENGAL

LEGISLATIVE DEPARTMENT.

The 15th November, 1906.—The following Bills were introduced in the Council of the Lieutenant-Governor of Bengal on the 10th November, 1906, and are hereby published for information, together with the Statements of Objects and Reasons and Notes on Clauses.

[THE BENGAL TENANCY (AMENDMENT) BILL, 1906.]

BILL

to amend and supplement the Bengal Tenancy Act, 1885.

Whereas it is expedient to amend the Bengal Tenancy Act, ^{VIII of} 1885, in the manner hereinafter appearing;

And whereas the previous sanction of the Governor General has been obtained under section 5 of the Indian Councils Act, ^{55 & 56,} 1892, to the passing of this Act; ^{Vict., c. 14.}

It is hereby enacted as follows:—

- Short title and extent. 1. (1) This Act may be called the Bengal Tenancy (Amendment) Act, 1907.

The Bengal Tenancy (Amendment) Bill, 1906.

(Clauses 2-7.)

(2) It shall extend to all the territories for the time being under the administration of the Lieutenant-Governor of Bengal in which the Bengal Tenancy Act, 1885, is in force. VIII of 1885.

Repeal of sections 40 and 45 of Act VIII of 1885. 2. Sections 40 and 45 of the Bengal Tenancy Act, 1885, are hereby repealed. VIII of 1885.

Addition of Explanation to sub-section (3) of section 1. 3. To sub-section (3) of section 1 of the said Act, the following Explanation shall be added, namely:—

“*Explanation.*—The words ‘the town of Calcutta’ mean, subject to the exclusion or inclusion of any local area by notification under section 637 of the Calcutta Municipal Act, 1899, the area described in Schedule I to that Act.” [Cf. Ben. Act III of 1899, s. 3 (7)]. Ben. Act III of 1899.

Amendment of section 3, sub-section (5). 4. (1) In sub-section (5) of section 3 of the Bengal Tenancy Act, 1885,—

(a) after the word “money,” where it occurs for the first time, and

(b) after the words “as if it was rent,”

the words “together with interest due thereon, or damages granted in lieu of interest” shall be inserted and added, respectively.

(2) In the same sub-section after the word and figures “Chapter XII” the word and figures “Chapter XIV” shall be inserted.

Addition to section 12. 5. To section 12 of the said Act, the following shall be added, namely:—

“(4) Nothing contained in any deed of transfer to which the landlord is not a party shall be evidence against the landlord of the permanence, fixity of rent, specification of area, transferability or any incident of any tenure or holding referred to in such deed.”

New sections 17A and 17B. 6. After section 17 of the said Act the following shall be inserted, namely:—

“17A. The acceptance by a landlord of the fees payable under the foregoing sections and under section 18, clause (a), shall not operate—

(a) as an admission as to the permanence, fixity of rent, specification of area, transferability or any incident of the tenure or holding, for which such fees have been paid, or

(b) as an express consent, under the provisions of section 18, to the division of the tenure or holding, or to the distribution of the rent thereof.

“17B. All fees now in deposit, or which may hereafter be deposited, under the foregoing sections and under section 18, clause (a), for payment to a landlord, may, unless claimed by the landlord within six months from the date of the commencement of this Act or from the date of service of the notice prescribed in sections 12, 13 and 14, whichever is later, be declared to be forfeited to the Government.”

Amendment of section 19. 7. (1) Section 19 of the said Act shall be re-numbered section 19, sub-section (1).

The Bengal Tenancy (Amendment) Bill, 1906.

(Clauses 8-11.

(2) In the said sub-section (1), after the words "this Act," in both places where they occur, the words, brackets and figures "or the Bengal Tenancy (Amendment) Act, 1907," shall be inserted. Ben. Act of 1907.

(3) After the said sub-section (1), the following shall be inserted, namely :—

"(2) The inclusion of any land in the town of Calcutta by notification under section 637 of the Calcutta Municipal Act, 1899, shall not affect any right of occupancy previously acquired in such land." Ben. Act 1 of 1899.

Amendment of section 22.

8. In section 22 of the said Act,—

(a) for the words "the occupancy-right" in sub-section (1), and

(b) for the word "it" in sub-section (2),

the words "the tenancy" shall be substituted.

Amendment of section 37.

9. In section 37 of the said Act, for the figures "40" the figures and letter "71A" shall be substituted.

Amendment of section 38, sub-section (1).

10. (1) In sub-section (1) of section 38 of the said Act, after the word and brackets "(namely)" the following shall be inserted, namely :—

"(a) on the ground that the rate of rent paid by the raiyat is above the prevailing rate paid by occupancy-raiyats for land of a similar description and with similar advantages in the same village or neighbouring villages, and that there is no sufficient reason for his holding at so high a rate, or"

and the existing clauses (a) and (b) shall be re-lettered clauses (b) and (c), respectively.

(2) To the same sub-section the following proviso shall be added, namely :—

"Provided that where the rent of an occupancy-raiyat has been fixed or settled—

(i) by a lawful contract, or

(ii) by a Revenue-officer acting under the provisions of Chapter X, or

(iii) by a decree of any Court other than a decree passed *ex-parte*, or on confession of judgment or on any compromise between the parties,

such raiyat shall not be entitled to institute a suit for the reduction of his rent on the ground specified in clause (a)."

Addition to section 52.

11. To section 52 of the said Act, the following shall be added, namely :—

"(6) When in a suit under this section the landlord or tenant proves that there is a custom, in the village in which the tenure or holding is situate, of settlement, being made after measurement of the land assessed with rent, it may be presumed that the area of the tenure or holding specified in any patta, kabuliyat, or rent-roll relating to it has been entered in such patta, kabuliyat or rent-roll after measurement."

The Bengal Tenancy (Amendment) Bill, 1906.

(Clauses 12-14.)

Amendment of section 58.

12. In section 58 of the said Act, for sub-section (3), the following shall be substituted, namely :—

“(3) If a landlord or his agent without reasonable cause, the burden of proving which shall lie on him, fails to deliver to the tenant a receipt or statement, or to prepare and retain a counterfoil or copy of a receipt or statement as required by either of the said sections, the landlord or his agent, as the case may be, may be punished on summary trial and conviction before the Collector with fine, which may amount to fifty rupees.

(4) The Collector may take cognizance of an offence under this section, either on information received from a Revenue-officer, or upon complaint of the party aggrieved, or upon the report of a Civil Court; and it shall be the duty of every Revenue and Judicial Officer to report to the Collector all such cases as may come to his knowledge.

(5) Where, in any case under sub-section (3), the Collector convicts the landlord or his agent, as the case may be, and is satisfied that the tenant has not already instituted a suit under the provisions of sub-section (1) or sub-section (2),

the Collector may, on the application of the tenant, made either orally or in writing, award to the tenant such compensation not exceeding the penalty prescribed in sub-section (1) or sub-section (2), as the case may be, as he thinks fit.

(6) A tenant to whom compensation has been awarded by the Collector under sub-section (5) shall not be entitled thereafter to institute a suit under the provisions of sub-section (1) or sub-section (2) to recover any penalty from the landlord in respect of the same matter.

(7) Where, in any case under sub-section (3), the Collector acquits the landlord or his agent, as the case may be, and is satisfied that the complaint or information of the tenant on which the proceedings were instituted is false or vexatious, the Collector may, in his discretion, by his order of acquittal, direct the tenant to pay to such landlord or agent such compensation, not exceeding fifty rupees, as the Collector thinks fit. [Of. Act V of 1898, s. 250 (1).]

(8) An appeal shall lie to the Commissioner of the Division against any order of the Collector imposing a fine under sub-section (3) or awarding compensation under sub-section (7), and the orders passed by the Commissioner on such appeal shall be final and conclusive.”

New section 68A.

13. After section 68 of the said Act, the following shall be inserted, namely :—

“ Damages for denial of landlord's title.

“68A. (1) When, in any suit between a landlord and tenant as such, the tenant renounces his character as tenant of the landlord by setting up without reasonable and probable cause title in a third person or himself, the Court may pass a decree in favour of the landlord for such amount of damages, not exceeding ten times the amount of the annual rent payable by the tenant, as it may consider to be just. [Of. Act V of 1892, s. 111].

(2) The amount of damages decreed under sub-section (1), together with any interest accruing due thereon, shall, subject to the landlord's charge for rent, be a first charge on the tenure or holding of the tenant; and the landlord may execute such decree for damages and interest, either as a decree for a sum of money, or, subject to the provisions of section 158B, in any of the modes in which a decree for rent may be executed.”

Addition to section

14. To section 69 of the said Act the following shall be added, namely :—

“(4) No order shall be passed on an application, under this section when, previously to such application, an application under section 121 for the distraint of the crops of a tenant has been made by the landlord and admitted by the Civil Court, and, if,

The Bengal Tenancy (Amendment) Bill, 1906.

(Clauses 15-17.)

after an order has been passed under this section, it appears that an application for the distraint of the tenant's crops has been made to the Civil Court before the application was made under this section, the Collector shall stay all proceedings under this section."

New section 71A.

15. After section 71 of the said Act the following shall be inserted, namely:—

"Commutation.

"71A. (1) Where a raiyat pays for a holding rent in kind, or on the estimated value of a portion of the crop, or at rates varying with the crop, or partly in one of these ways and partly in another, either such raiyat or his landlord may apply to have the rent commuted to a money-rent. [Cf. Act VIII of 1885, s. 40]

(2) The application may be made to the Collector or Sub-divisional Officer or to an officer making a survey and record-of-rights under Chapter X, or to any other officer specially authorized in this behalf by the Local Government.

(3) On the receipt of the application the officer may determine the sum to be paid as money-rent, and may order that the raiyat shall, in lieu of paying his rent in kind, or otherwise as aforesaid, pay the sum so determined.

(4) In making the determination the officer shall have regard to—

- (a) the average money-rent payable by raiyats of the same class for land of a similar description and with similar advantages in the vicinity;
- (b) the average value of the rent actually received by the landlord during the preceding ten years, or during any shorter period for which evidence may be available; and
- (c) the charges incurred by the landlord in respect of cultivation or irrigation under the rent system previously in force, and the arrangements made on commutation for continuing those charges.

(5) The order shall be in writing, shall state the grounds on which it is made, and the time from which it is to take effect, and shall be subject to appeal in like manner as if it were an order made in an ordinary revenue proceeding.

(6) If the application is opposed, the officer shall consider whether under all the circumstances of the case it is reasonable to grant it, and shall grant or refuse it accordingly. If he refuses it, he shall record in writing the reasons for the refusal."

Amendment of section 88.

16. (1) In section 88 of the said Act, for the words "with his consent in writing," the words "with his express consent in writing, or with that of his duly authorized agent" shall be substituted.

(2) To the same section the following proviso shall be added, namely:—

"Provided that, if there is proved to have been made in a landlord's rent-roll any entry showing that the tenure or holding of any tenant has been divided, or that the rent payable in respect thereof has been distributed, such landlord may be presumed to have given his express consent in writing thereto within the meaning of this section."

Amendment of sub-section (2) of section 101.

17. In sub-section (2) of section 101 of the said Act,—

(1) For clause (a) the following clause shall be substituted, namely:—

"(a) where—

(i) the landlord or tenants, or

(ii) a proportion of not less than one-fourth of the total number of landlords, or

The Bengal Tenancy (Amendment) Bill, 1906.

(Clauses 18-20.)

(iii) a proportion of landlords, the aggregate of whose interests in the lands of the local area, estate or tenure or part thereof is not less in value than one-fourth of the total value of the interests of all the landlords therein, or

(iv) a proportion of not less than one-fourth of the total number of tenants,

applies or apply for such an order, and on his or their depositing, or giving security for such amount for the payment of expenses as the Local Government directs;”.

(2) To clause (c) the following shall be added, namely :—

“or a Manager appointed by the District Judge under the provisions of section 95;”.

(3) To the first *Explanation* to clause (d) the following shall be added, namely :—

“but does not render it necessary to settle the rents of tenants of every class in an estate or tenure belonging to Government, when it does not appear to the Government to be expedient to do so.”

New clause (cc) in section 102.

18. After clause (c) of section 102 of the said Act, the following clause shall be inserted, and shall be deemed to have been so inserted from the commencement of the Bengal Tenancy (Amendment) Act, 1898, namely :—

Ben. Ac
III of 1898.

“(cc) the rights and obligations of each tenant and landlord in respect of—

(i) the use by tenants of water for agricultural purposes, whether obtained from a river, *jhil*, tank or well or any other source of supply, and

(ii) the repair and maintenance of appliances for securing a supply of water for the cultivation of the land held by each tenant, whether or not such appliances be situated within the boundaries of such land;”.

Insertion of section 102A in Act VIII of 1898.

19. After section 102 of the Bengal Tenancy Act, 1885, VIII of 1885, the following shall be inserted, namely :—

“102A. The Local Government may,

Power to order survey and preparation of record-of-rights as to water. for the purpose of settling or averting disputes existing or likely to arise between landlords and tenants, or between tenants and tenants, or between landlords or tenants and riparian proprietors,

make an order directing that a survey be made, and a record-of-rights be prepared, by a Revenue-officer, in order to ascertain and record the rights and obligations of each tenant and landlord in any local area, estate or tenure or part thereof, in respect of—

(a) the use by tenants of water for agricultural purposes, whether obtained from a river, *jhil*, tank or well or any other source of supply; and

(b) the repair and maintenance of appliances for securing a supply of water for the cultivation of the land held by each tenant, whether or not such appliances be situated within the boundaries of such land.”

Amendment of section 103B.

20. For section 103B of the said Act the following shall be substituted, namely :—

“103B. (1) In any suit or other proceeding in which a record-of-rights prepared and published under this Chapter, or a duly certified copy thereof, or extract therefrom, is produced, such record-of-rights shall be presumed to have been finally published, unless this is expressly denied, and a certificate signed

Presumption as to final publication and correctness of record-of-rights.

The Bengal Tenancy (Amendment) Bill, 1906.

(Clauses 21-25.)

by the Revenue officer, or by the Collector of any district in which the local area, estate or tenure or part thereof to which the record-of-rights relates, is wholly or partly situate, stating that a record-of-rights has been finally published under this Chapter, shall be conclusive evidence of such publication.

(2) The Local Government may, by notification, declare, with regard to any specified area, that a record-of-rights has been finally published for every village included in such area, and such notification shall be conclusive evidence of such publication.

(3) Every entry in a record-of-rights so published shall be evidence of the matter referred to in such entry, and shall be presumed to be correct until it is proved by evidence to be incorrect.

Amendment of heading to Part II of Chapter X. 21. In the heading to Part II of Chapter X of the said Act, for the words "*decision of disputes*" the words "*disposal of objections*" shall be substituted.

Addition to section 105 (4). 22. To sub-section (4) of section 105 of the said Act, the following shall be added, namely:—

"and may, if the circumstances are, in his opinion, such as to make it practicable and expedient to prepare a table of rates, frame a table of rates, and settle and record all or any of the rents on the basis of such rates in the manner described in sections 104B, 104C and 104D." [Cf. Act VIII of 1895, s. 104 A (2)(c).]

Addition to section 109A. 23. To section 109A of the said Act the following shall be added, namely:—

"(4) A note of all rents settled and of all decisions of disputes on revision or appeal, under section 108 or section 109A, shall be made in the record-of-rights finally published under section 103A, and such note shall be considered as part of the record." [Cf. Act VIII of 1895, s. 107 (2).]

New section 109B. 24. In Part IV of Chapter X of the said Act, immediately before section 110, the following shall be inserted, namely:—

"109B. In ascertaining and recording the rents payable, and in deciding disputes under this Chapter, the Revenue-officer may give effect to any lawful agreement or compromise made or entered into by the landlord and tenant, and may frame the record accordingly; [Cf. Act XIV of 1882, s. 875.]

but he may refuse to do so, if, for reasons to be recorded, he considers the agreement or compromise to be illegal or unfair and inequitable,

and he shall not give effect to any agreement or compromise which contravenes the provisions of section 29."

Amendment of section 112. 25. (1) In sub-section (1) of section 112 of the said Act, the words "acting under this Chapter" shall be omitted.

(2) After sub-section (1) of the said section the following shall be inserted, namely:—

"(2) The Local Government may, with the previous sanction of the Governor General in Council, invest a Revenue-officer with power to settle or reduce rents under this section, after satisfying himself that the landlord is demanding rents which have been illegally enhanced above those entered as payable in a record-of-rights prepared under this Chapter."

and the existing sub-sections (2) and (3) shall be re-numbered sub-sections (3) and (4), respectively.

The Bengal Tenancy (Amendment) Bill, 1906.

(Clauses 26-30.)

(5) After sub-section (4) the following shall be added, namely:—

“(5) The provisions of sections 104 to 104J (both inclusive) shall apply to a settlement of rent made under this section.”

Amendment of section 113(1).

26. In sub-section (1) of section 113 of the said Act for the word, letter and brackets “clause (a)” the word, letter and brackets “clause (b)” shall be substituted.

Amendment of section 114.

27. In section 114 of the said Act,—

(1) In sub-section (1),—

(a) the words “by the Government” shall be omitted, and

(b) for the words “from time to time in the maintenance,” the following shall be substituted, namely:—

“at any time, whether before or after the preparation of the record-of-rights, in the maintenance, repair or restoration”.

(2) After sub-section (1), the following shall be inserted namely:—

“(2) The estimated amount of the expenses likely to be incurred for the maintenance, repair or restoration of boundary-marks for a period not exceeding fifteen years, or such part of such expenses as the local Government may direct, may be recovered in advance in the same manner as if they had been already incurred.”

and the present sub-section (2) shall be re-numbered sub-section (3).

(3) After sub-section (3), the following shall be added, namely:—

“(4) The cost of the preparation of copies of the survey maps and record-of-rights, prepared under this Chapter for distribution to landlords and tenants, shall be deemed to be part of the expenses incurred in carrying out the provisions of this Chapter.”

Addition to heading to Chapter XI.

28. To the heading to Chapter XI of the said Act the following words shall be prefixed, namely:—

“NON-ACCURAL OF OCCUPANCY AND NON-OCCUPANCY RIGHTS,
AND”

Amendment of section 116.

29. In section 116 of the said Act, after the words “shall apply to” the following shall be inserted, namely:—

“lands acquired under the Land Acquisition Act, 1894, I of 1894, for the Government or for any local body or for a Railway Company, or lands belonging to the Government within a cantonment under the Cantonments Act, 1889, while such lands remain the property of the Government, or of such local body or Railway Company, or to”.

New sections 147A and 147B.

30. After section 147 of the Bengal Tenancy Act, 1885, the VIII of 1885 the following shall be inserted, namely:—

“147A. (1) The provisions of section 375 of the Code of Civil Procedure shall not apply to compromise of suits between landlord and any suit between landlord and tenant as such.”

(2) Where any suit between landlord and tenant as such is adjusted wholly or in part by any lawful agreement or compromise, or if the defendant satisfies the plaintiff in respect to

The Bengal Tenancy (Amendment) Bill, 1906.

(Clauses 31-32.)

the whole or any part of the matter of the suit, the Court may pass a decree in accordance with such agreement, compromise or satisfaction, so far as it relates to the suit;

but may refuse to do so if, for reasons to be recorded, it considers such agreement, compromise or satisfaction to be illegal or unfair and inequitable.

(3) No decree shall be passed in accordance with any agreement or compromise which contravenes the provisions of section 29.

(4) A decree passed in accordance with any lawful agreement, compromise or satisfaction shall be final so far as it relates to so much of the subject-matter of the suit as is dealt with by such agreement, compromise or satisfaction.

“147B. In all areas in which a record-of-rights has been prepared and finally published under sub-section (2) of section 103A, a Civil Court shall, in all suits between landlord and tenant as such, have regard to the entries in such record-of-rights referring to the land in dispute which may be produced before it, unless such entries have been proved by evidence to be incorrect, and, when a Civil Court passes a decree at variance with such entries, it shall record its reasons for so doing.”

New clause (bb) in section 148.

31. (1) In section 148 of the said Act, after clause (b), the following shall be inserted, namely:—

“(bb) where the suit is for the rent of land situated within an area in which a record-of-rights has been prepared and published, the plaintiff shall, unless the Court is satisfied that the plaintiff was prevented by any sufficient cause from furnishing such statement, further contain a statement of the rental of the tenancy according to the record-of-rights:

Provided that, if the Court sees fit at any time to require it, a verified or certified copy of, or extract from, the record-of-rights relating to the tenancy shall be produced by the plaintiff, or shall, if necessary, on the requisition of the Court, be supplied by the Collector without payment of fee:”.

(2) After clause (f) of the same section, the following shall be inserted, namely:—

“(f) where any account-books, rent-rolls, or collection or measurement papers have been produced by a landlord in any Court in a suit pending therein, copies of, or extracts from, such documents, which have been certified by a duly authorized officer of such Court to be true copies or extracts, may be admitted in evidence in proof of the originals in any other suit instituted in the same or another Court, unless the Court in which such copies or extracts are produced sees fit to require the production of the originals:”.

Amendment of section 153.

32. (1) Section 153 of the said Act shall be re-numbered section 153, sub-section (1).

(2) To section 153 the following shall be added, namely:—

“(2) Where, in a suit instituted by a landlord for the recovery of rent, no appeal lies under this section, no appeal shall lie from any order passed in execution of the decree in such suit.”

The Bengal Tenancy (Amendment) Bill, 1906.

(Clauses 33, 34.)

New section 158A.

33. After section 158 of the said Act the following shall be inserted, namely :—

“Summary Procedure for the Recovery of Rents under the Public Demands Recovery Act, 1895.” Ben. Act I of 1895.

“158A. (1) Any landlord whose land is situate in an area in which a record-of-rights has been prepared and published, and in which such record is periodically revised, [*cf.* Bom. Act V of 1879, ss. 86, 88.]
Recovery of arrears by application of procedure prescribed in the Public Demands Recovery Act, 1895, in certain areas.

may apply to the Local Government, through the Collector of the district in which his land is situate, for the application of the procedure prescribed by the Public Demands Recovery Act, 1895 [as amended by the Bengal Public Demands Recovery (Amendment) Act, 1897], to the recovery of the arrears of rent which he alleges are due to him for lands in such area. Ben. Act I of 1895.
Ben. Act I of 1897.

(2) The Local Government may refuse to allow the landlord's application, or may allow it subject to such terms and conditions as it may see fit to impose, and may at any time add to or vary those terms and conditions, or withdraw its allowance of the application, without, in any of these cases, assigning any reason for its action.

(3) When any such application has been allowed, such Revenue Officer as may be appointed for the purpose may,

after inquiry and after inspection of the landlord's rent-rolls, accounts and collection papers, in accordance with such rules as the Local Government may prescribe in this behalf under this Act,

issue certificates for the recovery of the arrears alleged to be due in the Form prescribed therefor, and any such certificate shall, as regards the remedies for enforcing the same and so far only, have the force and effect of a decree of a Civil Court.

(4) The following provisions of the Public Demands Recovery Act, 1895 [as amended by the Bengal Public Demands Recovery (Amendment) Act, 1897] shall, so far as they are applicable, apply to all certificates for the recovery of rent issued under sub-section (3), namely :— Ben. Act I of 1895.
Ben. Act I of 1897.

‘the proviso to sub section (1) of section 7, and sections 10 to 17 (both inclusive), 19 to 22 (both inclusive), 23, 25, 26, and 29 to 33 (both inclusive).’

(5) No landlord shall institute a suit in a Civil Court for the recovery of any arrears of rent in respect of which he has applied for the issue of a certificate;

and no tenant, after the issue of any certificate against him, shall institute a suit in, or apply to, a Civil Court for the alteration of the rent payable by him, or the determination of his status as a tenant, in respect of the period during which the arrears of rent for which such certificate has been issued against him has accrued.”

New section 158B.

34. In Chapter XLV of the Bengal Tenancy Act, 1885, immediately before section 159, the following shall be inserted, namely :— VI I of 1885.

“158 B. (1) Where a tenure or holding is sold in execution of a decree for arrears due in respect thereof, or of a decree for damages under section 68A, the tenure or holding shall pass to the purchaser, provided that the decree in execution of which it has been sold has been obtained by—

Passing of tenure or holding sold in execution of decree.

- (a) a sole landlord; or
- (b) the entire body of landlords; or
- (c) one or more co-sharer landlords, who has, or have, sued for the rent due to all the co-sharers in respect of the whole tenure or holding and made all the remaining co-sharers parties defendant to the suit.

The Bengal Tenancy (Amendment) Bill, 1906.

(Clauses 35-39.)

(2) On one or more co-sharer landlords, who has, or have, sued for the rent due to all the co-sharers in respect of the whole tenure or holding and made the remaining co-sharers parties defendant to the suit, applying for the execution of the decree by the sale of the tenure or holding, the Court shall, before proceeding to sell the tenure or holding, give notice to the other co-sharers."

Amendment of sub-section (1) of section 169 and addition of proviso.

35. (1) In clause (c) of sub-section (1) of section 169 of the said Act, after the words "the date of" the words "the confirmation of" shall be inserted.

(2) To the said sub-section the following proviso shall be added, namely:—

"Provided that, where a tenure or holding has been sold in execution of a decree obtained by one or more co-sharer landlords, who has, or have, sued for rent due to all the co-sharers in respect of the whole tenure or holding and made all the remaining co-sharers parties defendant to the suit,—

(i) payment of the amount due under such decree shall, notwithstanding anything contained in clause (b), be made to the decree-holder and to the other co-sharer landlords in proportion to the amount found due to each, and,

(ii) if there remains a balance, payment of any rent which may have fallen due in respect of the tenure or holding between the institution of the suit and the date of the confirmation of the sale shall, notwithstanding anything contained in clause (c), but subject to the determination, in the manner and with the effect mentioned in sub-section (2), of any dispute as to their respective rights to receive such rent, be made to the said decree-holder and the other co-sharer landlords in proportion to their respective shares in the tenure or holding;" .

Amendment of section 170.

36. In section 170 of the said Act, after the words and brackets "(both inclusive)," the word, figures and letter "and 310A" shall be inserted.

Amendment of section 174.

37. To the proviso to sub-section (2) of section 174 of the said Act, the following shall be added, namely:—

"and if he applies under this section, he shall not be entitled to make an application under section 311 of the Code of Civil Procedure."

XIV of 188

Amendment of sub-section (3) of section 178.

38. (1) In clause (g) of sub-section (3) of section 178 of the Bengal Tenancy Act, 1885, for the figures "40" the figures "40 and 71A" shall be substituted.

VIII of 1882

(2) In proviso (iii) to the same sub-section, after the words "cultivation of" the words "horticultural or" shall be inserted.

New section 183A.

39. After section 183 of the said Act the following shall be inserted, namely:—

"183A. (1) Notwithstanding anything contained in this Act, every suit instituted by one or more joint landlords, whose share of the rent of a tenure or holding is collected separately, for the recovery of the arrears of such share, shall be subject to the provisions of sections 143 to 153 (both inclusive), 168, 169, 184 and 185.

(2) A decree obtained in any such suit may, subject to the provisions of section 158B, be executed in the manner prescribed in the Code of Civil Procedure for the execution of a decree directing a party to pay money, and no other provision of Chapter XIV of this Act shall apply to any such decree."

XIV of 1882

The Bengal Tenancy (Amendment) Bill, 1906.

(Clauses 40-43.)

New clauses (2) and
(3) in section 189.

40. For sub-section (2) of section 189 of the Bengal Tenancy Act, 1885, the following shall be substituted, namely:—

“(2) to prescribe forms and the mode of service of notices under this Act where no form or mode is prescribed by this or any other Act ;

(3) to prescribe the authority by which the fees deposited under sections 12, 13, 15, 17 and 18, clause (a), may be declared to be forfeited, and the mode in which such fees when so forfeited shall be dealt with.”

Amendment of section 191.

41. In section 191 of the said Act, for the words “has never been” the words “is not” shall be substituted.

Amendment of section 192.

42. In section 192 of the said Act, before the words “fix a fair and equitable rent” the words “or of his own motion” shall be inserted.

Amendment of Schedule III.

43. In Schedule III to the said Act,—

(1) After Article 1 the following shall be inserted, namely:—

1(a) To eject a non-occupancy raiyat on the ground of the expiration of the term of his lease.	Six months	...	The expiration of the term.
--	------------	-----	-----------------------------

(2) In Article 3, for the words “an occupancy raiyat” the words “a raiyat or an under-raiyat” shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

THE objects of this Bill are—

- (1) while, on the one hand, giving landlords greater facilities for the collection of their rents yet, on the other, to discourage their evading the provisions of the Bengal Tenancy Act, 1885, with regard to the enhancement of rent by entering into unfair, inequitable and collusive compromises with their tenants;
- (2) to give greater authority to the record-of-rights, when such record has been duly prepared and published;
- (3) to give power to Government to distinguish between good and bad landlords, and to take steps in the case of the latter for the reduction of rents, when they appear to have been so unduly enhanced as to be oppressive to the cultivators of the soil, and
- (4) to revise the Bengal Tenancy Act, 1885, to the extent of removing such defects in it as the working of the Act during the past twenty years has brought to light, and such ambiguities and anomalies as have given rise to conflict of opinion and judicial decision.

An explanation of the provisions of the Bill is given in the subjoined *Notes on Clauses*.

NOTES ON CLAUSES.

Clause 2.—Section 40, though repealed is reproduced in an amended form as section 71A.

Experience has shown that the necessity to serve a notice to quit on a non-occupancy raiyat holding under a lease is often overlooked by the landlord, and that, even when served, the landlord has no means of proving service. It is therefore proposed to dispense with the notice by repeal of section 45, at the same time transferring the provision as to limitation for a suit for ejectment of a non-occupancy raiyat to Schedule III of the Act.

Clause 3.—In the ruling of the High Court, reported in I. L. R., 27 Cal., 202, it has been held that occupancy rights may accrue in those areas which have been included within the Town of Calcutta, subsequent to the passing of the Bengal Tenancy Act, 1885. It is undesirable that the Act should have any application to the Town of Calcutta, as it is now constituted, or as it may hereafter be constituted under any future extension or modification of its boundaries. The proposed Explanation to section 1 (3) of the Act will remove any doubts on the subject. The amendment projected in clause 7 of the Bill will prevent rights of occupancy already acquired, or acquired prior to a future extension of the Act, being affected.

Clause 4.—The object of this clause is so to widen the definition of rent as to make it clear that rent includes interest on arrears and cesses. Tenures and holdings can, under the existing law, only be sold free of incumbrances for arrears of rent, and, under the present definition and the High Court's ruling in *Kailash Chandra Dey versus Tarak Nath Mandal* (I. L. R., 25 Cal., 571), interest is not rent. It is apprehended that this ruling may give rise to difficulties in practice. A landlord's claim in a rent-suit almost invariably includes cesses and interest on arrears. It is to the interest of landlords and tenants alike that the law regarding the recovery of arrears of rent should be as simple as possible, and that rent, interest and cesses, lawfully due, should be recoverable by a single proceeding.

Clauses 5 and 6.—The working of sections 12 to 17 of the present Act, relating to the transfer of permanent tenures, is not satisfactory. They induce tenants to register transfers of tenures which are not really permanent, in the hope that the acceptance of the fee by the landlord will operate as an admission of the permanence and transferability of the tenure. The landlords, on the other hand, are reluctant to accept the fees, and the result is that a very large amount of unclaimed fees has accumulated in different districts in the province. This state of things is not only a source of embarrassment to Government, but also creates doubts and difficulties in regard to the position of the transferees of tenures. It is hoped that the amendments now proposed will overcome the reluctance of landlords to accept the fees in the case of tenures which are really permanent, and that tenants will be deterred thereby from registering transfers of tenures which are not of this character.

The same considerations apply to the transfer of, and succession to, holdings at fixed rents or rates of rent, and under section 18 (a) of the Act, these are governed by the same conditions. Clauses 5 and 6 have been so framed as to make the proposed amendments applicable to the case of holdings at fixed rents or rates of rent.

There is no provision in the Act for the disposal of unclaimed fees. As these have accumulated, and in order to expedite claims to fees due, thus freeing the district establishments from much extra work, it is proposed that the Government should have power to deal with them in such manner as it thinks fit.

Clause 7.—The necessity for the amendment of section 13 is explained in the note to clause 3, *supra*.

Clause 8.—The object of this amendment of section 22 is to counteract the ruling of the High Court in *Zuwadul Huq's case* (I. L. R., 24 Cal., 143) and the Full Bench ruling in

Ram Mohan Pal *versus* Sheikh Kachhu (I. L. R., 32 Cal., 386). These decisions lay down a rule opposed to the policy of the authors of Act VIII of 1885, which was to discourage the acquisition of occupancy holdings by landlords.

Clause 9.—This clause is consequential upon clauses 2 and 15.

Clause 10.—It seems fair that an occupancy raiyat should be allowed to apply for reduction of rent on the ground that his rent is above the prevailing rates. The proposed addition to section 38 will enable him to do so. It is inadvisable, however, that raiyats should be allowed to institute suits on such a ground, in cases where their rents have been fixed or settled by a Revenue-officer under Chapter X of the Act, or by a lawful contract or a decree of Court. The proviso has been framed for this purpose.

Clause 11.—The law, as it stands at present, contains no provision for the proof of excess area, otherwise than by evidence of its specific existence in each case, and the decisions of the Courts have not always been in accordance with the intentions of the framers of the Amendment Act of 1898, who, by adding sub-section (5) to section 52, by implication suggested that excess area may be assessed to rent, even if the landlord is unable to indicate any particular land as held in excess. The proposed modification of section 52 will allow the custom of settlement on measurement to be taken as a presumption that the area of a tenure or holding mentioned in the landlord's papers has been ascertained by actual measurement, and thus make it easier for the landlords to prove the existence of excess area.

Clause 12.—The provisions of the Tenancy Act regarding the issue of proper rent receipts by landlords are very generally disregarded in certain parts of the Province. It is considered necessary to take more active measures to enforce them. At present the provisions of section 58 can only be set in motion on the complaint of the tenant and are practically inoperative. It is proposed, therefore, to give the Collector power to take action on reports received from Revenue or Judicial officers, who will be required to bring to the Collector's notice any breaches of the law which come to their knowledge. The power to require payment of compensation to the landlord will, it is hoped, to a large extent debar the bringing of false and vexatious complaints. In cases where the complaint is substantiated, the Collector should be empowered to award compensation to the tenant on the same scale as is provided in section 58 (1) and (2), and where compensation is so awarded by the Collector, the tenant should not be allowed to sue the landlord in the Civil Court for any penalty. It is inadvisable that tenants should be able to obtain damages in two different Courts; the amendments proposed will be sufficient to safeguard their rights and to secure obedience to the law.

Clause 13.—One of the main objects of the Bill is to give landlords greater facilities for collecting their rents. It is to a great extent owing to *mulâ fide* denials of the landlord's title that ordinary rent-suits have in so many cases become complicated and protracted title suits. The proposed new section 68A will, it is hoped, be very effectual in preventing tenants from attempting to evade payment by the setting up of false titles, while at the same time protecting those who may have acted *bonâ fide*.

Clause 14.—The proposed addition to section 69 will prevent the powers of distraint at present enjoyed by landlords being rendered ineffectual. It is a common device of the tenants, as soon as the landlord applies to the Civil Court for distraint of their crops, to apply to the Collector for orders of appraisal under section 69. The Collector then prohibits the removal of the crops; so the landlords cannot prosecute their applications to distraint. The new sub-section is intended to defeat such devices.

Clause 15.—This clause transfers the provisions regarding the commutation of produce rents to a more appropriate place in the Act, and reproduces the present section 40 with certain modifications. Under section 40, only occupancy raiyats are allowed to apply for commutation. It seems reasonable that the same privilege should be conferred on all classes of raiyats. Under section 40 (2) the application may be made "to an officer making a settlement of rents under Chapter X." This phrase has given rise to difficulties in practice, as where a settlement of land revenue is not being or is not about to be made, settlement of rents does not take place until after final publication. It is therefore proposed to modify the sub-section with the object of allowing applications for commutation to be filed before any officer making a survey and record-of-rights under Chapter X.

Clause 16.—The ruling reported in I. L. R. 25 Cal., 531, has given rise to doubts as to the circumstances, in which consent to the division of a tenure or holding, or distribution of the rent payable in respect thereof, may be inferred from the conduct of the landlord. The amendment will make it clear that the landlord is only bound by an express consent in writing given by himself or a duly authorised agent. The ordinary practice, however, is for the landlord to signify his consent to the division of a tenure or holding and distribution of the rent payable, by making the necessary alteration in his rent-roll, and it is accordingly provided that where such an alteration has been made, it may be presumed that the landlord has given his express consent to the division.

Clause 17.—The words "a large proportion of the landlords or of the tenants" in section 101 (2) (a) are vague and have given rise to differences of interpretation. It is desirable that the proportion of landlords or tenants, who may apply for a survey and record-of-rights, should be more clearly defined; one-fourth has been adopted as a reasonable proportion. It is always open to the Government to grant or refuse such an application if it should think fit, and the Government has also the full discretion in regard to the apportionment of the costs of the operations under section 114. In the case of co-sharer landlords, either a fourth of the

total number, or a co-sharer or co-sharers representing a fourth of the total interests, should be permitted to apply. There is sometimes difficulty in getting co-sharers to join in such applications, and it is thought equitable that a considerable minority, such as one-fourth should be permitted to submit an application for the consideration of the Government.

The addition to section 101 (2) (c) made by the clause will enable a survey and record-of-rights to be made in the case of an estate placed under a Manager appointed by the District Judge under section 95. The proper management of such estates will often be greatly facilitated by survey and the preparation of a record-of-rights. It seems reasonable that they should be placed on the same footing as estates taken over by the Court of Wards.

It has been held that *Explanation 1* to section 101 (2) (d), read with section 104 (a), renders it necessary to settle fair and equitable rents for tenants of every class, whenever a survey and record-of-rights is made in respect of a Government estate or tenure. This course is ordinarily adopted, but it is sometimes found inconvenient. The addition to the explanation therefore provides that it shall not be necessary to settle the rents of tenants of every class in a Government estate or tenure, when it does not appear to the Government to be expedient to do so.

Clause 18.—It has been the practice in most surveys and records-of-rights made within recent years to include among the particulars entered in the record-of-rights, a record of the rights and obligations of landlords and tenants with regard to the use of water for agricultural purposes. Conflicting opinions have been given by the legal advisers of the Government, as to whether such a record can be made under the present section 102. Such records have been found useful in areas in which irrigation is a matter of importance; this clause therefore, is intended to authorize the making of such records in future, and also to place beyond doubt the validity of those which have already been made.

Clause 19.—The object of this clause is to give the Local Government power to make a record of the rights and obligations of landlord and tenant in regard to the use of water for agricultural purposes, independently of a general record-of-rights under section 101, when such a course appears necessary for the purpose of settling or averting disputes.

Clause 20.—This clause modifies the present section 103B, with the object of defining more clearly the weight to be attached to the entries in a finally published record-of-rights and to facilitate the proof of final publication. At present, difficulties are sometimes raised in the Appellate Courts owing to the certificate of final publication not having been produced in the Original Court, because the due publication of the record was not disputed there. There may also be difficulty in furnishing the necessary certificate, if it is called for, after the settlement operations have been concluded and the Revenue Officer has left the district. It is therefore proposed that the record-of-rights shall be presumed to have been finally published, unless this is expressly denied, and that a certificate signed by the Revenue Officer or by the Collector of the district, stating that the record-of-rights has been finally published, shall be conclusive evidence of such publication. It is also proposed to make the provisions of the section applicable to all suits and proceedings in which the record-of-rights may be produced.

Sub-section (2) of the proposed new section 103B, will abrogate the necessity of producing a certificate regarding the final publication in every case in which there is a dispute.

Clause 21.—The amendment cures a defect in the wording of the heading of the Part, which does not deal with the decision of disputes.

Clause 22.—In settling rents under section 105 the existing rent, which, under section 105(4), is presumed to be fair and equitable, should be taken as the starting point; but frequently, owing to disputes between landlord and tenant, it is impossible to ascertain the existing rent. It is therefore desirable that a Settlement Officer acting under section 105 should have authority to fix rents in accordance with a table of rates, such as may be used in proceedings under section 104A, in cases where such a course is practicable and expedient.

Clause 23.—This clause is intended to rectify what was apparently an oversight in the Amendment Act of 1898. Under section 107 (2), the Revenue Officer is required to make in the record-of-rights a note of all rents settled under section 105 and of all decisions of disputes under section 106, and this note is declared to be a part of the record. There is no corresponding provision as to the entry of orders passed regarding such rents or disputes, or revision under section 108, or on appeal under section 109A. It is clearly advisable that a note of such revisional or appellate orders should be made in the record, in order to make the record complete. The clause provides for this being done. As appeals are frequently not decided till after the Settlement Officer has left the district, the proposed section abstains from prescribing by what officer the note of the revisional or appellate decision shall be made. The Government or the Board of Revenue will have power to prescribe this by rules made under the Act or by executive order.

Clause 24.—The object of this clause is to empower Revenue Officers making a record-of-rights under Chapter X to refrain from giving effect to illegal and inequitable compromises, and to make it obligatory on them to disregard compromises regarding the enhancement of rents by contract between landlord and tenant, if they contravene the provisions of section 29 of the Act. A large number of illegal and inequitable compromises regarding rent, status and other matters have been filed in the course of the settlement operations now being carried on throughout the Province, and Government has declared that it cannot consent to Revenue Officers being compelled to give effect to them in framing the record-of-rights. The necessity for adopting some such provision has been forced upon the Government by the action of certain zamindars.

Clause 25.—This clause is intended to give effect to one of the main objects of the Bill, viz., to enable Government to take steps to reduce rents, in cases where these have been illegally enhanced, so as to be oppressive to the cultivators of the soil. It is possible that the Government has power to take such action under section 112, as it stands at present, but that section was incorporated in the Tenancy Act under a guarantee that it would be used only in cases of agrarian disturbance. Experience has shown, however, that certain landlords have been able to force illegal and oppressive rents on their tenantry, without creating any immediate agrarian disturbance. In such cases the Government proposes in future, to take action to reduce the excessive rents before any actual disturbance arises.

Clause 26.—This clause is consequential upon the amendment proposed in sub-section (1) of section 33.

Clause 27.—When a survey and record-of-rights are undertaken on the application of landlords and tenants, the costs are usually met in the first instance from deposits made by the applicants, and not from Government funds. In such cases, it is often equitable to recover a share of the expenses from the other landlords and tenants concerned, who also benefit by the preparation of the record-of-rights. The proposed omission will make clear the legality of this course.

In the course of survey and settlement operations, permanent boundary marks are erected at all points where the boundaries of three villages meet. Arrangements are made for the repair and restoration of these marks from time to time as may be necessary, after the completion of the original survey proceedings. Such marks, if properly maintained, are of great utility in preventing boundary disputes from arising, and are, in fact, a valuable adjunct to the record-of-rights. It is therefore proposed to take power to recover in advance the estimated cost of the maintenance, repair and restoration of these boundary marks for a period of fifteen years together with the cost of the preparation of the record-of-rights. The cost of maintaining the boundary marks for fifteen years will be an insignificant addition to the cost of the preparation of the record-of-rights, and it will be more convenient both to the Government and to the landlords and tenants to collect both sums simultaneously, than to have a separate proceeding for the recovery of the cost of maintenance of boundary marks. The period of fifteen years has been fixed, because this is the time for which the rents of tenures and occupancy holdings settled under Chapter X have effect under section 113.

After the preparation of a record of rights, it is usual to distribute copies of it, together with copies of the village maps to the landlords and tenants. No proceedings under Chapter X can be considered complete without this. In order to remove all doubt, it is proposed to provide that the cost of the preparation of these copies shall be deemed to be part of the expenses incurred in carrying out the provisions of the Chapter.

Clauses 28 and 29.—These clauses are intended to bar the accrual of occupancy and non-occupancy rights in lands acquired under the Land Acquisition Act, 1894, and the Cantonments Act, 1889, so long as they are the property of the Government or the local body or Railway Company for which they were acquired. It often happens that such lands are temporarily not required by the Government or the local body or Railway Company, but under the present law, if they are temporarily sublet to agricultural tenants, occupancy and non-occupancy rights accrue, and these have to be reacquired on payment of compensation, when the lands are again required for public purposes. This consideration often deters the Government, local bodies and Railway Companies from temporarily subletting such lands, where this course might be followed with advantage. In either case, whether the lands are temporarily sublet (the occupancy and non-occupancy rights being subsequently reacquired, when the land is again required for public purposes), or whether the lands are allowed to remain unlet from fear of this contingency, an unnecessary waste of public money occurs, and it is justifiable on this account to apply these special provisions to such lands.

Clause 30.—The proposed section 147A is intended to give to Civil Courts the same power to disregard illegal and inequitable compromises regarding rent and other matters in suits between landlord and tenant as such, as it is proposed to confer by clause 24 upon Revenue officers engaged in the preparation of the record-of-rights. Section 375 of the Code of Civil Procedure governs compromises filed in suits under the present law, and there is reason to believe that decrees have been passed giving effect to compromises containing illegal and inequitable provisions, and in particular that the provisions of section 29 regarding the limits of enhancement of rent by contract between landlord and tenant have frequently been nullified in this way. The addition to the law, which is now proposed, will enable the Civil Courts to refrain from giving effect to any compromise which is illegal, unfair or inequitable, and will make it obligatory on the Courts to refuse to give effect to any compromise which contravenes the provisions of section 29.

The proposed section 147B is intended to define more clearly the force to be attached to entries in the record-of-rights in proceedings and suits between landlord and tenant as such. Under the present Act, (section 103B), such entries are presumed to be correct until the contrary is proved. But cases have occurred which indicate that it is doubtful whether the Courts pay sufficient attention to this presumption. It is proposed therefore to provide that the Courts shall have regard to the entries in the record-of-rights, unless such entries have been proved by evidence to be incorrect, and that when a Court passes a decree at variance with such entries, it shall record its reasons for so doing.

Clause 31.—A large proportion of suits for arrears of rent are decided *ex parte* owing to the absence of the defendant raiyat. It is believed that in such cases it is the practice

of the Civil Courts to pass a decree in accordance with the landlord's claim, without any reference to the entry in the record-of-rights of the rent payable. It is generally recognised that it is desirable that the Court should have regard to the entry of rent in the record-of-rights in all suits for arrears of rent. Various expedients have been suggested for giving effect to this. It is intended to require the landlord to include in the plaint a statement of the rental of the tenancy according to the record-of-rights, and to give the Court power, when it thinks necessary, to procure from the Collector's office a verified or certified copy of, or extract from, the record-of-rights relating to the tenancy, without payment of any fee. This will save landlords the trouble and expense of procuring certified copies for themselves.

Much inconvenience is caused to landlords, owing to their original rent-rolls, collection and measurement papers and account books having to be simultaneously filed in Court in different suits for the recovery of arrears of rent. The new clause (ff) provides that, when the originals have been once produced in Court in any suit, the landlord may be permitted to file certified copies or extracts in subsequent suits.

Clause 32.—The ruling reported in I. L. R., 32 Calo., 957, lays down that there may be a second appeal in an execution proceeding in a suit for the recovery of rent, even when there is no such right of appeal in the original suit. It is undesirable that execution proceedings should be protracted in this way, and the object of the clause is to limit the right of appeal in an execution proceeding to that provided for the original suit.

Clause 33.—The provision of a summary procedure for the recovery of rents has for many years been urged upon the Government by landholders. The delay and expense caused by the present system are admitted, but hitherto no scheme, which has been put forward, has commended itself. The fact that records-of-rights have now been prepared for large areas in the province justifies a reconsideration of the matter. Where a record-of-rights has been prepared and is periodically revised or maintained, the annual demand due from each individual raiyat is accurately known. The only question at issue in a rent suit will be the amount due from the raiyat for the period for which rent is claimed in the suit. If the landlord's accounts and collection papers are properly maintained, and if proper rent-receipts in foil and counterfoil are habitually kept and given as required by law, this will, in the great majority of cases, be an easy matter to determine. It is therefore proposed that in areas in which a record-of-rights has been prepared and published and is periodically revised, the Local Government should take power to allow the recovery of arrears of rent by the application of the procedure prescribed by the Public Demands Recovery Act, 1895, in the case of those landlords to whom, in the opinion of the Government, this privilege may safely be conceded. It is further proposed that the issue of certificates should be entrusted to a Revenue Officer, who shall have power to inspect the landlord's rent-rolls, accounts and collection papers, and to compare the receipts given to the raiyats with the counterparts kept by the zamindar, and to test their agreement with entries in the accounts. The conditions under which the summary procedure may be applied will thus resemble those under which it is extended to Government estates and estates under the Court of Wards, for the demand of each individual raiyat will be accurately known and the landlord's accounts and collection papers will be subject to inspection by a Government officer. If it is possible, with safety, to reduce the expense of rent-suits, the results will be beneficial to landlords and tenants alike, and it is expedient, therefore, that a trial should be given to the scheme provided for in the clause subject to the safeguards laid down in sub-section (2) of the projected new section 158 A.

Clause 34.—Under the present law, considerable difficulty in realizing rents is often experienced by co-sharer landlords, who make rent collections jointly. A decree for arrears of rent, obtained by a co-sharer for the amount due to him alone, is a mere money decree (8 C. W. N., 472) and the tenure or holding, in respect of which the arrears are due, does not pass to the purchaser in a sale for the execution of such a decree (I. L. R., 29 Calo., 219) unless he can get himself recognised by the other co-sharers. Decrees for arrears of rent obtained by single co-sharers, are therefore often of little value, and the system is further objectionable, in that it exposes the tenant to the trouble of several successive suits brought by different co-sharer landlords. Considering that the majority of estates in the province are held by co-sharer landlords, it seems necessary to provide a remedy for the present state of things. As it is often impossible to get all the landlords to join in a suit for arrears of rent, a single co-sharer should be empowered to sue for the rent due to all the co-sharers, and that the tenure or holding should pass in execution of a decree obtained in such a suit, provided that the other co-sharers have been made parties.

Clause 35.—As the law now stands, the decree-holder is, under section 169 of the Bengal Tenancy Act, entitled to the rent up to the date of the sale, while, under section 316 of the Civil Procedure Code, the title does not vest in the purchaser until the date of the confirmation of the sale. The proposed amendment will bring the sections into conformity.

The proviso is necessary for the carrying out of the object of the preceding clause. Each co-sharer will get his share of the proceeds of the sale in proportion to his interest and the amount of rent due to him.

Clause 36.—It has been held by the High Court that the provisions of section 310A of the Code of Civil Procedure apply to sales in execution of rent decrees. This enables persons other than the judgment-debtor to apply to have such sales set aside. It is undesirable that proceedings between landlord and tenant, relating to the recovery of rent, should be protracted

by the intervention of third parties, and it is accordingly proposed that section 310A of the Code of Civil Procedure shall not apply to a tenure or holding attached in execution of a decree for arrears of rent.

Clause 37.—Under section 174, as at present framed, there is nothing to prevent a tenant from applying to have a sale set aside, by paying the decretal amount, and subsequently claiming, under section 311 of the Code of Civil Procedure, that the sale was invalid. It is clearly inequitable that the tenant should be allowed to have recourse to a double procedure in applying to have a sale set aside, and the proposed addition to section 174 will prevent this.

Clause 38.—The proposed amendment in clause (g) of section 178 is merely consequential upon clauses 2 and 15 of the Bill. It seems reasonable that proviso (iii) to section 178 should be extended to horticultural land, temporarily let out for the cultivation of ordinary crops. If a tenant is given a temporary lease of such lands, he should not be allowed to retain them after the expiry of the lease, on the plea that occupancy rights have accrued.

Clause 39.—The object of this clause is to counteract the effect of several rulings of the High Court, two of which are cited above in the note on clause 34, as to the nature of suits brought by co-sharer landlords for arrears of rent and as to the effect of decrees obtained in such suits. Their result is that—

- (1) suits in which co-sharer landlords sue for rent are not rent suits, but money suits;
- (2) the provisions of section 148 do not apply to them;
- (3) evidence in such suits cannot be recorded summarily;
- (4) a second appeal lies in them, while an appeal is barred in the case of a decree obtained by a sole landlord;
- (5) co-sharer landlords cannot sue for four years' rent as sole landlords can, under article 2 (b), Schedule III of the Act, and
- (6) decrees obtained in suits by co-sharer landlords can be executed within twelve years, instead of within three, as in the case of ordinary rent decrees.

Such results are anomalous and inconvenient, and the clause, the introduction of which has been recommended by the High Court, will have the effect of removing them.

Clause 40.—The object of this clause is to rectify an omission in the present Act, by giving the Government power to prescribe forms for use under the Act. It will also enable the Government to frame rules for dealing with forfeited fees.

Clause 41.—The object of this clause is to extend the provisions of section 191 to estates, which though originally permanently settled, have fallen into the hands of Government by escheat or otherwise, and have been let out on a temporary settlement. It has been held that such estates are excluded from the provisions of the section, as at present worded.

Clause 42.—This clause is intended to enable the Revenue Officer, in cases where a settlement of land revenue is being made, to fix a fair and equitable rent of his own motion for all lands, in respect of which the settlement of land revenue is being made. It sometimes happens that temporary settlement-holders, in the course of a settlement, fraudulently create fictitious rent-free holdings or holdings at low rates of rent, with the object of reducing the value of the estate and getting the revenue lowered. The revenue demand is fixed on a fair valuation of the lands of the estate, but unless fair and equitable rents are fixed, the settlement-holder may be unable to meet the demand, and the Government revenue may be endangered. It is considered necessary, therefore, that the Revenue Officer should have power to settle fair and equitable rents of his own motion, in cases where the settlement-holder has collusively lowered the rental demand, with the object of preventing a new settlement being made on a fair revenue.

Clause 43.—This clause gives effect to the provisions of clause 2, so far as they amend section 45, and removes the anomaly now existing (see I. L. R., 17 Calc., 930) as regards limitation between suits brought by an occupancy and a non-occupancy raiyat to recover possession of land from which they have been dispossessed by, or with the connivance of, their landlords. At present the former has two, and the latter twelve years within which to bring such a suit. It is proposed that the limit of two years should apply to both.

There is no reason why the period of limitation for the recovery of possession of land by an under-raiyat should not be the same as that provided in article 3 in the case of a raiyat, viz., two years from the date of dispossession. At present the period of limitation in the case of an under-raiyat is twelve years. The amendment proposed will place both raiyats and under-raiyats on the same footing.

R. W. CARLYLE.

**THE BENGAL LOCAL SELF-GOVERNMENT
(AMENDMENT) BILL, 1906.**

A.

BILL*to amend the Bengal Local Self-Government Act of 1885.***CONTENTS.****PREAMBLE.****CLAUSE.**

1. Short title and extent.
2. Repeal of portions of Bengal Act III of 1885.
3. Addition to section 5.
4. Amendment of sections 7, 11 and 15
5. New section 10—
 10. Power to appoint members of District or Local Board, if prescribed proportion not duly elected.
6. Amendment of section 17.
7. New section 18A—
 - 18A. Power of Commissioner to remove members.
8. New sections 19 and 19A—
 19. Filling of casual vacancies.
 - 19A. Term of office of member of District Board or Local Board.
9. Amendment of section 22.
10. New section 23A—
 - 23A. Appointment of Chairman or Vice-Chairman of District Board on failure to elect.
11. Amendment of section 25.
12. New sections 26 and 26A—
 26. Vice-Chairman of Local Board.
 - 26A. Leave of absence to Chairman or Vice-Chairman of District or Local Board.
13. Amendment of section 27.
14. New sections 29 and 29A—
 29. Casual vacancies in office of Chairman or of Vice-Chairman of District or Local Board
 - 29A. Term of office of Chairman and Vice-Chairman.
15. Amendment of section 32.
16. Amendment of section 33.
17. New section 35—
 35. Pensions and gratuities to be paid out of the District Fund
18. New section 35A—
 - 35A. Provident Fund.
19. Amendment of section 36.
20. New section 41A—
 - 41A. Chairman of Union Committee.

CLAUSE.

1. Amendment of section 44.
22. New sections 46A to 46F—
 - 46A. Power to impose a rate to meet payments due in respect of a railway or tramway.
 - 46B. Amount of such rate.
 - 46C. Assessment, payment and recovery of such rate.
 - 46D. Power to exempt lands from payment of such rate.
 - 46E. Application of proceeds of such rate.
 - 46F. Cessation of levy of rate when required sum collected.
23. Addition to section 48.
24. Addition to section 50.
25. Amendment of section 52.
26. Amendment of section 53.
27. Amendment of section 56.
28. Amendment of section 58.
29. Amendment of section 59.
30. New section 61—
 61. Pounds.
31. Addition to section 63.
32. New section 64A—
 - 64A. Provision, maintenance and management of students' hostels.
33. Amendment of section 65.
34. New sections 65A and 65B—
 - 65A. Site of students' hostels.
 - 65B. Constitution and functions of Education Committees.
35. Addition to section 67.
36. Addition to section 70.
37. Amendment of section 73.
38. New section 78A—
 - 78A. Power to turn, divert, discontinue or close road.
39. Amendment of section 82.
40. Addition to section 86.
41. New heading and new sections 86A to 86L—

D(1) Tolls on Bridges.

 - 86A. Power of District Board to establish toll-bars and levy tolls on bridges.
 - 86B. Lease of toll-bar.
 - 86C. Exemptions.
 - 86D. Rates of tolls.
 - 86E. Table of tolls to be hung up.
 - 86F. Power to compound for tolls.
 - 86G. Power of toll-collector or lessee in case of refusal to pay toll.
 - 86H. Penalty for refusing to pay toll.
 - 86J. Police-officers to assist.
 - 86K. Penalty for taking unauthorized tolls.
 - 86L. District Board to publish expenses, etc., of toll-bars.

CLAUSE.

42. New section 98A—

98A. Power to contribute towards cost of municipal water-supply.

43. Addition to section 99.

44. New section 99A—

99A. Irrigation works for relief of scarcity or famine.

45. Amendment of section 100.

46. Amendment of section 104.

47. Amendment of sections 105 to 107, and 117.

48. Amendment of section 108.

49. Amendment of section 109.

50. Amendment of section 110.

51. New section 111—

111. Pounds.

52. New section 114—

114. Registration of births and deaths.

53. New section 118—

118. Water-supply.

54. New section 119—

119. Power of District Board to subordinate Union Committee to Local Board.

55. Amendment of section 130.

56. Amendment of section 131.

57. Amendment of section 132.

58. New section 133—

133. Disputes between two or more Union Committees when to be referred to District Board or Local Board.

59. Amendment of section 138.

60. Amendment of section 139.

61. Amendment of section 142.

62. Addition to section 144.

63. Amendment of Schedule III.

THE BENGAL LOCAL SELF-GOVERNMENT (AMENDMENT) BILL, 1906.

A

BILL

to amend the Bengal Local Self-Government Act of 1885.

WHEREAS it is expedient to amend the Bengal Local Self-Government Act of 1885 in manner hereinafter appearing ;

Ben. Act III
of 1885.

It is hereby enacted as follows:—

Short title and extent.

1. (1) This Act may be called the Bengal Local Self-Government (Amendment) Act, 1907.

(2) It shall extend to all the territories subject to the Lieutenant-Governor of Bengal in which the Bengal Local Self-Government Act of 1885 is in force.

Repeal of portions of
Bengal Act III of 1885.

2. The following portions of the Bengal Local Self-Government Act of 1885 are hereby repealed, namely:—

Ben. Act III
of 1885.

in section 1, the words “or of the districts of Singhbhum, the Sonthal Parganas or the Chittagong Hill-tracts”;

the proviso in section 6;

section 13;

clause (c) of section 18;

section 24;

the last paragraph of section 25;

section 34;

section 72;

the proviso to section 73, and

in section 103, the words “A Local Board shall exercise powers of supervision and control over all Union Committees within the area under its authority, and”.

Addition to section 5.

3. To section 5 of the said Act, the following shall be added, namely:—

“and ‘sanitation’ includes water-supply.”

Amendment of sections 7, 11 and 15.

4. (1) In section 7 of the said Act, after the figures “22” the words and figures “section 23A or section 29” shall be inserted.

(2) For the words “Lieutenant-Governor,” where they occur in the sixth paragraph of section 7, in section 11, and in the first paragraph of section 15 of the said Act, the word “Commissioner” shall be substituted.

New section 10.

5. For section 10 of the said Act, the following shall be substituted, namely:—

“10. If within the time prescribed by rules made by the Lieutenant-Governor under this Act, the prescribed proportion of elected members of any District Board or Local Board is not duly elected, the Commissioner may appoint members to make up that proportion.”

Power to appoint members of District or Local Board, if prescribed proportion not duly elected.

The Bengal Local Self-Government (Amendment) Bill, 1906.
(Clauses 6-9.)

Amendment of section 17.

6. In section 17 of the said Act, for the words "Lieutenant-Governor" and for the word "Commissioner," in both places in which they respectively occur, the word "Commissioner" and the words "District Board," respectively, shall be substituted.

New section 18A.

7. After section 18 of the said Act, the following shall be inserted, namely:—

"18A. (1) The Commissioner may remove any member of a District Board or Local Board who, without an excuse which the Commissioner considers sufficient, absents himself from six consecutive meetings of the Board. [Cf. Ben. Act III of 1884, s. 20.]

(2) Any member so removed may appeal to the Lieutenant-Governor, whose decision shall be final."

New sections 19 and 19A.

8. For section 19 of the said Act, the following shall be substituted, namely:—

"19. (1) When the place of an elected member of a District Board or Local Board becomes vacant by his resignation, removal or death, a new member shall be elected, in accordance with the rules made by the Lieutenant-Governor under this Act, to fill the place: Filling of casual vacancies.

Provided that if, within the time prescribed by rules made by the Lieutenant-Governor under this Act, no new member is duly elected, the Commissioner may appoint a new member to fill the place.

(2) When the place of an appointed member of a District Board or Local Board becomes vacant as aforesaid, the Commissioner may appoint a new member to fill the place.

(3) No act of any District Board or Local Board, or of its officers, or of the Board in meeting, shall be deemed to be invalid by reason only of the fact that the number of members of the Board, at the time of the performance of the act, was less than the prescribed number.

"19A. (1) A member of a District Board or Local Board who has been appointed by official designation shall, subject to sections 17, 18 and 18A of this Act, and unless the Lieutenant-Governor otherwise directs, continue to be a member of the Board while he continues to hold the office to which such designation refers. [Cf. Ben. Act III of 1885, s. 16 and s. 19, last para.]

(2) A member of a District Board or Local Board who has been elected or appointed under section 19 shall, subject as aforesaid, hold office until the person whose place he fills would regularly have gone out of office, and shall then go out of office.

(3) In cases not provided for by sub-section (1) or sub-section (2) of this section, the term of office of a member of a District Board or Local Board shall be fixed by the Lieutenant-Governor by rules, which may provide for the retirement of members by rotation.

(4) An outgoing member of a District Board or Local Board may, if otherwise qualified, be re-elected or re-appointed."

Amendment of section 22.

9. In section 22 of the said Act, after the word "elected" the words "either by name or by virtue of his office" shall be inserted.

The Bengal Local Self-Government (Amendment) Bill, 1906.
(Clauses 10-14.)

New section 23A.

10. After section 23 of the said Act, the following shall be inserted, namely:—

“23A. If any District Board fails to elect a Chairman or Vice-Chairman within the time prescribed by rules made by the Lieutenant-Governor under this Act, the Lieutenant-Governor may appoint a Chairman or Vice-Chairman, as the case may be.”

Appointment of Chairman or Vice-Chairman of District Board on failure to elect.

Amendment of section 25.

11. In section 25 of the said Act,—

(a) after the word “elected” the words “either by name or by virtue of his office” shall be inserted; and

(b) for the words “Lieutenant-Governor,” in the first, second, fourth and fifth places in which they occur, the word “Commissioner” shall be substituted.

New sections 26 and 26A.

12. For section 26 of the said Act, the following shall be substituted, namely:—

“26. (1) Every Local Board shall, from time to time, within a period prescribed by rules made by the Lieutenant-Governor under this Act, elect one of its members to be Vice-Chairman.

(2) If any Local Board fails to elect a Vice-Chairman within such period, the Commissioner may appoint a Vice-Chairman.

“26A. A District Board or Local Board may grant leave of absence to their Chairman or Vice-Chairman for any period not exceeding three months in any one year.”

Leave of absence to Chairman or Vice-Chairman of District or Local Board.

[Of Ben. Act 111 of 1884, s. 26B.]

Amendment of section 27.

13. In section 27 of the said Act, for the words “to the Lieutenant-Governor, and on such resignation being accepted,” the following shall be substituted, namely:—

“in the case of a Chairman of a District Board, to the Lieutenant-Governor, and, in the case of a Chairman of a Local Board, to the Commissioner; and, on such resignation being accepted by the Lieutenant-Governor or Commissioner, as the case may be”.

New sections 28 and 29A.

14. For section 29 of the said Act, the following shall be substituted, namely:—

“29. (1) If a Chairman of a District Board dies, resigns, is removed, becomes incapable of acting, or avails himself of leave granted under section 26A, the Lieutenant-Governor may appoint a new Chairman, or may direct that, within a period prescribed by rules made by the Lieutenant-Governor under this Act, a new Chairman be elected by the members of the Board from among their own number, subject to his approval.

(2) If a Chairman of a Local Board or a Vice-Chairman of a District Board or Local Board dies, resigns, is removed, becomes incapable of acting, or avails himself of leave granted under section 26A, the Board shall, at a special meeting held for the purpose within a period prescribed by rules made by the Lieutenant-Governor under this Act, elect from among its members a new Chairman or Vice-Chairman, as the case may be.

(3) If any District Board or Local Board fails to elect a new Chairman or Vice-Chairman within the prescribed period, the Lieutenant-Governor (in the case of a District Board) or the Commissioner (in the case of a Local Board) may appoint a new Chairman or Vice-Chairman, as the case may be.

Casual vacancies in office of Chairman or of Vice-Chairman of District or Local Board.

The Bengal Local Self-Government (Amendment) Bill, 1906.

(Clauses 15-17.)

“29A. (1) The term of office of an elected Chairman or Vice-Chairman of a District Board or Local Board, or of an appointed Vice-Chairman of a District Board or Chairman or Vice-Chairman of a Local Board, shall, subject to sections 27 and 28 of this Act, be the residue of his term of office as a member of the Board.

Term of office of Chairman and Vice-Chairman. [Cf. Ben. Act III of 1885, s. 24; s. 25, last para.; s. 26, second para.; and s. 29, third para.]

(2) The term of office of an appointed Chairman of a District Board shall, subject as aforesaid, be one year from the date of his appointment; but he may be re-appointed on the expiration of that term.

(3) Notwithstanding anything contained in sub-section (1) or sub-section (2), the term of office of a Chairman or Vice-Chairman appointed or elected to fill a casual vacancy consequent upon the grant of leave under section 26A shall expire upon the return from leave of the person whose office he was appointed or elected to fill.

[Cf. Ben. Act III of 1884, s. 27.]

(4) Every appointed Chairman of a District Board shall be deemed to be a member of the Board during his term of office.”

Amendment of section 32.

15. In section 32 of the said Act,—

(a) for the words “Every District Board, and every Local Board with the sanction of the District Board,” the following shall be substituted, namely:—

“Any District Board, with the sanction of the Commissioner and subject to the control of the Lieutenant-Governor, and any Local Board, with the sanction of the District Board and of the Commissioner and subject to the control of the Lieutenant-Governor”;

(b) for the words “leave, suspension and removal,” in clause (g), the words “leave, leave allowance and punishment (including suspension and removal)” shall be substituted;

(c) after the words “and may” the words “with the like sanction and subject to the like control” shall be inserted; and

(d) for the concluding paragraph the following shall be substituted, namely:—

“All rules made under this section, and all orders repealing or altering any such rules, shall be published in such manner as the Lieutenant-Governor may direct; and, so far as they are consistent with this Act and with any rules made by the Lieutenant-Governor hereunder, shall, upon such publication, have the force of law.”

Amendment of section 33.

16. In section 33 of the said Act, after the words and figures “under section 30” the following shall be inserted, namely:—

“or by an Education Committee referred to in section 65B.”

New section 65.

17. For section 35 of the said Act, the following shall be substituted, namely:—

“35. A District Board may, from time to time, with the sanction of the Commissioner and subject to the control of the Lieutenant-Governor, make rules for pensions and gratuities to be granted and paid out of the District Fund to its establishment and to the families of deceased employes; and may with the like sanction, and subject to the like control, repeal or alter such rules.”

Pensions and gratuities to be paid out of the District Fund.

The Bengal Local Self-Government (Amendment) Bill, 1906.

(Clauses 18-22.)

New section 35A

18. After section 35 of the said Act, the following shall be inserted, namely:—

“35A. A District Board may, from time to time, with the sanction of the Commissioner and subject to the control of the Lieutenant-Governor, make rules—

[*Or. Hon. Act*
III of 1884, s.
47.]

- (a) for the creation and management of a Provident Fund;
- (b) for compelling members of their establishments to make contributions to such Fund;
- (c) for supplementing such contributions by grants from the District Fund; and
- (d) for the payment of moneys out of such Provident Fund;

and may, with the like sanction and subject to the like control, repeal, add to, or alter such rules.”

Amendment of section 36.

19. In the proviso to section 36 of the said Act, before the words “Local Board” the words “District Board, or ” shall be inserted, and before the word “subordinate,” the words “for the purposes of this section” shall be inserted.

New section 41A.

20. After section 41 of the said Act, the following shall be inserted, namely:—

“41A. Every Union Committee shall, from time to time, elect one of its members to be Chairman of the Committee.”

Chairman of Union
Committee.

Amendment of section 44.

21. In section 44 of the said Act,—

- (a) for the words “the Local Board to which it is subordinate as hereinafter provided,” the words “the District Board or Local Board to which the Committee is, for the purposes of this section, subordinate” shall be substituted, and
- (b) for the words “the Local Board,” the words “the aforesaid District Board or Local Board” shall be substituted.

New sections 46A to 46F.

22. After section 46 of the said Act, the following shall be inserted, namely:—

“46A. If at any time it appears to the Lieutenant-Governor that a District Board is unable—

Power to impose a rate to meet payments due in respect of a railway or tramway.

[*Or. Mad. Act V of 1884, s. 57, cl. (ii), inserted by Mad. Act VI of 1900, s. 47*]

- (a) to make any payment of interest or capital in respect of a loan raised under section 50 for the purpose of constructing and maintaining a railway or tramway under the provisions of section 80, or
- (b) to make any payment guaranteed under section 82 in respect of a railway or tramway,

without effecting such a reduction of its ordinary expenditure as would, in the opinion of the Lieutenant-Governor, prevent the Board from efficiently maintaining the existing communications in the district, or from carrying out any other duty which is imposed on the Board by law or which the Board has undertaken to perform,

the Lieutenant-Governor may, by notification for the purpose of providing the required funds, impose a rate on the annual value of lands as defined in section 4 of the Cess Act, 1880.

[*Or. Ben. Act IX of 1880, s. 6.*]
[*Ben. Act IX of 1880,*]

The Bengal Local Self-Government (Amendment) Bill, 1906.

(Clauses 23-25.)

"46B. The amount of any rate imposed under section 46A for the purpose of making any payment shall be so fixed as to yield approximately no more than the amount required for making that payment, and shall not exceed three pies on every rupee of the annual value of the lands on which the rate is imposed.

"46C. The procedure prescribed by and under the Cess Act, 1880, for the assessment, payment and recovery of road cess and public works cess shall, so far as may be, and subject to the provisions of sections 46A and 46B, apply to the assessment, payment and recovery of any rate imposed under section 46A. Ben. Act IX of 1880.

"46D. The Lieutenant-Governor may, from time to time, by notification exempt all or any lands in any local area from payment of any rate imposed under section 46A.

"46E. The proceeds of any rate imposed under section 46A for the purpose of making any payment shall be utilised solely for the purpose of making that payment.

"46F. Whenever the proceeds of any rate imposed under section 46A are sufficient for making every payment on account of which the rate was imposed, the levy of the rate shall cease."

Addition to section 48.

23. To section 48 of the said Bengal Local Self-Government Act of 1885, the following shall be added, namely:—

Ben. Act III of 1885.

"*Explanation.*—Alterations or modifications may be made or directed by the Commissioner under this section on any of the grounds mentioned in the penultimate paragraph of section 47."

Addition to section 50.

24. To section 50 of the said Act, the following shall be added, namely:—

"Provided that no loan shall be raised for the purpose of constructing and maintaining a railway or tramway under the provisions of section 80, unless—

[Cf the proposed addition to s. 89, post.]

- (a) it is authorized by a resolution which has been passed at a meeting specially convened for the purpose and in favour of which a majority of not less than two-thirds of the members of the District Board have voted, and
- (b) such resolution declares the assent of the said majority to the imposition of a rate under section 46A in the circumstances stated in that section."

Amendment of section 52.

25. (1) For clause (3) of section 52 of the said Act, the following shall be substituted, namely:—

"(3) all sums directed by notification under the Cattle-trespass Act, 1871, section 31, to be placed to the credit of the Fund."

1 of 1871.

(2) After clause (5) of the said section 52, the following shall be inserted, namely:—

"(5a) all receipts accruing within the district from tolls or leases under Part III D (1) of this Act."

(3) After clause (7) of the same section, the following shall be inserted, namely:—

"The proceeds of any rate imposed under section 46A, shall be placed to the credit of the District Fund, under a separate head."

The Bengal Local Self-Government (Amendment) Bill, 1906.

(Clause 26.)

Amendment of section 53.

26. (1) In clause *Fourthly* of section 53 of the said Bengal Local Self-Government Act of 1885, after the figures "35" the following words, figures and letter shall be inserted, namely:— Ben. Act III of 1885.

"and of any grants made for supplementing contributions by members of such establishments to any Provident Fund created under section 35A."

(2) For clause *Fifthly* of the same section, the following shall be substituted, namely:—

"*Fifthly*.—To the payment of—

(a) expenses incurred by the District Board in —

(i) the construction, repair and maintenance of any works which may become vested in, or be placed under the control and administration of, such Board under Part III of this Act;

(ii) the acquisition of land for, and the construction of, offices for the use of the District Board, or a house for the residence of the District Engineer; and

(iii) the performance of duties imposed by this Act; and

(b) any contribution made by the District Board under Part III of this Act; and

(c) any sums assigned by the District Board to a Local Board or Union Committee under this Act."

(3) In clause *Sixthly* of the same section, for the words "of the travelling expenses incurred by members of the District Board in attending meetings of the Board or meetings of a Joint Committee," the following shall be substituted, namely:—

"(a) of travelling expenses incurred by delegates of the District Board in attending meetings convened under the rules made by the Lieutenant-Governor in pursuance of sub-section (4) of section 1 of the Indian Councils Act, 1892, for the purpose of recommending a person to be nominated as a member of the Lieutenant-Governor's Council; [Cf. Ben. Act III of 1894, s. 69(3).]

(b) of travelling expenses incurred by members of the District Board in attending meetings of the Board or meetings of a Joint Committee; and

(c) in such cases, if any, as the Lieutenant-Governor may direct, of travelling expenses incurred by members of the District Board or any Local Board in performing journeys for carrying out other objects of this Act."

(4) In proviso (1) to the said section 53, after the word "that" the words and figures "except as is provided in section 99A" shall be inserted. 85 & 86 Vict. c. 14.

The Bengal Local Self-Government (Amendment) Bill, 1906.

(Clauses 27-33.)

Amendment of section 56.

27. For clause (1) of section 56 of the said Bengal Local Self-Government Act of 1885, the following shall be substituted, namely:—

Ben. Act III of 1885.

“(1) all sums directed by notification under the Cattle-trespass Act, 1871, section 31, to be placed to the credit of the Fund.”

I of 1871.

Amendment of section 58.

28. In section 58 of the said Bengal Local Self-Government Act of 1885, for the words “Local Board” the words “District Board” shall be substituted.

Ben. Act III of 1885.

Amendment of section 59.

29. In section 59 of the said Act, for the letter “D” the letter, figure and brackets “D (1)” shall be substituted.

New section 61.

30. For section 61 of the said Act, the following shall be substituted, namely:—

“61. Every District Board shall perform such functions as may be transferred to it by notification under the Cattle-trespass Act, 1871, section 31.”

Pounds.

I of 1871.

Addition to section 63.

31. To section 63 of the said Bengal Local Self-Government Act of 1885, the following shall be added, namely:—

Ben. Act III of 1885.

“or may make grants in aid of any such schools, whether the same be under public or private management.”

New section 61A.

32. After section 61 of the said Act, the following shall be inserted, namely:—

“61A. The District Board may, subject to any rules made by the Lieutenant-Governor under this Act,—
Provision, maintenance and management of students' hostels.

(a) provide buildings to be used as students' hostels in connection with schools for the maintenance and management of which the Board is responsible under section 62 or section 63, and maintain and manage such hostels, or

(b) make grants in aid of any school referred to in section 63 or section 64, or any other school, college or educational institution, for the purpose of providing buildings to be used as students' hostels in connection with such school, college or institution, or for the purpose of maintaining and managing such hostels.”

Amendment of section 65.

33. In section 65 of the said Act, for the words “the improvement of primary schools within the district under private management,” the following shall be substituted, namely:—

“(a) the improvement of any schools or class of schools within the district under private management, or

(b) the maintenance or improvement of any schools or class of schools maintained and managed by the District Board, or

(c) the provision of buildings to be used as students' hostels in connection with any school referred to in section 64, or in clause (a) or clause (b) of this section, or any other school, college or educational institution, and the maintenance and management of such hostels.”

The Bengal Local Self-Government (Amendment) Bill, 1906.

(Clauses 34-39.)

New sections 65A
and 65B.

34. After section 65 of the said Act the following shall be inserted, namely :—

“ 65A. The hostels referred to in sections 64A and 65 may be situated either within the area directly subject to the authority of the District Board, or within any place or town lying within that area in which the Bengal Municipal Act, 1884, is for the time being in force.

“ 65B. (1) Every District Board shall appoint, to be members of an Education Committee,—
Constitution and functions of Education Committees.

- (a) three members of the District Board, and
- (b) not more than three residents of the district not being members of the District Board.

(2) The Deputy Inspector of Schools also shall be a member of such Committee *ex-officio*.

(3) The appointment of any person referred to in clause (b) of sub-section (1) to be a member of an Education Committee shall be subject to the approval of the Commissioner.

(4) It shall be the duty of an Education Committee, subject to the control of the District Board and to any rules made by the Lieutenant-Governor under section 138,—

- (i) to superintend all matters connected with the finances, accounts, maintenance and management of all schools maintained by the District Board, and
- (ii) to determine the conditions to be complied with when grants are made by the District Board in aid of other schools.

(5) Nothing in the foregoing sub-sections shall apply to schools referred to in section 64.”

Addition to section
67.

35. To section 67 of the said Act the following shall be added, namely :—

“ A District Board may also provide for—

- (a) the training and employment of medical and veterinary practitioners; and
- (b) the promotion of free vaccination.”

Addition to section 70.

36. To section 70 of the said Act the following shall be added, namely :—

“ or defray the expenses of any such inhabitants for journeys to and from any hospital established in any part of British India for the treatment of special diseases.”

Amendment of section
73.

37. In section 73 of the said Act, after the words “ for the purposes of this Act ” the words and figures “ but subject to the provisions of Chapter III of Part III thereof ” shall be inserted.

New section 78A.

38. After section 78 of the said Act the following shall be inserted, namely :—

“ 78A. The District Board may, with the sanction of the Commissioner, turn, divert, discontinue or permanently close any road which is under the control and administration of, or is vested in, the District Board.”

Power to turn, divert, discontinue or close road. [cf. Ben. Act III of 1899, s. 354 (e).]

Amendment of section
82.

39. (1) In section 82 of the said Act, for the words “ Lieutenant-Governor ” the words “ Governor General in Council ” shall be substituted.

The Bengal Local Self-Government (Amendment) Bill, 1906.
(Clauses 40, 41.)

(2) To the same section the following shall be added, namely:—

“Provided that no application for the said sanction shall be made, in the case of a railway or tramway, unless—

[*Cf. Mad. Act V of 1884, s. 58, proviso, added by Mad. Act VI of 1900, s. 48.*]

(a) it is authorized by a resolution which has been passed at a meeting specially convened for the purpose and in favour of which a majority of not less than two-thirds of the members of the District Board have voted; and

(b) such resolution declares the assent of the said majority to the imposition of a rate under section 46A in the circumstances stated in that section.”

Addition to section 40.

40. To section 86 of the said Act the following shall be added, namely:—

“and the power of the District Board to make any contribution under section 79 shall be subject to any rules, made by the Lieutenant-Governor under this Act, prescribing conditions precedent to the making of such contribution.”

New heading and new sections 86A to 86L.

41. After section 86 of the said Act the following shall be inserted, namely:—

“D(1).—Tolls on Bridges.

“86A. The District Board, with the sanction of the Lieutenant-Governor, may establish a toll-bar

[*Cf. Ben. Act III of 1884, ss. 153, 159 (1).*]

Power of District Board to establish toll-bars and levy tolls on bridges.

on any bridge in the district which was constructed out of the District Fund and the construction of which was completed after the commencement of the Bengal Local Self-Government (Amendment) Act, 1907, or

at any place in the district, adjacent to any such bridge, at which tolls may conveniently be levied;

and may levy tolls at such toll-bar on vehicles and animals passing over such bridge:

Provided as follows:—

(1) no toll-bar shall be established, or tolls levied, otherwise than for the purpose of recovering—

(a) the expenses incurred in constructing such bridge;

(b) interest on such expenses, at the rate of four per centum per annum, and

(c) the capitalised value of the estimated cost of maintaining such bridge, and of renewing it, if it requires periodical renewal;

(2) no toll-bar shall be established, or tolls levied, on or in respect of any bridge, the cost or estimated cost of which, as indicated in clauses (a), (b) and (c) of proviso (1), was or is less than five thousand rupees.

“86B. The District Board may grant a lease, for any period not exceeding three years, of any toll-bar established under section 86A of this Act.

Lease of toll-bar.

[*Cf. Ben. Act III of 1884, s. 164.*]

“86C. (1) The following persons and things shall be exempted from payment of tolls at any toll-bar established under section 86A of

Exemptions.

[*Cf. Ben. Act III of 1884, s. 163.*]

this Act, namely:—

(a) Government stores, and persons in charge thereof;

*The Bengal Local Self-Government (Amendment) Bill, 1906.**(Clause 41.)*

- (b) police-officers, other public officers travelling on duty, District Board officers so travelling, persons in the custody of any of the officers aforesaid, property belonging to or in the custody of any of the officers aforesaid, and vehicles and animals employed by any of the officers aforesaid for the transport of such property ;
- (c) conservancy carts and other vehicles and animals belonging to the District Board, and persons in charge thereof ; and
- (d) any other class of persons or things which may be exempted by order of the District Board.

(2) In granting a lease of any toll-bar, the District Board may stipulate that any servants and property of the District Board and any other persons and things shall be exempted from payment of tolls thereat.

"86D. (1) When it has been determined that tolls shall be levied at any toll-bar established under section 86A of this Act, the District Board shall make and publish an order specifying the rates at which the tolls shall be levied.

Rates of tolls. [Cf. Ben. Act III of 1884, s. 160.]

(2) Such rates shall be subject to the sanction of the Commissioner, and may from time to time be varied with the like sanction.

"86E. (1) A table of such tolls, legibly printed or written in the vernacular of the district, shall be hung up in some conspicuous position near every such toll-bar, so as to be easily readable by all persons required to pay the tolls.

Table of tolls to be hung up. [Cf. Ben. Act III of 1884, s. 165.]

(2) In default of compliance with sub-section (1) of this section, the toll-collector, or the lessee of the toll-bar, as the case may be, shall be liable to fine which may extend to fifty rupees, and to a further fine which may extend to ten rupees for each day after the first during which the default continues.

[Cf. Ben. Act III of 1884, s. 166.]

"86F. The District Board, or the lessee of any toll-bar, may compound with any person for a certain sum to be paid by such person for himself, or for any vehicles or animals kept by him, in lieu of the rates specified under section 86D of this Act.

Power to compound for tolls. [Cf. Ben. Act III of 1884, s. 167.]

"86G. Any toll-collector or lessee of a toll-bar established under section 86A of this Act may refuse to allow any person to pass through the toll-bar until the proper toll has been paid.

Power of toll-collector or lessee in case of refusal to pay toll. [Cf. Ben. Act III of 1884, s. 161.]

"86H. Whoever, having driven through any such toll-bar any vehicle or animal which is not exempted from payment of toll, refuses to pay the toll, shall be liable to fine which may extend to fifty rupees.

Penalty for refusing to pay toll. [Cf. Ben. Act III of 1884, s. 162.]

"86J. If resistance is offered to any person authorized under this Chapter to collect tolls, any police-officer whom he may call to his aid shall be bound to assist him; and such police-officer shall, for that purpose, have the same powers as he has in the exercise of his ordinary police duties.

Police-officers to assist. [Cf. Ben. Act III of 1884, s. 169.]

"86K. If any person authorized under this Chapter to collect tolls demands or takes any higher tolls than the tolls authorized under this Chapter, he shall be liable to fine which may extend to fifty rupees, and, in default of payment, to imprisonment for a term which may extend to one month.

Penalty for taking unauthorized tolls. [Cf. Ben. Act III of 1884, s. 170.]

The Bengal Local Self-Government (Amendment) Bill, 1906.
(Clauses 42-45.)

"86L. (1) When a toll-bar has been established and tolls have been levied, under section 86A of this Act in respect of any bridge, the District Board shall, at the end of each financial year, publish, by causing to be posted up at their office, an abstract account showing—

- (a) the amount of the expenses incurred in constructing the bridge;
- (b) the amount of interest which has accrued due on such expenses;
- (c) the capitalised value of the estimated cost of maintaining the bridge, and of renewing it, if it requires periodical renewal; and
- (d) the amount which has been received from the profits of the said toll-bar since its establishment.

(2) As soon as such expenses, interest, and capitalised value have been recovered as aforesaid, such toll-bar shall be removed, and tolls shall no longer be levied on such bridge."

New section 88A.

42. After section 88 of the said Act the following shall be inserted, namely:—

"88A. A District Board may, with the sanction of the Lieutenant-Governor, contribute such annual or other sum as may be agreed upon towards the cost of the construction, repair and maintenance, under the provisions of the Bengal Municipal Act, 1884, of water-works, wells or tanks within the district."

Addition to section 99.

43. To section 99 of the said Bengal Local Self-Government Act of 1885, the following shall be added, namely:—

"(4) distribute such gratuitous relief, in the form of doles of money, as may be necessary."

New section 99A.

44. After section 99 of the said Act the following shall be inserted, namely:—

"99A. It shall be lawful for a District Board, with the sanction of the Commissioner, to incur expenditure on any local irrigation work which may appear to it to be necessary for the purpose of preventing, or mitigating the effects of, scarcity or famine within its district:

Provided that no such expenditure shall be incurred unless such irrigation work has been sanctioned by the Lieutenant-Governor as a relief work in accordance with rules made under this Act."

Amendment of section 100.

45. (1) In section 100 of the said Act, for the words "subject to any rules made by the Lieutenant-Governor" the words "subject to such rules and restrictions as the Lieutenant-Governor may from time to time prescribe" shall be substituted.

(2) After clause (3) of the same section the following shall be inserted, namely:—

"(3a) establish and maintain veterinary dispensaries for the reception and treatment of horses, cattle and other animals, and charge such fees for the use of such dispensaries as may from time to time be approved by the Commissioner;

(3b) appoint and pay qualified persons to prevent and treat diseases of horses, cattle and other animals;

(3c) provide for the improvement of the breed of horses, cattle and asses, and for the breeding of mules;

(3d) prescribe an annual fee to be paid by owners of boats for a license to ply for hire on any river or water-channel which is under the control of the District Board; and appoint and pay an Inspector to issue such licenses and to supervise the boat traffic on such rivers and water channels, and "

The Bengal Local Self-Government (Amendment) Bill, 1906.
(Clauses 46-53.)

Amendment of section 104.

46. In section 104 of the said Act, for the words "Local Board," in both places in which they occur, the words "District Board" shall be substituted.

Amendment of sections 106 to 107 and 117.

47. (1) In sections 105, 106, 107 and 117 of the said Act, for the words "Local Board," wherever they occur, the words "District Board" shall be substituted.

(2) In the said section 105, for the words "an estimate of the probable expenditure of the Committee" the words "an estimate of the probable receipts and expenditure of the Committee under each head of account" shall be substituted. [Cf. Ben. Act 111 of 1884, s. 72.]

(3) To the said section 105 the following shall be added, namely:— [Cf. Ben. Act 111 of 1884, s. 76.]

"Every estimate submitted under this section shall be subject to the sanction of the District Board, who may, before sanctioning any estimate, modify it as they may think fit."

(4) In the said section 107, after the words "village roads" the words "and bridges" shall be inserted.

(5) In the said section 117, for the words "drainage or water-supply" the words "or drainage" shall be substituted.

Amendment of section 108.

48. In section 108 of the said Act, after the word "roads," in both places in which it occurs, the words "and bridges" shall be inserted.

Amendment of section 109.

49. In section 109 of the said Act, after the words "village roads," where they first occur, the words "and bridges" shall be inserted.

Amendment of section 110.

50. In section 110 of the said Act,—

(a) for the words "Local Board," in the first and third places in which they occur, the words "District Board" shall be substituted, and

(b) for the words "Local Board," in the second place in which they occur, the words "District Board or of a Local Board" shall be substituted.

New section 111.

51. For section 111 of the said Act the following shall be substituted, namely:—

"111. Every Union Committee shall perform such functions as may be transferred to it by notification under the Cattle-trespass Act, 1871, section 31." [Cf. Ben. Act 111 of 1885, s. 111.]
I of 1871.

Pounds.

New section 114.

52. For section 114 of the said Bengal Local Self-Government Act of 1885 the following shall be substituted, namely:— Ben. Act 111 of 1885.

"114. A Union Committee shall, if required to do so by the Magistrate of the district, provide for the registration of births and deaths within the Union, and shall submit such returns thereof as the said Magistrate may direct."

Registration of births and deaths.

New section 118.

53. For section 118 of the said Act the following shall be substituted, namely:—

"118 (1). A Union Committee may provide the Union or any part thereof with a supply of water proper and sufficient for public and private purposes; and for the purposes of this section, may— [Cf. 38 & 39 Vict., c. 55, s. 51; 56 & 57 Vict., c. 73, s. 8.]

Water-supply.

(a) construct, repair and maintain tanks or wells, clear out streams or water-courses, and do any other necessary acts;

The Bengal Local Self-Government (Amendment) Bill, 1906.
(Clauses 54-56.)

- (b) with the sanction of the District Board, purchase or acquire by lease any tank, well, stream or water-course, or any right to take or convey water, within or without the Union;
- (c) with the consent of the owner thereof, utilize, cleanse or repair any tank, well, stream or water-course within the Union, or provide facilities for obtaining water therefrom;
- (d) deal with any tank, well, pool, ditch, drain or place containing, or used for the collection of, any drainage, filth, stagnant water or matter likely to be prejudicial to health—by draining or cleansing it, or otherwise preventing it from being prejudicial to health, but so as not in any case to interfere with any private right; or
- (e) contract with any person for a supply of water.

(2) When a Union Committee has, under clause (c), with the consent of the owner, cleansed or repaired, or provided facilities for obtaining water from, any tank, well, stream or water-course, the same shall, subject to any rights retained by the owner with the concurrence of the Committee, be reserved for drinking purposes, and shall be kept open to access by the public.

(3) Any tank, well, stream or water-course which a Union Committee may construct, repair or maintain under clause (a), or purchase or acquire by lease under clause (b), shall remain under the control and administration of the Union Committee; and the Committee may, by order duly published in the village or villages in which such tank, well, stream or water-course is situated, set apart the same, or subject to the provisions of clause (e), any other tank, well, stream or water-course within the Union, for the supply of water for drinking and culinary purposes.

New section 119.

54. For section 119 of the said Act the following shall be substituted, namely:—

“119. (1) Notwithstanding anything in the foregoing provisions of this Act, the District Board may, by order in writing, with the sanction of the Commissioner, direct that any specified Union Committee shall act as the agent of, and shall be subject to the control of, a Local Board, instead of the District Board, either for all purposes or for the purposes specified in the order.

(2) Any order made under sub-section (1) may, with the like sanction, be revoked.

(3) So long as an order made under sub-section (1) with respect to any Local Board continues in force, the references to the District Board in the foregoing sections of this Act shall, so far as may be necessary, be read as if made to such Local Board.”

Amendment of sec.
tion 130.

55. (1) In the first paragraph of section 130 of the said Act,—

(a) after the figures “124” the figures “125” shall be inserted, and

(b) for the words “by the Local Board” the words “by the District Board or Local Board to which the Committee is, for the purposes of this section, subordinate” shall be substituted.

(2) In the third paragraph of the same section, after the words “Local Board” the words “or Union Committee” shall be inserted.

Amendment of sec-
tion 131.

56. In section 131 of the said Act, after the words “Local Board,” in both places in which they occur, the words “or Union Committee” shall be inserted.

The Bengal Local Self-Government (Amendment) Bill, 1906.
(Clauses 57-59.)

Amendment of section 132.

57. In section 132 of the said Act,—

- (1) after the words "Local Boards," in the first four places in which they occur, the words "or Union Committee" shall be inserted, and
- (2) after the words "the Board," in the second place in which they occur, the words "or Committee" shall be inserted.

New section 133.

58. For sections 133 and 134 of the said Act the following shall be substituted, namely:—

"133. (1) If a dispute arises between two or more Union Committees which are, for the purposes of this section, subordinate to the same District Board or Local Board, the matter shall be referred to such Board, and the decision of the Board thereon shall be final and binding.

(2) If a dispute arises between two or more Union Committees within the same district, and such Committees are not all, for the purposes of this section, subordinate to the same Local Board, the matter shall be referred to the District Board, and the decision of the District Board thereon shall be final and binding."

Amendment of section 138.

59. (1) To clause (a) of section 138 of the said Act the following shall be added, namely:—

"and determining the authority who shall decide disputes relating to such elections." [Cf. Ben. Act III of 1894, s. 15.]

(2) In clause (f) of the same section for the word "immediate" the word "intermediate" shall be substituted.

(3) To clause (g) of the same section the following shall be added, namely:—

"and declaring what circumstances shall be a disqualification for continuance of employment under that section."

(4) After clause (h) of the same section the following shall be inserted, namely:—

"(h1) prescribing the conditions on which a house may be built by the District Board for the residence of the District Engineer, and the terms on which the District Engineer may be required to occupy the same;"

(5) After clause (j) of the said section 138 the following shall be inserted, namely:—

"(j) prescribing the powers and duties of Education Committees, and regulating the removal from office of members referred to in sub-section (1) of section 65B."

(6) To clause (k) of the same section the following shall be added, namely:—

"the training and employment of medical and veterinary practitioners, and the promotion of free vaccination."

(7) To clause (m) of the said section 138 the following shall be added, namely:—

"and prescribing conditions precedent to the making of any contribution under section 79."

(8) After clause (m) of the same section the following shall be inserted, namely:—

"(mm) prescribing, for the purposes of section 86A of this Act, the mode of ascertaining the capitalised value of the estimated cost of maintaining bridges and of renewing any bridge which requires periodical renewal, and the mode of determining what class of bridges requires periodical renewal."

The Bengal Local Self-Government (Amendment) Bill, 1906.
(Clauses 60-63.)

(9) After clause (o) of the said section 138 the following shall be inserted, namely:—

“(o1) regulating the duties of District Boards in regard to famine relief.”

(10) In clause (p) of the same section, after the word “animals” the following shall be inserted, namely:—

“the establishment and maintenance of veterinary dispensaries, the appointment and payment of qualified persons to prevent and treat diseases of horses, cattle and other animals, the improvement of the breed of horses, cattle and asses, the breeding of mules, the issue of licenses for, and the supervision of, boat traffic on rivers and water-channels under the control of District Boards.”

(11) After clause (q) of the same section the following shall be inserted, namely:—

“(qq) regulating conservancy in Unions, defining and prohibiting public nuisances in Unions, and directing that the breach of any rule made under this clause shall be punishable with fine which may extend to ten rupees.” [Cf. Act XI of 1902, s. 7 (2) (d), (3).]

Amendment of section 139.

60. In section 139 of the said Act,—

(a) before the words “make by-laws” the words “subject to the control of the Lieutenant-Governor” shall be inserted; and

(b) for the words “confirmed by the Lieutenant-Governor” the words “confirmed by the Commissioner” shall be substituted.

Amendment of section 142.

61. In section 142 of the said Act, before the words “or Union Committee” the words “Local Board” shall be inserted.

Addition to section 144.

62. To section 144 of the said Act the following shall be added, namely:—

“Nothing in this section shall apply to the payment of fees to a vakil or pleader for services rendered by him in his professional capacity.”

Amendment of Schedule III.

63. In the heading to the Third Schedule to the said Act, for the words “Districts in every sub-division of which a Local Board shall be established” the words “Districts in which the elective system is in force for the nomination of members of the Local Board” shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to make various amendments in the Bengal Local Self-Government Act, III of 1885, for the following purposes, namely:—

- (1) to delegate formally to Commissioners of Divisions certain powers which practically, though not nominally, are at present exercised by them;
- (2) to legalize the expenditure of the District Fund on tanks and wells which are not the property, or under the control of the District Board, and on minor works of irrigation;
- (3) to enable a District Board, by the imposition of a cess, to make payments of interest guaranteed, or repayment of a loan raised, in respect of a railway or tramway;
- (4) to impose tolls on newly-constructed bridges until the initial cost and the capitalised value of the cost of maintenance and renewal have been recovered;
- (5) to give legal authority to the practice now already in existence under which District Boards incur expenditure on veterinary objects;
- (6) to legalize the licensing of boats that ply for hire on any river or water channel under the control of the District Board;
- (7) to permit District Boards to contribute towards the construction and maintenance of hostels attached to private institutions of all kinds, and to enable the Government to transfer money to the District Board for that purpose;
- (8) to legalize expenditure of the District Fund on the construction of a residence for the District Engineer, and
- (9) to remove certain flaws and omissions in the Act which experience of its working has brought to light.

The amendments are explained in detail in the following notes.

NOTES ON CLAUSES.

Clause 2 repeals—

- (1) the words "or of the Districts of Singhbhum, the Sonthal Parganas, or the Chittagong Hill Tracts" in section 1. This repeal is required partly because one of these districts (Singhbhum) is now considered to be sufficiently advanced to be admitted to the benefits of Local Self-Government, and partly because the specific exception in the case of the Sonthal Parganas is now unnecessary, having been superseded by Regulation III of 1872, section 3 (as amended by Regulation III of 1899, section 3), while the Chittagong Hill Tracts no longer form part of this Province;
- (2) the proviso in section 6. The first portion of this proviso is entered for repeal in order to permit of the abolition of Sadar Local Boards, which experience has proved to be unnecessary and which have already been abolished in some districts in which the proviso does not stand in the way. The rest of the proviso assumes that a Union Committee cannot exist except where a Local Board has been created. This principle has been proved to be inconvenient and difficult of working. It is, therefore, proposed, by later clauses of the Bill, to subordinate Union Committees primarily to the District Board instead of the Local Board;
- (3) section 16, its provisions being embodied in a new section 19A;
- (4) clause (c) of section 18, as being unnecessary in view of the new section 19A;
- (5) section 21, its provisions being reproduced in amended form in a new section 29A;
- (6) the last paragraph of section 23, its provisions being embodied in a modified form in the new section 29A;
- (7) section 34, its provisions becoming unnecessary in view of the amendments made in section 22 (g);
- (8) section 72. The repeal of this section is necessary, as it will be superseded by the new section 114 which appears in clause 52 of the Bill. Section 114 as it now stands in the Act requires every Union Committee to provide for the registration of births and deaths, and to submit such returns as the Local Board may direct. But the registration of births and deaths is not, and never has been, under the Local Board, and it is not now contemplated that a Local Board, even if it possessed this power, should exercise, except by delegation, control over Union Committees. In point of fact the registration of vital statistics is carried out by the police under the control of the Magistrate, and there is no intention of transferring this work to District or Local Boards. In

the few rural areas (the colliery tracts of Burdwan and a portion of the Darjeeling district) in which Bengal Act IV of 1873 (which provides for the compulsory registration of births and deaths) has been brought into force, the District Magistrate, and not the District or Local Board, is and will continue to be the controlling authority. For these reasons it is proposed to alter section 114 so as to provide that a Union Committee shall register births and deaths only if required to do so by the District Magistrate ;

(9) the proviso to section 73. This proviso is rendered unnecessary by the amendment made in section 108 by clause 48 of the Bill ;

(10) the words in section 103 "A Local Board shall exercise powers of supervision and control over all Union Committees within the area under its authority, and" These repeals are proposed as part of the policy of subordinating Union Committees to District Boards rather than to Local Boards.

2. *Clause 3* declares that "sanitation" includes water-supply. This amendment is specially needed with reference to section 115, relating to the duties of Union Committees. The word "sanitation" is used in sections 87, 115, 117 and 138 (u). In section 117 water-supply is mentioned as if it were not included in "sanitation," and it is intended to amend that section.

3. *Clause 4, sub-clause (1)*, is consequential upon the new section 13A and the amendment in section 29.

4. *Clause 4, sub-clause (2), and clauses 5, 6 and 7* form part of the proposals for the delegation to the Commissioner of the Division of the powers at present vested in the Local Government, viz., to appoint members of District and Local Boards under sections 7, 10, 11 and 15 ; to accept the resignation of a member of a District Board, and to remove a member absent without excuse. The powers in question are already, as a matter of practice, exercised in accordance with the recommendation of the Commissioner. Thus being so, it is important that the responsibility for the action taken should rest with those who in fact possess the powers.

5. *Clause 5* also amends section 10 of the Act, in order to provide for cases in which the members of a Local Board make default in electing representatives on the District Board, there being at present no legal means for dealing with such cases.

6. *Clause 8* introduces a new section 19 with the object of covering similar defects in by-elections, and a new section 19A, which reproduces the provisions of the existing section 16 and the latter portion of the existing section 19 as to duration of a member's term of office. The references in section 19A to sections 17, 18 and 18A (as to resignation and removal) are new, but are obviously required.

7. *Clause 9* amends section 22 so as to permit the election of Chairmen of District Boards by official designation in the case of district in which the election of Chairmen is authorized.

8. *Clause 10* introduces a new section 24A to provide for cases of default in the election of a Chairman or Vice-Chairman of a District Board, the Lieutenant-Governor being empowered to intervene to fill the vacancy by making an appointment.

9. *Clause 11* amends section 25 of the Act so as to permit the election of Chairmen of Local Boards by official designation. The absence of such a provision gives rise to frequent difficulties in cases where the Chairman is the Sub-divisional Officer, when it often happens that his transfer or absence on short leave occasions an interregnum, prolonged by the almost inevitable delay on the part of the Board in carrying out the necessary formalities for appointing a successor or substitute. It is proposed that the power hitherto vested in the Lieutenant Governor should be delegated to the Commissioner of the Division for the reasons given in paragraph 4 of these notes.

10. *Clause 12* amends section 26 so as to provide for cases of default in the election of a Vice-Chairman of a Local Board, the Commissioner being empowered to intervene to fill the vacancy by making an appointment.

11. *Clause 12* also introduces a new section 26A to authorize the grant of leave to Chairmen and Vice-Chairmen of District and Local Boards.

12. *Clause 13* is intended to give the Commissioner of the Division power to accept the resignation of the Chairman of a Local Board. The reason for this amendment is given in paragraph 4 of these notes.

13. *Clause 14* substitutes a new section 29 providing for the filling of vacancies caused by grant of leave. It is proposed that the power of appointment on failure of a Board to elect a successor within a period to be prescribed by rules should be delegated to the Commissioner of the Division.

14. *Clause 14* further introduces a new section, 29A, which reproduces the provisions of sections 24, 25 (last paragraph), 26 (second paragraph), and 29 (third paragraph) of the existing Act, as to a Chairman's and Vice-Chairman's term of office, with the addition of a sub-section as to the term of office of a Chairman or Vice-Chairman acting for another who is on leave.

15. *Clause 15* introduces amendments which it is proposed to make in connection with the sanctioning of rules and by-laws under the Act in order to curtail routine correspondence. Model rules and by-laws are framed by the Government under the various sections of the Act. If a District Board desires to adopt any of these models as rules

made by itself, sanction is at once accorded by the Government as a matter of course, on the recommendation of the Commissioner of the Division. The amendments substitute the Commissioner of the Division for the Local Government as the sanctioning authority, but provide that the Commissioner's powers shall be exercised subject to the control of the Lieutenant-Governor. It is intended that this control shall only be exercised by the Local Government in cases where a District Board desires to modify any of the *model* rules or to adopt any new rule or by-law. In such cases the approval of the Lieutenant-Governor will be necessary.

The addition of the words "leave allowances" in clause (g) is required in consequence of the repeal of section 34.

The words "punishment (including suspension and removal" are substituted for the words "suspension and removal" in section 32, clause (g), in order to enlarge the scope of the section by legalising the imposition of penalties for minor offences or breaches of discipline.

16. *Clause 16* makes an amendment which is consequential upon the proposed new section 65B.

17. *Clause 17* will amend section 35 so as to give the Commissioner the power, hitherto vested in the Lieutenant-Governor, of sanctioning rules framed by a District Board as to pensions and gratuities, but subject to the control of the Lieutenant-Governor. At present a District Board has no power under the Act to make grants from the District Fund to the families of deceased employes though deserving cases at times arise. It is proposed to give this power subject to a like sanction and control.

18. *Clause 18* introduces a new section authorizing District Boards to make rules for the creation and management of a Provident Fund. The adoption of the system of Provident Funds for employes of District Boards was approved in principle by the Government of India, while at the same time the absence of a specific provision of law authorizing the creation of such Funds was pointed out. On the introduction of the system, District Boards were instructed to act on the assumption that power would be taken at the first opportunity to give legal effect to it, and it is with this object that the enactment of clause 18 of the Bill is now proposed.

19. *Clause 19* makes certain amendments in section 36 in pursuance of the policy of subordinating Union Committees and District Boards rather than to Local Boards.

20. *Clause 20* provides for the election of a Chairman of a Union Committee, for which there is at present no provision of law.

21. *Clause 21* makes certain amendments in section 44 in pursuance of the policy of subordinating Union Committees to District Boards rather than to Local Boards.

22. *Clause 22* introduces new sections 46A to 46F, as to the levy of a rate to enable District Boards to pay sums guaranteed by them by way of interest on capital expended on railways or tramways or to pay interest on a loan taken for the construction of a railway or tramway and to gradually repay the amount borrowed. Clause 39 (2) introduces a proviso to section 82 to declare the procedure to be followed by District Boards before giving such guarantees, and clause 24, a proviso to declare the procedure to be followed before raising a loan. The Government of India have attached great importance to the introduction of District Boards into the field of railway enterprise. They have pointed out that there are many places in Bengal where light railways would prove of great service to local trade, and that District Boards would be the appropriate agency to further the development of the country by aiding the construction of such lines. Under existing conditions, however, there seems to be little hope of the assistance of District Boards being forthcoming in Bengal, as it is improbable that many District Boards would at any time have a sufficient surplus of income to enable them to embark on projects of the kind. In these circumstances, it was suggested that District Boards should be empowered to impose a special cess, to be utilised for the purpose of railway construction; and that section 57 (ii) and the proviso to section 58 of the Madras Local Boards Act, 1844, should be adopted so as to secure that the power to impose an additional tax should be purely permissive, and that it would rest with the District Board alone to take action. Clauses 22, 24 and 39 (2) have been inserted in the Bill to give a modified effect to these views. It is proposed that the Lieutenant-Governor should have power to exempt specified lands from the payment of the extra cess. This is provided for in the new section 46D.

23. *Clause 23* adds an *Explanation* to section 48 with the object of making it clear that the Commissioner, in dealing with estimates framed by District Boards, is to have the same powers as the District Magistrate, as defined in section 47. The absence of an express declaration to this effect has given rise to practical difficulties.

24. *Clause 24* is explained in the note on clause 22.

25. *Clause 25 (1)* amends section 52 (3) in order to bring it into closer accordance with the law now contained in Act I of 1871, section 31, as amended by Act I of 1891.

26. *Clause 25 (2)* introduces an additional clause into section 52, which is necessitated by the new provisions [section 86A *et seq.*] relating to tolls on bridges.

27. *Clause 25 (3)* introduces an additional clause in section 52, which is necessitated by the new provisions [sections 46A *et seq.*] relating to the levy of a rate for payment of interest on capital expended on railways or tramways.

28. *Clause 26 (1)* is consequential upon the new section 35A which it is proposed to introduce by clause 18.

29. *Clause 26 (2) (a) (i)* is intended to legalize the expenditure of the District Fund on the acquisition of land for, and the construction of, District Board offices and a residence for the District Engineer. Residences have already been constructed by several District Boards for their District Engineers, but the Government has been advised that under the Act as it now stands there is no sanction for the use of the District Fund for such an object.

30. *Clause 26 (2) (b)* is designed to meet the following difficulty:—Under the law as it now stands the District Fund may not be expended on the repair and maintenance of any works, unless these become vested in or are placed under the control and administration of the Board. The effect of this limitation has been to hamper the Boards considerably in their efforts to improve the water-supply. The owner of a tank or well, although willing to let the public use it, is often unwilling to part with its ownership. The proposed amendment will allow the Board to contribute towards improvement of such tanks or wells subject to conditions prescribed under the amended sections 86 and 138 (*see* paragraph 52 below).

31. *Clause 26 (2) (c)* is introduced with the object of legalizing the payment from the District Fund of sums assigned by the District Board to a Local Board or Union Committee. The power to make such payments, though contemplated throughout the Act, is nowhere clearly given by the Act as it now stands.

32. *Clause 26 (3)* amends section 53, clause *Sixthly*, with the objects of (1) extending to delegates of District Boards the concession granted by section 69 (2) of the Bengal Municipal Act, III of 1884, to Municipal Commissioners, as to travelling expenses for attending meetings in connection with the election of members for the Bengal Legislative Council; and (2) legalizing the payment from the District Fund of travelling allowance to members of District Boards and Local Boards in performing journeys for carrying out any of the objects of the Act.

33. *Clause 26 (4)* contains an amendment consequential upon the proposed new section 99A.

34. *Clause 27* amends section 56 (1) with the object explained in paragraph 25 above.

35. *Clause 28*.—The working of Union Committees under the control of the Local Boards has hitherto been far from satisfactory. In order to make them more efficient it is proposed to place them under the District Board. Amendments with the same object are proposed in Chapter III of Part III and in section 130.

36. *Clause 29* is necessitated by the additions made by clause 41.

37. *Clause 30* amends section 61 with the object explained in paragraph 25 above.

38. *Clause 31* makes an addition to section 63, in order to legalize the grant from the District Fund of contributions in aid of secondary schools in cases where they are not under the direct control of the District Board. It might have been supposed that the power already conferred by section 63 of undertaking the maintenance and management of schools under public management includes the minor power of assisting them with funds, but this view has been overruled. It is therefore contemplated to remedy the deficiency in the manner shown in this clause, and also to provide for the furtherance of education by taking power to authorize similar contributions to schools under private management.

39. *Clause 32* introduces a new section 64A. The Government is advised that, as the construction of a hostel cannot be considered to be a "local work likely to promote the health, comfort or convenience of the public" [*vide* section 100 (4) of the Act], the District Board cannot spend money on it, and that in any case such expenditure cannot be incurred unless the schools are vested in the Board under section 63 of the Act. It is expedient that measures should be taken to give District Boards the legal powers necessary to enable them to contribute towards the cost of constructing and maintaining hostels attached to colleges and schools whether such institutions are in District Board areas or within the limits of Municipalities. Almost all the colleges and most of the large schools are to be found within Municipal limits, but as the bulk of students who attend them come from outside, it is only right that the District Fund should contribute towards the requisite expenditure. It is accordingly proposed to amend the Act by adding a new section 64A, a new clause (c) in section 65, and a new section 65A.

40. *Clause 33 (a), (b)* has the object of removing a frequent source of complaint, *viz.*, that at present the Government is unable to transfer funds to Boards for the purpose of subsidising Middle Schools, Technical Schools, Tols (Sanskrit Schools), *Mukhtabs* (Elementary Muhammadan Schools) or *Madrasahs* Secondary Muhammadan schools).

41. *Clause 33 (c)* is explained in paragraph 39 above.

42. *Clause 34* adds a new section 65A, which is explained in paragraph 39 above.

43. *Clause 34* also adds a new section 65B under which it is proposed to introduce into Bengal the system of School Committees, so successful in the Central Provinces, in encouraging and maintaining local interest in education. The Local Self-Government Act contains no provision expressly recognising such Committees. The object of sub-clause (b) of sub-section (1) is to provide for the representation of all classes of the community, including important minorities or associations or specialists, who should have a voice in the educational policy of the district. The elected members of the District Board are interested no doubt in education no less than in all other matters entrusted to their care. It is thought desirable, however, to take advantage of the present occasion to offer additional representation to all sections of the public in respect of educational matters with the object of utilising all the public spirit which exists in the cause of education.

44. *Clause 35* makes an addition to section 67 with the object of empowering District Boards to devote a portion of their funds to their training and employment of medical

practitioners. The practice has for some time existed in Bengal, and the occasion of the amendment of the Act is taken to give it the authority of law.

45. The same provision is extended to the case of Veterinary Practitioners. Some time ago, when the Civil Veterinary Department in Bengal was in process of formation, District Boards were invited to co-operate, and were asked in particular to what extent they were prepared to utilize the services of paid Veterinary Assistants. It then came to notice that doubts prevailed whether, under section 100 of the Bengal Local Self-Government Act, District Boards were legally competent to contribute to veterinary measures, and it was further found that many of these bodies were disposed to rely on this legal difficulty as an excuse for declining to spend money in the manner suggested. The difficulty was reported to the Government of India, and that Government requested that, if there were any doubt whether local bodies, and especially District Boards, could legally contribute towards the maintenance of veterinary projects, the law might be amended in order to enable them to do so. The necessary additions have therefore been made to section 67 of the Act.

46. *Clause 35* also contains a provision empowering District Boards to spend money on the promotion of free vaccination. Though the licensed system of vaccination is generally in force throughout Bengal occasions at times arise on which District Boards find it necessary to employ paid vaccinators, subject to the supervision of the Civil Surgeon (who is the Superintendent of Vaccination in all districts), to operate free of charge. The law as it stands does not expressly authorize this procedure, but the difficulty is surmounted in practice by the expedient of permitting District Boards to devote funds to this object under the head "Medical." The necessary legal powers will be attained by sub-clause (b) of the proposed addition to section 67.

47. *Clause 36* has been inserted with the object of extending to servants of District Boards the concessions granted by the Government of India as to the treatment of Government servants at the Pasteur Institute at Kasauli.

48. *Clause 37* amends section 73 in order to prevent conflict between that section and sections 108 *et seq.* of the Act.

49. *Clause 38* is intended to supply a power to divert or close public roads which at present the District Board does not possess. It frequently happens that a District Board desires to straighten or re-align a public road to the great advantage of the public, but under the existing law they are unable to make over to the landlord the site of the existing road in exchange for the site of the proposed realignment.

50. *Clause 39 (1)* makes an amendment in section 82 of the Act. By that section the Local Government is empowered to permit District Boards to guarantee the payment of interest on capital expended on works of communication. But the Government of India have directed that, in view of the possibility of the liability for the fulfilment of such guarantees being ultimately shifted to Imperial revenues, guarantees should not be given without the previous sanction of the Government of India; and consequently all guarantees of the kind that may be given must, in existing circumstances, be regarded as subject to the sanction of the Governor General in Council. In view, however, of the importance of this requirement, the Government of India have expressed a desire that it should be placed on a statutory basis. The words "Lieutenant-Governor," in section 82 of the Act, have accordingly been replaced by the words "Governor General in Council."

51. *Clause 39 (2)* adds a proviso to section 82 as part of the new scheme of taxation which is explained in paragraph 22 above.

52. *Clause 40* will give power to prescribe by rules the conditions on which a District Board may make contributions towards the upkeep of private tanks, wells and other sources of water-supply (see paragraph 30 above). Such rules will direct that public money shall be expended only in cases where the owner has agreed to allow the public full use of the water for drinking purposes or for watering cattle. It is thought that this provision will sufficiently obviate the danger which exists in theory, that the District Board may use public money for the exclusive benefit of a private individual.

53. *Clause 41* introduces a series of new sections, numbered 86A to 86I, to authorize District Boards to impose tolls on newly-constructed bridges until the initial cost and the capitalised value of the cost of maintenance and renewal have been recovered. The principle is no new one in Bengal, being already embodied in the Bengal Municipal Act, III of 1884. The provisions contained in clause 27 of the Bill are in the main reproduced from sections 158 to 170 of the Municipal Act, with the omission of matter relating to tolls on roads. The following points may be noticed in connection with the proposed new sections.

54. *Section 86A*.—This has been drafted so as to confine the power of taking tolls to the case of bridges constructed out of the District Fund and completed after the commencement of the new law.

55. The rate of interest is in proviso (b) to section 86A put at 4 *per cent.* instead of as in the Municipal Act, 6 *per cent.* The latter Act reproduced a rate of interest in force more than 20 years ago.

56. *Proviso (2)* will prevent the levy of tolls on any but large bridges. It is estimated that the minimum cost of a bridge over a river requiring a ferry throughout the year is Rs. 5,000, and this limit is tentatively taken in the Bill.

57. *Section 86C* reproduces the provisions of section 168 of the Bengal Municipal Act, 1884, except the portions which were repealed by the Indian Tolls (Army) Act II of 1901. The exemptions from toll which are enacted by the latter Act will of course continue after the passing of the present Bill.

58. *Section 86H.*—Section 162 of the Bengal Municipal Act, 1884, declares that whoever, with intent to evade payment of toll, fraudulently avoids passing through a toll-gate shall be liable to fine. Such a provision may be suitable in a municipality and in the case of a toll-bar on a road (though its utility has not been tested), but it is liable to abuse in the mufassal, and can hardly be necessary when the toll-bar is on a bridge over an unfordable river. The section has therefore not been reproduced in the Bill.

59. Section 163 of the Bengal Municipal Act, 1884, provides that in case of non-payment of toll the vehicle or animal or any part of its burden may be seized and sold. This section is possible in a town, but would be very dangerous in the mufassal, where it would be difficult to supervise the action of the toll-bar-keeper. The section has therefore not been reproduced in the Bill. It is believed that sections 86G, 86H and 86J in the Bill will be sufficient to secure the due payment of tolls.

60. *Clause 42* introduces a new section, 88A, with the object of legalising contributions from the District Fund towards the improvement of the water-supply of municipalities situated within the district. The legality of such an allocation of District Funds formed the subject of a discussion in 1893, when a contribution was made for this purpose by the Shahabad District Board to the Municipality of Arrah. The Legal Remembrancer of the day decided in its favour, but it seemed that such an interpretation of section 88 might at any time be called in question, in view of the declaration in section 1 that the Act shall not extend to any place or town to which the provisions of the Bengal Municipal Act, 1884, have been extended. The object is clearly one to which a portion of the District Fund may very properly be diverted, seeing that a pure water-supply in a municipality is an advantage to the district in general. Section 88A has accordingly been framed with a view to preventing any dispute on the point, the contribution being made subject to the approval of the Local Government.

61. *Clause 43* amends section 99 so as to enable a District Board to distribute such gratuitous relief in the form of doles of money as may be necessary in times of famine or distress.

62. *Clause 44* is intended to carry out a suggestion by the Indian Irrigation Commission that District Boards should be permitted to carry out minor irrigation works sanctioned by the Lieutenant-Governor as relief works in times of scarcity or famine. It is intended that programmes of such works should be drawn up and approved beforehand in the same manner as programmes of other relief works. A corresponding amendment has been made in section 53.

63. *Clause 45* introduces new sub-clauses 3 (a), 3 (b) and 3 (c), in section 100, in order to legalize expenditure incurred by District Boards for veterinary purposes. This matter is explained in paragraph 45 above.

64. It is expedient that, where a District Board has obtained control of a river or canal, it should be empowered to impose a fee for the licensing of boats that ply for hire thereon as a contribution towards cost of control.

65. *Clauses 46 and 47* amend sections 104, 105, 106, 107 and 117 with the object of subordinating Union Committees primarily to the District Board instead of to the Local Boards.

66. *Clause 47 (3)* will enable a District Board to examine and modify, if necessary, the budget estimates of Union Committees.

67. *Clause 47 (5)* is explained in paragraph 2 above.

68. *Clauses 47 (4), 48 and 49* make certain additions to sections 107, 108 and 109 with the object of authorizing Union Committees to undertake, where necessary, and subject to the provision of the new section 119A, the construction, maintenance and repair of bridges situated within the Union.

69. *Clause 50* amends section 110 with the object stated in paragraph 65 above.

70. *Clause 51* amends section 111 with the object stated in paragraph 25 above.

71. *Clause 52* amends section 114, and provides that a Union Committee shall register births and deaths only if required to do so by the District Magistrate, who will continue to be the controlling authority—see paragraph 1 (8) above.

72. *Clause 53* has been introduced with the intention of extending to Union Committees the permission to spend money on the improvement of private sources of water-supply under conditions similar to those under which it is proposed (see paragraph 30 above) to allow District Boards to incur expenditure on the same object.

73. *Clause 54* provides for cases where it may be found expedient that a Union Committee should act as Agent and under the control of a Local Board instead of under a District Board.

74. *Clause 55* has as its object the giving of more control to the District Board over Union Committees.

75. *Clauses 56 and 57* are intended to give the Local Government the same control over Union Committees as it has over District Boards and Local Boards.

76. *Clause 58* introduces an amendment with the object stated in paragraph 65 above.

77. *Clause 59 (1)* extends the rule making power conferred by section 138 (a), so as to enable the Lieutenant-Governor to determine the authority who shall decide disputes concerning elections. The precedent followed in this case is that of section 15 of the Bengal Municipal Act, 1884, as amended by Bengal Act IV of 1894.

78. An extension of the power of the Local Government to make rules is also proposed in the same clause to enable the Government to declare what circumstances shall

be a disqualification for continuance of employment under section 33. Rules have been issued by the Government for regulating the retirement, under certain conditions, of District Engineers and other employes of District Boards on attaining the age of 55 years. The existing Act contains no definite authorization of such rules, and it is desirable to give them at the earliest opportunity a strictly legal basis. The clause is expressed in general terms in order that it may cover disqualifications, other than that of age—indebtedness for example,—the rules on which subject do not definitely apply under the existing provisions of the law to officers paid from Local Funds.

79. Further it is proposed that power should be given to make rules :—

- (i) declaring the intermediate offices through which correspondence must pass ;
- (ii) laying down the terms and conditions under which a residence may be built for, and be occupied by, a District Engineer ;
- (iii) prescribing the powers and duties of Education Committees ;
- (iv) regulating the training and employment of medical and veterinary practitioners, the promotion of free vaccination and the establishment and maintenance of veterinary dispensaries ;
- (v) prescribing the mode of ascertaining the capitalised value of the estimated cost of maintaining and renewing bridges ;
- (vi) regulating the duties of District Boards in regard to famine relief ;
- (vii) regulating the issue of licences for, and the supervision of, boat traffic on rivers under the control of a District Board ;
- (viii) regulating conservancy in Unions.

80. *Clause 60* is intended to amend the Act so as to give power to the Commissioners to confirm by-laws subject to the control of the Lieutenant-Governor. The reason is explained in paragraph 4 above.

81. *Clause 61* amends section 142 so as to remedy a verbal omission.

82. *Clause 62* is proposed in order to exclude pleaders, who are professionally engaged by a District Board of which they are members, from the operation of section 144 of the Act.

83. *Clause 63* amends the heading to Schedule III in consonance with the proposal to take power to abolish Sadar Local Boards, and brings it into accordance with the provisions of section 9 of the Act.

H. J. McINTOSH.

The 27th October, 1906.

CALCUTTA ;

The 13th November, 1906. }

L. C. ADAMI,

Offg. Secretary to the Bengal Council.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, NOVEMBER 14, 1906.

NOTICES TO MARINERS.

THE following Notices are published for general information.

CALCUTTA, the 9th November 1906.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

INDIA, WEST—BOMBAY COAST.

Rajpuri Point—Red buoy replaced in position.

No. 432 (first publication).—With reference to Notice to Mariners, No. 239, dated 26th June 1906, issued by this office, the Bombay Government has given further notice (No. 116 of 1906) that the red buoy on the north side of the 'Whale Reef,' off Rajpuri Point at the entrance of the Panjira Harbour that had been removed for the south-west monsoon was replaced on the 10th October 1906.

PACIFIC OCEAN, SOUTH—SOLOMON ISLANDS—FLORIDA ISLAND.

Sandfly passage—Pinnacle rock.

No. 433 (first publication).—The British Admiralty has given notice (No. 1142 of 1906, that a pinnacle rock, awash, exists nearly in the centre of North channel, Sandfly passage) in a position from which the northern of the two pinnacle rocks at present shown on the chart bears, approximately, S. 75° E. distant about three cables.

It is proposed to place a buoy on this rock.

Approximate position, lat. 8° 59' S., long. 160° 5' E.

(Variation 8° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—Plan of Sandfly passage on No. 2873: Guadalcanar and Florida islands, No. 1469: Also Pacific Islands, vol. I, 1900, page 292.

CHINA SEA—PHILIPPINE ISLANDS—MINDORO ISLANDS.

Port Galera—Colour of light altered.

No. 434 (first publication).—The British Admiralty has given notice (No. 1155 of 1906) that the colour of port Galera light (fixed) has been altered from white to red and the power

of the light has been increased, so that it is now visible in clear weather from a distance of 7 miles.

miles.
In other respects the light is unaltered.

Approximate position, lat. $13^{\circ} 30\frac{1}{4}'$ N.; long. $120^{\circ} 57'$ E.

This Notice affects the following Admiralty Chart:—Port Galera, etc., in No. 949: Also List of Lights, Part VI, 1906, No. 660; and Eastern Archipelago, Part I, 1902, page 229; and Supplement, 1906, page 16.

The 9th November 1906.

BAY OF BENGAL—CHITTAGONG COAST.

Kurnasuli river—Depth of water in the Channels.

No. 435 (first publication).—The Port Officer, Chittagong, has given notice that the following depth of water was found in the channels by soundings taken on the 8th November 1966.

				Ft.	In.
<i>Track No. 1.—Outer bar—</i>					
Disk on diamond	11	6
Marks open to the north	13	6
<i>Track No. 2.—Inner bar—</i>					
Disk on diamond	11	0
Batten beacon on pillar	12	0
<i>Track No. 3—</i>					
Triangle on cross and ball	17	6
<i>Track No. 4—Guprakh Uy crossing—</i>					
Trigod on diamond	18	0

The 12th November 1906.

BAY OF BENGAL-ORISSA COAST.

False Point anchorage—Outer Ridge buoy adrift.

No. 421 (second publication).—A telegraphic communication has been received from the Port Officer, Cuttack and Bulsore ports, stating that the Outer Ridge buoy, False Point anchorage, has broken adrift and will be replaced as soon as possible.

The 31st October 1906.

BAY OF BENGAL—BURMA COAST.

Caution—Position of a derelict.

No. 422 (second publication).—A telegraphic communication has been received from the Principal Port Officer, Burma, stating that the Master of the *Taroba* has reported having passed on the 28th October a derelict, with seas wa-ling over her in lat. $15^{\circ} 47\frac{1}{2}'$ N., long. $93^{\circ} 57\frac{1}{2}'$ E., bearing N. 65° W. (true), distant $13\frac{1}{2}$ miles from Alguada light-house. Mariners are hereby warned.

The 1st N. ember 1906.

AFRICA, SOUTH COAST—CAPE COLONY.

Algoa bay—Cape Recife light.

No. 423 (second publication).—The British Admiralty has given notice (No. 1116 of 1906) that Notice to Mariners No. 926 of 1906, relating to cape Recife light, Algoa bay, is hereby cancelled.

Further Notice will given.

Approximate position, lat. $34^{\circ} 1\frac{1}{2}'$ S., long. $25^{\circ} 42'$ E.

This Notice affects the following Admiralty Charts:—Cape St. Francis to Waterloo bay, No. 2085; Alg a bay, No. 642: Also, List of Lights, part VI, 1906, No. 15; and Africa Pilot, part III, 1906, page 125.

Note.--This cancels *Notice to Mariners No. 358, dated 21st September 1906, issued by this office.*

CHINA, EAST COAST—MIRS BAY.

Grass island—Shoal spit to the eastward.

No. 424 (second publication).—The British Admiralty has given notice (No. 1120 of 1906) that the 3-fathoms contour line off the east coast of Grass island, Mirs bay, to the south-westward of Kong chau (North Gau), extends in the form of a spit about 80 yards further to the north-eastward than is at present shown on the chart.

A rock, with a depth of 5 feet over it at low water, exists on the north-eastern extremity of this spit at a distance of $1\frac{1}{2}$ cables from the coast of Grass island, from it the summit of Kong chau bears N. 39° E., distant $3\frac{1}{2}$ cables, and Wintz hill N. 75° W. Within the 3-fathoms line the spit quickly shoals to a depth of only 9 feet over boulders.

The passage between Grass island and Kong chau should, therefore, no longer be used.

Approximate position, lat. $22^{\circ} 29' N.$, long. $114^{\circ} 22' E.$

This Notice affects the following Admiralty Charts:—Mirs bay, Nos. 1964, 3474; Long harbour and approaches, No. 3386: Also, China Sea Directory, vol. III, 1904, page 130.

CHINA, EAST COAST—HONGKONG APPROACH.

Fo tau mun pass—Rocks.

No. 425 (second publication).—The British Admiralty has given notice (No. 1121 of 1906) that a patch of rocks, with a least depth of 2 fathoms over them at low water, exists on the northern side of the Fo tau mun pass, in a position from which the rock (30 feet high) off Fo tau point bears N. 89° E., distant $1\frac{1}{8}$ cables, and the eastern point of Lamtong island S. 11° E.

There is a depth of 3 fathoms close southward of these rocks.

Approximate position, Fo tau point, lat. $22^{\circ} 15\frac{1}{2}' N.$, long. $114^{\circ} 18' E.$

(Variation 1° E. sterly in 1906.)

This Notice affects the following Admiralty Chart:—Hongkong, with plan of Fo tau mun pass, No. 1466: Also, China Sea Directory, vol. III, 1904, page 66.

PERSIAN GULF—KUWEIT APPROACH.

Ras al Arz—Shoal to the southward—Buoy established.

No. 426 (second publication).—The British Admiralty has given notice (No. 1131 of 1906) that a shoal with a depth of 2 fathoms over it, and 7 fathoms around, composed of mud and coral, on which the S.S. Kola grounded, exists on the western side of the approach to Kuwait harbour, in a position from which Hill fort bears S. 82° W., distant $3\frac{1}{2}$ miles, and the beacon on Ras al Arz N. 3° W.

A cask, painted red and surmounted by a red flag, has been moored on the shoal; but its existence must not be depended on.

Approximate position, lat. $29^{\circ} 17\frac{1}{2}' N.$, long. $49^{\circ} 7\frac{1}{2}' E.$

(Variation Nil in 1906.)

This Notice affects the following Admiralty Charts:—Persian gulf, No. 2837b; Kuwait harbour, No. 22: Also Persian gulf Pilot, 1898, page 155; and Supplement, 1905, page 19.

EASTERN ARCHIPELAGO—SUMATRA, SOUTH COAST—LAMPONG BAY.

Telok Betung light—Character altered.

No. 427 (second publication).—With reference to Notice to Mariners No. 374, dated the 6th October 1906, issued by this office, the British Admiralty has given further notice (No. 1139 of 1906) that the character of Telok Betung light has been altered from red fixed to white flashing every three seconds, thus:—light, one second; eclipse, two seconds. The light, which is now visible 12 miles, is of the 6th order.

In other respects the light is unaltered.

Approximate position, lat. $5^{\circ} 26\frac{1}{2}' S.$, long. $105^{\circ} 16\frac{1}{2}' E.$

This Notice affects the following Admiralty Charts:—Tyingkok bay to Sunda strait, No. 2761; Sunda strait and approaches, No. 2054; Telok Betung, No. 940: Also List of Lights, Part VI, 1906, No. 467; and China Sea Directory, vol. I, 1896, page 364.

INDIA, WEST—BOMBAY COAST.

Caution—Position of a capsized country craft off Mount Dilli.

No. 428 (second publication).—The Bombay Government has given notice (No. 114 of 1906) that the Master of S. S. *Florican* reports that at 3-30 P.M. he passed in latitude $11^{\circ} 55'$ N. and longitude $75^{\circ} 0'E.$, Mount Dilli bearing N. $66^{\circ} E.$, distant 16 miles, a two-masted country craft capsized with sails set and painted top side green and bottom white, number on side board 24050.

Caution.—This derelict is a great danger to navigators.

This Notice affects the following Admiralty Charts:—*Mulki to Mount Dilli*, No. 746; *Vizianadrag to Cochin*, No. 2737; *Vengur-a to Caps Comorin*, No. 827: Also *West Coast of Hindustan Pilot*, fourth edition, 1898, page 142.

INDIA, WEST—BOMBAY COAST.

Buoys between Aliag and Vengurla replaced.

No. 429 (second publication) — With reference to Notice to Mariners No. 240, dated the 25th June 1906, issued by this office, the Bombay Government has given further notice (No. 112 of 1906) that the undermentioned buoys were replaced in position on the dates marked against each:—

Buoy
Ambulgad Reef Buoy, Jaitapur	24th	" "
Málvan Harbour Buoys	19th	" "
Chaldea Rock Buoy	24th	" "
Málvan Outer Rock Buoy	21st	" "
Johnstone Castle Rock Buoy	22nd	" "
Vengurla Harbour Buoys	26th	" "
Bhatkal Buoy	20th	" "
Murdeswar Buoy	21st	" "

BAY OF BENGAL—SINGAPUR STRAIT.

Cyrene shoal—Wigham buoy to be painted white.

No. 430 (second publication).—The Acting Master Attendant, Straits Settlements, has given notice, dated 17th October 1906, that on and after the 1st December 1906 the superstructure of the Wigham buoy, moored off the Cyrene shoal, Singapur, will be painted white.

BAY OF BENGAL—BURMA COAST.

Caution—Position of a derelict reported.

No. 431 (second publication).—A telegraphic communication has been received from the Principal Port Officer, Burma, stating that the Master of the S. S. *Rampuna* reports having passed a derelict on lat. $16^{\circ} 16'$ N., long. $96^{\circ} 33'$ E. Mariners are hereby warned.

The 5th November 1906.

AUSTRALIA, NORTH COAST—MELVILLE ISLAND AND DUNDAS STRAIT.

Parry Shoal—Depth of water incorrectly shown on chart.

No. 409 (third publication).—The President of the Marine Board, Port Adelaide, has given notice (No. 15 of 1906) that the Master of the S. S. *Empire* reports that when passing Parry Shoal at 6 P.M. on the 6th May 1906, at a distance of half-a-mile, he noticed a very heavy break on the five-fathom Patch, marked on the Chart—

Lat. $11^{\circ} 10'$ S.
Long. $129^{\circ} 40''$ E.

From this the Master presumed that the depth of water as shown on the Chart is incorrect.

Mariners are warned to avoid the vicinity.

AUSTRALIA, SOUTH COAST—BACKSTAIRS PASSAGE.

Yatala Shoal—Buoy with spherical top placed.

No. 410 (third publication).—The President, Marine Board, Port Adelaide, has given notice (No. 16 of 1906) that, on or about 24th September, a buoy with a Spherical Top surmounted by a Half Globe, round side up, and painted red and white (horizontal bands), will be placed in five (5) fathoms L.W.S. on the N.W. side of the Yatala Shoal.

AUSTRALIA, SOUTH COAST—SPENCER GULF.

Middle bank lightship replaced in position.

No. 411 (third publication).—Referring to the removal of the light-vessel from Middle bank for overhaul, the President of the Marine Board, Port Adelaide, has given further notice (No. 17 of 1906) informing Masters of vessels and others that the lightship has been replaced.

This affects Admiralty Chart 8389B.

AUSTRALIA, SOUTH COAST—GULF OF ST. VINCENT.

Port Adelaide river—Additional new beacons placed—Amended sailing directions.

No. 412 (third publication).—The President, Marine Board, Port Adelaide, has given notice (No. 18 of 1906) that in accordance with previous notices, eight extra Beacons have been placed on the north and east side of the cutting. The Beacons are painted black, and the lanterns green, from which a green light showing towards the cutting is exhibited; a white light is also exhibited from the back of each lantern showing towards the shore.

All the green light Beacons are numbered from the first or seaward Beacon with the letter "G" added, as follows:—No. 0G being outside Beacon; No. 1G, near the reflecting Beacon; No. 2G, opposite the old boat channel. This light indicates the turning point from No. 2 (red) lead towards No. 3. All the others, that is, Nos. 3G to 9G, both inclusive, are placed opposite the corresponding numbers of the white light Beacons on the other side of the cutting.

All the single light Beacons are placed about 15 feet back from the cutting, and painted red to starboard and black to port. The lights are white to starboard and green to port from seaward.

The red light on the pile Beacon south of No. 3 being no longer required has been discontinued.

In consequence of the above alterations the sailing directions have been amended to read as follows:—

Sailing directions.

By Night.—In approaching the Anchorage, vessels of deep draught should not bring the white light on the old structure to bear north of N.E. by E. in order to avoid the four-fathom patch, which bears N.W. half N. from the light on Wonga Shoal; then get No. 1 lead (which consists of two red lights vertical 10 feet apart, and two white lights vertical 11 feet 9 inches apart) in line; keep these in line passing between the occulting light on the red buoy and the outer green light on the north bank, also between the other green lights on the north bank and the white lights on the revetment mound.

Steer on the same line until the two red lights of No. 2 lead are coming on; then steer with them in line until abreast of No. 2G Beacon; then direct the course to pass between No. 3 and No. 3G Beacons; and so on from Beacon to Beacon round the point until No. 9 is reached. From a safe distance off No. 9 the lights of No. 10 lead will be seen; keep them in line until the red light is about a quarter of a point open to the right of the white light of No. 11 lead; then gradually alter the course to bring the lights of No. 11 lead in line; keep them in line (a sharp look-out being kept for the mooring buoys on the starboard hand) until the lights of No. 12 lead are seen coming into line; proceed as before by altering the course before the lights are on with each other. The same applies in the change from No. 12 to No. 13 lead. When the lights on the wharves are seen opening out off Luff Point, alter the course so as to round the point at a safe distance, and then up the centre of the channel, looking out for the mooring buoys on the starboard hand.

In going outwards the directions are just the opposite to those given for coming inwards; but in such case, in changing from one lead to another, the course should be gradually altered when abreast of the low (red) Beacon of each lead, except No. 2 lead. In this case, when abreast of No. 3 Beacon, gradually alter the course to a safe distance off No. 2G until the two red lights of No. 2 lead are in line, then proceed outwards with No. 2 lead in line.

By Day.—The directions by day are the same as by night, merely substituting the Beacons for the Lights.

This affects Admiralty Charts 2389 A and B, 1750 and 1752.

During the progress of the work at the Light's Passage Harbour Works, masters of vessels exempt from pilotage may, if they so desire, avail themselves of the services of a pilot to assist them in passing such works, either in or out, at one-half the usual rates.

If the usual exemption flag is not hoisted it will be taken as a signal that a pilot is required. At night if a pilot is required the usual signal for a pilot should be shown.

N.B.—Owing to the nature of the work in progress, this notice may require to be amended from time to time, and therefore should be treated as tentative only.

AUSTRALIA, SOUTH COAST—SPENCER GULF.

Corney Point light—Alteration in character.

No. 413 (third publication).—The President, Marine Board, Port Adelaide, has given notice (No. 19 of 1906) that it is intended, on or about the 1st January 1907, to alter the characteristics of the above Light in the following respects:—

Instead of the Light being obscured over the Webb Rock and thence inshore as at present, a Red Sector will be shown over this Arc, i.e., between the bearings of N.E. $\frac{1}{2}$ E and N.E. by N. $\frac{1}{4}$ N., where it is shut in by the first point to the Southward of the Light-house.

The Red Sector will be visible for 14 miles, the full range of the Light.

This affects Admiralty Chart No. 2389 A.

Note.—This cancels Notice to Mariners No. 379, dated 6th October 1906, issued by this office.

CHINA—YANG TSE KIANG.

Harvey point channel—Buoys removed. Acton shoal—Colour of S.E. Spit buoy altered.

No. 414 (third publication).—The British Admiralty has given notice (No. 1091 of 1906) that, owing to the disuse of Harvey point channel, Yang tse kiang, the buoys marking it, viz., Cone Tree buoy, N.E. Acton buoy, the Fairway buoy, and Mason Bank buoy, have been withdrawn.

A red spar buoy has been placed in the position formerly occupied by Mason Bank buoy for the guidance of native craft.

The S.E. Spit light-buoy, formerly painted in red and black vertical stripes, has been painted red.

Approximate position, S.E. Spit buoy, lat. $31^{\circ} 35\frac{1}{2}'$ N., long. $121^{\circ} 18\frac{1}{2}'$ E.

This Notice affects the following Admiralty Chart:—Shanghai to Nanking, No. 2809: Also China Sea Directory, vol. III, 1904, page 431.

CHINA—YANG TSE KIANG ENTRANCE.

South channel—Buoys established.

No. 415 (third publication).—The British Admiralty has given notice (No. 1095 of 1906) that a good channel having been formed through the banks of the South channel, Yang tse kiang entrance, northward of Tungsha light-vessel and Middle ground, this channel would, on or about the 5th August 1906, be buoyed provisionally as follows:—

(a) Tungsha bank buoy, red conical, surmounted by staff and black ball, moored in a depth of 25 feet at low water to the south-eastward of the Tungsha banks, at a distance of 8 miles, S. 77° E., from Tungsha light-vessel.

(b) Tungsha buoy, red conical, surmounted by staff and black triangle, moored in a depth of 18 feet, to mark the southern edge of the Tungsha banks, at a distance of $2\frac{1}{2}$ miles, N. 17° E., from Tungsha light-vessel.

Approximate position, Tungsha light-vessel, lat. $31^{\circ} 8\frac{1}{2}'$ N., long. $122^{\circ} 0'$ E.

(c) House island buoy, red spherical, moored in a depth of 17 feet, to mark the edge of the bank extending south-eastward from House island, at a distance of 4 miles, S. 48° E., from House island beacon.

- (d) House island crossing buoy, conical, painted in red and black vertical stripes, surmounted by staff and black diamond, moored in a depth of 17 feet, to mark the crossing on to the Kiutoan flats, at a distance of $1\frac{1}{2}$ miles, S. 47° W., from House island beacon.
- (e) Kiutoan flats buoy, black conical, moored in a depth of 17 feet, to mark the northern edge of the Middle ground, at a distance of $2\frac{1}{2}$ miles, S. 86° W., from House island beacon.

Approximate position, House island beacon, lat. $31^{\circ} 16\frac{1}{2}'$ N., long. $121^{\circ} 51\frac{1}{2}'$ E.

(Variation 2° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Kue shan islands to the Yang tse kiang, No. 1199; approaches to the Yang tse kiang, No. 1602: Also China Sea Directory, vol. III, 1904, pages 406–408.

EASTERN ARCHIPELAGO—CELEBES—GULF OF BONI.

Cape Tabako—Reef to the north-westward.

No. 416 (third publication).—The British Admiralty has given notice No. 1101 of 1906 that a reef, about 50 yards in extent, with a depth of 10 feet over it at low water, exists to the north-westward of cape Tabako, gulf of Boni.

Approximate position, lat. $3^{\circ} 12\frac{1}{2}'$ S., long. $120^{\circ} 47\frac{1}{2}'$ E.

This Notice affects the following Admiralty Charts:—Eastern Archipelago, western portion No. 941b; Eastern Archipelago, eastern portion, No. 942a: Also Eastern Archipelago, Part II, 1904, page 354.

EASTERN ARCHIPELAGO—BALI ISLAND—BALI STRAIT.

Lichin Point—Light buoy established.

No. 417 (third publication).—With reference to Notice to Mariners No. 251, dated 26th June 1906, issued by this office, the British Admiralty has given further notice No. 1105 of 1906 that a light buoy, exhibiting a *white occulting light every twenty seconds*, thus:—light, ten seconds; eclipse, ten seconds, and visible in clear weather from a distance of 6 miles, has been moored off Lichin Point, Bali, strait.

Approximate position, lat. $8^{\circ} 7\frac{1}{2}'$ S., long. $114^{\circ} 25\frac{3}{4}'$ E.

This Notice affects the following Admiralty Charts:—Java island, No. 1654; plan of Bali strait on No. 934. Also Eastern Archipelago, Part II, 1904, page 147.

EASTERN ARCHIPELAGO—SUMATRA, NORTH-EAST COAST—ARU BAY.

Babalan channel—Tide-gauge established.

No. 418 (third publication).—The British Admiralty has given Notice No. 1106 of 1906 that a tide-gauge, surmounted by a red ball, has been erected in Babalan channel, Aru bay, between the black light-buoy at the entrance to the Babalan river, and the white conical buoy northward of it.

Approximate position, black light-buoy, lat. $4^{\circ} 6'$ N., long. $98^{\circ} 19'$ E.

This Notice affects the following Admiralty Chart—Aru bay, No. 3586: Also China Sea Directory, vol. I, 1896, page 78: and Supplement, 1899, page 7.

JAPAN (NIPON)—YOKOHAMA BAY.

Mandarin bluff—Light-buoy to the north-east withdrawn.

No. 419 (third publication).—The British Admiralty has given Notice (No. 1107 of 1906) that the red conical buoy, exhibiting a white fixed light, shown on the chart at a distance of $9\frac{1}{2}$ cables, N. 50° E., from Mandarin bluff, Yokohama bay, has been permanently withdrawn.

Approximate position, lat. $35^{\circ} 26\frac{1}{2}'$ N., long. $139^{\circ} 40\frac{1}{2}'$ E.

(Variation 4° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Gulf of Tokyo, No. 2657: Yokohama to Uraga, No. 3548; Yokohama bay, No. 3109.

CHINA, NORTH—MANCHURIA—PECHILI STRAIT—KWANG TUNG PENINSULA.

Port Arthur - Mines removed in approach.

No. 420 (third publication).—With reference to Notice to Mariners No. 131, dated 12th April 1906, issued by this office, the British Admiralty has given further notice (No. 1112 of 1906) that the mines in the western approach to Port Arthur have been cleared away.

Vessels, however, must still exercise due caution, as solitary mines may yet exist on this area, though it is believed that the sweeping operations carried out have been effective.

The cautionary note respecting mines will, for the present, be retained on the charts until it is known that the whole coast in this locality is free from these dangers.

Approximate position, Port Arthur, lat. $38^{\circ} 47' N.$, long. $121^{\circ} 16' E.$

(Variation 4° Westerly in 1906.)

This Notice affects the following Admiralty Charts:—Gulf of Pechili and Liau tung, No. 1256; Kwang tung peninsula, No. 1798: Also China Sea Directory, vol. III, 1904, pages 592, 594.

The 29th October 1906.

ST. L. S. WARDEN, COMDR., R.I.M.,
Port Officer of Calcutta.

APPENDIX TO
The Calcutta Gazette.

WEDNESDAY, NOVEMBER 14, 1906.

REMOVAL OF THE PRESIDENCY COLLEGE.

GENERAL DEPARTMENT—EDUCATION.

Dated Calcutta, the 13th November 1906.

READ—

RESOLUTION No. 2624.

Circular No. 9T.—G., dated the 17th May 1905, and the replies thereto.

IN April 1905, in the course of the debate in Council on the budget for the year 1905-1906, the Hon'ble Babu Bhupendra Nath Basu referred to the fears which had been entertained in some quarters that, in view of the new College which it was proposed to establish at Ranchi, the interests of the Presidency College might be neglected, and that the latter institution might ultimately cease to exist. He referred to the assurance which had been given by Sir Andrew Fraser that there was no intention on the part of the Government to do away with the Presidency College, and he appealed to the Government to strengthen the College and widen its sphere of usefulness. In the course of his remarks, he drew a picture of a resuscitated Presidency College, the realisation of which

would involve the removal of the Presidency College from its present site in the heart of Calcutta to a site somewhere in the suburbs where ample space would be available. In summing up the debate Sir Andrew Fraser touched upon this subject. He recognised that in the case of the Presidency College very considerable improvement was required in regard to the important matters of accommodation for the students and bringing them more into contact with their Professors, and he promised to consider, in consultation with his official advisers and others interested in higher education, what steps should be taken to secure such improvement.

2. Accordingly, in May 1905, a circular letter was addressed to a number of prominent persons, official and non-official, inviting them to favour the Government with an expression of their opinion on the proposal for the removal of the Presidency College to a better site in the suburbs of Calcutta. The replies received to this letter disclosed a considerable variety of opinion. Officers of the Educational Department were generally in favour of the removal of the College, while of the other gentlemen consulted, some were for, and others against, removal. Those who prefer the present site attach importance to the traditions with which it is associated and to its accessibility in the case of those students who live in Calcutta with their parents and guardians, and who are perhaps unable to afford the expense of living at a hostel. They represent that if the College be removed to a place outside Calcutta, the expense of conveyance to and from the College might prove burdensome in some cases. On the other hand, those who would prefer a new site in the suburbs point to the necessity of room for expansion and to the other advantages which might be secured in the shape of closer contact between the teachers and taught, more commodious buildings, extensive play-grounds in close proximity, a better moral atmosphere, and more healthy surroundings.

3. Estimates have been prepared of the cost of improving the College *in situ* and of transferring it to a new site. The cost of each of the two schemes which have been sketched for this purpose is nearly the same and approximates to twenty lakhs of rupees. But it will be understood that the estimates claim to be no more than rough estimates of comparative cost. In respect to the cost of removal, the value of the land now occupied and the buildings upon it, have been taken into account.

4. Before any scheme of improvement can be laid before the Government of India, it is desirable that the question of the future location of the College should be subjected to a more extended examination. The Lieutenant-Governor is unwilling to take any further steps in the matter until he is more fully informed as to the trend of public opinion on this question, and as to the reasons for any difference there may be between the views prevalent in the metropolis and those which find acceptance in the districts. The present Resolution therefore has been recorded in order to give a wider publicity to the discussion and to ascertain, so far as possible, the state of public feeling on the subject both in Calcutta and in the *mufassal*. The Resolution will be published in the *Calcutta Gazette* and copies will be forwarded to public bodies and Associations, who will be invited to favour the Lieutenant-Governor with their opinions. His Honour will also be glad to consider communications addressed to the Government by persons interested in the future of the Presidency College.

ORDERED, that the Resolution and the papers referred to in the preamble be published in the *Calcutta Gazette*, and that copies be forwarded to public bodies and Associations with a request that they will be so good as to favour the Lieutenant-Governor with an expression of their opinion on the question whether the Presidency College should be transferred from its present site to a site in the suburbs of Calcutta.

By order of the Lieutenant-Governor of Bengal,

T. W. RICHARDSON,

Offg. Secy. to the Govt. of Bengal.

Circular No. 9T.—G., dated Darjeeling, the 17th May 1905.

From—H. W. C. CARNDUFF, Esq., C.I.E., I.C.S., Officiating Secretary to the Government of Bengal, General Department,

To—(1) Sir Guru Das Banerjee, Kt.; (2) the Hon'ble Babu Bhupendra Nath Bose; (3) the Hon'ble Justice Sarada Charan Mitra; (4) the Hon'ble Justice Ashutosh Mukherji; (5) the Hon'ble Mr. K. G. Gupta, I.C.S.; (6) the Commissioner of the Presidency Division; (7) Babu Nalin Behari Sarkar; (8) Maulvi Seraj-ul Islam, Khan Bahadur; (9) Dr. P. K. Ray; (10) Dr. E. D. Ross; (11) G. W. Kuchler, Esq.; (12) M. Prothero, Esq.; (13) J. Cunningham, Esq.; (14) V. H. Jackson, Esq.; (15) the Revd A. B. Wann, Principal, General Assembly's Institution; (16) the Revd. A. Tomory (Duff College); (17) Dr. J. C. Bose; (18) Kai Chuni Lal Bose, Bahadur; (19) Rai Sita Nath Roy, Bahadur; (20) Mr. Surendra Nath Banerji (Principal, Ripon College).

I AM directed to forward herewith copies of the papers noted on the

(1) Extract from the Hon'ble Babu Bhupendra Nath Bose's speech in Council.

(2) His Honour the President's reply to the above.

(3) The Director of Public Instruction's note dated 19th April 1905.

(4) Dr. P. K. Ray's letter dated 16th April 1905.

margin, and am to say that His Honour the Lieutenant-Governor will be much indebted to you if you will favour him with an expression of

your opinion on the proposal for the removal of the Presidency College to a better site in the suburbs of Calcutta.

Extract from the Speech of the Hon'ble BABU BHUPENDRA NATH BOSE on the occasion of the Budget Discussion for 1905-1906.

"Sir, I tread on delicate ground when I refer to the expenditure of Rs. 1,00,000 on the Ranchi Model College. I am aware of the difference of opinion which attaches to this scheme. Fears have been entertained in some quarters that the growth of the Ranchi Institution may choke the life of the Presidency College, which has been endeared to us by its long and varied associations. It carries us back to the days of the old Hindu College, to times when the Western scholar had to establish his claims against the ancient forms of the East; it has given us Educationists whose names are remembered with affection and pleasure; it has given us men whom we have learnt to look upon with pride. It serves as an exemplar to educational institutions all over the Province, and it is the centre of our hopes and aspirations. Any action which threatens to undermine its foundations are viewed with dismay. We have Your Honour's assurance that it is not intended to let the Presidency College die. Your Honour will pardon those of my countrymen who fear that Your Honour's successors may disregard your assurance, and that a day may come when the Presidency College may cease to be.

"They point out, not without reason, that solemn pledges contained in Parliamentary Statutes and Royal Proclamations have not always been fulfilled: that assurances made to the ear have been broken to the hope; and that a succeeding Government may feel no compunction in upsetting the decision of its predecessor. I for my part do not share these fears. Whatever may be the fortunes of the Ranchi College,—whatever the intentions of any future Rulers of Bengal,—it is not possible to conceive that the seat of the foremost University in British India,—the seat of the Supreme and Provincial Governments,—the seat of the highest Courts and the principal public offices,—the centre of all educational activity,—should be without an exemplary educational institution in the country.

"To the people in the mufassal, Calcutta with its congested population, its outbreaks of epidemic diseases, its dangerous attractions and its general expensiveness, it is no easy matter to send boys to be educated in the Presidency College. To parents in Calcutta when a boy is sickening in the close and pestilential atmosphere of the town, it is difficult to find where to send him to without a break in his studies. The Ranchi College will not supplant the Presidency College, just as Darjeeling, nay, even Simla, has not supplanted Calcutta, but it will supply a long-felt want. In its hostels grouped together will live the Hindu and the Mussulman, the patrician and the plebeian; and in the warm days of youth they will contract friendships which will bind them as citizens and will be no mean factors in the evolution of India.

"Sir, whatever may be said of the Ranchi College Scheme, I think public opinion will unanimously support me in my prayer to strengthen the Presidency College and widen its sphere of usefulness. It has to maintain its position against powerful Missionary Colleges and active private institutions. No expense will be grudged by the country in giving the Presidency College the most efficient staff. As an old student of the College, I remember with pleasure and pride the days when we sat at the feet of men like Sutcliffe and Woodrow, Croft and Tawney, Elliott and Pedler Their sympathy with the students is still remembered with affection, their influence still permeates our life. Nor is this all. If the Presidency College is to fulfil its destiny, it must be converted into a residential College with large and healthy hostels and extensive recreation grounds, where the teacher and the taught may meet untrammelled by the formalities of the class room. Your Honour's sympathy with the cause of higher education is well known. Surely, Calcutta and all Bengal may expect what Your Honour has given to Dacca, and a resuscitated Presidency College with its unrivalled laboratories and library, surrounded by neat and nice-looking quarters for the students and the Professors, overlooking a broad playground, skirting it may be the river or the canal, will be an institution which will worthily commemorate Your Honour's rule."

Extract from Lieutenant-Governor's Speech in the Budget Debate.

"As to the suggestions made regarding the Presidency College, I shall see that they receive early and careful consideration from the Educational authorities. That very considerable improvement is required in regard to the important matters of accommodation for the students and bringing them more into contact with their Professors, I have no doubt whatever; and I shall be very glad to consider, in consultation with my official advisers and with others interested in higher education, the steps which should be taken to secure such improvement."

HIS HONOUR'S note dated the 13th April was received by me on the afternoon of Saturday, 15th April, and as I am leaving for England on Thursday, 20th, there is little time for me to give a very complete reply to the questions raised, or to discuss all the problems which are connected with the case.

I have asked the Department of Public Works to kindly supply the maps and figures required in His Honour's note, paragraph 2 (a) and paragraph 3, and hope to get them in time to forward with this note.

The remarks in the speech of the Hon'ble Babu Bhupendra Nath Bose in the recent Budget Debate in the Bengal Council on the subject of a remodelled Presidency College, together with His Honour's remarks in reply, raise a question on which to a large extent the future of high education in Bengal will depend, and which must be dealt with in a large and liberal spirit.

The question must be looked upon not as one dealing only with the Presidency College itself or even with Bengal alone. The Presidency College had been for many years far ahead of all other Colleges in India as regards the staff maintained and its appliances for a high standard of teaching. It had always been looked on as not only a model College in Bengal, but a model College in India. It also always has been what may be called a day or non-residential College. On account of its situation, in one of the most densely populated parts of Calcutta, with very little room for expansion, this feature of the Presidency College has been almost unavoidable. But there is no doubt that this has had an unfortunate effect on the character and type of high education which has hitherto been current in Bengal.

During recent years however great efforts have been made, and with considerable success, in other Provinces, to raise the standard of high education with its corresponding teaching.

In the Presidency College in Madras, for instance, the staff is now excellent; the College buildings are very fine. The College has a very fine Biological Laboratory, by far the best in India, together with good Physical Science Laboratories, distinctly better than those in the Presidency College, Calcutta, and a fairly good Chemical Laboratory, which is however not so good as that in Calcutta.

In the United Provinces, at the Muir College, which is a very fine new building, the laboratories for Physical Science and Chemistry are now better than those of Calcutta, and the teaching staff both in Madras and Allahabad is fairly strong.

The Punjab Government College at Lahore is a fine building. The teaching appliances in it are being improved rapidly, though still behind Calcutta, Madras, and Allahabad. In Bombay the Elphinstone College has a good building, but the less said about the teaching appliances for Science the better. Rapid progress is however the order of the day in India, and with new Regulations under the Indian Universities Act of 1904, a raising of the standard still further will be required.

It will be well perhaps to place on record just a few points with reference to the history of the Presidency College, Calcutta, in its present form.

The existing building (less the extension for the Chemical Laboratory) was erected about 1873, and was opened by Sir George Campbell (then Lieutenant-Governor) either in 1873 or early in 1874. It was a collection of empty halls and rooms of various sizes, the rooms being in no way designed for any special purposes in teaching. No such arrangements as separate Laboratories and Lecture rooms for teaching various subjects in Science such as Physics and Chemistry had been thought of.

At that time also the number of students in the College classes was about a half of what it is now. The figures of the students in the Presidency College in 1873 appear to be about 385. There are now about 764* students attending the College.

My appointment as Professor of Chemistry in the Presidency College dates from May 1873. I was at first given two or three rooms in a house on the opposite side of College Street as a Chemical Laboratory. Later on I was allowed to use the disused Hare School which I had fitted up. The Professor of Physical Science was accommodated in two or three large rooms in the basement of the new Presidency College, which had in no way been designed for Science work. Later on, other rooms on the first floor of the College were taken for lecture rooms in Physical Science. As the Chemical Department grew, I was allowed to design an addition to one of the wings of the College building as a Chemical Laboratory. This was erected (I think) fifteen years ago, and was a vast improvement. When the Chemical section went into its new building, the Physical Science section took in the old Hare school building for certain necessary extensions, so that the Physics Department is now accommodated in no fewer than three parts of the College, all separate from one another.

In addition Geological classes had to be started in a tentative form in the Presidency College some years ago, and a couple of ordinary rooms had to be given up for that purpose.

Still more recently Biological classes have been started, and this Department has also been given a coup'e of rooms quite unsuited for the work.

Both the Geological and Biological rooms have had of course to be fitted up as best could be done.

Then in addition to the B.A. Science classes in the College it has been necessary to open and provide for classes for the B.Sc. Degree. Astronomical classes and observatories have also had to be provided.

During recent years, too, a considerable number of research students have been deputed to work in the College.

Most recently of all, Commercial classes have been added on to the curriculum of the Presidency College, which will, when the recognised scheme comes into existence, make large additional demands on the accommodation available.

Now the complaint has been coming for the last few years that owing to the large increase in the number of students attending the College, and to the great number of different subjects which have to be taught in any system of modern education, that the College is far too small and too cramped for its requirements.

In addition to complaints concerning the unsuitableness of many of the adaptations as detailed above, each Professor says he requires more space for the teaching of his own science.

It is also beginning to be felt that the College staff, though relatively to other Colleges a very large and a very strong one, is still not equal to the work which should be required to be carried on in the model College of India.

There are also complaints about the discipline of the students out of College hours. It is true we have a large Hostel (the Eden Hostel) for the College, but this is not enough. It holds say 200 students, but it is situated in a bad quarter of the town, and undoubtedly the conditions of residence of the students both in and out of the Hostel (and in messes) might be very greatly improved.

I made some enquiries into the requirements of the Presidency College some three or four years ago, but could do nothing, as there were no financial resources available for extensive additions. One of the objects, however, that I have steadily kept in view has been the urgent necessity of keeping up the prestige of the Presidency College, and before my retirement to try to arrange for it to occupy fully the position which should be assigned to it. Certain plans for the extension of laboratories and teaching appliances have been submitted during the last three or four years by individual Professors, but I postponed them, first till the discussion about the Ranchi College scheme had taken definite shape, and then till I could get a comprehensive and well digested scheme.

Some months ago, I asked the Principal of the Presidency College to consult his Professors, and specially the Science Professors; and to submit a complete scheme of what was required to place the College on a really satisfactory basis.

Again too at my official inspection of the Presidency College about six weeks ago, I made some inspection remarks on the subject of the Presidency College being kept up to the mark, and the necessity for it to fulfil the place assigned to it of being a model College for Bengal at all events, if not for the whole of India.

During my inspection also I discussed the question of possible extension with the Official Principal, Dr. P. K. Ray, and with some of the Professors. The result of this is that

a certain scheme has been submitted to me by the Principal, which I append to this letter in original, with the plans referred to in the Principal's letter.

In the discussions which have taken place it is clear that the view is strongly held that it is necessary that the Presidency College should be improved or perhaps remodelled, and that this is so is perhaps not to be wondered at, for what was good enough and large enough 32 years ago is certainly not to be expected to fulfil the wants of education in Bengal at the present time.

We have also to remember that the Calcutta University may under its new Regulations require not only improvements in buildings and teaching appliances, but may also require Colleges to be more of a residential type than formerly.

There appear to be several possible directions in which action may be taken to improve the Presidency College :—

A.—Land might be taken up in the neighbourhood to allow—

- (1) for the necessary extension and development of the College, and for building two or three new and self-contained Science Laboratories ;
- (2) to build a house for the Principal ;
- (3) to build houses for some or all of the Professors, both European and Indian ;
- (4) to increase the hostel accommodation and to bring the hostels under more strict supervision ;
- (5) to provide play grounds.

The cost of **A** would probably be prohibitive.

B.—The plan might be limited to (1) of **A** only, and other things left as they are. The cost of this would be much smaller.

C.—**B** might be done, and the hostel arrangements might be made at some place outside Calcutta, the students coming to and from the College by tram. If **C** were carried out it would be well to construct a house for the Principal and some of the staff near the hostel or hostels for the purpose of supervision.

If **C** were carried out also, the Eden Hostel might be made over to the Medical College authorities, for I have learned in correspondence with the Principal, Medical College, and the Inspector-General of Civil Hospitals, Bengal, that such a hostel is rather urgently required for that College.

There are of course a good many arguments in favour of this course, but the plan is open to the objection that not only the staff would, as at present, reside far from the College, but that the students would be also removed from close proximity to their place of work.

D.—Another scheme would be to build any necessary extensions of Science Laboratories at some distance from the existing Presidency College, and for the students to come backwards and forwards from one set of lectures to another. This has been suggested, but I could not possibly recommend the scheme in the form in which it has been put forward.

If it had been proposed to have purely an Arts College in one place, and purely a Science College in another, it might possibly have been discussed.

E.—The best possible course would be to remove the Presidency College and its hostels, etc., bodily to some open place in the outskirts of Calcutta, and to start a new and improved College there, making it as far as possible of a residential type, and with its own recreation grounds attached. This is the scheme put forward by Dr. P. K. Ray in the letter which I forward.

Possibly if **E** were considered, the existing Presidency College buildings might be of use to the Calcutta University for (1) ordinary examination purposes ; (2) laboratories for research, and for the practical examinations in science ; (3) a Calcutta University Library, and (4) an institution in connexion with the Calcutta University, like the existing Calcutta University Institute, but on a much larger scale.

Again also, if **E** were carried out, the Eden Hostel would be found of the greatest possible use to the Medical College, as enabling them to secure a convenient residence for their students close to the Hospital.

These questions will however have to be approached with great care and caution, for it will not do to allow the Indian public to think there is any intention to harm the College or to remove it from Calcutta.

If **E** were adopted there is much to be said in favour of such a site as is proposed by Dr. P. K. Ray. Another exceptional site might be Kidderpore House, if it is ever given up by its present occupants, for it is now Government property. There are also excellent sites in such places as Ballygunge, Tollygunge, and on Diamond Harbour Road, etc., all of which will shortly be brought within easy reach of the tramway.

As suggested by His Honour the best plan would be to have the case considered by a small committee. As names for such a committee, I would suggest Sir Guru Das Banerjee, Hon'ble Babu Bhupendra Nath Bose, Justice Sarada Charan Mitra, Justice Ashutosh Mukherjee, Mr. K. G. Gupta, the Commissioner of the Presidency Division, Babu Nalin Bihari Sarkar, Maulvi Siraj-ul-Islam, Dr. P. K. Ray, Dr. E. D. Ross, Mr. Kuchler,

Mr. Prothero, Mr. Cunningham, and Director of Public Instruction, with Mr. V. H. Jackson as Secretary.

If His Honour would preside at the Conference, it would be most popular, and add largely to its weight and influence.

I enclose Dr. P. K. Ray's letter and enclosures in original.

These and those notes will, I suppose, be printed. If so, I should be greatly obliged by six or eight spare copies being sent to me. The return of the original enclosures to Dr. Ray's letter is requested.

The 19th April 1905.

A. PEDLER.

No. 450, dated Calcutta, the 16th April 1905.

From—P. K. RAY, Esq., D. Sc., Offg. Principal, Presidency College, Calcutta,

To—The Director of Public Instruction, Bengal.

I HAVE the honour to forward, in original, the suggestions I have received about the requirements of this College from the members of the Instructive Staff in response to my memorandum forwarding copy of your remarks on the occasion of your last visit and inviting them to make suggestions.

2. It will be seen that these suggestions refer to three main subjects:—

- (1) The removal of the College to a better site where it may be converted into a Residential College as required by the University Act;
- (2) The extension of the present Physical and Chemical Laboratories and the building of new laboratories for Biology and Geology, etc., etc., and
- (3) The general organization of the College and the enlargement of the teaching staff. I will take these subjects in order.

I.—Removal of the College to a better site.

3. On the occasion of your last visit I spoke to you of the possibilities of extension of the College on the present site and showed you the lands to the west of it. I annex a plan of the site showing the plots that may be acquired and the *pukka* buildings, etc., that stand on them. You suggested that for the purposes of the College, that is for the extension of the Physical and Chemical Laboratories and the construction of new laboratories in Biology and Geology and for a separate hall for a common room, for a gymnasium and for the residences of the Principal and two Professors of the College, the plot marked by the red line A, B, C, D, E, as shown on the plan, and containing about 15 bighas and 3 cottahs, would be sufficient. This would leave no space for the residences of other Professors or for the extension of hostel accommodation for students or for the Superintendent or Assistant Superintendent of the Hostel. For this purpose I suggested that the plot marked by the red line, E, D, F, G, as shown on the plan and containing 3 bighas should also be acquired. This plot is close to our Hostel, on the opposite side of the road to the north, and is a very bad *bustee* at present. The total cost of acquiring both the plots would be about six lakhs. Even if both the plots were acquired, the College would not be residential. There is no possibility of ever having a residential College on the present site. The College has at present no play grounds. It is impossible to have them on the present site. It must be admitted that adequate play and recreation grounds are absolutely necessary for a College in order that the students may be kept occupied in the afternoon and thus acquire a love for health and strength along with their love of study and knowledge,—in order, in short, that the evil effects of excessive mental exercise may be counteracted by corresponding physical exercise. It is therefore desirable to pause and reflect whether the College should be extended on its present site or removed to a better site in the suburbs, where in the near future there might be constructed a residential College with extensive play and recreation grounds as required by the University Act.

4. This question was considered by the Instructive Staff at one of their recent meetings, and the following resolution was adopted by them:—

"That this meeting recognising that the present situation of the College is incompatible with the terms of the University Act with respect to a residential College desires to urge on Government the necessity of removing the Hostel and College to a better site in the suburbs of Calcutta."

5. I beg to submit my suggestions for giving effect to this resolution.

A site may be easily acquired of about three hundred bighas in the northern suburbs at a distance of only three miles from the College. It is bounded on the south by a public road which runs to the east and is known as Dum-Dum Road, and which runs to the west to the river and is known as the Gun Foundry Road. To the north we may go as far as we care, and the same remark applies to the east. On the western side the site is bounded

by the broad Cossipore Road. A plan of the site is annexed hereto which will show its situation and surroundings. The site consists mainly of old garden lands, and there are very few *pucka* buildings on it. As the river is not far, as the northern part of Calcutta where reside the gentry whose sons attend lectures at the Presidency College is only two miles or less, as the grounds are high and extensive and capable of great extension, where it is not improbable the private Colleges might migrate in future, moreover as it is proposed to extend the tram line close to it and take the line by its southern and western boundaries, the site selected seems to be admirably suited for the location of the "Premier College" of Bengal.

6. The cost of acquiring this extensive site would not, I believe, be more than that of acquiring the 18 bighas on the present site of the College.

7. At a rough estimate the site and buildings would cost about 25 lakhs. Of this amount 10 to 12 lakhs might be obtained by selling off the present site and buildings of the College either to the University or to private buyers. The remaining 15 lakhs might be advanced by Government in two or three years. The estimated cost is shown below:—

	Lakhs.
Cost of site	6
College Buildings	6
Physical Laboratory	2
Chemical Laboratory	2
Biological Laboratory	1
Geological Laboratory	1
Astronomical Observatory	1
Hall for common room, etc.	1
Gymnasium and out-offices	1
Clearing, levelling, draining, laying out grounds, etc.	1
Residences of Professors	3
Total	25

As regards hostels for students on the new site, I believe the proceeds from the sale of the present buildings and site of the Eden Hindu Hostel would be sufficient to construct new buildings on improved plans. The present site and buildings might be sold either to private parties or reserved by Government for the students of the Medical College for whom I understand hostel accommodation is needed, and their estimated value might be credited to the new Presidency College.

II.—Extension of the Physical and Chemical Laboratories and the building of new Laboratories in Biology and Geology, etc., etc.

8. On this subject I would refer to the original letters and notes of the Professors appended to this letter (see notes by Mr. Kuchler, Mr. Cunningham, Mr. Mahalanabis, Mr. Hayden and Dr. Cullis). They suggest that each laboratory should be located in a separate building, as in Germany.

In Germany and America and also in England, a Psychological Laboratory has become almost as common as a Physical or Chemical Laboratory. It would be desirable therefore to make provision for it in the proposed new College.

9. A separate hall which may be used as a common room by students and Professors and which may be converted into a large Lecture Room or a Theatre whenever required is a matter of necessity for social intercourse between students and Professors outside college classes.

10. A large gymnasium in the German fashion is absolutely necessary. It should be equipped with all the latest implements of physical exercise as well as provided with the old instruments, such as were once prevalent in India.

11. The grounds should be well laid out for walks as well as for games and sports.

12. On the occasion of your last visit you have been pleased to remark:—

"The College has a very high reputation to maintain. There are over 140 scholarship-holders of various degrees working and reading in the College, so that it contains the cream of those under education in Bengal, and all concerned must realise this and work at the highest possible pressure. It is well to remember that the standard set in all matters in the Presidency College will react generally on collegiate education in Bengal. Great responsibility therefore rests not only on the Principal but also on every professor and teacher in the College, and work of each should be such as will set a proper standard in his own special subject."

13. In order to realise the ideal indicated in the above lines and to raise the College to the level of one in Europe or America it would be necessary to enlarge the teaching staff and to organize the College in such a way as would call forth the greatest individual and collective effort and promote the highest corporate and individual life.

14. On the third subject, namely the general organization of the College and the enlargement of the teaching staff, a separate communication will be submitted in continuation of this.

Dated Narikeldanga, Calcutta, the 23rd May 1905.

From—SIR GURU DASS BANERJEE, K.T.,

To—The Offg. Secretary to the Government of Bengal, General Department.

I RECEIVED yesterday your letter (Education Circular No. 911.—G.), dated the 17th May 1905, in which you have done me the honour of asking my opinion on the proposal for the removal of the Presidency College to a better site in the suburbs of Calcutta.

2. In reply I beg to submit the following observations for the consideration of His Honour the Lieutenant-Governor.

3. On going through the copies of papers you have been good enough to send me, I find that the improvements in the Presidency College which have been considered necessary or desirable, are—

- (i) the conversion of the institution into a residential College, by having suitable hostel accommodation and play-grounds for students, and houses for the Principal and Professors, close to the College building;
- (ii) the extension of the physical and chemical laboratories, the erection of new laboratories for Biology, Geology and other sciences, and the building of more lecture-rooms; and
- (iii) the strengthening of the teaching staff.

And it is mainly for the purpose of effecting improvement (i) that the removal of the College to a suitable site in the suburbs of Calcutta has been recommended as necessary.

4. While yielding to none in my desire to see the Presidency College, which is the premier College in Bengal and which should be the model College for India, fitted with every possible improvement, and while speaking with all deference for the views of the Hon'ble Babu Bhupendra Nath Bose and Mr. Pedler and Dr. P. K. Roy, which I believe are shared by most European educationists and by many of my own countrymen, I feel bound to say that the conversion of the Presidency College into a residential College is not desirable in the existing state of things, and is not necessary for increasing its efficiency. My reasons for taking this view may be shortly stated thus:—

In the first place, improvements (ii) and (iii) are of much higher importance than improvement (i), and ought to be effected fully before the latter can claim our attention; but the funds available will not leave much for the former purpose if they are applied in the first instance to the latter.

In the second place, the advantages of a residential College are not so clear and unquestionable as they are generally supposed to be, specially when the number of students is so large as it is in the case under consideration. For personal influence of the Principal and the Professors will reach only a few, and the supervision for the most part will be mechanical and a matter of routine; and discipline under such supervision must be far less salutary in its effects than home-training or the necessary self-discipline of those who have to shift for themselves, subject to such supervision as a system of inspection for students' messes might secure.

In the third place, in a country like this with its diversity of races and creeds, and with the teaching staff in its higher ranks belonging to a different nationality, it will be no easy matter for the supervising authorities to have sympathetic appreciation of the situation of students, and to show due regard for their habits and sentiments.

In the fourth place, it is not necessary that a College should be of the residential type in order that it may exercise adequate control over the conduct of students, and its Professors may cultivate friendly relations with their pupils. Such control may be sufficiently secured if the Colleges co-operate with the University in the

supervision of students' messes and hostels; and the lecture-room and the laboratory may afford ample field for the cultivation of such friendly relations.

5. If then the first improvement suggested, namely, the conversion of the Presidency College into one of a residential type, be left out of consideration as undesirable in the present state of things and unnecessary for increasing its efficiency, the other two improvements referred to above in paragraph 3 which are essential and should occupy our attention in the first instance, may, as implied in paragraph B on page 3 of Mr. Pedler's note, dated the 19th April 1905, be effected without removing the College to a different place, whereas, if the first-mentioned improvement is insisted upon and with it a change of site, the second improvement will no doubt proceed hand in hand, but the third, the most important of all, will have to be postponed, at least for a time, for want of funds.

6. While thus, on the one hand, no change of site is necessary for effecting improvements (ii) and (iii) (noticed in paragraph 3) which are essential for increasing the efficiency of the College, on the other hand, removal of the College either to the northern suburbs or to Ballygunge is open to objection on various grounds.

The Presidency College is now situated almost centrally with reference to the houses of those residents of Calcutta and its suburbs, who either actually send or are likely to send their sons to that College for education; and the removal of the College, as suggested, will result in considerable inconvenience to large numbers of them. For if the College be removed to the northern suburbs, residents of Bhowanipore and Ballygunge will be put to great inconvenience, while removal to Ballygunge will produce similar inconvenience to the inhabitants of Shambazar and Bagbazar.

Then, again, neither the site recommended in the northern suburbs nor that suggested in Ballygunge is as healthy as the present site of the College, the suburbs and Ballygunge being well known to be malarious places.

Moreover, the removal of the Presidency College, as suggested, will materially affect the supervision of the Hindu and Hare Schools, the two important Government high schools in Calcutta, which are now under the control of the Principal of the Presidency College, and which cannot conveniently be removed along with that College and converted into boarding schools.

7. For the foregoing reasons, in my humble opinion, the removal of the Presidency College from its present site is neither desirable nor necessary; and for its real improvement all available funds should, in the first instance, be applied to the strengthening of the teaching staff and the extension of the laboratories.

8. In conclusion, I should add that my insisting upon the strengthening of the teaching staff must not be taken to imply any disparagement of the merits of the present staff. What I really mean is this, that with a view to increase the efficiency of teaching, the numerical strength of the staff should be increased, so that it may be adequate to take charge of the large number of students who seek instruction, and of the great variety of subjects in which instruction is sought; and the salaries of Professors should be raised so as to offer sufficient inducement to competent men in India and Europe to enter the educational service and continue in their posts as teachers.

Dated Calcutta, the 25th May 1905.

From—The REV. ALEX. TOMORY,

To—The Offg. Secretary to the Govt. of Bengal, General Department.

I HAVE the honour to acknowledge receipt of your letter (confidential), dated Darjeeling, the 17th May, marked Education Circular No. 9T.—G, and to forward the following opinion on the scheme contained in the papers accompanying your letter.

1. The inadequacy of the present Presidency College site for the purpose of a model College on enlightened principles is admitted. Extensions must be made at once if the primacy of the College is to be maintained, and these extensions must provide accommodation for residences for European and Indian professors, laboratories, and extra class-rooms.

2. Two possibilities present themselves:—(a) Local extensions, (b) Removal.—

(a) Local extensions could be procured by tearing down the antiquated buildings on the north side of College Square (Sanskrit College, Sanskrit Library, Hindu School, University Institute) and erecting a modern four-storeyed building there. The first two floors could be used for class-rooms and laboratories, the third and fourth for residential quarters (provided with lifts and water-tanks on roofs for flushing, etc.). This would provide a magnificent frontage. Then the tank (College Square) should be filled up and made into a play-ground, reserving half for the Presidency College and half for the general public. The old buildings on the north side of College Square are picturesque, but far from economical in their use of space—open quadrangles and colonades in the centre of a city are pleasant, but decidedly wasteful when extensions are needed.

The residences would be for the European staff. Indian gentlemen are not usually comfortable in European houses, which seem too open and draughty. The tank should be filled up in any case. Tanks are a solecism in Calcutta, and are possibly also a source of danger to the public health as breeding-places of mosquitoes. No doubt the ripple on the surface of the College Square tank on a moonlight night is charming and productive of poetic thoughts, but in this utilitarian age that charm will be less thought of than the possible danger, and the certain inutilty of the tank as at present restricted. Filled up, it would make a magnificent square in the centre of the city and such an open space would provide health for thousands. Instead of the ripple of the water there would be trees, shrubs, flowers along the borders, and athletic games in the square itself.

Accordingly if local extension is thought desirable the above scheme would provide it adequately, though not as ideally as removal to a *southern* suburb.

Before proceeding to consider (b) it would be well to provide for the dispossessed Sanskrit College, Library, and Hindu School. These might be very well removed to the outskirts of the town, say to the eastwards on or near Upper Circular Road, and would allow of a return to simple ancient Sanskrit *col* conditions. The Hindu School (at present like any other entrance school) should specialize as a preparatory school for the Sanskrit College. Or it might be necessary to buy up the eastern side of College Square under the Land Acquisition Act and erect buildings there that would glorify the centre of Calcutta, where Hausmannising is very much needed.

(b) But if on general principles local extension is less desirable than migration elsewhere, the question arises, where? For the very large expenditure estimated as likely to be required, one would have to consider not only size of proposed site, but general suitability, and probable remunerativeness.

On a new site it would be possible to erect a College, with residences for professors and students on the best possible lines.

3. Dr. P. K. Roy suggests a site at Cossipore. He gives an elaborate scheme; and it will have to be carefully examined by experts before such a huge outlay is incurred.

4. Personally knowing the district as I do from frequent cycle rides in the vicinity, I am very strongly opposed to the selection of Cossipore as the site for the new Presidency College—

(a) The district is malarious: the district round Dum-Dum is notoriously so: the eastern part of the district is under water for several months every year. From the road to Dum-Dum Cantonments one sees water as far as the eye can reach in the rains, the period of most strenuous application in Calcutta Colleges, when malaria would prevail among students and others.

It is possible that the malarious nature of the area might be improved by removing jungle; but it would be foolish to plant down an estimated

cost of 25 lakhs a magnificent College on a malarious site when other sites in more salubrious localities are available. I am not a Health Officer, but it seems to me that when Baranagore is malarious (west of site) and Dum-Dum district is malarious (east of site) the probability is that the Cossipore suggested site will also be found malarious.

(b) The suggested site is at the wrong end of Calcutta for the European professors and their wives. They would practically have to form a community by themselves, and the social life of Calcutta would suffer from the removal of the educational people from ordinary Calcutta "functions" at the south end of the city where "society" would become more than ever financial and commercial.

(c) The suggested site is three miles from the present Presidency College and the use of tram-cars is emphasized. If a car journey has to be made in any case, would there be any great discrepancy between a journey of three miles northwards to Cossipore and five miles southwards to Alipore, counting from the Presidency College in both cases?

5. I would venture to suggest that a site be estimated for in the area between Alipore and Tollygunge where there is plenty of good land, no malaria scourge, and contemplated tram-car facilities.

All the institutions of Calcutta—the Imperial Library, the Museum, the European shops, the Town Hall, and the Victoria Memorial—are at the south side of Calcutta, and are much nearer Alipore than Cossipore, to say nothing of the salubrious drive across the Maidan in the one case, and the crawling progress through pestiferous streets in the other. For the residents at the College, students and professors, these are points to be considered.

I may say that I have no idea what such a site might cost in the district named, but the other items would be much the same in both cases.

6. I would lay stress on the social surroundings in both places. At Alipore a distinctively European element predominates, leading to excellent conservancy, orderly arrangements, and Western amenities. It would be an excellent training for hostel students there to be surrounded by all the influences of European life in college terms, not only in respect of professors but of a general public that would learn to respect the scions of the best Calcutta houses and would impress them with the high character of the general European citizen. Mutual understanding between the two races would result at Alipore. At Cossipore there would be isolation from Europeans, except from the score of European mill employes along the river in the vicinity who would not be likely to fraternise with our students.

On the whole then, on hygienic, on topographical, and on social grounds I would prefer Alipore to Cossipore as a site for the proposed new Presidency College. As between the three possibilities—local extensions as indicated on page 1, Cossipore, and Alipore—I unhesitatingly prefer Alipore. Of the other two I am almost sure I should prefer the first, viz., a local extension as suggested on page 1. Cossipore would, in my opinion, be a very risky experiment, and a further removal from the advantages of the European end of this great city than at present exists.

I beg to apologise for the length of these remarks.

Dated Darjeeling, the 26th May 1905.

From—M. E. DUS. PROTHERO, Esq., M.A. (Oxon.), Professor, Presidency College,
To—The Offg. Secretary to the Government of Bengal, General Department.

WITH reference to your Circular No. 9T.—G., dated 17th May, asking for my opinion on the proposal to remove the Presidency College to a better site in the suburbs of Calcutta, I have the honour to state as follows.

1. If a site of the size mentioned by Dr. Roy is available in the position stated, I should be strongly in favour of his proposal. It will secure the great advantage of converting the College to a closer approximation to the residential type and of bringing the students and the instructive staff more closely together in their leisure time without running contrary to the public sentiment, which is so strongly opposed to the removal of the College from Calcutta. I

have only comparatively recently joined a College, having been previously employed for a long time in the inspecting branch, but my own experience of the advantage of a closer intercourse between the teachers and the taught may be thought relevant to the question at issue. During the six months I officiated as Principal of the College, I acquired an influence with the students, which I should not previously have considered possible, by taking an interest in their games, dramatic representations, debating clubs, etc. I never thought the student class capable of much affection or gratitude before, but I have certainly had cause to change my opinion.

2. Another reason which leads me to support the proposal is, that, as it is in contemplation to build houses for the Principal and Professors, in the case of such as are marked men it would certainly be unpleasant for European ladies to reside anywhere near the Presidency College.

This objection would not apply to the proposed site in the northern suburbs.

3. If the College is removed as proposed, it will be possible to secure in a great measure freedom from the undesirable surroundings, objectionable both from the point of view of morality and health, which are well known to anyone who has had anything to do with the management of the Eden Hostel.

4. I would remark that Dr. Roy's scheme takes no notice of the other Government educational institutions in Calcutta more or less intimately connected with the Presidency College, such as the Hindu and Hare Schools and the Calcutta Madrasa. The case for their removal is as strong as that for removing the Presidency College, and inasmuch as the students of the Madrasa reading for the F.A. and B.A. examinations attend lectures at the Presidency College, if the Madrasa is not to be moved, additional outlay will have to be faced for increasing the staff of the Madrasa to enable it to teach up to the B.A. standard.

5. Whilst cordially approving the scheme, I feel bound to express my belief that it will be difficult to enforce residence on a very large proportion of our students. So many of them are the children of parents, who are badly off, that the increased cheapness of living with their parents or relations, rather than in the hostel, which it is proposed to establish, will be a matter of great importance to them. With this liberty, I do not see how the Government can interfere, and therefore for a large number of students, the College must remain a day or non-residential institution. Many of our students live at such a long distance from the College that their time outside lecture hours is fully taken up with going and coming every day. Such students will not derive much advantage from the residential system, or the games and play-grounds, which it is in contemplation to establish. It is only the minority, who will be much influenced by the change, and for them its benefit will be incalculable.

6. A point of some importance relating to the proposed transfer of the Eden Hostel to the Medical College is that the consent of the private benefactors, such as the Raja of Maisadal, by whose contributions the hostel was in a large part constructed, or their heirs, will have to be secured. A similar difficulty will have to be considered with reference to the Elliott Muhammadan Hostel, if, as I have ventured to suggest, it is considered that the removal of the Presidency College entails the removal of the Calcutta Madrasa.

Dated Calcutta, the 27th May 1905.

From - The REV. ALEX. TOMORY,

To - The Off. Secretary to the Government of Bengal, General Department.

In continuation of my letter of 25th instant, I have the honour to say that I have this evening cycled round the site suggested in the letter of

Dr. P. K. Roy for the new Presidency College, represented by blocks A and B on plan below:—

I do not know what the advantage is in having the buildings on both sides of the Barrackpore Trunk Road. But I want to warn you that the ground level in blocks A and B is below the road level and the ground is covered with water all the rains. I visited the Cossipore Horticultural Gardens incidentally. It is part of block A above, and the Manager informed me that it was malarious, and flooded in the rains. The ground level is under road level. A good deal of the land in question is garden land, not in our sense, but densely overgrown. There are a number of tanks, each garden having at least one for irrigation purposes. These would have to be filled up as part of the scheme.

Block A is very objectionable on other grounds. It is faced to the south by the Tramway Horses Infirmary and the new terminus of the goods traffic of the Chitpore-Cossipore section of the Eastern Bengal State Railway. The noise of shunting would be very disagreeable either for students or residents.

The west boundary is the Cossipore road, with open drains on both sides, and a regular low-down native bazar, peopled apparently by mill-hands and their families and other followers.

I cannot imagine how any responsible person would fix on this block as an ideal site for a splendid College. In charity therefore I am bound to assume that block A is meant as a play-ground or maidan for students, and in that case the question arises whether the expense of raising the whole level and filling up the tanks would not be prohibitive, considering the object. Block B has not the disadvantages of block A, but it is far from a good site for the Model College. There is too much of the mill-hand and similar element about. That might be cleared from the immediate neighbourhood of block B, but even then the approach would be unpleasant.

I felt that I ought to send you these additional notes, based on to-day's observation.

No. 21Con., dated Calcutta, the 1st June 1905.

From—The HON'BLE MR. F. W. DUKE, Offg. Commr., Presidency Division,
To—The Secretary to the Government of Bengal, General Department.

REPLYING to your Education Circular No. 9T.—G., of 17th May 1905, on the proposal for the removal of the Presidency College to a better site in the suburbs of Calcutta, I have the honour to say that in my opinion the alternative lies between the proposals A (1) and E of Mr. Pedler's note. The former which provides for the necessary extension and development of the College, and for building two or three new and self-contained science laboratories, that is to say, for improving the College as a purely teaching institution, could be effected by the acquisition of land close to the present site at a high but relatively moderate cost. Any of the other proposals would either be prohibitive as involving extensive acquisition in the heart of Calcutta, or partial and ineffective as taking the College very little beyond A (1) and making no real provision for residence, recreation or supervision.

2. It seems to me, however, that the proposal A (1) would not provide adequately for modern requirements. I presume that Government has definitely decided that a model College must be something more than an agglomeration of class-rooms, and that much more is due to its students than

the mere provision of lectures. But the cost involved even in scheme A (1) would probably be so great as to deter Government from making any further extensive changes in the College for another generation.

3. The proposal E is therefore the only one which renders the development of the College possible as a residential or potentially residential College with adequate recreation grounds.

4. I have a superficial acquaintance with Ballygunge and Tollygunge, and also with Cossipore and the land along the Barrackpore Trunk Road. I believe that the region indicated by Dr. Roy is the best, namely, the tract on the Barrackpore Road, north of the Cossipore Gun Foundry Road. In this I am supported by Mr. Bernard who has, I believe, consulted his District Engineer. All the outer suburbs are esteemed unhealthy; but, so far as I can learn, the Cossipore region is less so than the more outlying tracts of Ballygunge and Tollygunge. The country is better cleared and has, I think, a better fall towards the northern end of the Salt Lakes. At the point indicated by Dr. Roy there are some extensive garden in a neglected condition of which the price could not be excessive. The site is also more suitable for local students, it is within walking distance, say $1\frac{1}{2}$ miles, of the northern end of Calcutta, and within, I should judge, the smallest tram fare (once lines are laid on the Barrackpore Road, as I believe, they will be) of the Harrison Road. Dr. Roy informs me that of the students whose houses are in Calcutta, about 223 live north of the Harrison Road against 186 south of it. Any site we could find in Tollygunge or Ballygunge would be too far for those at the northern end, even by tram. At least it would involve great loss of time and expense.

5. I am bound to observe, however, that any change of site is likely to occasion an extreme outcry. Assuming residence not to be made compulsory, in the first instance, and it seems to me that to make it compulsory would occasion as great an outcry as arose amongst the native community when they assumed that the College would be removed to Ranchi, or suppressed in favour of the Ranchi College, then short of that the site which I approve as the best and nearest to the town will still necessitate a regular expenditure on tram fares by the great majority of the students. This expenditure will not be less than Rs. 3, and for those further off may amount to Rs. 6 monthly. This alone is quite sufficient to occasion loud and violent opposition. I need not do more than advert to the perversity with which practically every Government proposal is misrepresented in Bengal. When the natural conservatism and suspicion of the class with whom we have to deal is fortified by a substantial ground of complaint, it can be understood how intense the opposition is likely to be. It has been distinctly shown that the upper and upper middle classes regard the Presidency College as an institution in which they have a vested interest, and its want of conformity to modern ideas on the one hand, or any improvements which we can hope to effect in it on the other, will weigh very little with them as against any change which makes it more expensive or less available.

6. I would therefore suggest that if the step of moving it to a suburban site is considered to be essential to its improvement, that step should be taken with extreme caution, and native opinion should be prepared for it not by obtruding any ready prepared scheme but by gradually exposing the impossibility of progress under existing conditions. If opinion can be brought round to the necessity of reform, the fact that a change of site is an essential condition to reform may be recognised. I make these observations because the benefits of the College are almost exclusively enjoyed by one particular class, and it hardly seems worth while to force a benefit upon that class at the expense of all the abuse and political odium which will be excited, unless it believes that the demand proceeds from itself.

Dated Calcutta, the 8th June 1905.

From—G. W. KÜCHLER, Esq., Meteorological Reporter to the Govt. of India,
To—The Off. Secretary to the Government of Bengal, General Department.

IN reply to Circular No. 9T.—G., dated 17th May, in which His Honour the Lieutenant-Governor asks for an expression of my opinion on the proposal

for the removal of the Presidency College to a better site in the suburbs, I have the honour to submit the enclosed note on the question.

Note on the proposed removal of the Presidency College to a better site in the suburbs.

From hardly any point of view can the present site of the Presidency College be considered satisfactory. Regarded merely as a day college, where work is done between stated hours, the only argument in favour of its situation is that it is central. But such an argument is nowadays considered of little account unless the central situation is accompanied by other advantages of a more essential nature. It is after all a very trifling hardship if young men of college age have to travel either on foot or by some other mode of locomotion a considerable distance to the place of their studies. To my mind it is indeed a distinct advantage, as with many young students this compulsory locomotion forms their only bodily exercise, and even if it take the mild form of transportation by carriage or tram, it still has a certain value. Especially is this true of the Bengali student, whose natural disinclination for bodily exertion assuredly needs no artificial encouragement. The only advantages in fact afforded by a central situation as such are those which arise from libraries, reading and common rooms and laboratories to which access is permitted outside the usual college hours. These advantages have, however, up to the present not been associated with the Presidency College, and even if they had been, they would have been more than counterbalanced by the drawbacks which the situation of the college presents in other respects.

The chief characteristics which in my opinion should be aimed at in selecting a site for a high grade day college are hygienic surroundings, freedom from noise and dust, and sufficient space, not only for present requirements in the matter of buildings, but also for future expansion. Educational work should be done in quiet places and in pure air, and it is especially desirable for scientific work that there should be no noise, no vibration, and no dust.

Judged by these requirements, the present site of the Presidency College considered merely as a day college stands condemned. Its hygienic surroundings are of the poorest, the air is full of dust, and the noise and vibration caused by the traffic in the streets are intolerable. Further, the needs of the scientific departments have far outgrown the space accommodation at present at their disposal, and no relief is possible except by the acquisition of the expensive though unsavoury land surrounding the college. As Mr. Pedler has pointed out, no addition beyond the construction of a well-planned chemical laboratory has been made to the college for the last thirty years, so that a large amount of arrears in the direction of new buildings has now to be made good.

The need for new buildings is most pressing on the science side. This is the natural outcome of the recent awakening of India in common with other countries to the benefits of a real scientific education. It should, moreover, be noted that a special impetus will in Bengal be given to the demand for increased facilities for acquiring scientific knowledge by the regulations founded on the new University Act which are about to come into force. These facilities must necessarily include the provision of new laboratories of a modern type in the various branches of science which the University proposes to include in its curriculum. Now, whatever be the future relations of the University to its affiliated colleges as regards post-graduate studies, I think it would be a great mistake if the leading Government college in Bengal were to give up direct and active participation in the highest kind of educational work. It is, I imagine, no breach of confidence to state here that one of the Committees at present engaged in drawing up University regulations has framed a scheme for determining the relations of the University to the recognised colleges in the matter of post-graduate courses of study. This scheme, which as far I can judge is perfectly practicable, aims at concentrating and economising the energies of the various colleges with regard to higher work following the examinations for the ordinary degrees of B.A. and B.Sc. But, while the University will by this agency actually become a teaching body, it is not intended that the contributing colleges should lose their identity thereby, but merely that they should be drawn into closer union with the University and form a recognised abode for true University studies. It is in this way in fact, *i.e.*, by the provision of men and material, that such of the colleges as are in a position to do so will contribute to the support of the University. Should this scheme be adopted, it will throw on the colleges and naturally in the first place on the Presidency College the chief onus of providing the facilities necessary for carrying on real University work. But with it or without it a certain amount of independence of action should I think be always left to the Presidency College, so that it may form a model for the University and, if necessary, act as a check on any future retrograde tendencies on the part of that institution.

I have digressed at some length on this question of the relations between the University and the colleges, as on it depends largely the necessity for the provision of increased facilities at the present moment for advanced work in the Presidency College and therefore to some extent the question of the removal of that institution to another site.

It is indeed the necessity for the immediate extension of the present complex of college buildings which gives a real practical interest to the question under consideration, as the

unsatisfactory conditions of the present site might hardly by themselves constitute a sufficiently powerful reason for the radical remedy afforded by a complete removal of the college. If, however, it is admitted that the construction of new laboratories for the Presidency College is urgently called for (and I would strongly press this view on Government), and if the construction of these laboratories on an extension of the present site involves a very heavy expenditure, it certainly seems desirable, provided a reasonable sum can be realised by the sale of the present property, to remove the college to a better site instead of perpetuating the disadvantages of the present one. Such a step would involve little or no pecuniary loss, and besides the very considerable benefits already alluded to which could be secured by a change of situation, there would be the additional one that not only the new science institutes but also the portions of the college devoted to literary and philosophic work would be designed from the outset with a view to their ultimate purpose and not merely consist, as Mr. Pedler has pointed out to be the case in the existing Presidency College, of an aggregate of rooms adapted as best they can be to the particular educational work for which they are required.

So far I have confined myself to the arguments in favour of moving the Presidency College as a non-residential institution. If, however, it is intended, in accordance with the requirements of the new University Act, to give a more or less residential character to the college, the arguments for removal acquire overwhelming force. It may I think be taken for granted that while great improvements can no doubt be introduced in the matter of hostel supervision and while much can be done to increase amenities of student life in the present hostel by the provision of reading and other common rooms, by the institution of clubs, literary and athletic, and by the consequent encouragement of social intercourse amongst the students themselves, in a word by giving a collegiate instead of a mere lodging-house character to the hostel, any attempt to establish a residential college on the present site is out of the question. The expense alone would be prohibitive, but quite apart from this, the mere provision of professors' houses in more or less proximity to the hostels would constitute a very small step towards the realisation of the conditions of a residential college in the full sense of the term. Moreover, it is doubtful whether one of the chief objects of such an institution, *i.e.*, the promotion of friendly intercourse between professors and students, would be materially furthered by the mere propinquity of residence of these two classes in such a neighbourhood as College Street. It is true that the minimum requirements of the University Act amount to nothing more than the provision of residences for the Principal and perhaps one or two professors as near as possible to the college or the hostel, but it is hardly likely that the Government would be content to work down to this minimum, and even if it did so the expenditure entailed in the provision of adequate residences and in the improvement of the hostel would still be very heavy and out of all proportion to the very meagre results which would follow.

The real objection, however, to the perpetuation of the present hostel and to any scheme for the addition of further residential quarters either for students or professors lies in the utter unsuitability of the site. All that I have said above with regard to the hygienic surroundings of a non-residential college applies with double force when the residential element comes in, and in the case of the students a still more important point is that the moral surroundings should be as pure as possible. The less however said about the moral and hygienic conditions of the neighbourhood of the Presidency College the better. It is true that there are many other Arts Colleges in the same neighbourhood and, further, that the Medical College is not only close to the Presidency College but that the authorities of that institution propose acquiring a hostel in the quarter which I have just stigmatised as objectionable. With regard to the latter there are special reasons why the Medical Hospital and consequently the college attached to it should be in the centre of the town, and there are also special reasons why the students attending the college, who moreover are on an average considerably older than the Arts students, should live close to it. As for the private Arts Colleges, they are for the most part day colleges, to which not even all the reasons for removal (such as for instance the demand for additional space) which hold in the case of the non-residential part of the Presidency College, are applicable. Moreover, should the authorities responsible for these institutions propose to erect hostels in connection with it, it is not possible that they might follow an initiative set by Government and choose more desirable sites for this purpose in the suburbs of Calcutta.

I have purposely kept the questions of the removal of the non-residential and residential parts of the Presidency College separate, as if any obstacle, which however I do not anticipate, should arise in the way of removing the College as a whole, the removal of the hostels alone would, as I have pointed out in the previous note, be still quite feasible. So numerous, moreover, and powerful are the arguments in favour of this part of the scheme that it seems a case where an opportunity for its execution should be created and not merely awaited by Government. Fortunately, however, the opportunity is here again forthcoming, for, as has been already pointed out, the provisions of the University Act make it necessary to face the question of very considerable expenditure in connection with the improvement of the hostel and the erection of houses for at least the Principal and one or two professors.

There is one aspect of the project which I have not touched on, and that is, the attitude which the leading Indian residents of Calcutta would assume towards the scheme. The question of expediency must largely be determined by this attitude, and it is therefore a matter for congratulation that the speech by the Hon'ble Bhupendra Nath Bose in the Legislative Council seems to indicate that not only would there be no opposition to the

removal of the College, but that such a removal would actually be welcomed by the great body of Indian opinion. I have likewise in the above remark made no reference to the proposal to erect the new science laboratories, which will presently be required, in a less congested area than College Street, leaving the present buildings to the Arts Section of the College as, though I still think that in the absence of anything better such a scheme would be both desirable and practicable, it has not nearly so much to recommend it as the other alternatives put forward and need not therefore be taken into present consideration.

Finally, the opportunity of removal afforded by the present juncture of affairs is improved still further by the possibility which seems to offer of finding a purchaser not only for the existing Presidency College but also for the Eden Hostel. It is after all not sufficient to assess the buildings and land of the College and Eden Hostel at a certain value and then to set the amount against the cost of the acquisition of new land and the erection of new buildings. Property such as the Presidency College and the Eden Hostel hardly finds a ready market, and unless a purchaser were found, ready to acquire the property at its nominal value, the financial difficulties in connection with the project would still be considerable. If, however, the Medical College authorities are willing to take over the Eden Hostel and if the University should find the existing college buildings suitable for the purposes of the extension which it is at present contemplating, one serious obstacle in the way of the realization of the scheme will have been removed.

To sum up, the points in connection with the question of the removal of the College which I have endeavoured to establish are the following:—

- (1) The situation of the Presidency College regarded merely as a non-residential institution is highly prejudicial to the work carried on there.
- (2) The situation of the Eden Hostel is open to still more serious objection, and if nothing else be done the hostel at least should be removed to an open healthy site in the suburbs, and houses for the Principal and some of the Professors built in connection with it.
- (3) Should the Presidency College and the Eden Hostel be retained in their present site, a very heavy expenditure will have to be faced in connection with the acquisition of land, the erection of new laboratories and Professors' residences and the institution of other improvements, and with it all the result will be unsatisfactory.
- (4) Indian opinion is apparently in favour of the removal of the College.
- (5) It seems therefore desirable to combine the funds necessary to carry out the improvements mentioned in (3) with the money which could be realized from the sale of the existing land and buildings and devote the total amount to the erection of a model residential college in the suburbs of Calcutta.

The above is the case for the removal of the College as it seems to me to stand at present. With regard to the selection of a new site should the removal be decided on, it is perhaps premature to say anything, as it would probably be left to a special Committee to make recommendations on this question. I would merely remark here that apart from the question of healthiness which will probably be the most important determining factor in the selection of the site, there are certain considerations which seem strongly to favour the choice of a southern suburb. The north side of Calcutta is practically isolated from the chief scientific institutions of the city, and it certainly seems a matter of considerable importance that the new Presidency College should be within easy access of the Indian Museum, the Zoological and Horticultural Gardens, and the Imperial Library. It seems further desirable for different though no less cogent reasons that the new College should not be far distant from the Maidan, the great open space of Calcutta, to which there is nothing equivalent in the north end of the town.

Lastly, I am tempted to say a word with regard to Dr. Ray's estimate of the probable cost of the scheme. This estimate seems to me unduly high, and it would certainly be a pity if a project eminently desirable in itself were wrecked simply owing to an impression that the cost would be prohibitive. There are many obvious directions in which the estimate could, if necessary, be reduced. For instance, in the case of the minor laboratories it is sufficient that the buildings should satisfy the requirements of the present and of the immediate future, but that they should be so designed at the outset as to admit of extensions at a later period when these become necessary. If this were done, the biological and geological laboratories could certainly be cut down to half a lakh each, while thirty thousand rupees would be ample for the astronomical.

Again as to the Professors' houses, it is neither necessary nor desirable to house all the Professors nor even a majority of them, and a corresponding reduction might be made under this head. The common room and gymnasium seem also too highly estimated for.

As for the land, 300 bighas appears excessive, but it is difficult to estimate the cost of this item beforehand. Certainly if the land of Kidderpore House, which is one of the suggestions made by Mr. Pedler, could be acquired, it would form an ideal site, as the grounds would require few alterations to adapt them to their new requirements and the cost of acquisition would, I believe, under Government regulations be nil. In any case, the estimated cost of the scheme might readily be reduced to 20 lakhs. Against this may be set the cost of improvements and additions to the existing buildings of the Presidency College in case of non-removal, which can hardly be put down at less than

10 lakhs, as well as the amount to be obtained from the sale of the Presidency College, say from 6 to 10 lakhs. Under these circumstances I venture to think that the removal is financially justified.

The 7th June 1905.

G. W. KÜCHLER.

Dated Calcutta, the 12th June 1905.

From—BARU SITA NATH ROY,

To—The Hon'ble H. W. C. CARNDUFF, C.I.E., Secy. to the Govt. of Bengal,
General Department.

I HAVE the honour to acknowledge the receipt of your Educational Circular No. 9T.—G, dated the 17th May, and enclosures, inviting an expression of my opinion on the proposed removal of the Presidency College to a better site in the suburbs of Calcutta. In reply I beg to submit the following observations.

When the idea of starting a residential college at Ranchi on the lines of the well-known institutions at Cambridge and Oxford was first mooted by His Honour, some of my educated countrymen were startled and surprised, for they then apprehended that the new institution partly from its novelty and partly from its numerous superior attractions, and especially on account of its several new features and advantages, would gradually draw away a large number of students from the Presidency College and thus make it die of inanition. In the proposal for a new college, which, it was supposed, would in time beat down the Presidency College in all respects, some of my countrymen saw a design to smother the old one and thereby do away with high education altogether.

Instead of being grateful to Government, instead of thanking it for its earnestness and benevolence in promoting and developing high education and in introducing a new feature in it and thereby imparting a powerful impetus to high education, my countrymen did not hesitate to ascribe motives for attempting to supply what was so urgently needed. But this much may be said in defence of my countrymen that they had no motive in being wilfully perverse: they were simply carried away by the panic of "high education in danger." Moreover, it is well known that the Presidency College has hallowed associations of its own, which have rendered it an object of affection and reverence to all.

It is the premier educational institution in this country, the best of its kind, and in one sense the oldest Government College, and almost all the best and respected men amongst us in different professions and walks of life and almost all the distinguished and highest Indian Judicial and Executive officers and most of the well-known *savants* having been the products of this College, and it being still looked upon as the pivot of the hopes and aspirations of our youthfulness, anything that goes or is apprehended would go to detract from the usefulness of the Presidency College, or lessen its importance in the eyes of the public or render it less attractive is sure to be looked upon with feelings of distrust and suspicion, if not with positive disfavour.

It is to the above feelings that the opposition to the Ranchi College scheme was due, and there would have been little or no opposition—at least it would not have been so acute—if with the proposal for a residential college at Ranchi the present scheme for renovating the Presidency College on such a broad and satisfactory basis and converting it into a residential one had been simultaneously put forth. But at the same time it must be admitted that, so far as English education in this country is concerned, the idea of a residential college is a thing of yesterday, is a new growth, and as such before the Ranchi scheme was broached by His Honour and before the present Dacca College scheme was matured, the idea of bodily transferring the Presidency College from its present central and advantageous site would have been considered as outrageous and looked upon with positive disfavour. But now with the Ranchi and Dacca schemes before us, people are rather wondering why nothing has yet been done to convert the Presidency into a residential college and otherwise to remodel and renovate it, and thereby enlarge its sphere of usefulness.

Formerly it would have surely been considered as an act of sacrilege even to think of removing the Presidency College from its present site, and I myself

would have seriously questioned the propriety of any such proposal. But whatever doubts I might have had on the subject, they have entirely been dissipated by the perusal of the very able and thoughtful notes of the Hon'ble Mr. Pedler (my former *guru*) and of my esteemed friend and countryman, Dr. P. K. Roy.

On account of its situation in one of the most congested quarters of the city, surrounded on all sides by large and costly buildings, with no room for expansion except at a prohibitive cost and by dislocating a very large population, whose ancestors settled there with the foundation of the city itself, it is not possible to secure the very large quantity of land so necessary for the extension and development of the College and its various other purposes.

As pointed out by Dr. Roy, about 300 bighas of land would be required to carry out the above objects and to place the college on a sound footing and make it worthy of its position as the premier College in the Province, if not in India. But I beg to submit that it would be a sheer waste of money to make such an extensive acquisition in the heart of the city itself, and that large acquisition cannot be made without encroaching on the Harrison Road itself and on the sites now occupied by some of the oldest residents of the city.

Another fatal objection to the enlargement of the College on its present site is that plague, which has secured a permanent footing in the Northern Division of the city, where the College is, breaks out periodically with great virulence in February and March, that is, when the University examinations are held, and this has not only a great disturbing effect on the studies of the students, but has the further serious effect, by creating a panic amongst the students, who mostly live in the congested quarters of the city, of scaring away a large number of them from such examinations.

Moreover, it is extremely desirable that students and their professors should live in an atmosphere of absolute purity. It does not seem appropriate to make a lavish expenditure of money for providing residential quarters for 7 to 800 students and their professors on a site which is so temptingly close to all the vile allurements of the city.

For the above reasons, with the necessity of converting the Presidency College into a residential one demonstrated beyond doubt, I have no hesitation in heartily supporting the recommendations of the Hon'ble Bhupendra Nath Basu, the Hon'ble Mr. Pedler, and Dr. P. K. Roy that the Presidency College should be bodily removed to a suitable site in the suburbs.

While it is admitted that the proposed site should be in the open country on high and dry land free from the influence of malaria and should be near the river, it must not be very far away from the Northern Division of the town, for the majority of the students of the Presidency College are recruited from the Northern side, and it is here where the higher and middle and educated classes and the merchants and traders, whose sons and relatives attend lectures at the Presidency College, live.

The site selected by Dr. P. K. Roy, which is bounded on the southern side by the Gun Foundry Road and on the west by the broad Cossipore Road, seems to be admirably suited for the location of the premier College in India.

Besides its other advantages, its close proximity to the river Hooghly and the enormous piles of buildings occupied by the Gun Foundry and Shell Factory, and having a large open space on the south, the location of the College on the above site, while ridding Cossipore of its numerous filthy and congested *bustees* and thus adding to the sanitation and beauty of Cossipore, will have the most desirable effect of automatically relieving a good deal of the congestion of the Northern part of Calcutta.

For various reasons I cannot approve of removing the College to Ballygunge or Tollygunge or to any site east of the Barrackpore Trunk Road, as they are all more or less tainted with malaria and far away from the Northern Calcutta.

For some years past the Presidency College has not been able to retain its old reputation of being the premier College in India. If it is intended to fulfil the place assigned to it of being the premier educational institution in India, of serving as an exemplar to others, of serving as a model, of what a high-class educational institution should be, of moulding the character of high education in India, it won't do merely to raise a magnificent building for the

College, to erect attractive residences for the professors and equally attractive hostels for the students and to provide an extensive and beautiful play-ground for the boys, but something more solid is necessary to be done which may increase its efficiency and usefulness, and thus make it the coveted resort of all genuine seekers after knowledge. I therefore heartily support the suggestions of the Hon'ble Mr. Podler and Dr. P. K. Roy, that the teaching staff should be strengthened and recruited by the very best of professors in the several departments available here and in England, and that the College should be fitted up with first class laboratories and all the necessary appliances for teaching Physics, Chemistry, Biology, and Geology, and, lastly, it should have a first-class library worthy of the premier College in India.

If His Honour would be gracious enough to give us a renovated Presidency College on the lines indicated above, fit it up with all the necessary laboratories and costly appliances and man it with the best of teaching staff and convert it into a residential institution and otherwise place it on a solid and satisfactory basis, His Honour's name, associated as it will always be as having been the author or founder of three residential colleges in Bengal, will for ever remain enshrined in the grateful hearts of a grateful nation, and will be handed from generation to generation as having been the best promoter and patron of high education in India.

Lastly, a word or two about the proposed site for the College and the hostels. In my humble opinion, a site nearer the river is more desirable, as it will enable the several hundreds of students and their professors, whose health must be the first consideration with the authorities, to inhale the pure air of the Hooghly. I therefore beg to recommend that the residential quarters for students and their professors should be built on that extensive ground (to the west of Cossipore Road) now occupied by the numerous *bustees* and the Jheel Press, while the College and the play-ground may, if necessary, be placed on the site to the east of Cossipore Road.

Dated Colombo, the 17th June 1905.

From—J. A. CUNNINGHAM, Esq., Professor of Chemistry, Presidency College, Calcutta,

To—The Offg. Secretary to the Government of Bengal General Department.

I RECEIVED your circular letter (Education Circular No. 91.—G.), dated the 17th May 1905, a few hours before leaving Calcutta on a previously arranged expedition to investigate the electrical state of the atmosphere in the south west monsoon as it passes over Ceylon. My hands were, at the time, very fully occupied in getting my apparatus into ship-shape order; and during, and since, a voyage which was delayed by two days owing to the breakdown of the main circulating pump of the S.S. *Sumatra*, I have been busily engaged taking observations over a field which was already too wide for the time at my disposal. I trust therefore that His Honour the Lieutenant-Governor will accept my apologies for the delay in forwarding, as well as for the other defects of the Note on the removal of Presidency College which I now enclose.

NOTE ON THE REMOVAL AND RECONSTRUCTION OF PRESIDENCY COLLEGE.

Introductory.—Some suspicions that Government did not mean well by higher education in India have from time to time been expressed, especially *à propos* the recent legislation affecting the Indian Universities. It could not indeed be regarded as wonderful if the subject, from its very foundations, had been seriously discussed by those in authority. We are at the present time in India, and I believe most acutely in Bengal, exposed to all the proverbial dangers of a little learning. It must be remembered that India is not altogether exceptional in this matter, though the evil is perhaps more pronounced here than elsewhere. But in France and Russia the same sort of disturbance is being felt, and perhaps we have really much to be thankful for that the disappointed B.A. does not betake himself to anarchy and nihilism in Bengal. In Russia the prime motive of this disturbance is, probably

legitimately, political rather than educational. In France, however, it is almost certainly attributable to a very faulty system of public instruction. There is indeed a quite remarkable similarity between the exaggerated multiplication of examinations, the teaching out of text-books, the learning by the help of memory alone, and the total absence of the scientific method, in France and in Bengal. Germany, America, and Japan may on the other hand be cited as countries which are entirely happy in their education and well satisfied with the return for a very heavy expenditure on education, of the right sort, in the main. I take it that if the question has been fundamentally reconsidered in India, it has been authoritatively decided in favour of education—more education, deeper education, and, in short, real education.

Similarly I shall assume that it has been conceded by the Government of Bengal that Presidency College does fill what, without it, would be a serious gap in a complete scheme of education; that its usefulness must be extended and its influence deepened.

In response to the Principal's invitation to the professors of Presidency College, I have already submitted a brief note dwelling on what I conceive to be two of the most urgently needed reforms in the general organisation of the teaching staff (and which I thought might possibly not be pressed forward by the other professors); and I also submitted a preliminary list of the special requirements of the chemical department with which I was more intimately and particularly concerned. In that note, written after the speech of the Hon'ble Babu Bhupendra Nath Bose and His Honour's reply on the occasion of the Budget Discussion for 1905-1906, I practically took it for granted that, as soon as the matter was looked into at all, the case for the removal of the college would be found overwhelmingly strong. I gather from the enclosures circulated with Circular No. 9T.—G. that my note has been forwarded by Dr. P. K. Ray and has been submitted to His Honour the Lieutenant-Governor. I therefore take it that what is wanted now is a rather more general and a fuller expression of opinion on all the questions involved, in the removal and hence necessarily the reconstruction, of Presidency College. I shall, therefore, in what follows freely express my own private opinion on all the points which occur to me as of particular importance, and especially such as I think may not be so fully dealt with by the other persons connected with education in Bengal who are likely to have been similarly consulted, confidently believing that such a free expression of opinion is in accordance with His Honour's wishes. Some of my views may not be in entire agreement with what has come to be more or less generally accepted in Bengal, and I therefore conceive it to be necessary to support them with what arguments I can muster; and as this course may lead me on to a considerable length I shall not re-emphasise as fully as might be, what I have already written in my previous note. I would ask this to be taken in conjunction with that.

Presidency College.—I do not think that it is at all an exaggeration to say (with Mr. Pedler) that the rate of progress towards the highest education in Bengal depends very largely on the promised reorganisation of Presidency College.¹ The education given must be on sound lines even if those should necessitate a separation from a possibly again demoralized University, though we all hope that will not be necessary.²

Mr. Pedler's note gives what, may, I suppose, be regarded as the historic reasons for the fact of which all concerned are only too painfully aware, viz., the hopeless unsuitability of the present site and buildings of Presidency College to the purpose for which it presumably exists. Its bare, unfitted, and untidy rooms can only help to encourage that slovenliness which seems to come peculiarly easy to the Bengali and perhaps to many other students, if not constantly corrected and discouraged. Our present very limited means of counteracting the physical evils of the Indian climate seem to entail the necessity of keeping large doors wide open, on at least two sides of every room which we wish to have well ventilated, during a great part of the working year. Many of the lecture rooms in Presidency College, thus of necessity kept open, are so situated that they are constantly being passed and repassed by students and teachers in the ordinary course of their necessary moving from one part of the college to another. Indeed the college is so near to two streets that in nearly half its rooms it is often difficult for a professor to make himself heard, even after he has had to close windows in direct violation of sanitary laws and against the protest of his own olfactory senses. On some occasions the whole neighbouring bazar echoes to a marriage feast quite above and beyond the more ordinary noises of the streets. These are only some of the more general and obvious defects of Presidency College as it is at present and in respect even of the kind of work that it has up till now attempted. A complete catalogue of its nuisance and shortcomings would probably be only tedious.

They are, as it seems to me, in themselves sufficient to justify the removal of the college to a new site, where a fresh start can be made on lines and plans that are approved

¹ The future of higher education will also be much affected by the organisation of the Education Service. It is my firm conviction that men are more important than bricks and mortar, and that the most important man in Presidency College is its Principal. He must be a leader in educational matters, and his duties on the social side are by no means insignificant. At the same time he cannot, *ex-officio*, control the whole University without apparent injustice to other Colleges, though if he is the right sort of man, he must profoundly influence it. But if the University is to be kept continuously on the straight path of honesty and efficiency it would require a "Principal" (like Professor Bucker in London University) or a Vice-Chancellor who gave the greater part of his time to its affairs and was therefore practically *ex-officio* Director of Public Instruction. This would naturally arise with the development of the post of Assistant Director of Public Instruction as head of the primary and secondary education in the province. This is practically the present arrangement, but its value would be greatly enhanced by a recognised permanency.

² The College should, for instance, refuse to recognise two different science courses (for B.A. and B.Sc., respectively) such as have been in the old University. I understand, however, that the Committees of the new Senate have recognised that science teaching must be to the same extent scientific whether its recipient aspires to be called B.A. or B.Sc. (cf. Mr. Pedler's note, middle of page 2).

by those most likely to know. Even to meet these general defects every detail of the new design must be very carefully scrutinised. It will obviously not suffice to take a design intended for Europe and plant it in its Western simplicity in India. Nor will it on the other hand, do to take an Indian design intended for an office or a barrack and call it a college. I am doubtful if the proper lines have yet been struck combining the requirements of a college with those of the Indian climate. This is more particularly true of science laboratories where the educational requirements are of a very special character. It is one of the minor points in favour of the suggestion to house several of the natural sciences separately. A suitable arrangement of such institutes (if I may adopt the German word) in the same compound would make it possible greatly to diminish the interference which each department suffers from the perfectly legitimate, but often most disturbing movement of students to and from the other departments of the college. It would also allow of a certain amount of invaluable experimenting as to details of construction by the individual professor concerned each with the designing of his own institute. I am one of these unfortunate heretics who cannot believe in one individual or group of individuals, arriving at once at the final and the absolutely "best" solution of any problem that arises in actual life. Each professor - if he is worthy of the name - will have his own ideas as to the most suitable plan; and even though a professor, he may be pardoned for some of the weaknesses to which flesh is heir, and in particular for taking an innocent pride in carrying out his own individual ideas to a conclusion on a consistent plan. For it does not by any means follow that because there is an element of real value in each individual scheme that that element will be alone, or at all, preserved by a departmental hash of it and half-a-dozen other, perhaps quite inconsistent, schemes, though each separately capable of being carried to a successful, and perhaps very valuable, conclusion by its own inventor. What I have tried to indicate here in particular relation to buildings I have already hinted at in a less material and tangible sense in my note of 3rd April 1905. Such suggestions, if they are not utterly resented as "revolutionary" (and I personally feel sure that no Western education will be incorporated into Indian life without a revolution from past methods of routine and hum-drum), are apparently open to the objection that it would never do in India to work on lines which depended for their success on the life of, or even on the continued occupation of the same post by one officer. I cannot indeed restrain the hope that some arrangement will shortly be made to obviate the present insecurity of tenure of professorial chairs in Government colleges in Bengal. I am confident that the general outlines of the arrangements which I indicated in my official note as those by which this could be achieved are entirely practicable. If the Government colleges were given a full four months' vacation, I believe no professor who was really interested in his work (which implies that he is allowed enough liberty to develop such an interest) would ever wish to go on furlough, and then only for long periods which would enable him to work up some special development of his subject, or of educational problems; and also allow of a *locum tenens* being brought from England if none of his own subordinates were capable of carrying on the work of his institute. The other disturbing influence, viz., that due to breakdown of health, as I have also pointed out, is likely to be greatly diminished by the said four months' vacation during the most unhealthy part of the year; and the accident of death is liable to happen anywhere and has happened several times within my own experience of science schools being built up by comparatively young men³. Such a misfortune is sometimes irreparable, but not necessarily so, if another good man can be got to fill the vacant chair. My point is that a school which is to exert a deep influence on its disciples must have a consistent plan—a "Lehrgeist"—a spirit of its own. A new man coming into charge of such a school, if he does not entirely agree with the plan of his predecessor, will at least be enabled to recognise that there was an intelligible plan, and he will be able to exercise and prove his own ability by grafting his new ideas on to those belonging to the past history of the institute so as to continue its development for good. But what I want to insist on, with all the emphasis at my command, is that the first essential of real education, of the real life of a school, is the *man* who controls it and that he must not be smothered by, or lost in, the official.

The preceding remarks apply generally to all the instructive work of the college. I now proceed to specialise somewhat the requirements of each of the departments.

Arts.—On what may be conveniently grouped together as the Arts side the demands of philosophy, literature, languages, history, political economy and mathematics are generally more humble and on a less expensive scale than those of the natural sciences; but even they would seem entitled to clean and suitably furnished lecture rooms and to their share of a very much expanded library. Such renovation and expansion can be very much better carried out on a new site than by any attempt at patching the present uncomfortable building, though of course the discrepancy between the present accommodation

³ His incapacity must, of course, not be prejudged by any colour prejudice, or service rule depending on the particular portion of the globe in which he happened to have obtained his appointment.

⁴ An example of this was the premature death of Clerk Maxwell at the Cavendish Laboratory where the work was carried on by Lord Rayleigh until the right man was found in Professor J. J. Thomson. It is J. J. Thomson, allowed complete freedom of control, and not any extravagant fitting of the Cavendish Laboratory which makes the Cambridge school of chemical physics perhaps the only science school in England which is really *en vogue*, and with reason, by German scientists—who are in general allowed so much more freedom in the development of their own institute, and which attracts students capable of really first-class work from all over the world.

and that required for the efficient carrying out of that side of college work is not at all of the same order of magnitude as what we shall find in the science laboratories.

Astronomy.—In connection with mathematics the claims of astronomy have already been very fully recognised, and the most expensive parts of its outfit can be readily removed without loss or damage to a new site and with the not insignificant gain of a clearer atmosphere to look through.

Physics.—It is when we pass on to physics that we find the greatest deficiency and disorganization owing to its apartments being scattered in a quite chaotic disorder over the college. Its laboratories are also, in themselves, individually almost as unsuitable to their present purpose as it is easily possible to conceive. They are hopelessly cramped and overcrowded, not only by the large number of students which have to be admitted, but also by the number of often antagonistic functions that they are required to provide for. It would vex the most inventive genius to make a really satisfactory physical institute on the present site short of pulling down half the present building, and even then the traffic in the street would be a constant source of disturbance to instruments with delicate suspensions, and the very close proximity of the electric trams would always preclude the use of a large and important class of electrical and magnetic apparatus. I feel there is no possibility of ignoring, nor use in attempting to disguise, the fact that a new and properly equipped physical institute including a large lecture theatre will be a very expensive item in the new college. When I say "properly equipped" I think I should make it clear that I am very fully aware of the extravagant evil of filling every corner of a new laboratory at once with all sorts of costly apparatus (as may sometimes be seen in Germany). There is, as a matter of fact, already some excellent apparatus in the physical laboratory. But it is just in some of the staple requirements of physical science that the Presidency College is so deplorably wanting at present (e.g., a well-equipped workshop and a large battery of storage cells). Such things are unfortunately costly, but they are also absolutely necessary.

Chemistry.—I am sorry not to be able fully to share in Mr. Pedler's apparent enthusiasm for our present chemical laboratory in the Presidency College. It is indeed very substantially fitted (in some respects), and perhaps if one had not to try to squeeze at least double the proper complement of students into its inelastic benches, one might have less grounds for grumbling. Our too small chemical lecture rooms are also very inadequate and by no means comfortably equipped. All our rooms suffer from the same congestion of conflicting purposes that I have noted in connection with the physical department. The chemical wing has, however, the advantage of being a wing with all its component members adjacent; but on the other hand it is certainly the worst wing in the college for disturbance from the streets that run close round two sides of it.

In most German Universities there are now four separate institutes for the different branches of modern chemistry. Probably two is as much as we could at present expect in Calcutta—one specially for physical and inorganic chemistry and the other for organic chemistry. With the approaching development of chemical industries in India, applied chemistry would gradually grow out of organic chemistry, and therefore it might be the most convenient and natural division to juxtapose inorganic with physical chemistry.

Biology.—One hesitates to plunge into the advocacy of the claims of biology for fear of unwittingly assisting a possible injustice to vested interests, but yet in anything approaching to a complete review of what work should be provided for in a new Presidency College one cannot possibly neglect the very great importance of biology. We must keep constantly in mind that our ultimate object is the awakening of India to the progressive spirit and scientific knowledge of the West. For such a stirring up to be more than surface-deep we must look forward to the future extending of it to the masses of the people through their schools. As I shall presently more fully explain, I look upon science as distinctly the most certain and the most powerful instrument of the hoped for awakening. The cost of such a programme will always be one of its most serious drawbacks in the eyes of a properly economical Government keeping a careful hand on the strings of the public purse. Hence it is not without interest to note that elementary biology, and especially botany, can be far more cheaply taught in primary and secondary schools than chemistry and physics. This will be seen to be especially fortunate when it is further pointed out that biology—or let us say botany for definiteness' sake—has an even greater educational value for children and beginners than the other sciences. Even the stupidest teacher can scarcely avoid printing out the true connection between observation and deduction, between experiment and theory, when he starts on the teaching of biology. Botany further combines all the advantages of a simple nature study, developing a love for and a sympathy with the surrounding world, to say nothing of its technical value to an agricultural people. The new University syllabus is, I understand, going to recognise the importance of botany in the schools by admitting it as a subject in the Entrance Examination. The same remarks apply to physiology on whose teaching in schools the medical profession is insisting at home, and a spread of the knowledge of the laws of health is certainly not less desirable in Bengal than in England.

So there ought if there is to be any material progress, very soon to be a considerable demand for teachers of biology. It is obviously to the advantage of the commonwealth that such teachers should be educated at Presidency College under the best professors available. It is here that biology has a second great advantage. Chemistry and physics can be pursued at any place with facility and advantages which vary inversely as the distance of that place from Cambridge or Berlin, and hence the often recurring difficulty

of the Secretary of State for India in finding suitable professors of these subjects who are willing to come out to India. But the *flora* of England and the *fauna* of Germany are known down to within almost measurable distance of the "ad infinitum" of the "other fleas" that "bite 'em," whereas in these fields India presents an unlimited prairie of practically virgin soil to work in. There are many students of biology—real, enthusiastic workers—who would be delighted at an opportunity of coming out to India, to be able to spend their vacations gathering grasses, or grass-hoppers, among the Himalayas, and these are just the men required to teach young Indian to work up their country's natural resources, and to spread the gospel of work and science to succeeding generations.

Geology.—The claims of geology are, I trust, in no danger of neglect. A knowledge of it is fundamental in all modern teaching of geography which can be made a most invaluable means of training the powers of observation in schools. A gradual dissemination of geological training will also assist the coming development of the mining industry in India.

Psychology.—The suggestion in Dr. Ray's note that a psychological laboratory should be attached to Presidency College raises a question of the most fascinating interest, and really of the most elemental importance. There is, however, some danger of its being brushed aside as not quite "practical" politics.* There can be no doubt that there is indeed a rich harvest awaiting the founding of a school of psychology in India. The only question is whether it is a matter of urgency in connection with Presidency College. It should, indeed, logically have come prior to the starting of European education in India at all. There was and is however, something quite charming in our simple British faith in our own good "intentions," even though our policies have been conceived in the most childlike innocence of the science and art of education, and no one shall deny with impunity that we have accomplished much by the mere honesty of our purpose. But it will very soon come to be recognised that mere innocent honesty of purpose can no longer be pleaded as sufficient "extenuating circumstance," and the modern world will demand that those entrusted with authority and power shall have used every available effort to find out what were really the most promising means of attaining the desired ends. Education is now more or less of a science as well as an "art" and the scientific educationist must be forgiven if he would like to know something fairly definite about his material before he starts to educate it. Hence there is a magnificent field for a special school of psychology in India, and that school would most naturally and properly be attached to a scientific training school for teachers. Such a school is urgently required, even from the most narrowly "practical" point of view, in India, and I think it would not be unnatural for such a school to find its location in Bengal. (I understand there is already an education degree at the Punjab University.) To establish any claim to being really scientific such a school would require a number of chairs of the kindred and allied sciences, and I can well appreciate the reluctance of the Government of Bengal to launch on another big scheme when it has already the Presidency College and the Model College at Raouhi (to say nothing of Dacca and the Engineering College) on its hands. But I think it is not too much to expect that we may be allowed to look forward to such an institution in the not far distant future. It would ultimately and essentially be a self-contained college independent from, though of course correlated with, Presidency College. But as a preparation for that consummation I should like most earnestly to commend to Government the suggestion of founding a psychological laboratory in connection with Presidency College. And I should like again to insist that the most essential part of such a school is its professor, and that therefore the Government of Bengal would be well advised to found a chair of psychology, which would attract some keen worker from Europe—such as there are plenty, for instance, at Cambridge, and doubtless at other British Universities too. It is not as much (or perhaps at

* I think I may take it as universally admitted that the best teachers are themselves students, and in fact then must, and well, continue to be so, just so long as they keep abreast of their subjects. In Germany, and now if England too, professors are judged solely by their capacity for carrying on original research; and this mode on selection is found to serve admirably. One would have thought, *a priori*, that it were possible to let a man learn all that is to be learnt about a subject, and then to train him how to impart that knowledge, put him in a professorial chair, and as soon as started, he would be able to pour forth a perfect flow of wisdom. As a simple matter of experience, the freshest and most inspiring teachers are those who have a living love for their subject, and testify to it by a continuance of the devotion of their student days.

There is another aspect of the question which is really the most important. The claim of science as a subject of education rests entirely upon the value of the *scientific method* which is simply the method of research. Every one is familiar with the way in which each Arts subject in turn claims to be called a science as soon as its devotees begin to discover that true progress can only be made by a substitution of the investigation of actual facts and first-hand authorities for the arm-chair flights of the literary imagination that used to satisfy even so-called historians. There are, however, still many difficulties in the way of the scientific teaching of arts subjects in India, and perhaps one should be satisfied if it is possible to introduce even a little scientific teaching of science subjects. Up to the present, I am afraid, the trifling attempt that has been made to spread a knowledge of science has been in the old pedagogic way. (Perhaps some of the very slow progress of science in India must be attributed to these utterly faulty methods.) The essential thing is that the next generation of teachers must be trained to observe and

inculcating an adaptable habit of mind which is ready for all the emergencies of modern progress.

I want also to advance on behalf of science the claim that it is the most truly international of a education. I shall have to enlarge later on the difficulties of imparting a foreign social culture. There two ways of teaching Sanskrit and many Indians are prepared to defend their old traditional method. The national varieties of Art and Music are nearly as numerous as the nations. But there is only one physics and one chemistry, and we may boldly teach them without any qualms about hurting national susceptibilities.

* I have put the word practical in inverted commas by way, simply, of a mild protest. The "practical" Britisher's sneer at German pedantry fifty years ago threatens to recoil in a very practical form on his own head in the shape of successful commercial competition in spite of Germany's serious natural handicaps.

all, except as a recompense for exile) a matter of salary, as of the other conditions attached to the appointment that will constitute its attractiveness to the right sort of man. The important thing is that he should be appointed Professor of Psychology at Presidency College, Calcutta," and not merely as an official "Jack-of-all-trades." I think it would probably be the wisest policy to appoint the man first and let him be responsible for the designing of his own laboratory and museum. Such a laboratory might begin on a quite small and inexpensive scale, but designed with a special view to future extension as the expansion of the school required it. Professor Kùohler has, I think, already mentioned this point as having to be kept carefully in mind with regard to all the plans for the new college. The soundness of the suggestion is obvious, and it is a further argument in favour of building separate institutes, which may be small at first but easily capable of well-adapted additions as these become necessary.

Commercial Classes.—The commercial classes are at present a considerable source of disturbance to the more proper work of Presidency College. When the C course has been thoroughly remodelled and made more business-like, and especially when the fees have been reduced as has been promised, the commercial classes are confidently expected to assume very large proportions. They threaten, in fact, by the mere weight of their numbers literally to squeeze the other students out of the already insufficient space. That is another argument in favour of removing Presidency College, and the new college should I think be relieved of this burden of commercial classes. They cannot be said to have any claims to recognition in a University College. The education they give is little more than a thorough drilling in elementary school-work. These students, paying Rs 3 a month, are evidently aiming at clerical work and have no use for University education. Their presence would also very naturally be resented by students paying Rs. 12, and aiming at something more ambitious in after-life. If the Calcutta University consents to buying the present buildings of Presidency College, a cheaper class of College might be erected in some central part of the town for the special requirements of a Commercial College. If not, the present building would probably very soon be filled with the new classes.

Development of character.—So far I have dealt almost exclusively with the more purely instructive part of college work, that part which has to do with the training of the intellect. There still remains the more purely moral part of education, that which is directed particularly to developing the character of our students. It is only repeating a truism to say that it is not so much what a man *knows* as what he is that constitutes the difference between one man and another. It is character far more than knowledge that makes a man a desirable, and in that sense a useful, citizen, and which makes one nation succeed where another fails.

Character is clearly a factor far too important to be neglected. It has been the uniform policy of the British Government to do nothing which could at all be interpreted as a direct interference with the religious beliefs of its Indian subjects. But there can be no doubt that one of the results of our Western education must in many cases be the shaking of those primitive religious beliefs which have been the pillars of society in Hindustan. It is therefore clearly the duty of Government to do what it can to supply the place of those religious guides to conduct, without of course infringing its declared policy of religious neutrality. I am one of those who believe in the possibility of sound education even on the purely instructive side doing a great deal in this direction. There can be no finer test of moral fibre than the carrying through of a piece of honest intellectual work—the worrying through to solution of a tangled problem in some branch of historical research, or of the scientific investigation of nature. It certainly requires and inculcates orderliness, self-reliance, patience, perseverance and a love of truth. It is just as obvious that the mere mechanical memorising of text-books is only a shallow mimicry of education, whose very motto is dishonesty, commencing with partly unconscious self-deception and ending in a scarcely disguised attempt to cheat the examiner. So that no one who has ever thought seriously about education would be surprised to hear that the University system up till now prevailing in Calcutta had not done anything to encourage sound morals. A strange examiner coming in to interfere with work at frequent intervals can scarcely escape being looked upon as a legitimate enemy—as in fact he is. I do not believe that it was possible for ninety-nine Bengali students out of a hundred to get through such an appalling series of examinations as those to which he had to submit himself without resorting to dishonest means—intellectually dishonest first, and then dishonest in every sense. And if we, the instructors—the prophets come from the West—sanctioned such a system, we must obviously sanction the necessary means, and hence dishonesty itself, by a simple train of logic in the student's mind. There is, however, much hope of, as there is much room for, improvement in this direction at the present juncture of University affairs.

There is then also the other side of educational influence, that which appeals more simply and directly to the sociable instincts of our student community. We can already exercise an influence by the force of our example in matters of work. Still more it is hoped may be exercised in a more intimate intercourse between the teachers and the taught in the relations of daily life apart from and outside the intercourse of the class room and laboratory. In recognition of this the Universities Act has indeed laid it down that all affiliated colleges must make some provision for the residence of a portion of the teaching staff in or near the college. This I think is the most imperative reason for moving Presidency College to a more airy place in the suburbs. It would be quite preposterous to ask the Principal and professors to live near the present site in the middle of the Burra Bazar. And this, even

from the more purely instructive point of view, is a very serious drawback to good work. Every science professor is very largely dependent on his laboratory for the carrying on of original work. It is there that he may set an active example of work to all his students and especially inspire his best students who have obtained recognition from Government by the award of research scholarships. But the climate of Calcutta is such that during a large part of the year it is almost a physical impossibility to do any delicate manipulation except in the cool of the morning and evening. Hence it is specially useful to science teachers to live near their laboratories. This need scarcely have been laboured, as it is very fully recognised that it is greatly to the advantage of the whole life of a college to allow its members to constitute a society living together; and I take it that professors' houses will form an integral part of the new college.⁷

One does not like to appear to throw even a little cold water where so much enthusiasm has been stirred up by the prospect of all that may be accomplished by a more intimate social intercourse between professors and students in the playground and the hostel. The subject has been constantly under discussion in the professors' room at Presidency College since I joined its staff. I think most of those who have had experience in Europe do not share the fear that a professor may lose dignity in the cricket field. But the fear is characteristic and its expression by Indian professors is a trifling reminder of how far points of view and standards of conduct may vary. This variation does become of real importance when we pass into the hostel. I think no one, who has listened to our professorial discussions with at all an open mind, can fail to have been struck by the very wide differences that exist between Indian and European⁸ views of the relative and actual importance of different moral rules, and far more of the, perhaps at bottom inessential, but none the less dearly cherished, conventionalities of polite behaviour and good manners. I have not heard any Indian agreeing with Meredith Townsend's dictum that the more the two races are kept at a respectful distance in social intercourse the better for the happiness of both and for the future of the British Empire in India. I may claim to have made very considerable efforts to get on to really intimate terms with some of my Indian colleagues and students (as well as with some old college friends at Cambridge), and have succeeded in maintaining a perfectly frank friendship in a few cases. But even in my short experience, I have been struck by how often slight temporary misunderstandings have arisen on what seemed to me utterly trivial grounds, and I have been assured that I have often given pain when I was evidently least aware of it. In fact I believe the problem is a very much more difficult one than is generally realised. At the same time I feel sure that it would be very wrong to put any restraint on the enthusiasm of those, who believe in doing good in this way. And I think we might all contribute something very real towards the solution of the problem and nothing but ultimate good to the students concerned, provided always that each man is allowed to work along the lines in which he believes, only subject to the mildest direction from a Principal of really elastic imagination.

Conclusion.—I must, for very shame at their already excessive wanderings, bring my remarks to an end, without having at all touched upon many of the interesting topics raised by the speeches and notes which have been circulated. I am confident that a sound decision on these matters will be arrived at by common consent.

In conclusion I need only repeat my emphatic opinion that the proposed reconstruction of Presidency College will afford a splendid opportunity of substantial and permanent

⁷ This fact must also be kept in mind in choosing the new site. I do not think that many of the present professors of Presidency College can be accused of an excessive observance of his so-called "social duties" in Calcutta. At the same time there is no very obvious reason why any particular professor, either present or future, should be debarred from mixing to a certain extent in society outside that of the College. And, I venture to think, that in this respect the case of the European professors does deserve special consideration. They are strangers in a strange land, and must be forgiven if they want occasionally to visit others of their own kith and kin. This, I think, is a perfectly valid argument against planting Presidency College far away to north of Calcutta. I have no intimate knowledge of the particular site suggested, but I gather that it would cost a great deal to prepare the ground.

I regard the south side as practically inevitable, and the suggestion of Kidderpore House is an excellent one in every way, if it can be obtained. It is certainly a healthy position and the tram will bring day students from the heart of Calcutta to within a few yards of its gates and yet not render a whole class of magnetic observations quite impossible. The cost of preparing the ground would probably be far less than that of any of the other sites mentioned. It is well situated with regard to such eminently educational institutions as the Zoological Gardens, the Horticultural Gardens, the Meteorological Observatory, the Indian Museum, the Art Gallery, the Asiatic Society, and even the Botanical Gardens at Sibpur are within twenty minutes by boat. Tolly's Nullah might be made use of for rowing and the Maidan has endless possibilities of exercise and fresh air for students.

⁸ I have adopted the broad distinction as sufficient for the purposes of the present note. No one will deny that a Bengali boy or any other Indian is less like an English schoolboy than is a French schoolboy. There has recently been a strong movement in France to encourage more power of initiative and independence of character among the rising generation, by an introduction of the English public school system. "La réforme," writes Gustave La Bon, "théoriquement excellente, serait tout à fait irréalisable. Adaptée aux besoins d'un peuple qui possède certaines qualités héréditaires, comment pourrait-elle convenir à un peuple possédant des qualités tout à fait différentes? L'essai d'ailleurs ne durerait pas très longtemps. Un parent français à qui on enverrait du lycée son fils tout seul, sans personne pour lui prendre son ticket à la gare ou le faire monter on omnibus, lui dirait de mettre son pardessus quand il fait froid, le surveiller d'un oeil vigilant pour l'empêcher de tomber sous les roues des trains en marche, d'être écrasé dans les rues par les voitures, ou d'avoir un oeil poché quand il joue librement à la balle avec ses camarades, ces parents-là n'existent pas en France." Anyone who has been a British boy accustomed to travel alone since he was of twelve years old ruins his eyes. But there it is; and certainly the difficulties of producing such a revolution of character in Bengal are not less than, though evidently very much of the same kind as, in France. Yet, I admit, it does not follow conclusively that we are foredoomed to utter failure in Bengal; but we can assuredly only succeed by a really great and earnest effort, after having thoroughly convinced ourselves that the object of our endeavour is a right one—in fact the best object possible; and we must be prepared at any time for an outcry in the native press that we are undermining the whole social fabric, as will probably be true. The Bengali student is at present very docile and learns (according to his capacity) whatever we teach him, but there are already signs of the awakening of a national spirit which may at any time burst forth and vehemently resent any interference with their deeply-rooted peculiarities, or "prejudices"—if we are pleased so to call them.

improvement. I agree with Mr. Pedler and Dr. Ray as to the best of the suggested schemes viz., the reconstruction of a complete new college on the best available site. No other alternative is, I think, adequate to the occasion.

I must also repeat that the reorganisation of the teaching staff is of even greater and more vital importance. Our faith in the ultimate victory of education is only an offshoot of the far deeper, inborn faith in freedom, our firm belief that good will ultimately prove itself stronger than evil, and triumph the sooner the more liberty we can allow it. Such a faith cannot flourish in slavery: it cannot be propagated by departmental decree, but only by the free apostles of a real conviction.

J. A. CUNNINGHAM.

The 17th June 1905.

No. A., dated Calcutta, the 17th June 1905.

From—The HON'BLE MR. F. W. DUKE, I.C.S., Offg. Commissioner of the Presidency Division,

To—The Secretary to the Government of Bengal, General Department.

IN continuation of my confidential letter of 30th ultimo, on the proposed change of site of the Presidency College, I beg to enclose a plan showing four possible sites. I think that marked A, which is the one I described before, is the best.

Dated Calcutta, the 22nd June 1905.

From—RAI CHUNI LAL BOSE BAHADUR, M.B., F.C.S., Additional Chemical Examiner to the Government of Bengal,

To—The Secretary to the Government of Bengal, General Department.

I HAVE the honour to acknowledge receipt of your Confidential Educational Circular No. 9T.—G., dated Darjeeling, the 17th May 1905, with enclosures, asking for an expression of my opinion regarding the proposed removal of the Presidency College from its present site to somewhere in the suburbs of Calcutta, and in reply I beg to make the following observations.

2. The present situation of the College commands so many advantages that in my opinion it would be most unwise to remove the College elsewhere unless it can be satisfactorily shown that the extension of buildings needed for improved teaching of science, for play-grounds for students, for quarters for Professors, and for hostel accommodation, cannot be effected at the present site. From a careful perusal of the notes submitted by the Principal of the College and by the Director of Public Instruction, Bengal, forming enclosures to your letter, I am not convinced of the necessity of removing the College to the suburbs of Calcutta as recommended by them.

3. There is no doubt that the present accommodation in the College building is not sufficient for making suitable arrangements for the teaching of different branches of science with practical classes which has devolved upon the Presidency College during recent years by the creation of various degrees in science by the Calcutta University. The play-ground attached to the Presidency College also requires extension. The gymnasium attached to the College may be remodelled on new and approved methods, but extensive grounds need not be set apart for such a gymnasium. A suitable piece of land for outdoor games, such as cricket, football, &c., which afford both exercise and recreation and to which our students are more fondly attached than to gymnastics, is certainly wanted, but it need not necessarily be a part of the College compound. To supplement this accommodation in the College compound, the Marcus Square, which is within a stone's throw from the Presidency College, may be utilised for outdoor games by the students of this College; and a suitable piece of ground may be found out in the maidan and set apart for this purpose also.

4. I have already said that I agree with the Principal that better arrangements should be made for the teaching of some branches of science in the Presidency College, but I fail to see why this may not be effected at the present site. The existing buildings may be extended on the piece of land to the west of the College, which should be acquired for this purpose. The number

of students attending or likely to attend in the near future the different science classes (excepting Physics and Chemistry) is not so great as to necessitate the abandonment of the existing College building and making arrangements for the teaching of each branch of science in a separate house on German method as has been recommended by the Principal (*vide* paragraph 8, Principal's letter). In India, in any College other than that devoted to the study of Medicine, a separate biological laboratory on an elaborate scale will, still for a long time to come, be as an ornamental appendage. Likewise, considering the insignificant number of students who take Geology for their special study, a separate building set apart for the teaching of this branch of science is, at present, quite unnecessary. The physical laboratory undoubtedly requires expansion and improved fittings. A separate building should be raised for the location of the new physical laboratory in which provision may also be made for the teaching of Biology and Geology according to the present requirements of the University.

5. The chemical laboratory in the Presidency College is one of the best of its kind, and, in the opinion of very competent authorities, it is no way inferior to the chemical laboratories attached to many of the British Universities. It is the product of a good many years' experience of one of the best Professors of Chemistry in the Presidency College, and Government too has been lavish in their expenditure for its proper equipment. It could hardly be considered an act of economy and utility to demolish all the structure and raise it anew in a different place. It is interesting to note that neither the Principal nor the Director of Public Instruction has any depreciating remarks to make in respect of the chemical laboratory about its insufficient accommodation or defective fittings to teach Chemistry according to recent methods. Then even if an extension is required for this purpose, it may be effected on the present site to which I shall shortly refer. If the present physical laboratory is shifted to a new quarter, a number of rooms will be vacated which may be utilised for the extension of the chemical laboratory. The removal of the College would entail the sacrifice of the large sum spent recently in erecting the Astronomical observatory, while the same may with much less expenso be extended and improved as occasion arises.

6. The question of hostel accommodation for the students of the Presidency College has always engaged the careful consideration of Government, and the Eden Hindu Hostel was established some years ago for the benefit of the mufassal students mainly of this College. It has supplied a much felt want and has greatly relieved the anxiety of parents of mufassal students who were otherwise exposed to various dangers and temptations attending residence in private messes in Calcutta, devoid of all responsible control. If the present accommodation in the Eden Hindu Hostel does not appear to be sufficient and requires enlargement, the hostel buildings may be extended by acquiring the pieces of land to its north and the east. The Hindu Hostel is so close to the Presidency College that it may be regarded as in the same compound with the College. In this connection, it has been suggested to convert the Presidency College into a residential College in accordance with the regulations of the University Act of 1904, and to erect houses for the Principal and other Professors of the College on the proposed site of transfer, in order that they might be in greater touch with the students outside the College hours and thus influence their conduct and character.

7. While fully admitting the advantages of a residential College, I do not consider it to be an unmixed good. There is no influence which helps the formation of the character of a boy so powerfully as good home influence. Reverence to parents and other elders, attachment to brothers and sisters, duty towards other relations and towards neighbours, training in religious rites and exercises, &c., are taught nowhere better than in a well-disciplined home under the influence and example of God-fearing parents and guardians; and one must be prepared to see these virtues ill-developed in a young man early removed from all good home control and placed in a residential College. Instances of young men falling into bad habits in residential Colleges are too numerous, and the dormitories of residential Colleges are too often the breeding places of vices and evil practices which have made many young men moral invalids throughout life. The presence of Professors in a residential College

is hardly sufficient to stop the evil. The visits to Indian theatres paid openly and otherwise by students living in hostels have become rather too frequent—an indulgence seldom allowed by parents to their boys living with them. It cannot be otherwise expected in a place where a large number of boys are brought to live together, drawn from all sections of the community (either too advanced or too backward), nurtured under widely different social influences and family traditions, and practically uncontrolled during their residence in the hostel except by the hardly felt presence of the Superintendent.

I would rather stick to the present arrangement of providing hostel accommodation only to mufassal students with facilities for a stricter supervision of their conduct and character, and keeping the College open alike to boarders and day-scholars who live with their parents or guardians in Calcutta and its suburbs. Quarters should be provided for some of the Professors of the College, but all the Professors need not reside within the College compound. Residence in the hostel should be made compulsory in the case of mufassal students only, and optional in the case of students living with their parents or guardians in the town and its suburbs. If this modification as to compulsory residence in the College is adopted, the extra accommodation needed will not be very great, and there will be no occasion to remove the College to the suburbs for want of adequate space.

8. There is another objection to the conversion of the Presidency College into a purely residential College. Many of the brilliant students of this College, as in other Colleges, are sons of middle class men who somehow or other manage to pay the College fees and other necessary educational expenses of their boys, but it would be difficult for them to pay the hostel charges in addition. It may be pointed out that the boarding of boys in the family is scarcely felt by the parents as an extra item of expenditure.

9. The present situation of the College in my opinion is an exceptionally good one. It holds a central position in the town, equally accessible to students from Bhowanipur, Kidderpore and Ballygunge, as well as from Cossipore and Chitpur, while it is also within easy reach of students coming by the East Indian and Eastern Bengal State Railways. It is situated on a site which may be truly called the educational quarter of the town. The place is associated with the history of the foundation and growth of English education in Bengal for nearly a century and with the hallowed name of David Hare, the pioneer of English education in this part of the country; it is in close proximity (within a mile) to the best missionary and private Colleges of the city and placed practically in the same compound with three Government schools, the University of Calcutta, and the Medical College of Bengal. It is within reach by tramway from all parts of the city and suburbs. If it is removed to Cossipore, as has been suggested by the Principal of the College, the day-scholars both from the city and suburbs will be put to heavy carriage expenses, particularly during the rains, until the tramways are constructed. Moreover, the site selected by the Principal is open to objection on sanitary grounds. The piece of land has for a long period been extensively used for wet cultivation and will necessarily be damp and unhealthy and infected with malaria, from which no parts of the suburbs, particularly those situated on either side of the Barrackpore Trunk Road, are free. Moreover, the close situation of the cattle-mart of Chitpur will always be a danger to the health of the inmates of the new College and Hostel. If after the expenditure of so much money for the establishment of the new College, it so turns out that the place is insanitary on the ground of malaria, the history of the Sibpur Engineering College will simply repeat itself in the case of the new Presidency College.

10. With the prospect of soon opening a residential College at Ranchi, it would hardly be justifiable to shut the Presidency College against day-scholars. Such a step would in my opinion also prejudice the cause of the Ranchi College.

11. It now remains to be seen if the necessary improvements required for the College may not be effected at the present site. The acquisition of 18 bighas of land on the west and south side of the College, referred to in paragraph 3 of the Principal's memorandum, will in my opinion be sufficient for its requirements. Owing to extensive railway works lately carried on in Chitpur

and Cossipore the price of land in that locality has gone up very high, and I do not think that the acquirement of 300 bighas of land there and the building of the new College and Hostel thereon would, when an actual estimate is taken, be more economical than the alternative proposal of remodelling the College on its present site. I would allot the 18 bighas acquired for this purpose in the following manner:—

	Bighas.
(1) New physical laboratory, including Biological and Geological Departments	2
(2) Extension of the present hostel	5
(3) Building of the quarters for the Principal and two Professors	3
(4) Enlargement of the play-ground	8
Total	18

12. The Principal appears to hold that the 18 bighas of land above referred to will meet all the requirements of the College, except in the case of the College being converted into a residential one, for he says in the same paragraph that “even if both plots are acquired, the College would not be residential. There is no possibility of ever having a residential College on the present site.” I have already noted my objections against the College being converted into a residential one; if it is not made so, then I think the piece of land on the west and south of the College, if acquired, will be found sufficient for the purposes of its enlargement and improvement. The *bustis* which are situated over this piece of land are very insanitary; every year plague breaks out in these *bustis* and causes anxiety to the authorities for the safety of the inmates of the Hindu Hostel. The acquirement of this piece of land for the purposes of the College will immensely improve the sanitation of this part of the town. The Senate at their last meeting appointed a Sub-Committee for the purpose of acquiring a piece of land close to the University Hall to enlarge its accommodation, of which it is in urgent need. If the University decides upon purchasing the unhealthy bazar on its south side which is so dangerously close to the Medical College Hospital, then the whole large plot of land bounded on the north by the Harrison Road, on the east by the College Street, on the west by the Medical College Street and its continuation north, and on the south by the Champatalla 2nd Lane will be entirely occupied by Government School and College buildings and by hospitals and hostels. It will be one of the most healthy and finest quarters in the town of Calcutta.

I beg to summarise my conclusions thus:—

- (1) That the idea of removing the Presidency College to some place in the suburbs of Calcutta is unsound on the grounds of economy and convenience, and that it should not be removed from its present site.
- (2) That it should not be converted into a wholly residential College, but that it should remain open to day-scholars also.
- (3) That the 18 bighas of land on the west and south side of the College, referred to in paragraph 3 of the Principal's memorandum, should be acquired and devoted to the expansion of the College both for teaching and hostel purposes and for the enlargement of the play-ground.

Note on the proposed transfer of the Presidency College to the Suburbs.

THE old University Act did not contemplate the establishment of residential Colleges, and the Presidency College was not intended to be a residential institution. But there is a hostel attached to it, which provides accommodation for about 280 students, *i.e.*, somewhat more than one-third of the total number (764) attending the College.

2. Apart from providing suitable quarters for students and professors, the present accommodation in respect of class rooms and laboratories in the College falls far short of actual requirements. The deficiencies are outlined in page 2 of Mr. Pedler's note, dated 19th April 1905. Various suggestions have been put forward to remedy them, but before considering them, it is necessary to come to a decision on one important point, viz., whether the Presidency College should be converted into the residential type or it should maintain its character of being mainly non-residential. If the former, then it is obvious that it cannot remain in its present site, but must be removed bodily, as it is impossible to find enough land in the vicinity except at a cost which must be fairly regarded as prohibitive, and there would be no scope left for future expansion.

3. I see no special advantage in removing the College to the suburbs. A very large proportion of the students reside in their own houses and attend as day scholars, and the removal of the College from its present central position in the heart of the Indian quarter would be a source of serious inconvenience to most of them. On the other hand, if residence at the College is insisted on in every case and day scholars are wholly excluded, there is no particular merit in locating the College in the outskirts rather than at a distance.

4. The considerations that should have weight in determining the site of a self-contained residential College are—

- (a) Open country.
- (b) Healthy climate.
- (c) Pleasant environments.
- (d) Cheap living.
- (e) Freedom from the distractions and temptations of town life.
- (f) Room for future expansion.
- (g) Easy communications.

As regards the suburbs of Calcutta, they have none of the above advantages except (g); rather the reverse. Further, the initial cost of land and buildings, though not so high as in the city, would be very heavy.

5. If, therefore, it is decided to make the College residential, the best, cheapest and simplest course would be to transfer it to a place like Ranchi, which has all the advantages referred to above, except in the matter of communication, the want of which should, however, be soon removed.

6. For these reasons the proposal of the Principal that the College should be removed to the suburbs does not commend itself to me. It would be resented by those who attend College from their own houses, and as for those who come from the mufassal, they would much prefer to be in a healthy locality where living is not dear and which is free from the evils of a city life. There is little doubt that if a properly equipped residential College with an efficient staff is opened at Ranchi, the great bulk of the mufassal students will resort to it, and for good reasons.

7. The character of the Presidency College, mainly a non-residential institution, should not be changed, but the present defects in respect of inadequate teaching accommodation should be removed by taking up land in the neighbourhood for the necessary extension and development of the College and for building new and approved science laboratories (Mr. Pedler's B), and if necessary, the hostel accommodation might also be improved and enlarged, though this would hardly be the case, as with a good College at Ranchi, most of the mufassal students who form the majority of the boarders would prefer to go there. I am not aware whether this would meet the requirements of the new University Act, in the matter of residence, for if it does not, the question will assume a different aspect, especially in reference to the various private Colleges, upon which no terms could well be imposed that would not be equally applicable to the premier Government College.

8. Nothing should be done to impair the efficiency and high character of the Presidency College. It is the leading educational institution in India and is situated at the main centre of intellectual activity.

There will always be a sufficient number of students recruited from the resident population of Calcutta, who will not require any boarding accommodation. It will continue to be of the type of the University College of the

King's College in London. All want in respect of class rooms and laboratories should be removed, the latter being equipped in the best way possible. At the same time there is ample room in Bengal for another first class Government College which should chiefly be intended for students going into residence. This should also have the best professors and fully provided with science laboratories.

9. I see no reason for the apprehension entertained in some quarters that the establishment of a good College at Ranchi would imperil the status, if not the existence, of the Presidency College. As I have already said, there is ample room for both, and Government should be prepared in the interests of high education to maintain both in a state of efficiency, especially as it is not improbable that some at least of the existing private institutions will disappear owing to their failure to conform to the requirements of the University Act.

K. G. GUPTA.

The 24th June 1905.

Dated Calcutta, the 1st July 1905.

From—The REV. A. B. WANN, B.D., Principal, General Assembly's Institution,
To—The Off. Secretary to the Government of Bengal, General Department.

IN answer to your confidential Circular No. 9T.—G. of 17th May, I have the honour to submit the following observations.

1. The proposal under consideration is not simply one for removal of the Presidency College to a more suitable site as regards accessibility and facilities for work. It involves—

- (a) The transformation of the Presidency College into a residential college both for professors and students, with extensive playgrounds, etc.
- (b) The erection of buildings on a considerably larger scale and with a more complete equipment.

And it also contemplates—

- (c) A considerable strengthening of the staff.

These involve a heavy initial expenditure, and also a considerable increase in annual expenditure.

2. From an educational point of view the scheme proposed by Dr. Ray and endorsed by Mr. Pedler is very attractive. It provides for full equipment and for advanced teaching and research in all the branches of study. It provides for students being brought under the supervision of and into constant touch with their professors and enabled to combine physical with mental culture. It plants the college in a site where most of the advantages of country life can be gained, while it is within convenient reach of the great industrial establishments with which scientific education is bound to come into increasingly closer relations; and it is accessible from the homes of the many well-to-do families of Calcutta who will prefer that their young men should not go into residence at the college. (I would remark, however, that this last advantage is purchased at the cost of so far sacrificing the residential system.) If, therefore, the care of the Government extended only or even mainly to the students, numbering 750 or thereby, who attend the Presidency College, I should heartily endorse this scheme, without qualification.

3. My difficulty arises when I remember that there are some 8,000 arts students in the province of Bengal, all of whom are objects of concern to Government. Not ten per cent. of them attend the Presidency College. And there are some 50 colleges,—Government, aided, and unaided—all doing work which the Imperial Government recognizes to be its work. If it is right to expend the large sums indicated in Dr. Roy's letter on one college with 750 students, how much should justly be allocated for the remaining 50 colleges and 7,000 students? For many years Government has been pledged to the principle of grants-in-aid and has contemplated the extension and improvement

of education in Bengal mainly by aiding colleges other than purely Government colleges. Is it prepared to increase its grants-in-aid to something commensurate with the very large expenditure contemplated on the Presidency College?

4. It may be objected to this that the Government must maintain at least one "model" college to "set the standard" even though the expense is disproportionately great. But is there not a fallacy here, due to the ambiguity of the word "model" and such phrases as "set the standard"? "Model" may mean "perfect," completely equipped and thoroughly organized, as good as brains and money can make it. But "model" may also mean "set up for imitation," of such a standard as may be at least approximately reached by others. I would respectfully represent that this latter meaning is the meaning involved in the grant-in-aid system, and the recognition, now universal, of the responsibility of Government for the whole condition of education in the country. There should be some reasonable proportion between the amount spent on the "model" college and the amount granted to other colleges, otherwise how can they make it their "model"? Well-qualified teachers, well-equipped laboratories, hostels, and playing-grounds are needful or helpful for all students, and not for ten per cent. only; but without liberal Government aid they are impracticable, and especially so in Calcutta. Without such aid, the carrying out of the proposed change in the Presidency College would mean the establishment of one really first-rate college, and the relegation of all others to a hopelessly second or third-rate position. Such a result cannot be contemplated with equanimity by those interested in other colleges, or, I venture to say, by a Government which takes a full view of its responsibilities in the matter of education.

5. It may still be urged that the Government cannot consent to keep its principal college permanently below the level of a good European college because of the difficulty or impossibility of raising all the colleges in Bengal to that level; that, in short, the Government should have at least one "model" institution in the first sense I have indicated, as good as money and brains can make it. And to this I heartily assent. But I would urge the absolute necessity of concurrently placing the grant-in-aid system on a most liberal basis, unless collegiate education outside the Presidency College is to be degraded in proportion to the raising of the standard of equipment within that college.

6. I would further urge that the fees payable at the remodelled Presidency College should be raised, in consideration of the increased annual expenditure, and of the great initial expenditure. If a first-rate residential college with playing-grounds, &c., is provided, the beneficiaries ought to pay a considerable part of the expense. Otherwise a great gift will be made exclusively to sons of the well-to-do from the taxation which includes the poorest.

7. I would also urge that no special advantages should be held out to scholarship-holders, but that they should have to pay their way like others. It is not simply the desire to continue to have some men of first-rate ability in our own college, but also the conviction that undue concentration of the best men is not in the interests of education, which makes me urge this. In our educational system, with many colleges affiliated to the University, it would be fatal to hopeful and inspiring teaching if one college not only possessed an incomparable equipment, but also drew in all, or nearly all, the best men. To be condemned to teach only the second-rate would be disheartening to the teachers; and to feel that they were studying in a hopelessly inferior college would prevent any *esprit de corps* from arising among students. A healthy spirit of emulation among the affiliated colleges is a great help both to teachers and to students in a University like ours; but if the colleges cannot enter upon competition on something like equal terms, this emulation is impossible.

8. I recognize, however, that in some respects Government must concentrate efforts on one institution, *e.g.*, in promoting research work, in providing for the highest teaching (personally, I should be willing to see all above the B.A. and B.Sc. concentrated), and in affording instruction in those branches of study, both in science and arts, for which only a handful of students offer themselves. It would be unreasonable to expect Government to fritter

away its funds in aiding many institutions to do badly what could be done in one institution well. I have used the word "institution" advisedly; for in my opinion it would be much more satisfactory to do as much as possible on those lines in connection with the University rather than in connection with the Presidency College, so long as that is a college competing with other colleges on nominally the same footing.

I would therefore finally suggest that Government should carefully consider how the large expenditure they are evidently prepared to make may be made helpful to the largest number of students and to the work of the University as a whole.

Dated Calcutta, the 8th July 1905.

From—DR. E. DENISON ROSS, PH.D., Principal, Calcutta Madrasah,
To—The Offg. Secretary to the Government of Bengal, General Department.

I HAVE the honour to acknowledge receipt of your Education Circular No. 9T.—G., dated the 17th May 1905, and of the papers connected therewith, on the subject of the proposal for the removal of the Presidency College to a better site in the suburbs of Calcutta.

There can be no two opinions as to the advantages which would accrue to the institution by the acquisition of more extensive premises, and the question from this aspect has been fully dealt with in the correspondence enclosed with your letter.

If the enlargement of the premises is not practicable in the present site, and it is decided to remove the college, I have only to remark that the site suggested by Dr. P. K. Ray, namely, the Dum-Dum Road, seems to me the most suitable that could be found.

However, the manner in which the removal of the college to the outskirts of the town would affect the students is a question not so easily disposed of, and the following difficulties present themselves to my mind:—

- (1) If it is not residential at all, of course it will be of no benefit to students, as, apart from the long distances they will be obliged to journey, they will still be returning to their homes in the evening, and be subjected to all the temptations of a large town.
- (2) For the same reasons, if the college is only partly residential, I cannot see how it will attract boys living in Calcutta.
- (3) If it is to be wholly residential, will it not seriously endanger the Ranchi scheme? Moreover, will it in any case attract Calcutta students? Will they care to live in a hostel three miles out of town, when they have the alternative of living with their parents or guardians and attending one or other of the private colleges which are so plentiful in Calcutta?

It seems to me that if Presidency College is wholly residential in its new site, it will attract only mufassal students.

But though it is very much to be desired that the best possible conditions of student life be offered to undergraduates coming from distant parts of Bengal, I am under the impression that the Presidency College is primarily intended for the citizens of Calcutta, whose sentiments have been voiced in the speech delivered in the Bengal Council by the Hon'ble Bhupendra Nath Bose.

Dated Calcutta, the 15th July 1905.

From—KHAN BAHADUR SERAJ-UL-ISLAM,
To—The Offg. Secretary to the Government of Bengal, General Department.

WITH reference to your letter No. 9T.—G., dated the 17th May 1905, calling upon me for an expression of my opinion regarding the proposed transfer of the Presidency College to a better site in the suburbs of Calcutta, I beg to submit the following observations.

The tendency of public opinion now a days seems to be in favour of a residential college with healthy hostels attached, and with extensive recreation grounds, at a distance from the busy bustle of the town and its concomitant evils. The parents and guardians, especially of the mufassal students, are generally afraid of sending their boys to Calcutta for education by reason of the various dangerous attractions and evils to which they might fall victims. I think the present site of the Presidency College is objectionable on various grounds. There seems to be a consensus of opinion as to the desirability of removing it to a better site in the outskirts of Calcutta.

There is no doubt that the Presidency College requires improvement to make it a model college. The question is how to do it. I do not think that the mere extension of the college premises and the addition to it of a better staff will be sufficient to effect the desired improvement. No real improvement can be expected by retaining it in its present site. Unless the college is located elsewhere outside the town, the causes of complaint will not be removed. I am therefore inclined to think that the change of site is essentially necessary. As to the proposal of extending the college premises, I agree with Mr. Pedler in thinking that the cost of acquisition would be almost prohibitive.

In connection with the question of removal, the main point for consideration is a *suitable site*. In considering this question, we ought to keep two points in view. The first is that the place must be a healthy one and the second that it must be within easy reach of the town. Now it is well known that the suburbs of Calcutta are notoriously unhealthy. It is of first importance that a residential college should be located in a healthy site, otherwise the whole scheme will fall through.

The site proposed by Dr. Ray may do in the absence of any better place, provided it is certified by sanitary experts to be a healthy one. Objection may also be raised that it is out of the way. The students residing with their parents and guardians within the town will find it very inconvenient to attend the college. Unless it is made a wholly residential college, most of the day scholars will have to reside in the town. Hence is the necessity of easy communication between the college and the town.

In conclusion, I venture to submit one observation for the consideration of His Honour. I am afraid that the establishment of a residential college close to Calcutta may have the effect of interfering with the success of the Ranchi College. If the parents and guardians of the students find a residential college with hostels and other improvements within easy reach of Calcutta, very few of them will care to send their boys to an out-of-the-way place like Ranchi.

Dated Calcutta, the 11th August 1905.

From—BABU BHUPENDRA NATH BASU,

To—The Secretary to the Government of Bengal, General Department.

I BEG to acknowledge receipt of your Circular letter regarding the removal of the Presidency College from its present site.

I recommend the removal on the following grounds:—

(1) The College in order to maintain its position as the leading educational institution in the country must be converted into a residential College.

(2) There must be extensive play grounds and room for long walks where the teachers and the student can associate on friendly terms.

(3) There must be around the College and its buildings an atmosphere of learning and quiet, and the students should live as if in a City of their own under the personal jurisdiction of the College authorities.

(4) The surroundings and the approaches must be free from contaminating and disquieting influences.

(5) All this cannot be secured at the present site: it may be extended at enormous cost, but nevertheless the College with its appurtenant buildings will be placed in the heart of a busy and growing City with its manifold distractions and amidst unhealthy and undesirable surroundings both physical and moral. The boys cannot be placed in a big City like Calcutta with only a

small space set apart for the College under the direct disciplinary jurisdiction of the College authorities.

(6) Under the present system, when the boys are only for a few hours in their class room with their teachers, the personal influence of the teachers is wholly lost: he is too much engrossed in the work of teaching to converse with the boys, to attend to their moral needs, to cultivate their acquaintance or to acquire their confidence. Most of the professors do not and cannot know their boys, and the students on the other hand do not know their professors, except as teaching automatons. The professors cannot impart to the boys what is best in them, and the highest and best in the character and life of the students remains dormant and undeveloped.

(7) The association of the students with their European professors will lead to the development of greater sympathy, mutual understanding and respect, and will be politically a source of great advantage and strength to the country, the rulers and the ruled alike.

I come now to the question of site.

So long as the site is easily accessible for day scholars, it does not much matter whether the site is at Ballygunge or Tolla. The latter site will undoubtedly be much healthier: it has the advantage of proximity to the river and the canal, and is intersected by the Barrackpore Trunk Road, one of the best roads in Bengal for a walk, ride or drive. Moreover, most of the students of the Presidency College who live in Calcutta come from the northern portion of the town, and to them Tolla would be a near and convenient site. With the extension of the tramway, which is under contemplation, all difficulties of communication will be removed.

WEATHER AND CROP REPORT.

For the week ending the 12th November 1906

No.	Name of district.	Rainfall at Buldar station. Inches.	Price of common rice, in seers, per rupee.		Character of the weather and state and prospects of the crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
1	BURDWAN ...	Nil	8	7½	Sowing of <i>rabi</i> crops continuing. Standing crops of sugarcane doing well. Fodder and water sufficient.
2	BIRBHUM ...	Nil	7½	7	Weather reasonable. Standing crops doing well. Fodder and water sufficient.
3	BANKURA ...	Nil *	9	8	Weather reasonable. State of standing crops good. Sowing of <i>rabi</i> crops going on. Old common rice selling at 8 seers a rupee. No cattle-disease. Fodder and water sufficient.
4	MIDNAPORE ...	Nil	9*	8	Winter paddy, early cotton and sugarcane thriving well. <i>Rabi</i> crops being sown at places. Outturn of autumn rice estimated at between 50 and 60 per cent of normal. Fodder and water sufficient. Cattle disease reported from Dantan and Sailabani police stations.
5	HOOGHLY ..	Nil	6½	6½	Weather reasonable. Sowing of <i>rabi</i> crops commenced in Arambagh. Prospects of sugarcane and <i>aman</i> paddy fair. No cattle-disease. Fodder and water sufficient.
6	HOWRAH ...	Nil	7	7	Prospects of standing paddy good. No cattle-disease. Common rice selling 8 seers at Uluberia. Fodder and water for cattle sufficient.
7	24-PARGANAS	Nil	7½	7½	Weather reasonable. Lands being prepared for <i>ra</i> crops, sowings of which have commenced in some places. State of standing crops good. Prospects of sugarcane and winter rice good. Total number of persons on relief during the week—Sonarpur 15, Tollygunge 161, Vishnupur 1,348, Behala 17, Canning 535, Mahestala 349, Baruipur 1,65, Fulta 1,008, Mograhat 2,148, Diamond Harbor 337, Mathurapur 143, Kulpi 225, Joynagar 2,45, Dum-Dum 67, Khardaha 90, Barrackpore 30. Condition of cattle good. Fodder and water sufficient.
8	NADIA ..	Nil	8	8	Prospects of standing crops good. Sowing of <i>ra</i> crops still going on. No cattle-disease. Fodder and water sufficient.
9	MURSHIDABAD	Nil	7	7	Weather reasonable. Standing crops doing well. No cattle-disease. Fodder and water sufficient.
10	JESSORE ...	Nil	6½	7	Weather reasonable. Sowing of <i>rabi</i> crops going on. Prospects of <i>aman</i> fair. Washing of jute still continuing. No damage to crops by insect. High prices and slight distress. Fodder and water sufficient. No cattle-disease.

* New rice.

No.	Name of district.	Rainfall at Sadar station.	Price of common rice, in seers, per rupee.		Character of the weather and state and prospects of the crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
11	KHULNA ...	Nil	8½	9	Weather seasonable. State of winter rice fair. Tobacco sown estimated at about 47 per cent. of normal area and outturn of jute estimated at 92 per cent. Lands being prepared for sowing of summer rice. No cattle-disease. Fodder and water sufficient.
12	PATNA ...	Nil	{ 7½ 11½ }	{ 8½ 12* }	Weather cold. Standing crops doing well. Paddy crop on high lands, however, suffering. <i>Rabi</i> sowing in progress. Rain wanted for <i>rabi</i> crops. No cattle-disease. Fodder and water for cattle sufficient.
13	GAYA ...	Nil	{ 8½ 12½ }	{ 9½ 13½ }	Weather cool and clear. Sugarcane and winter rice doing well. Pressing of sugarcane and sowing of poppy going on in Jehanabad subdivision. Sowing of <i>rabi</i> continuing in places. No cattle-disease. Fodder and water sufficient.
14	SHAHABAD ...	Nil	{ 10† 12*	{ 10† 13*	Sugarcane doing well; pressing commenced in places. Paddy doing well except on high lands in Bhabua, Buxar and Sadar subdivisions. <i>Rabi</i> germinating. Old common rice selling at 8 seers a rupee at Sadar. Maize selling at 15½ seers at Sasaram. No cattle-disease. Fodder and water sufficient.
15	SARAN ...	Nil	{ 8½ 12½ }	{ 8½ 12½ }	Weather seasonable. <i>Rabi</i> sowings almost finished. Pressing of sugarcane commenced. 28 men, 121 women, 166 children on an average daily relieved at kitchens from the District Board funds in the Siwan subdivision; 76 men, 149 women, 238 children on average daily gratuitously relieved by the Hathawa Raj. 88 men, 157 women, 73 children on District Board test-relief works in the Siwan subdivision; 95 men, 64 women, 72 children on average daily on Hathawa Raj relief-works. No cattle-disease. Fodder and water sufficient.
16	CHAMPARAN ...	Nil	{ 8½ 11*	{ 8½ 10½ }	Weather bright and cold. Threshing of <i>bhadoi</i> finished. Winter rice suffering from want of rain. <i>Rabi</i> sowings in progress. Prices of food-grains almost stationary. No cattle-disease. Fodder and water sufficient.
17	MUZAFFARPUR	Nil	{ 7 11*	{ 7½ 12*	Weather still hot for the time of the year. Sky clear. No rain reported in the district. Paddy suffering much for want of water throughout the district. <i>Rabi</i> sowings in progress. In Hajipur potato being sown. Cholera still prevalent in the Sadar and Sitamarhi subdivisions. Common rice and <i>makai</i> selling at 7½ and 11 seers a rupee respectively at Sitamarhi; at 7½ and 12½ seers a rupee, respectively, at Hajipur. Daily average for gratuitous relief 6,047. Figures from kitchens not received. Number of persons on test-work on the 10th instant—Belsand 66, Sursand 397, and Junisaidpur 112. No cattle-disease. Fodder and water sufficient.

* The figures indicate price of maize in seers per rupee.
† New rice.

No.	Name of dist. loc.	Rainfall at Sada station.	Price of common rice, in seers, per rupee.		Character of the weather and state and prospects of the crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
18	DARBHANGA ...	Nil {	6 11½*	5 11½*	Weather seasonable. <i>Rabi</i> sowings in progress. Prospects of winter rice unsatisfactory. Number of persons relieved at kitchens on the last day of the week—Sadar thana 2,421, Bahera thana 6,328, Roserha thana 12,270. Madhubani subdivision 2,081, Samastipur 264. Number of persons on test-works for the last day available—Manihas 207, Ujhoul 168, Basaiha 513, Ratwara 323, Banipatti 15, Chakmeh-i 60, Hathourighat 126, Sakarlohra 320, Gangdah 289, Saleypur 905, Dasauth 499, Balha 158, Tolaparsa 814, Larjaghat 316. No cattle-disease. Fodder sufficient.
19	MONGHYR ...	Nil {	6½ 12*	6½ 11½*	Weather seasonable. Prospects of winter rice fair. More rain wanted in Jamui subdivision. <i>Rabi</i> sowing going on. No cattle-disease. Fodder and water sufficient.
20	BHAGALPUR ...	Nil {	8½ 11½*	8½ 12½*	Weather seasonable. Sky clear. Condition of <i>aghani</i> paddy reported to be fair by the Subdivisional Officers of Madhipura and Banka. Sowing of <i>rabi</i> crops going on briskly. Cholera reported from the thanas of Supaul and Pertabganj. Cattle-disease reported from thanas Madhipura and Pertabganj. Fodder and water sufficient.
21	PURNA ...	Nil	6	6	More rain wanted in parts for the standing crops. Sowing of <i>rabi</i> crops going on. Prospects of winter paddy not favourable. High prices of food-grain prevailing. No cattle-disease. Fodder and water sufficient.
22	DARJEELING ...	0·14 {	6 11*	6 12*	Weather cold. Hills—Wheat, barley and mustard being sown. <i>Bhadoi dhan</i> , <i>marua</i> and winter rice in fair state. Terai—Prospects of paddy gloomy. Mustard and tobacco being sown.
23	SONTHAL PAR- GANAS.	Nil {	8 18*	7½ 13½*	Weather seasonable. Prospects of all standing crops good. Cattle-disease reported from Deoghur. Fodder and water sufficient.
24	OUTTACK ...	Nil	10½	9½	<i>Layhu saradh</i> ripening. <i>Guru saradh</i> in ear. <i>Arhar</i> and sugarcane growing well. No cattle-disease. Fodder and water sufficient.
25	BALASORE ...	Nil	8½	9½	Weather seasonable. <i>Saradh</i> in ear. Sugarcane and vegetables doing well. Sowing of <i>rabi</i> crops continuing. No cattle-disease. Fodder and water sufficient.
26	ANGUL ...	Nil	11½	11	Weather seasonable. Harvesting of winter rice commenced. <i>Rabi</i> and miscellaneous crops doing well. No cattle-disease. Fodder and water sufficient.

* The figures indicate price of maize in seers per rupee.

No.	Name of district.	Rainfall at Sadar station.	Price of common rice, in annas, per rupee.		Character of the weather and state and prospects of the crops, etc.

		Inches.			
27	PURI ...	Nil	8½	8½	Weather seasonable. Sugarcane getting on well. Cotton flowering in some places and bearing pods at others. <i>Saradh</i> in ear. <i>Laghu</i> ripening in some places and being reaped at others. <i>Rabi</i> crops getting on well. Miscellaneous crops doing well. No cattle-disease. Fodder and water sufficient.
28	SAMBALPUR ...	Nil	11	11	Weather cool. Reaping and threshing of autumn rice in progress. Harvesting of <i>urid</i> in Sambalpur tahsil finished. Harvesting of <i>til</i> , <i>urid</i> and <i>jhunga</i> in progress in Bargarh tahsil. Condition of standing crops good. Outturn of <i>urid</i> estimated at 16 annas in Sambalpur tahsil. No cattle-disease. Fodder and water sufficient.
29	HAZARIBAGH	10	9½	Harvesting of paddy commenced. Sowing of <i>rabi</i> in four thanas. Fodder and water sufficient.
30	RANCHI ...	Nil	11	10½	Weather seasonable. Harvesting of paddy continuing. Standing crops doing well. Cattle-disease reported from Lohardaga and Sesai thanas. Fodder and water sufficient.
31	PALAMAU ...	Nil	10½	9½	Weather seasonable. Sowing of <i>rabi</i> approaching completion. Condition of standing crops good. Harvesting of paddy going on. Cattle-disease in four thanas. Fodder and water sufficient.
32	MANBHUM ...	Nil	9	9½	Weather seasonable. Prospects of crops good. Cattle-disease not reported. Fodder and water sufficient.
33	SINGHBHUM ...	Nil	9	10	Harvesting of winter paddy in progress. Sowing of <i>rabi</i> continuing. Damage by insect-pests severe in about 15 villages in Kharsawan. Rice selling at 12 and 10 seers per rupee at Kharsawan and Seraikella, respectively. Fodder and water sufficient.
34	COOCH BEHAR	Nil	6½	6½	Weather cool. Preparation of lands for tobacco, wheat and mustard going on. Cattle-disease reported from thanas Mathabhanga and Dinhata. Fodder and water sufficient.

GENERAL SUMMARY.—There was no rain in the Province, except in Darjeeling, from where a slight shower of only 0·14 inches is reported. *Rabi* sowings are still in progress throughout the Province. The prospects of the winter rice crop are unfavourable in Darbhanga, Muzaffarpur, Champaran, Purnea and Darjeeling and in parts of Patna and Shahabad. Damage has been done to standing crops by insect-pests in the Kharsawan State in Chota Nagpur. The number of persons receiving gratuitous relief is—24 Parganas 10,876, Saran 788, Muzaffarpur 6,047 and Darbhanga 23,364,—total 41,075. The number of persons attending test-works is—Saran 549, Muzaffarpur 555 and Darbhanga 4,703,—total 5,827. Cattle-disease is reported from six districts. Fodder and water are generally sufficient. Cholera is still prevalent in parts of Muzaffarpur and Bhagalpur. The price of common rice has risen in eight districts and fallen in thirteen districts.

C. A. OLDHAM,

Director of Agriculture, Bengal.

DEPT. OF AGRICULTURE, BENGAL.

The 15th November 1906.

SUMMARY OF THE RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE MONTH OF OCTOBER 1906.

About the middle of the month of October, there was a break in the rainfall. Towards the end of the month, however, rain was received in all the divisions excepting Bihar. The rainfall was below the normal only in the district of Khulna in South-West Bengal, while in Bihar there was a general defect except in the Sonthal Parganas. There was deficient rain in Orissa in the districts of Angul and Balasore, and in Chota Nagpur in the districts of Hazaribagh, Palamau and Singbhum.

The total rainfall for the month shows a considerable excess in South-West Bengal and Chota Nagpur, and a considerable defect in Bihar and Orissa. Expressed in percentage figures, South-West Bengal received 139 per cent., Bihar 85 per cent., Orissa 83 per cent. and Chota Nagpur 110 per cent. The total rainfall for the whole south-west monsoon period has been close to the average in every division except Orissa, where it was about 20 per cent. less than normal.

Full details of the rainfall registered at each rainfall station in each district of Bengal are given in the accompanying table, day by day, for the month.

The following table compares the rainfall in the four divisions during the month of October with the normal fall, the actual being given as a percentage of the normal. The table also shows the actual falls for each of the previous months of the year, expressed in

the same way, and the last column of the table shows the total rainfall of the past ten months of the year :—

METEOROLOGICAL DIVISIONS.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	Actual Rainfall of the ten months of 1906 expressed as a percentage of the normal fall for the period.
South-West Bengal ..	467	489	177	8	71	62	94	95	13	139	95
Bihar	81	424	178	6	73	88	104	129	40	85	96
Orissa	321	378	78	11	65	86	91	64	78	88	83
Chota Nagpur ...	376	603	192	8	58	68	105	73	83	110	92

The following table affords a comparison between the actual and normal rainfall in the month of October in all the districts in the Province.—

PERCENTAGE TABLE FOR OCTOBER 1906.

The mean pressure of the seven days ...	Inches.	29.937
The average pressure of the corresponding period for 24 years, Surveyor-General's Office ...	Inches.	29.931
The total number of hours of bright sunshine ...	Hours.	59.2
The maximum possible number of hours of sunshine ...	°	78.1
The mean temperature of the seven days ...	°	74.4
The average temperature of the corresponding period for 24 years, Surveyor-General's Office ...	°	77.4
The extreme variation of temperature ...	°	23.2
The maximum temperature ...	°	85.7
The highest velocity of the wind in one hour ...	Miles.	8
The mean relative humidity ...	%	70
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office ...	%	74
The total fall of rain from 4th to 10 November 1906 ...	Inches.	Nil
The average fall of the corresponding period for 24 years, Surveyor-General's Office ...	Inches.	0.37
The total fall from 1st January to 10th November 1906 ...	Inches.	57.19
The average fall of the corresponding period for 24 years, Surveyor-General's Office ...	Inches.	65.12

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

☞; dew,

C. W. PEAKE,

for Director-General of Observatories.

8. Sant Bilas Singh.
8. Maulvi Zahurul Husain,
10. Mr. J. A. Hubback, I.C.S.

No. 3007 L.A.—The 20th November 1906.—Declaration No. 196R., dated the 20th September 1902, published at page 1360, Part I of the *Calcutta Gazette* of the 1st October 1902, regarding the acquisition of land required for the Gaya-Asansol Railway, in the district of Hazaribagh, is hereby cancelled.

R. W. CARLYLE,
Chief Secy to the Govt. of B.

DECLARATION.

No. 2967.—The 14th November 1906.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the East Indian Railway Company for a public purpose, viz., for assisted siding for Messrs. Sarkar and Barnard's Kumardih Colliery, in the village of Kumardih, pargana Shergurh, zilla Burdwan, it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 bighas 2 cottahs 5.77 chitaks of standard measurement, bounded on the north by the dry crops of Baikantha Roy, Ajodharam Roy, Udoy Gope, Kalpa Khan and Khas danga; south by the East Indian Railway Company's land; on the east by the dry crops of Kalpa Khan and on the west by the paddy lands of Baikantha Roy, is required within the aforesaid village of Kumardih.

Mines of coal, iron-stone, slate or other minerals lying under the land, or any particular portion of the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away, or use in the construction of the work for the purpose of which the land is being acquired, are not needed.

This declaration is made, under the provisions of section 6, Act I of 1884, and section 3, clause (1), Act XVIII of 1885, to all whom it may concern.

A plan of the land may be inspected in the office of the District Engineer, East Indian Railway, Asansol.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

DECLARATION.

No. 2968.—The 15th November 1906.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the expense of the Bengal-Nagpur Railway Company, for a public purpose, viz., for brickfield land at Santragachi in the villages of Jigachha in Baksara, Baksara and Jagachha, pargana Dharsa, zilla Hooghly, sub-district Howrah, it is hereby declared that for the above purpose a piece of land measuring, more or less, 4 acres 1 rood and 27.90 poles, being equivalent to 13 bighas 7 cottahs and 10.59 chitaks of standard measurement, is required within the aforesaid villages of Jigachha in Baksara, Baksara and Jagachha.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be seen in the office of the District Engineer, Calcutta District, Bengal-Nagpur Railway, at No. 18 Garden Reach Road.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

DECLARATION.

COMMR.'S OFFICE, RANCHI, the 23rd October 1906.

GENERAL DEPARTMENT.

NOTIFICATION.

No. 2616.—The 17th November 1906.—The following notification issued by the Government of India in the Department of Commerce and Industry is republished for general information.

T. W. RICHARDSON,
Offg. Secy. to the Govt. of Bengal.

No. 8669—58, dated Simla, the 1st November 1906.

NOTIFICATION—By the Government of India, Department of Commerce and Industry.

IN exercise of the powers conferred by section 80 of the Indian Emigration Act, 1883 (XXI of 1883), the Governor-General in Council is pleased to direct that the following amendment be made in rule 133 of the rules published with the Notification of the Government of India in the Department of Revenue and Agriculture, No. 94-E., dated the 18th March 1886, as subsequently amended, namely :—

For the words "the single women furthest aft; the married persons next; and the single men forward," substitute "the married persons shall be so located as to separate the single men from the single women and the crew shall be located beyond the single men."

FINANCIAL DEPARTMENT.

NOTIFICATIONS.

No. 4241F.—*The 17th November 1906.*—It is hereby notified for general information that, in the exercise of the powers vested in the Local Government by section 3 of the Calcutta and Suburban Police Superannuation Fund Act, 1905 (Bengal Act VI of 1905), the Lieutenant-Governor is pleased to make the following rules for the regulation of pensions and gratuities to the members of the Calcutta and Suburban Police Force and of the establishment of the Fire Brigade, Calcutta, whose pay at date of discharge does not exceed Rs. 20.

Amount of Pension for Members of the Police Force.

I.—The pension admissible to an officer whose pay at date of discharge or resignation does not exceed Rs. 20 shall be determined according to one of the following scales:—

Scale A.—According to the rules of the Calcutta and Suburban Police Superannuation Fund, which under section 3 of Bengal Act VI of 1905 shall be taken to have merged in the general revenues with effect from the 27th December 1905.

Scale B.—According to the rules prescribed in Chapters XVII to XIX of the Civil Service Regulations for the superior service, except—

- (i) that all service in the police after the age of 18 years shall qualify for pension; and
- (ii) that, in addition to the leave under rule 2 of Article 713 of the Civil Service Regulations which is granted on the same condition as privilege leave and which under Article 407, Civil Service Regulations, is reckoned as service, one year's leave in 15 years' service and two in 30 years' service shall be so reckoned.

II.—The pension of an officer enlisted in the Calcutta or Suburban Police Force on or after 27th December 1905 (the date of the abolition of the Police Superannuation Fund) shall be regulated by scale B.

III.—The pension of an officer who was enlisted before 27th December 1905, and subscribed to the Police Superannuation Fund, and whose pay at date of discharge does not exceed Rs. 20, shall on his being invalided be regulated by scale A, provided he continues to pay his subscriptions from the 27th December 1905 (the date of the abolition of the Police Superannuation Fund) to the date of his retirement. Failing such payments, his pension or gratuity shall be regulated by scale B.

For Members of the Fire Brigade.

IV.—The pension of a member of the Fire Brigade, who was enlisted on or after 27th December 1905, and whose pay at date of discharge does not exceed Rs. 20, shall be regulated by scale B, and be paid from the Fire Brigade Fund or from the Fire Brigade Fund and the general revenues according to the rule of proportions as provided in Article 801(ii), Civil Service Regulations, for officers on pay exceeding Rs. 20.

V.—The pension of a member of the Fire Brigade who was enlisted before 27th December 1905, and subscribed to the Police Superannuation Fund, and whose pay at date of discharge does not exceed Rs. 20 on his being invalided shall be regulated by scale A and paid from General Revenues, provided he continues to pay his subscriptions from 27th December 1905 to the date of his retirement. Failing such payments, his pension or gratuity shall be regulated by scale B, and paid from the Fire Brigade Fund, or from the Fire Brigade Fund and the General Revenues according to the rule of proportions as provided in Article 801(ii), Civil Service Regulations, for officers on pay exceeding Rs. 20.

Breaks in Service.

VI.—The Commissioner of Police, Calcutta, is authorized to condone breaks in the service of those policemen on pay not exceeding Rs. 20 a month who re-enlist within one year after discharge or resignation.

Power of Sanction.

VII.—The Commissioner of Police, Calcutta, is authorized to sanction payment of ordinary service pensions or gratuities to members of the Police Force and Fire Brigade whose pay at date of discharge does not exceed Rs. 20, but not wound and other extraordinary pensions and gratuities to which the ordinary rules in the Civil Service Regulations apply. The power of sanction hereby delegated shall be exercised only when the pension is strictly admissible under the Regulations, and does not require, to make it admissible, the exercise of other powers which have not been delegated, *e.g.*, condonation of deficiency, etc. The Lieutenant-Governor reserves to himself the right to reduce pensions or gratuities on account of unsatisfactory service.

No. 873 S.R.—The 20th November 1906.—Babu Amarendra Nath Pal Chaudhuri, Deputy Collector, is appointed Deputy Collector of Income-tax in the district of Jessore, *vice* Babu Bhabadeb Sarkar, and under section 40 of Act II of 1886 is vested with the powers of a Collector under the Act.

No. 860-O.—The 13th November 1906.—Mr. L. S. Graham, Assistant Opium Agent, attached to the Benares Opium Agency, is granted privilege leave for fourteen days in extension of the leave granted to him in Notification No. 796-O., dated the 3rd September 1906.

H. J. McINTOSH,
Offg. Secy. to the Govt. of Bengal

MEDICAL DEPARTMENT.

No. 259 Medl.—The 15th November 1906.—Captain C. J. Robertson-Milne, I.M.S., is appointed to be Superintendent of the Central Lunatic Asylum at Berhampore, with effect from the forenoon of the 29th October 1906.

No. 279 Medl.—The 19th November 1906.—Major F. O'Kinealy, I.M.S., Officiating Professor of Ophthalmic Surgery, Medical College, Calcutta, and Ophthalmic Surgeon, College Hospital, is allowed privilege leave for six weeks, under article 260 of the Civil Service Regulations, with effect from the 13th November 1906, the date on which he was relieved of his officiating duties.

No. 281 Medl.—The 17th November 1906.—Lieutenant-Colonel J. G. Jordan, I.M.S., was on general duty at the Medical College Hospital, Calcutta, from the 20th September to the 7th October 1906, both days inclusive.

No. 283 Medl.—The 17th November 1906.—Lieutenant-Colonel J. G. Jordan, I.M.S., is appointed to be a second-class Civil Surgeon and is posted to Midnapore, with effect from the afternoon of the 9th October 1906.

H. J. McINTOSH,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION No. 301 Medl.

Dated 20th November 1906.

CHARITABLE ENDOWMENTS ACT, 1890.

In the matter of the creation of the Raj Narayan Das Endowment for feeding the lepers in the Leper Asylum in the town of Puri.

It is hereby notified that the Lieutenant-Governor of Bengal, in exercise of the powers conferred by sections 4 and 5 of the Charitable Endowments Act, VI of 1890, and upon the application and with the concurrence of Babus Raj Narayan Das, Radha Charan Das and Radha Gobinda Das of Balasore, zamindars (hereinafter referred to as the donors), doth hereby order and direct that the immovable properties of which the particulars are contained in the first schedule hereunder written shall from the date of the first publication of this notification in the *Calcutta Gazette*, vest, and be thenceforth vested, in the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal to be held by him and his successors (subject to the provisions of the said Charitable Endowments Act, 1890, and the rules, from time to time, framed thereunder by the Governor-General in Council) upon trust to receive the rent, income and profits thereof when and as the same shall respectively become payable, and from time to time to apply the same in the manner and for the purposes set forth in the scheme of which the particulars are contained in the second schedule hereunder written; and it is hereby further notified that the said scheme of which the particulars are contained in the said second schedule, shall come into operation on the vesting of the said properties in the said Treasurer of Charitable Endowments for the territories subject to the Government of Bengal.

The First Schedule above referred to.

Two-thirds (or ten annas, eight pies) share of zamiindari right in the estate named Purusotampur Kothmul, pargana Banchas, thana Gopo, bearing tanzi No. 364 in the revenue-roll of the Puri district, the proportionate Government revenue now payable in respect whereof amounts to Rs. 275-5-4.

The Second Schedule above referred to.

1. The Endowment hereby created shall be called "the Raj Narayan Das Endowment for feeding the lepers in the Puri Leper Asylum."

2. The Trustee to be appointed under section 5 (1) of the Charitable Endowments Act, 1890, to administer the said properties shall be the Collector for the time being of Puri (hereinafter referred to as "the said Collector").

3. The Treasurer of Charitable Endowments for the territories subject to the Government of Bengal (hereinafter referred to as "the said Treasurer") shall stand possessed of the properties of which the particulars are contained in the first schedule above written (hereinafter referred to as "the said properties") upon trust (subject to any special order which he may receive from the Government of Bengal) to permit the said Collector to have the possession, management and control of the said properties, and the application of the income thereof, as if the said properties had been vested in the said Collector.

4. The person for the time being having the possession, management and control of the said properties shall have full power to let the said properties or any part thereof, from time to time, for such period, and on such terms and conditions, and to make any allowances to or arrangements with tenants as he shall think fit, with liberty to accept surrenders of tenancies, and generally to do all acts and things necessary in connection with the management and development of the said properties as he in his discretion shall deem advisable, and as if he were the absolute owner thereof, without being responsible for any loss or damage that may happen thereby, and with power to delegate either expressly or by implication during such period or periods, and upon such terms as he shall think fit the exercise of all or any of the powers herein contained to any Subdivisional Officer or Deputy Collector in the service of Government without being responsible for any loss occasioned thereby. The several powers hereinbefore contained may be exercised either in relation to the undivided share mentioned in the first schedule above written solely or in conjunction with the person or persons entitled to or having power in that behalf over the other undivided parts or shares of and in the said premises or in relation to the entirety of the said premises, and so that in the latter case any rents, expenses, outgoings or other moneys may be apportioned in such manner as the person for the time being having the possession, management and control of the said properties as aforesaid shall think fit.

5. The person for the time being having the possession, management and control of the said properties shall, out of the rents, income and profits thereof, pay or cause to be paid all costs and expenses of and incidental to the collection of the same, and the management of the said properties, the Government revenue, cesses, taxes and other outgoings payable in respect of the said properties, and any other costs and expenses duly incurred by him or the said Treasurer in carrying out the trust hereby declared, and any fees for the time being payable to Government under section 13(b) of the Charitable Endowments Act. If the person for the time being having the possession, management and control of the said properties shall be the said Collector, he shall apply the residue of the rents, income and profits of the said properties in the manner mentioned in clause 6 hereof, but if not, he shall pay the said residue of the rents, income and profits to the said Collector, by whom the same shall be applied as mentioned in clause 6 hereof.

6. The said Collector shall apply the said residue of the rents, income and profits of the said properties in or towards the cost of providing food for the lepers of the said Leper Asylum, provided always that it shall be lawful for the said Collector to pay the said residue of the rents, income and profits of the said properties or any part thereof to the President for the time being of the Committee of the said Leper Asylum for the purpose of the same being applied for the purpose and according to the provisions of this clause.

7. The said Collector shall in books to be kept by him regularly enter or cause to be entered full and true accounts of all moneys received and paid by him as such trustee, and shall submit to such public servant, in such form, and at such times as the Local Government may from time to time appoint and prescribe, an abstract of such accounts, and such returns in regard to any matters connected with the administration of the trust as the Local Government may require.

H. J. McIntosh,

Offg. Secy. to the Govt. of Bengal.

IRRIGATION DEPARTMENT.

[Third Publication.]

The 6th November 1906.

No. 8.—*Notification.*—In exercise of the powers conferred on him by sections 99 and 78 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor of Bengal proposes to make the following additions and alterations in rule 5 of the Water-rate Rules for the Orissa Canals and in items 2 and 5 of the Schedule of rates to be charged for water supplied from the said canals.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

Existing rule and rate.

Proposed rule and rate.

Rule 5 (1st portion only).—The preliminary application for a lease for a term of years, either new or renewal, may be of an informal nature, but it must be in writing. It may be presented at any time; but, if presented after the 31st March in the year during which the lease is to commence, an additional charge of one pie per *goont* of local measure, equivalent to 6 annas 3 pies per *mán*, will be made for the year following that in which the lease has been applied for.

Rule 5 (1st portion only).—The preliminary application for a lease for a term of years, either new or renewal, may be of an informal nature, but it must be in writing. It may be presented at any time; but, if presented after the 31st March in the year during which the lease is to commence, an additional charge of 1 pie per *goont* of local measure, equivalent to 6 annas 3 pies per *mán*, will be made on all lands leased at Rs. 1-12 per *mán*, and an additional charge of 1 pie per *goont* of local measure, equivalent to 2 annas and 1 pie per *mán*, will be made on all lands leased at 8 annas per *mán* for the year following that in which the lease has been applied for.

Existing rule and rate.

Item 2 of the Schedule (portion only).— Provided that in all cases in which the preliminary application for the lease has been presented on any date subsequent to the 31st of March of the year during which the lease is to commence, an additional charge of 1 piece per *goont*, equivalent to 6 annas 3 pies per *mán*, shall be made on all lands in the lease for the year subsequent to that from which the lease commences.

Item 5 of the Schedule.— For the irrigation of sugarcane between 1st April and 16th June—Rs. 3-8 per *mán*.

Proposed rule and rate.

Item 2 of the Schedule (portion only).— Provided that in all cases in which the preliminary application for the lease has been presented on any date subsequent to the 31st of March of the year during which the lease is to commence, an additional charge of one piece per *goont*, equivalent to 6 annas 3 pies per *mán*, shall be made on all lands leased at Rs. 1-12 per *mán*, and an additional charge of 1 pie per *goont* of local measure, equivalent to 2 annas and 1 pie per *mán*, will be made on all lands leased at 8 annas per *mán*, for the year subsequent to that from which the lease commences.

Item 5 of the Schedule.—(a) For the irrigation of sugarcane between 1st April and 16th June on lands leased for a term of years at Rs. 1-8 per *mán*—Rs. 3-8 per *mán*.

(b) For the irrigation of sugarcane between 1st April and 16th June on lands leased for a term of years at Rs. 1-12 per *mán*—Rs. 3-4 per *mán*.

RAILWAY DEPARTMENT.

The 20th November 1906.

No. 23R.—Notification.—Whereas it appears to the Lieutenant-Governor of Bengal that land is likely to be required to be taken by Government at the expense of the Baraset-Basirhat Light Railway Company, Limited, for a public purpose, viz., for the construction of a branch of the light railway from Belliaghatta Bridge Station to Pattipookur in or near the undernoted villages in the 24-Parganas district:

Notice is hereby given to all whom it may concern that under the provisions of section 4 of Act I of 1894, the Lieutenant-Governor has authorized the Engineers of the Baraset-Basirhat Light Railway Company, for the time being engaged on this undertaking, to enter upon and survey lands and do all other acts required for the proper execution of their work as provided for or specified in the said section of the Act:—

EDUCATION DEPARTMENT, BENGAL.

Subordinate Educational Service.

The 14th November 1906.—Babu Abinash Chandra Misra, a Sub-Inspector of Schools in the district of Hooghly (Class VI), is allowed leave of absence for three months and twenty-one days, under Article 336 of the Civil Service Regulations, in continuation of the leave granted to him under the orders of the 27th June 1906.

The 19th November 1906.—Babu Akshoy Kumar Sen Gupta, M.A., Assistant Master, Purulia Zilla School (Class VIII), is allowed leave of absence for one month, under Article 271 of the Civil Service Regulations, with effect from the 23rd October 1906.

A. EARLE,
Director of Public Instruction, Bengal.

NOTIFICATION.

Annual Examination of Pleaders in Surveying.

1. The next Survey Examination for Pleaders will be held in February 1907.
2. Applications for admission to appear at the examination should in the first place be submitted to the District Judge in whose Court or in Courts subordinate to whom the Pleader ordinarily practises. The District Judge will require evidence from all applicants that they have undergone some training in practical surveying. He will not countersign the application of a candidate who fails to satisfy him on this point; nor will such a candidate be permitted to appear at the examination.
3. Candidates whose applications have been countersigned by the District Judge, must submit their applications to the Director of Public Instruction, and these must be received on or before the 15th December 1906. After this date no more applications will be received.
4. The application should state the centre at which the candidate intends to appear, and all particulars as to the length of time the applicant has practised in the Court, and the full address, etc., necessary to secure that letters will reach the applicant.
5. Each application should be accompanied by the prescribed fee of Rs. 30,* which will in no case be refunded.
6. Only Pleaders practising in one of the Courts of the Province of Bengal will be eligible for the examination.
7. The examination will be held at three centres, viz., Patna, Cuttack and Sibpur.
8. The subjects for examination are noted below:—
 - (1) Paper on General Elementary Surveying, including the theodolite and levelling.
 - (2) Practical examination in the field in—
 - (a) Chain, and chain and compass surveying.
 - (b) Plane-tableing.
 - (c) Plotting.
 - (d) Levelling.
 - (e) The use of the theodolite and the permanent and temporary adjustment of instruments.
9. Candidates are required to secure 40 per cent. of the marks in the paper on surveying, and 50 per cent. in the practical portion of the examination.
10. The rules regarding the Pleaders' Survey Examination were published in the *Calcutta Gazette* of the 28th September 1904.
11. The programme for the examination will be published in the *Calcutta Gazette*.

CALCUTTA,
The 14th November 1906.

A. EARLE,
Director of Public Instruction, Bengal.

* The fee must be deposited in the Bank or local Treasury, and the receipt for the same should accompany the application. On no account will cash or a money order be received.

PRACTICAL SURVEYING EXAMINATION FOR PLEADERS.

FORM OF APPLICATION.*

To

THE DIRECTOR OF PUBLIC INSTRUCTION, BENGAL.

SIR,

I REQUEST permission to appear at the Survey Examination for Pleaders to be held in February 1907, under Government Order No. 2047J.—D., dated 9th October 1901. The Treasury receipt for Rs. 30 paid as fee is sent herewith.

I wish to be examined at the _____ centre.

I have the honour to be,

SIR,

Your most obedient servant,

Dated _____

Particulars to be filled up by the Candidate.

- (1) Name
- (2) Father's name
- (3) Residence
- (4) Name of the district where the candidate
is practising as a Pleader ... }
- (5) Date of obtaining the B.L. Degree, or of
passing the Pleadership Examination... }
- (6) Where the candidate wishes to be examined
- (7) Caste or creed

* The application is to be submitted through the District Judge in whose Court or in Courts Subordinate to whom the candidate ordinarily practises as a Pleader.

Programme of Practical Examination for Pleaders at the Sibpur, Patna and Outlack Centres.

Day.	Date.	Hour.	Subject.	Full Marks.	REMARKS.
Monday	18th Feb. 1907	10 A.M. to 1 P.M.	Question papers	100	In the Examination Hall.
Tuesday	19th " " and subsequent days.	4 hour periods morning and afternoon.	Chain and Compass Surveying.	100	In the Field.
			Plane-table Surveying	100	
			Levelling	100	
			The use of the theodolite and the adjustment of instruments.	100	
			Plotting	100	In the Examination Hall.

Each practical test should be suitable for a single uninterrupted period of four hours.

The order and times of the practical tests will depend on the number of candidates to be examined. They will be arranged for each centre by the officer conducting the examination as he thinks fit. They may be altered during the examination as occasion may arise. Candidates are therefore warned to find out on completing each test when their attendance will be next required.

Candidates must bring their own drawing instruments, scales, etc., each day with them. Paper, drawing-boards and field-books will be supplied.

Surveying instruments will be issued to candidates, who will be held responsible for any damage done to them. Tapes will not be supplied, but may be brought by the candidates, if they wish to use them.

CALCUTTA,
The 14th November 1906.

A. EARLE,
Director of Public Instruction, Bengal.

NOTIFICATION.

The 20th November 1906.

In the absence of an approved Anglo-Uriya Reader for Standards V and VI, the Anglo-Uriya version of "A Reader for Middle Classes," by Messrs. Marsden and Bose (Messrs. Macmillan & Co.), may be used in schools in Orissa until further notice."

A. EARLE,
Director of Public Instruction.

NOTIFICATION.

Berhampore, the 19th November 1906.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.
CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India, not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depot, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PRICES.

THE terms of subscription, and the terms on which current issues and back numbers are sold, are as follows:—

	Without postage.	With Indian postage.	With Foreign postage.

PART IVA.

Proceedings of the Bengal Legislative Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

*Abstract of the Proceedings of the Council of the Lieutenant-Governor of Bengal,
assembled under the provisions of the Indian Councils Acts, 1861 and 1892.*

The Council met in the Council Chamber on Saturday, the 10th November, 1906, at 11 A.M.

• Present: •

The Hon'ble SIR ANDREW FRASER, K.C.S.I., Lieutenant-Governor of Bengal,
presiding.

The Hon'ble MR. F. A. SLA'KE.

The Hon'ble MR. W. C. MACPHERSON, C.S.I.

The Hon'ble MR. P. O'KINEALY, Advocate-General of Bengal.

The Hon'ble MR. E. W. COLLIN.

The Hon'ble MR. R. W. CARLYLE, C.I.E.

The Hon'ble MR. W. A. INGLIS.

The Hon'ble MR. H. J. MCINTOSH.

The Hon'ble MR. T. W. RICHARDSON.

The Hon'ble MR. G. GORDON.

The Hon'ble MR. C. G. H. ALLEN.

The Hon'ble MR. J. CHAUDHURI, M.A.

The Hon'ble ASIF KADR SAIYID WASIF ALI MIRZA, of Murshidabad.

The Hon'ble RAJA BAN BEHARI KAPUR, C.S.I.

The Hon'ble BABU JOGENDRA NATH MUKHERJEE, M.A., B.L.

The Hon'ble BABU BHUPENDRA NATH BASU, M.A., B.L.

The Hon'ble MR. SYED SHURFUDDIN.

The Hon'ble MR. W. T. SPINK.

The Hon'ble MR. J. R. BERTRAM.

The Hon'ble BABU RADHA CHARAN PAL.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE, M.A., B.L.

NEW MEMBERS.

The Hon'ble MR. P. O'KINEALY and the Hon'ble BABU JOGENDRA CHANDRA GHOSE took their seats in Council.

THE LATE HON'BLE BABU NALIN BEHARI SIRCAR, C.I.E.

The Hon'ble the PRESIDENT said :—“I am sure that it will appear right to the Council that, before proceeding to the business of the day, I should refer briefly to the loss which the whole community has sustained in the death of Babu Nalin Behari Sircar. When I left for England, he was still a Member of this Council; and though I knew that he was not in good health, I had little thought that one of the first things which I should hear after my return would be the news of his death.

“I need not dwell in this place on the services rendered to the community by Babu Nalin Behari Sircar; for they are as well known to you as to me. I made his acquaintance very soon after my arrival in Calcutta three years ago. From the first I came under the charm of his winsome and courteous manners; and from the first I realised his great capacity and his desire to advance the public interest. From the first therefore he became one of my most highly esteemed advisers.

“In innumerable ways he privately and unostentatiously showed his devotion to the public good; and his kindness and benevolence are well known. He also publicly co-operated with Government in the work of the Port Commissioners; and his fellow Commissioners indicated their respect for and confidence in him, by appointing him to represent them on the Corporation where his work was of great value. The Corporation in turn elected him to be a Member of this Council; and during all the time that he served with us, he worked with us heartily, and was highly esteemed among us. He rendered me assistance of special value as a member of the Conference on the Calcutta Improvement Scheme; and on many occasions he showed himself to be a colleague, as I have already indicated, worthy of the very highest respect. He came to me freely to discuss public questions; and, though we sometimes differed in opinion, our relations were always most cordial.

“The high position which he occupied in the respect of the community was indicated by his selection to the office of Sheriff; and the appreciation by Government of his valuable public services was indicated by his appointment by His Majesty the King-Emperor to be a Companion of the Most Eminent Order of the Indian Empire.

“I am sure that every Member of this Council concurs with me when I give expression to our deep regret at the loss of our friend and late colleague, and I am sure also that the Council will desire that I should communicate the expression of our sympathy with his widow and children and his aged mother in the sore bereavement which they have sustained.”

QUESTIONS AND ANSWERS.

RESOLUTION BY THE GOVERNMENT OF BOMBAY REGARDING JUVENILE OFFENDERS.

The Hon'ble MR. SYED SHURFUDDIN said :—

I beg to draw the attention of this Government to a Resolution passed by the Government of Bombay and issued in a press note, suggesting to all Magistrates the desirability of ordering special arrangements (i) for the detention of under-trial juvenile offenders; (ii) for the speedy disposal of such cases, and (iii) for separation within the precincts of their Courts of all juvenile offenders who may be brought before them; and drawing the attention of the Magistrates to section 562 of the Criminal Procedure Code, and section 31 of the Reformatory Schools Act, 1897, which give Magistrates ample power of dealing suitably with juvenile petty offenders, while their other powers under the Reformatory Schools Act, and the Whipping Act probably enable them to deal with more serious offenders without having recourse to the punishment of imprisonment; and to ask the Government if it will consider the advisability of issuing orders on similar lines to the Magistrates of Bengal?

The Hon'ble Mr. RICHARDSON replied:—

"The Government of Bombay will be requested to favour this Government with a copy of the Resolution to which the Hon'ble Member refers. When this is received this Government will consider whether it should take action on similar lines.

"I may tell the Hon'ble Member that a rule in the Jail Code provides for the segregation of under-trial prisoners, male and female, and for the separation of male under-trial prisoners under the age of 18 from other prisoners, and of those under such age who have attained the age of puberty from those who have not.

"After the existing Criminal Procedure Code was passed, the attention of Magistrates was directed to the provisions of section 562. Further measures to ensure that no juveniles are unnecessarily detained in a Reformatory School are under consideration."

TRANSFER OF SUB-DIVISIONAL HEAD-QUARTERS FROM RAJMAHAL TO SAHEBGANJ IN THE SONTHAL PARGANAS.

The Hon'ble Mr. SYED SHURFUDDIN asked:—

Will the Government be pleased to state if it intends to transfer the Sub-divisional Head-quarters from Rajmahal to Sahebganj in the district of the Sonthal Parganas?

If so, will the Government be pleased to state what new circumstances have transpired to necessitate such a change since, in reply to a question on the subject by the Hon'ble Rai Bahadur Tarini Prasad, four years ago, the Government was pleased to declare that it had no such intention?

The Hon'ble Mr. CARLYLE replied:—

"Attention has recently been drawn again to the proposal made some years ago to transfer the Sub-divisional Head-quarters from Rajmahal to Sahebganj, in the district of the Sonthal Parganas. But the Government has not yet had the opportunity of re-considering the proposal, and will certainly not pass any orders in regard to it without hearing all that can be urged against it."

REPORT OF THE COMMITTEE REGARDING THE PAY AND PROSPECTS OF MINISTERIAL OFFICERS.

The Hon'ble Mr. SYED SHURFUDDIN asked:—

Will the Government be pleased to state if it has received the final report of the Committee appointed to inquire into, and report on, the present pay and prospects of the ministerial officers and to suggest means for their improvement?

If the report has been received, will the Government be pleased to publish it for general information, and to state what action the Government is going to take on the report, and when?

The Hon'ble Mr. MCINTOSH replied:—

"The report has been received and is at present under the consideration of Government. It cannot at present be published."

FLOODS IN NORTH BIHAR.

The Hon'ble MR. SYED SHURFUDDIN asked:—

Will the Government be pleased to lay on the table the reports which this Government has submitted to the Government of India on the recent floods in North Bihar?

In view of the facts that the recent floods in North Bihar have caused serious damage to the standing crops, that the outturn of the *Bhadoi* crops is expected to be much below the normal, that on account of the September rainfall in Bihar having been less than half of the normal average (the normal average is 9·40 and the actual for September, 1906, is 4·56, *vide* Calcutta Gazette of the 17th October last), the winter paddy crops cannot be expected to be a bumper one, and that this year there has been an unusually large export of food-grains from Bihar into East Bengal, will the Government be pleased to state whether it apprehends a famine or a severe scarcity in Bihar in the near future, and, if so, what steps the Government proposes to take to meet the situation?

If the information now before the Government does not enable it to give a definite reply to the above question, will the Government be pleased to institute an early and careful inquiry into the matter and publish the result of such an inquiry for the assurance of the public?

The Hon'ble MR. CARLYLE replied:—

“With reference to the Hon'ble Member's Questions, I am directed to lay on the table the reports submitted by this Government to the Government of India on the recent floods in North Bihar. Famine has been declared in the Roserha and Bahera thanas of Darbhanga, and will probably have to be declared in other thanas later on. So far as our information now goes, it is not certain that famine will have to be declared in any other Bihar district, but the state of things is being carefully watched. Test works have been opened both in Muzaffarpur and in Saran, and if they show that famine conditions exist, famine will at once be declared wherever severe distress is likely to prevail.”

BHADOI CROPS OF BENGAL.

The Hon'ble MR. SYED SHURFUDDIN asked:—

Will the Government be pleased to state upon what authority the Director of Agriculture bases his preliminary forecast of the *Bhadoi* crops of Bengal (published in the Calcutta Gazette of the 17th October last), in which he says that “on the whole 75 *per cent.* of a normal outturn may safely be expected?”

Will the Government be further pleased to state fully the process by which the Director of Agriculture has got the information on which he bases his report?

The Hon'ble MR. CARLYLE replied:—

“The Hon'ble Member is referred to the Forecast itself as published in the Gazette with the details received from each district in the Appendix. This will probably give him all the information he requires. If not, the Director of Agriculture will be glad to give him any further information.

“The Hon'ble Member will find the answer to the second part of his question in Chapter II of the Manual of Rules for the preparation of Crop Reports and Agricultural Statistics issued under the authority of Government.”

TOLLY'S NALLAH CANAL.

The Hon'ble MR. BERTRAM asked:—

Will the Government be pleased to state if a statement can now be laid on the table explaining the present position of the Tolly's Nallah Canal project?

The Hon'ble MR. INGLIS replied:—

"The Lieutenant-Governor is unable to add to the statement made in answer to the question on this subject which was asked at the meeting of the Council on the 18th August last. The matter is under discussion with the Government of India."

LOCAL FUNDS RELATING TO TRADE AND COMMERCE CONTROLLED BY GOVERNMENT.

The Hon'ble MR. BERTRAM asked:—

Will the Government be pleased to state what other funds besides the Boiler Fund, the Pilotage Fund and the Port Hospital Dues Fund, relating to Trade and Commerce, they at present control, and if there is any valid reason why the accrued balances at credit of the three named funds, in addition to any others controlled by Government, should not be invested in interest bearing securities?

The Hon'ble MR. INGLIS replied:—

"The Fire Brigade Fund and the Orissa Ports Fund, which are excluded local funds, are controlled by Government. The Inland Labour Transport Fund is an Incorporated Local Fund and is also controlled by Government. The question of the best method of dealing with the balances of the Funds referred to in the Hon'ble Member's question will be further considered."

THE CALCUTTA IMPROVEMENT SCHEME.

The Hon'ble MR. BERTRAM asked:—

Can the Government make a statement as to the present position of the "Calcutta Improvement Scheme," and when is a Bill on the subject likely to be introduced into this Council?

The Hon'ble MR. MCINTOSH replied:—

"The scheme is still under the consideration of the Governments of India and Bengal. It is impossible to give any definite reply to this question at present."

ST. PAUL'S SCHOOL AT DARJEELING.

The Hon'ble MR. BERTRAM asked:—

Will the Government be pleased to state if they intend to take over St. Paul's School at Darjeeling from the present governing body, and, if so, on what terms and conditions?

The Hon'ble MR. RICHARDSON replied:—

"Government has no intention of taking over St. Paul's School from the governing body. Proposals are, however, under consideration which may lead to a change in the constitution of that body."

FISHERY INVESTIGATION SCHEME.

The Hon'ble MR. BERTRAM asked:—

Will the Government be pleased to state if, after Mr. K. G. Gupta's present mission is ended, they intend to organize a Fishery Investigation Scheme somewhat similar to that instituted by the Madras Government?

The Hon'ble MR. CARLYLE replied:—

"Mr. K. G. Gupta has been placed on special duty by the Bengal Government for six months so as to commence an inquiry regarding Bengal fisheries; but as it is recognized that this time is insufficient for the completion of his inquiries, the Government of India have been asked to allow his deputation to be extended and to select an expert from England to be associated with him in his inquiries."

A SECOND STEAM PILOT VESSEL.

The Hon'ble MR. BERTRAM asked:—

Can the Government now state if they are to make provision in the next Budget for the cost of a second pilot steamer?

The Hon'ble MR. INGLIS replied:—

"Subject to the approval of the Government of India, it is proposed to provide funds for the second steam pilot vessel in the Budget for next year."

MR. PROTHERO AND THE PRINCIPALSHIP OF THE PRESIDENCY COLLEGE.

The Hon'ble BABU BHUPENDRA NATH BASU asked:—

(a) Will the Government be pleased to state the grounds on which it has superseded Mr. Prothero in the recent officiating appointment of the Principal of the Presidency College?

(b) Is it not the fact that Mr. Prothero had once before officiated as Principal of the Presidency College for a period of six months?

(c) Was any fault found with Mr. Prothero's Principalship of the Presidency College?

(d) Is it a fact that after Mr. Prothero had acted as Principal of the Presidency College, or at any other time, he was very strongly recommended by Sir Alexander Pedler, the late Director of Public Instruction, for the post of the Director of Public Instruction, Punjab?

(e) Is the Government aware that Mr. Prothero was very popular with the professors and the students during the time that he held the office of the Principal of the Presidency College and he enjoyed the complete confidence of the students?

(f) Is the Government aware that all the Anglo-Bengali newspapers have regretted the supersession of Mr. Prothero and ascribed the same to his well-known attitude of sympathy towards the Indian students?

(g) Does the Government think it conducive to the interests entrusted into the hands of the officers of the Education Department to arbitrarily supersede senior officers towards the close of their service?

The Hon'ble Mr. RICHARDSON replied :—

"I cannot undertake to answer the Hon'ble Member's long series of questions categorically and I much regret being called upon to make in public a comparison between the merits of the two officers referred to. The task is an invidious one, but the Hon'ble Member leaves me no option.

"The Principalship of the Presidency College is one of the most important posts in the Education Department, and in filling that post the claims of seniority must be subordinated to the principle of selection, and personal considerations to the interests of the public service. The appointment of Mr. Little to officiate as Principal was made after a most careful consideration of the circumstances of the case. Mr. Prothero was not lightly passed over, but Mr. Little was preferred because he was thought to possess qualifications for the post which are not to be found in Mr. Prothero.

"It is true that Mr. Prothero once acted as Principal without exciting adverse comment. No fault was found with his Principalship, but the present issue does not depend on a comparison of faults but on a comparison of merits. The conditions now are changed. Proposals for the improvement of the Presidency College are likely to come under consideration, and it was felt that Mr. Little possessed in a superior degree the abilities which the situation requires. In brief, Mr. Little was selected on the ground of fitness for the post and in the interests of the public service. The selection was in no sense arbitrary. It was made by one Lieutenant-Governor and endorsed by another. It was made in the exercise of the discretion vested in the Government and with a full sense of responsibility.

"I conceive that a proper application of the principle of selection is necessary to the efficiency, and promotes the interests, of every public department. If the post in question is, as I think the Hon'ble Member will admit it is, of sufficient importance to justify the application of that principle, then I think that no fault can be found with the action which the Government has taken.

"I am not aware that Mr. Prothero was recommended by Sir Alexander Pedler for the post of Director of Public Instruction in the Punjab; nor am I aware why, if the recommendation was ever made, it was not accepted.

"As regards the newspapers, they do not perhaps afford the best means of discussing an entirely personal issue. The suggestion that Mr. Prothero was superseded because he was popular and enjoyed the confidence of the students is absolutely without foundation. I regret that the Hon'ble Member has thought it consistent with the dignity of this place to repeat the suggestion to-day."

RULE REGARDING OFFICIATING PERIODS OF SERVICE COUNTING TOWARDS PENSION.

The Hon'ble BABU BHUPENDRA NATH BASU said :—

The Government was pleased, in answer to a question put by the Hon'ble Babu Ambika Charan Mazumdar, in March last, to state "that the question of amending the rule according to which officiating periods of service cannot be counted towards pension is already under consideration, and the Government hopes to be able to make a definite pronouncement regarding it at an early date," and on the occasion of the last Budget debate, the Hon'ble Mr. Richardson was pleased to observe as follows :—"Government has under its consideration certain proposals for improving the conditions of service as regards the rules regulating leave and pension." Will the Government be pleased to state if any definite conclusion has been arrived at on this subject, and, if so, will the Government be pleased to make the promised pronouncement?

The Hon'ble MR. RICHARDSON replied :—

“The proposals referred to are still under consideration in communication with the Government of India.”

MINISTERIAL OFFICERS' SALARIES COMMITTEE.

The Hon'ble BABU BHUPENDRA NATH BASU asked :—

As the Ministerial Officers' Salaries Committee presided over by the Hon'ble Mr. Slacks has made its report, will the Government be pleased to state when the necessary resolution will be issued on the subject so that all ministerial officers may get the benefit which the Government has been pleased to grant to a selected number ?

The Hon'ble MR. McINTOSH replied :—

“The question has already been answered in the reply to the question of the Hon'ble Mr. Shurfuddin.”

NOMINATION BY THE SYNDICATE OF M.A.'s TO THE PROVINCIAL SERVICE.

The Hon'ble BABU BHUPENDRA NATH BASU asked :—

Owing to the period when the new system of appointment to the Subordinate Provincial Service was introduced, the M. A.'s of 1903 and the B. A.'s and B. Sc.'s of 1904 were excluded from nomination by the Syndicate, the Government was pleased to give an assurance at the meeting of the Council held on the 19th August, 1905, that in the event of the Provincial Service cadre being increased, two or three distinguished M. A.'s of 1903 and B. A.'s of 1904 recommended by the Syndicate should be appointed? Owing probably to oversight, this assurance was not carried out at the last increase of the cadre. Will the Government be pleased to state if it will take any steps to rectify this omission ?

The Hon'ble MR. CARLYLE replied :—

“One M. A. of 1903 will be appointed this year and another will get an appointment next year.”

LEGISLATIVE MEASURES IN THE LEGISLATIVE COUNCILS OF BENGAL AND EASTERN BENGAL AND ASSAM.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked :—

(1) Has the Government considered whether any measures may be taken to prevent the anomaly that will immediately arise by the amendment of some of the Bengal Acts now in force in both Bengals, by this Council and of others by the Legislative Council of Eastern Bengal ?

Is it possible to provide that the Statute Book of the existing Bengal Acts may not be different by amendment or repeal in the two provinces creating great confusion in the administration of justice ?

(2) Has the attention of the Government been drawn to the proposed amendment of some of the most important Bengal Acts by the Legislative Council of Eastern Bengal? In case of such amendment, does this Government also propose to bring forward Bills to adopt the alterations made in the law by the other Legislative Council ?

(3) Is it not possible for the two Legislative Councils to act in concert in order to keep the law in the two Bengals identical, and thus allay the popular apprehension on the score of there being different laws in the two Bengals?

The Hon'ble MR. CARLYLE replied:—

“In reply to parts (1) and (3) of this question the Governments of two Provinces consult freely as to any legislative action to be taken, and are made fully acquainted with each other's proposals and intention. But it would be absurd to say that the circumstances of the two provinces are identical to such a degree as necessarily to demand precisely the same measures in every instance.

“(2) The Hon'ble Member does not specify the measures which he has in view; and the question is too vague to permit of a definite answer.”

JUDICIAL SERVICES IN BENGAL AND EASTERN BENGAL AND ASSAM.

The Hon'ble BABU JOGENDRA CHANDRA GHOSH asked:—

Is it a fact that by the division of the Judicial Service, there will be a larger proportion of Subordinate Judges to Munsifs in Western Bengal than in that part of the service that may be allotted to Eastern Bengal to the disadvantage of the latter?

Will the Government be pleased to state the reasons or lay on the table papers showing the reasons for dividing a service which is for all practical purposes under the High Court?

The Hon'ble MR. CARLYLE replied:—

“The question of separating the Judicial services of this Province and Eastern Bengal and Assam is still under consideration. No papers can be laid on the table at present.”

SHIP CANAL FROM THE HOOGHLY TO BIDYADHARI.

The Hon'ble BABU JOGENDRA CHANDRA GHOSH asked:—

Will the Government be pleased to state whether there is any chance of the proposed Ship Canal from the Hooghly to the Bidyadhari which has been approved by it, as greatly facilitating the navigation of steamers and boats plying between Western and Eastern Bengal, and as improving the drainage and sanitation of the District of 24-Parganas, being taken up in the near future?

The Hon'ble MR. INGLIS replied:—

“The Hon'ble Member is referred to the answer already given to the question on the same subject asked by the Hon'ble Mr. Bertram.”

THE BENGAL TENANCY AMENDMENT BILL, 1906.

The Hon'ble MR. CARLYLE moved for leave to introduce a Bill to amend and supplement the Bengal Tenancy Act, 1885. He said:—

"I will explain the Bill when I am being called on to move the next motion."

The Motion was put and agreed to.

The Hon'ble MR. CARLYLE then introduced the Bill, and moved that it be read in Council. He said:—

"Your Honour: the Bill which I have the honour to introduce to-day has been preceded by four Acts amending the Bengal Tenancy Act of 1885. The only one of general importance passed up to the present is Bengal Act III of 1898. It dealt mainly with the settlement of rents, as the procedure laid down by the Act of 1885 had been found unworkable where rents were being settled on a large scale.

"The discussions which led up to the present Bill may be said to have commenced in May, 1901, when the Board submitted a copy of a judgment given by the Special Judge of Darbhanga accepting a compromise between a raiyat and his landlord as validating an enhancement of rent which the raiyat would have been unable to validate by a contract between himself and his landlord. A short time before this, in December, 1900, the British Indian Association submitted a representation to Government on the subject of the difficulties which landlords encounter and the hardship, harassment and loss they undergo in the matter of collection and recovery of rent and cesses. The Association suggested a number of amendments of the Tenancy Act in connection with their representation. A reply was sent to this letter by the Bengal Government in May, 1902, refusing in the main to accept the suggestions made. In September, 1902, the Board of Revenue submitted for the consideration and orders of Government a letter from the Director of Land Records bringing to notice the rareness of cases in which the records of survey and settlement proceedings were examined before decrees were given by Civil Courts for higher rents than were recorded in the khatians after careful inquiries by Revenue-officers. On receipt of this letter the Bengal Government asked the Board of Revenue to consider a suggestion that a landlord should be required either by law or by rule to file a copy of the settlement khatian in every rent suit. The Board of Revenue replied in August, 1904, dealing with the whole question of the disregard by the Civil Courts of settlement proceedings. A few days later the Board submitted for the information of Government a copy of correspondence with Commissioners of Divisions regarding the necessity of legislation to protect raiyats from illegal or undue enhancement of rents. The question of the necessity of amending the Tenancy Act was considered by all the Commissioners of this province at meetings held in September, 1904. The great majority of the Commissioners were of opinion that it was necessary to give weak and subservient tenants increased protection from illegal and undue enhancement of rents in Court and out of Court. After considering various reports and the opinions of the Commissioners a draft Bill was circulated for opinion by the Bengal Government on the 29th of November, 1904. This Bill was a very short one dealing with the maintenance of the record-of-rights, the enhancement of rents, and a record of rights in water used for agricultural purposes. The Bill was subjected to a good deal of hostile criticism and it was decided by the Lieutenant-Governor, before proceeding with the amendment of the Tenancy Act, to appoint a Committee to consider certain important questions connected therewith. A Committee was accordingly appointed over which Mr. Hare, Senior Member of the Board of Revenue, presided. It included the following unofficial members, namely:—Raja Ban Behari Kapur, Raja Peary Mohan Mukherjee, Babu Chatarbhooy Sahay and Mr. A. C. Chatterjee.

"The members of the Committee were specially asked to give their opinion on the following points:—'The failure of the Courts to use survey and settlement records and the question of how to deal with zamindars who by illegitimate pressure exacted from their raiyats illegal rents in excess of those stated in the settlement records. The Government also remarked that a subject to which, Government is aware, many zamindars attach great importance is the question of facilitating the recovery of undisputed rents.' The members of this Committee were unanimously of opinion that Government should take up the amendment of the Tenancy Act as a whole and not deal separately with different matters requiring an alteration of the law. The opinion of the Committee was accepted by Government and a Bill was drawn up dealing with the Bengal Tenancy Act as a whole. In drawing up this Bill all the amendments put forward from time to time were considered and either embodied in the draft or deliberately rejected. The whole Bill was then submitted to a Committee over which the Hon'ble Mr. Justice Rampini presided. The unofficial members were: the Maharaja of Darbhanga, the Maharaja of Gidhour, Raja Ban Behari Kapur and Raja Peary Mohan Mukherjee, while the official members were: Mr. Hare, Senior Member of the Board, Mr. B. L. Gupta, Legal Remembrancer, and Mr. J. H. Kerr, Director of Land Records and Agriculture, and myself.

"The Bill now before the Council, with a few minor exceptions, is exactly as it left the hands of the Committee. The report submitted by the Committee was unanimous and concludes as follows:—

'Although certain provisions of the Bill do not entirely commend themselves to the non-official members of the Committee, yet it is considered that the Bill as a whole deals fairly with the difficulties which have arisen and with defects which have revealed themselves during recent years in the working of the Tenancy Act. They hope that it will result in the improvement of the relations between landlords and tenants generally, and they therefore submit it for the favourable consideration of Government.'

"I trust that a Bill which has passed the scrutiny of so competent and influential a body of non-official critics will also meet with favourable consideration in this Council.

"While, as I have already pointed out, this Bill owes its genesis in the main to the fact that local officers and the Settlement Department drew the attention of Government to the way in which the settlement records are being overridden and rents illegally and inequitably enhanced, yet the Bill now before the Council represents a serious attempt by Government to do all in its power to meet the reasonable and just demands of zamindars. Legislation, if it is to do justice to all parties, must as a rule end in a compromise between conflicting claims, and it is the duty of Government to see that the adjustment is as far as possible equitable. While therefore Government cannot hope that Bengal landlords will view with entire satisfaction every clause in this Bill, they do hope that the great body of landlords will share the views of their distinguished representatives on the Committee which considered the Bill and will accept it as one which 'as a whole deals fairly with the difficulties which have arisen and with the defects which have revealed themselves in recent years with the working of the Tenancy Act.'

"Probably no clause in the Bill will be more generally acceptable to landlords than the one which deals with the summary procedure for the recovery of rents. Many attempts have been made to devise some solution of the problem how to give landlords a summary procedure for the recovery of rents without danger of serious oppression to raiyats, and very competent authorities have pronounced the problem to be insoluble. The last serious attempt to provide a summary procedure for the recovery of arrears of rent was made by Sir Charles Elliott in 1895. A Bill was drawn up and circulated under his instructions, but met with very strong opposition and was dropped by Sir Alexander Mackenzie when it came before him as Lieutenant-Governor. The Board of Revenue strongly opposed the Bill, among other grounds, because it did not provide any means of enforcing the keeping of proper accounts of collections, because suits were to be tried by Civil Courts, and because the Act was to be introduced in areas where the maintenance of the record-of-rights was only insured by Bengal Act III of 1895, an Act which did not

provide for the mutation of names of proprietors nor for changes in the rents payable. The Board's strongest objection was perhaps that there was great danger in giving a summary procedure to landlords who might in some cases be dishonest and unscrupulous. Whether we have succeeded in devising a summary procedure which will stand the test of further careful inquiry and criticism is for the Council to decide, but I may point out various ways in which we escape the criticisms of the Board on the last attempt. The procedure is only to be given to landlords personally. This should exclude the dishonest and unscrupulous landlord. It is to be given only to landlords who allow their accounts to be inspected by Revenue-officers. This ensures that no landlord shall have such powers unless his accounts are properly kept.

"Finally the summary procedure is only to be given in areas in which the record-of-rights has not only already been prepared and published, but in which it is being periodically revised. The members of this Council will no doubt agree with me that such powers can only be given with the strongest safeguards, and the Local Government must have full power to give or withdraw such powers without assigning any reason. I foresee two main criticisms; one is likely to come from some landlords to the effect that the grant of these powers is so safeguarded that no one will be able to avail himself of them. I do not agree with this. I believe that zamindars holding lands in areas where a record-of-rights has been maintained will find no difficulty in getting Government to permit them to adopt the summary procedure, if they can satisfy Government that their accounts are properly kept up, and if they are known to be men of such probity and force of character as not only to be incapable of misusing these powers personally, but also to be able to prevent misuse of these powers by their servants. On the other hand, I have little doubt that it will be urged that, however much these powers are safeguarded, it is still too dangerous to give them to a landlord as the temptation to use them, so as to ruin any tenant who may set himself against his landlord, would be so strong that, however honourable the landlord himself might be, he would not be able to prevent his servants abusing the summary procedure. The reply is that there are two safeguards. In the first place, no zamindar to whom the privilege has once been given will be willing to forfeit it, and his whole interest will therefore lie in seeing that his servants do not abuse the privilege. The other safeguard is that cases will be heard by a Revenue-officer familiar with the circumstances of the estate. He would very soon find out if the summary procedure were being abused to coerce the raiyats.

"It is in my opinion futile to hope by means of legislation to be able to prevent the abuse by an unscrupulous man of his power to crush individual opponents by a dishonest use of his wealth and position, but in this case there are special reasons why a zamindar should be most careful to avoid abusing these special powers, or allowing his servants to do so. He would know that even one proved instance of the abuse of these powers would very likely lead to the privilege being withdrawn, while any general abuse of the privilege could not be concealed, and would certainly lead to the powers being withdrawn.

"While clause 33 is probably the one that will attract most notice as conferring a boon on the zamindars, a great deal has been done in other parts of the Bill to meet the legitimate desires of zamindars, and, to show how far this is the case, I will again refer to the representation of the British Indian Association of 1902 mentioned by me before. I will touch only on suggestions directly affecting the Tenancy Act.

"The first suggestion of the British Indian Association was that section 3, clause 5, of the Bengal Tenancy Act, should be amended; 'rent' being defined so as to include 'interest' payable on an overdue instalment of rent and cesses. Effect has been given to this suggestion in clause 4 of the Bill.

"The next suggestion of the British Indian Association related to sections 12 to 15. It was proposed to repeal these sections, and to re-enact the law as contained in section 27 of Act X of 1859, the tenant being bound in all cases of transfer to register the transfer in the landlord's *sherista*, and the tenant also having the right to sue the landlord for registration in case of

the landlord refusing to register the transfer. While Government has not accepted the suggestion of the British Indian Association that the registration of transfers be left to landlords, they have, in clause 5 of the Bill, provided that 'nothing contained in any deed of transfer to which the landlord is not a party shall be evidence against the landlord of the permanence, fixity of rent, specification of area, transferability or any incident of any tenure or holding referred to in such deed;' and clause 6 of the Bill provides that 'the acceptance by a landlord of the fees payable under the foregoing sections in question shall not operate as an admission as to the permanence, fixity of rent, specification of area, transferability or any incident of the tenure or holding for which such fees have been paid, nor as an express consent to the division of the tenure or holding, or to the distribution of the rent thereof.' I trust it will be generally admitted that the compromise adopted by Government is a fair one.

"The third suggestion of the British Indian Association was to the effect that the entry of area of a tenure or holding in the rent-receipt of a tenant should be *prima facie* proof of the correct area of the land for which rent had been previously paid by him. While Government cannot go the length of accepting the proposal that an entry of the area in the rent-receipt should be accepted as *prima facie* proof, it would be too dangerous in the hands of some zamindars, they have in clause 11 of the Bill provided that where the landlord or tenant can prove that there is a custom in the village of settlement being made after measurement, it may be presumed that the area of the tenure or holding specified in any *patta*, *kabuliyat*, or rent-roll relating to it has been entered in such *patta*, *kabuliyat*, or rent-roll after measurement. Government believes that this provision will enable zamindars to prove excess areas with much greater facility than at present. The section as now drafted corresponds very closely with the actual practice of the Settlement Department, which, in this case, has leaned rather to the side of the zamindars, as, under the law as it stands, proof of excess area can rarely be given in such a form as to meet the demands of the Civil Courts.

"The next suggestion of the British Indian Association related to the difficulty sometimes experienced by co-sharers in collecting their rents. The provisions of clauses 34 and 35 of the Bill facilitate the realization by co-sharers of their rents, while protecting the raiyats against harassment by a number of suits by different co-sharers. The net result of these clauses is that a single co sharer is empowered to sue for the rent due to all the co-sharers, and the tenure or holding passes in execution of a decree obtained in such a suit, provided that the other co-sharers have been made parties, while the sale-proceeds are divided among them in proportion to the amount found due to each.

"The next suggestion of the British Indian Association related to the thorny question of distraint of crops. The Association suggested that the landlord should have the first lien on the crop, which should not be allowed to be removed until the rent was paid. This suggestion cannot be accepted by Government, as, in the hands of an unscrupulous zamindar, it might be made an intolerable engine of oppression. As, however, it appears that the powers of landlords to distrain crops are at present frequently nullified by tenants filing applications before Collectors for appraisalment of crops in respect of which the Civil Courts pass an order of distraint, thus protracting the proceedings some times for years, it is provided by clause 14 that no order should be passed on an application under this section after an application under section 121 for the distraint of the crops of a tenant has been made by the landlord and admitted by the Civil Court. And if after an order has been passed under this section, it appears that an application for the distraint of the tenant's crops has been made to the Civil Court before the application was made under this section, the Collector shall stay all proceedings under this section.

"The next suggestion of the British Indian Association related to the method of the service of summons on the defendant, and it was suggested that there would be less room for fraud than at present if the summons were served and acknowledgements of service received by the Postal Department. This is a

matter with which the High Court can deal, and the High Court has been addressed on the subject; but it appears more likely that fraud can be reduced by the service of summons through panchayats. Experiments in this direction are being made at present in several districts where revenue processes are being served through Presidents of panchayats instead of by Nizarat peons.

"The next suggestion of the British Indian Association related to the fact that false pleas were frequently raised by tenants of having fully paid the rent claimed in the suit, and they suggested that the law should make it compulsory for a tenant to deposit the entire amount of claim, or a receipt for the same, before allowing him to enter a defence. This question was raised before the Committee which dealt with this Bill in connection with *ex-parte* decrees, but it was pointed out that the landlord's proper remedy was to apply to the Court for damages.

"The last matter dealt with by the British Indian Association, so far as the Tenancy Act is concerned, referred to the application of section 311 of the Civil Procedure Code to all sales of tenures and holdings under the Bengal Tenancy Act. This has been dealt with in clause 37 of the Bill, which provides that, if a tenant chooses to have a sale set aside by paying the decretal amount, he cannot subsequently also proceed under section 311 of the Code of Civil Procedure.

"I have dealt at some length with the British Indian Association's letter, because I think it will show how careful Government has been to consider every reasonable request made by landlords to alter provisions of the Bill which bear unnecessarily hardly upon them.

"I may note two other provisions introduced in this Bill in favour of landlords. The first clause I would refer to is clause 13, which is designed to check the attempts so frequently made by tenants to convert suits for arrears of rent into title suits, by setting up title as landlord in a third person or in themselves. It has been proposed that, on the analogy of section 11 of the Transfer of Property Act, the penalty for denial of landlord's title should be forfeiture of the raiyati rights. This, however, would appear to be too severe a punishment. In many cases, especially where a tenant has to deal with a number of zamindars with conflicting interests, he would often be in a very difficult position if he did not entirely identify his interests with one of the parties, and taking all the circumstances into account, it seems that a maximum penalty of ten times the amount of annual rents is sufficient.

"Another clause which has been inserted with a view to meeting the convenience of zamindars is clause 31(2) of the Bill, which provides—

'Where any account-books, rent-rolls, or collection or measurement papers have been produced by a landlord in any Court in a suit pending therein, copies of, or extracts from, such documents, which have been certified by a duly authorized officer of such Court to be true copies or extracts, may be admitted in evidence in proof of the originals in any other suit instituted in the same or another Court, unless the Court in which such copies or extracts are produced sees fit to require the production of the originals.'

"It lays down provisions similar to those of the Bankers' Evidence Act as regards landlords' account-books, rent-rolls, collection and measurement papers. In such cases, when the originals have once been produced in Court in any suit, the landlord is permitted to file copies or extracts from such documents in subsequent suits, subject to the right of the Court to ask for the production of the originals if necessary.

"I have now to draw the attention of the Council to those clauses of the Bill which deal with illegal and improper enhancements of raiyati rents, the failure of many zamindars to give receipts, and the disregard of the settlement records by the Civil Courts.

"The Board's letter of 1904 and its enclosures, regarding the protection of raiyats from illegal or undue enhancement of rents, affords melancholy reading as showing the extent to which zamindars in many districts in all parts of the province have abused their powers. I cite a few instances. The Collector of Jessore reports that landlords compel their tenants to agree to illegal enhancement, by suing for rents every *kist*, or by allowing arrears to mount up. Receipts are not given, or the details are incorrectly filled in. From

Murshidabad, the Collector reports that in some cases the zamindar manufactures evidence of increased rents by false entries on counterfoils of receipts. A special method of enhancing rents is described as follows:—

‘Advantage has been taken by the clever advisers of certain large zamindars of the High Court’s decision contained in Indian Law Reports XVIII, Cal., page 333, which lays down that a raiyat, to avoid litigation, can enter into an agreement for an excessively enhanced rent. Within two or three years of the ruling, *viz.*, about 10 years ago, criminal cases, suits, etc., on a large scale were brought or threatened against the raiyats of a certain zamindar. The Munsifs now hold under the above ruling that excessive enhancements made in consequence of such litigation, threatened or real, are legal.’

‘The Collector of the 24-Parganas reported that proper receipts for rents are seldom given, and pressure was thus brought to bear on the tenants. From Darbhanga, it was reported that a favourite method of obtaining enhancement was to take deeds of surrender from raiyats, purporting to be an honest endeavour to rectify obvious mistakes of the Settlement Department without the trouble and expense of going to Court, while, as a matter of fact, the *ikrarnamas* were not voluntary. I have in my hands a copy of the Board’s letter, and of its enclosures, from which I could quote many other passages, but I think enough has been said to show that Government has to deal with a very serious and widespread abuse of the law, and, unless the facts are seriously disputed, I do not propose to go at length into the evidence as to the abuse, which in the first instance led to the initiation of legislation. Here, again, Government is most anxious not to adopt any measures which would hamper all zamindars, good and bad alike, in their dealings with their tenantry. Government desires that it should be in their power to discriminate between good and bad landlords, and even in those cases where some general provision appears to be necessary affecting all landlords alike, we have done all that seemed possible to make the burden as tolerable as could be done.

‘I have already said that it is impossible to prevent by legislation alone the abuse of power by one man over another. No legislation can prevent a wealthy man who desires to ruin a poor one from doing so, but Government can and ought to prevent the oppression of one class by another as a whole. Thus, while it may be practically impossible to prevent a powerful and unscrupulous zamindar from treating unfairly some particular raiyat, I believe Government can interpose with success where a zamindar is treating unfairly the general body of his tenants.

‘The clause of the Bill on which I rely most as giving Government power to intervene in favour of an oppressed tenantry is, clause 25. The wording of the clause will probably be altered in Select Committee. It has been introduced in its present form, mainly to permit of a declaration by Government that, if section 112 is retained as a part of the Tenancy Act, it will be at liberty to use it under any circumstances in which it may seem equitable to exercise this power. Section 112 was, in 1885, made a part of the Act, with the avowed object of applying it only in the case of areas affected by agrarian disturbances.

‘Sir Steuart Bayley, when speaking in Council, said: ‘We have, however, provided for a special settlement to meet special circumstances. Under the special settlement (section 112), the Settlement Officer will have power to settle all rents, and will, moreover, have power to reduce rents on other grounds than those ordinarily applicable, and all such rents as he settles will hold good for the same term of years as if fixed under a judicial decree. But this procedure, which gives unusual powers of interference, and which is meant to be applied only in circumstances in which the operation of the ordinary law is likely to prove insufficient, requires some strict safeguard. We have therefore provided that it shall only be applied after the previous sanction of the Governor General in Council has been obtained. It is an extreme power, intended to take the place of Sir Richard Temple’s Agrarian Outrage Act, and I trust it will be resorted to as little as that Act was.’

‘Government, therefore, considers it necessary distinctly to raise this issue before Council, as it is now proposed that the use of the section is not to be restricted in this way. I may also point out that the section as amended by

clause 25 of the Bill provides a feasible means of settling rents while as section 112 stands at present, it is not at all clear what method is to be used in settling them.

"It will be seen that the section, as it is now proposed to use it, places in the hands of Government a very powerful weapon against oppressive landlords. The provision that it can only be enforced with the previous sanction of the Governor General in Council ensures that a strong case will have to be made out before it is put in operation.

"I could, if it were necessary, bring before the Council a great deal of evidence to show that one of the commonest forms by which landlords obtain unduly enhanced rents is to force their raiyats to agree to a compromise, either before a Revenue Officer or in the Civil Court, whereby they obtain an enhanced rent far larger than could have been obtained by a contract. Such compromises stand on a very different footing from equitable agreements entered into by the parties to a suit, with a view to avoiding litigation regarding points really in dispute. Here the whole object of the litigation is to enforce a demand which the landlord knows he cannot obtain in fair fight, and to give a legal colouring to an improper enhancement. Clauses 24 and 30 now make it incumbent on the Revenue or Civil Courts, as the case may be, to look into compromises and see whether they are in accordance with the law, and even if they are not illegal, the Courts may reject them if they appear to be unfair and inequitable.

"There is a great deal of evidence before Government, which it seems unnecessary to produce before the Council (I do not think the facts are disputed), that the Civil Courts, as a rule, take no notice of the record-of-rights unless the parties to a case put them in. I do not in the least blame the Courts. The Judges are in this matter following the usual procedure in only dealing with such evidence as is brought before them by the parties, but Government cannot contemplate with equanimity the futility of having a careful and exhaustive record-of-rights prepared, which is not used by the Courts, and provisions have been inserted in clauses 30 and 31 of the Bill with the object of compelling the Courts to deal with the record-of-rights where relevant to suits between landlords and tenants. As the matter is one of considerable importance, I read the provisions of the Bill bearing on this point:—

'147B. In all areas in which a record-of-rights has been prepared and finally published under sub-section (2) of section 103A, a Civil Court shall, in all suits between landlord and tenant as such, have regard to the entries in such record of-rights referring to the land in dispute which may be produced before it, unless such entries have been proved by evidence to be incorrect, and, when a Civil Court passes a decree at variance with such entries, it shall record its reasons for so doing.'

"Again, in clause 31, sub-section (2), it is enacted that—

'Where the suit is for the rent of land situated within an area in which a record-of-rights has been prepared and published, the plaintiff shall, unless the Court is satisfied that the plaintiff was prevented by any sufficient cause from furnishing such statement, further contain a statement of the rental of the tenancy according to the record-of-rights:

Provided that, if the Court sees fit at any time to require it, a verified or certified copy of, or extract from, the record-of-rights relating to the tenancy shall be produced by the plaintiff, or shall, if necessary, on the requisition of the Court, be supplied by the Collector without payment of fee.'

"I would ask Hon'ble Members to notice that section 31, sub-section (2), has been so framed as to reduce the trouble to the landlords to a minimum, as a bare statement of the rental of the tenancy according to the record-of-rights will in most cases suffice.

"Another very prevalent abuse is the failure of many landlords to give proper receipts. Section 58 of the Tenancy Act deals with this matter, and provides that a landlord who refuses or neglects without reasonable cause to give a receipt, or who fails without reasonable cause to prepare and retain a counterfoil or copy of a receipt, shall be liable, in the one case to a suit for a penalty, and in the other to a fine. In practice, the section has proved a dead letter. I do not think anyone will dispute the importance of

requiring landlords to give proper receipts and to retain counterfoils or copies of the receipts; but if it is to be enforced, some new system of dealing with the offence is necessary. The Bill accordingly provides (clause 12) that cognizance of the offence may be taken by the Collector, not only upon complaint, but also upon information from a Revenue Officer or report from a Civil Court, and the duty of reporting is laid upon Revenue and Civil Courts. I may note that, to prevent abuse of this section, it has been provided by clause 12, sub-section (7), of that—

‘Where, in any case under sub-section (5), the Collector acquits the landlord or his agent, as the case may be, and is satisfied that the complaint or information of the tenant on which the proceedings were instituted is false or vexatious, the Collector may, in his discretion, by his order of acquittal, direct the tenant to pay to such landlord or agent such compensation, not exceeding fifty rupees, as the Collector thinks fit.’

“I have now touched on the points in the Bill to which it appears to me most important to draw the attention of Council.

“There are several other sections to which I would have liked to have drawn the attention of Hon’ble Members, but as they do not appear to me to affect the principles of the Bill, I must content myself with referring to the Statement of Objects and Reasons.

“I have trespassed for sometime on the indulgence of the Members of Council, but I trust I will be forgiven, considering the importance of the subject. I have no doubt, if the Bill comes before a Select Committee, it will be possible to make many improvements in details, but I hope the general principles on which the Bill has been framed will commend themselves to this Council.”

The Hon’ble BABU BHUPENDRA NATH BASU said:—“With Your Honour’s permission I shall make a few observations of a general nature on the scope of the provisions of this Bill. There are no doubt provisions in it which make the position of landlords and tenants as regards each other clearer than they are under the existing law, and as such the Bill must be welcomed by both landlords and tenants; but before I go further into the provisions of this Bill there is one observation which I wish to make with Your Honour’s permission: the present Bengal Tenancy Act, as the Council knows, applies to both Divisions of Bengal; the amendments which are now sought to be made will only apply to the Western Division. At one time when those of us who opposed the partition of Bengal put forward the argument that at no distant date the landlords of the two Provinces would become dissimilar there was no sufficient answer given, and the argument was brushed aside as not sufficiently patent or strong; but, Sir, within a very short time of the partition of Bengal the old province is going to introduce substantial modifications into the existing law. It is not known whether these modifications will be adopted in the new province; it was whispered at one time that the late Government of Eastern Bengal and Assam were opposed to the introduction of a measure like this into their Province. It may be that with the change of Government in the Eastern Province that opposition will no longer be pressed, but difficulties will arise especially in parts of the country where the boundaries abut on one another, in the administration of justice, particularly with regard to the landlords of Bengal. It is no imaginary difficulty. Sylhet at one time part of the Province of Bengal until it was transferred to Assam. The laws of Sylhet remain where they were at the time of the severance; whereas the landlords of Bengal had made considerable progress since that time. With these observations I proceed to the consideration of some of the principles contained in the Bill.

“As regards the minor provisions, there is not much to be said, and whatever may have to be said will be said at the proper time. It is a great thing to be able to say that fees towards which covetous eyes were cast from various quarters are after all to go to the landlords, and there will be no fear of the rights of the landlords being jeopardised by the acceptance of those fees.

“There is one provision of the Bill as regards compromises to which pointed attention was called by the hon’ble mover of this motion, that in pending suits compromises entered into between landlords and tenants are not to be given effect to unless they are ratified by the Court, and the Court will

have power to set aside those compromises if it thinks fit. There may be, and I regret to say there have been cases, in which undue pressure has been put upon the tenants and in which rents have been enhanced without any sufficient justification, but when tenants and landlords are at arm's length, before the Court fighting each other, and the tenants have the benefit of legal advice, I do not see why the powers ordinarily exercised by litigants of coming to a settlement of their disputes should be withheld from suits of this description. To my mind, Sir, it seems that no sufficient case has been made out for withdrawing from these suits the powers which ordinarily litigants exercise in coming to a settlement of their disputes.

"Another provision of the Act which to me seems objectionable is where the Settlement Officers, in the case of temporarily-settled estates, are given the power of not only revising the assessment, but also of fixing the rents which ought to be paid by the tenants to the landlords; the argument put forward in support of this provision is that landlords may probably follow the suicidal policy of entering into contracts with their tenants for a lease of their holdings at rents lower than those which they ought to obtain from their tenants. I do not know if such a course is likely to be followed. I once heard a story of a man who, with the object of gaining some influence and position, had submitted returns of income to the Income-tax Office which were far in excess of what he actually received, but he soon came to grief over his folly. I am quite sure that those who know how tenants are able to protect themselves in most areas will find that if the landlords enter into such collusive bargains with their tenants, they will soon come to grief, and there is a feeling which I cannot get rid of that probably this provision is intended to put on the screw for the purposes of enhancing an assessment, and for the purposes sometimes of setting aside contracts which have been honestly entered into between landlords and tenants as regards the rents of their holdings. But these and others are matters of detail with which I shall not trouble the Council at this time.

"There is, however, one very serious question,—and it is a question of principle—involved in this Bill, to which I wish to draw the prominent attention of this Council, and that is the power of adopting the certificate procedure which is proposed to be conferred upon selected landlords. As a landlord in a small way myself, I should probably welcome that power and that privilege, but at the same time I cannot put away from my mind the apprehension that this power may be a source of grave danger to those who seek to receive and exercise it. In the first place, this section which provides for this power being given is absolutely silent as to the conditions under which the power may be given, it is absolutely silent as to the conditions under which the power may be withdrawn; the only condition is that the area must be an area in which the record-of-rights has been completed. The other conditions which should be annexed should be that the landlord is an honest landlord, that he has dealt fairly by his tenants, and that there are no agrarian disputes in his zamindari, but these are things which are nowhere expressed; the Government will give the power and Government will withdraw the power without assigning any reason whatever.

"Sir, it is not unknown to Your Honour that in many matters connected with the administration of the State, zamindars have not been able, for various reasons, to associate themselves publicly; there has been always the fear of offending the authorities and incurring their displeasure and losing some benefit or the fear of gaining a decoration or a title being for ever lost. This attitude of the landed classes has been, if I may be permitted to say so, a source of grave weakness alike to the State and to the people, and I may also say of danger to both. It is meet and proper that the landlords should take their allotted place in all public movements. Under this Bill substantial benefits are to be conferred on landlords, and they may be apprehensive that these benefits will be withdrawn by Government in case they associate themselves with public movements which may have for their object the criticism of Government measures or of Government action. I see no adequate compensation in the provision that is now sought to be introduced

for the loss which the community and Government alike will suffer, for it cannot be denied that all public representations would gain in weight and would receive greater consideration if they had the support of the landed classes of the country.

"We do not know for what trivial offence a zamindar may be punished: he may fail to put in an appearance at a landing ghat to present a welcome: he may fail to check some boyish pranks in his zamindari, or a small riot connected with some trivial event, and his power goes or may go. Government, if it thinks fit to answer his petition and his prayer, the answer may be 'no,' and say we are not bound to give any reasons. Sir, I admit that there would be great gain if this power were conferred upon the zamindars, but I humbly press upon Your Honour and upon my colleagues in Council to lay down conditions which would be known, which could be followed and not make this power so absolutely in the gift of the Government both in conferring as well as in withdrawing it. I am quite aware that probably that is an aspect of the question which has not been thought of either by those who have asked for this power or by the Government which is willing to grant it. I do not oppose at the present moment the inclusion of this clause in the Bill, but the observations that I have ventured to address to the Council are in the hope that public attention will be called to this subject, and that it will be fully and completely discussed by all bodies whom it may concern or affect. I also hope that those who will have the responsibility of the passing of this measure will pay due attention to what I have ventured to urge in this Council."

The Hon'ble MR. BERTRAM said:—"Sir, I support this measure though I may say I am ignorant on the subject of land: I only own six feet of land in England, but it seems to me that as the Government of Bengal propose to make amendments in the Bengal Tenancy Law, which is not an every-day occurrence, it is right that the law should be brought up to date. I notice that the Punjab Government are legislating, or intend to legislate, to give tenants a remission of rent or the equivalent of that which is allowed by Government at the time of famine. I see no reference to this in the Bill that the raiyat in Bihar, for instance, is re-imbursed for that remission of rent which the landlord gets.

"Then, Sir, there is another point to which the hon'ble mover of this Bill referred to, namely, that it is the outcome of the work of a Committee consisting of landlords and Government servants. I did not hear him say that any representatives of the man, who carries the burden and has to pay the rent, were heard on the subject. I did not hear from the hon'ble mover any reference to the fact that the views of representatives of the raiyats of the country were taken.

"There is another point: this Bill does not make provision for the three F's: fair rent, free sales, and fixity of tenure. This proposal received recently the very serious attention of the gentleman who once officiated in the Chair which Your Honour occupies. Bengal suffers under the great disadvantage of being under the Permanent Settlement, and it is therefore very difficult in these matters, when the tenant of Bengal has to compete against all the tenants of the world, that he has to pay a really heavier rent than the crops, which he produces can fairly bear. One provision of this Bill, section 33, I really think should not eventually be passed; it would create a special tribunal for the benefit of the landlord, and that is not at all right, but I speak with all reserve in this matter, because at the proper time my constituents will instruct me exactly what position I am to take up in this matter; but it seems to me that to make special provision in order to benefit a specially good landlord is rather a bad system to introduce; to differentiate between landlords when the tribunals are open to all is, in my opinion, a serious blot in the Act. The object of course is to make all landlords good little boys.

"There is another section which does not go sufficiently far, namely, section 43. I think the framers of this Bill should not only have given the six months' notice of the expiration of the term, but provision should have been made in the Bill for compensation for unexhausted improvements.

"These are some of the points which I shall take up later on."

The Hon'ble BABU RADHA CHARAN PAL said:—"Sir, I cordially support the principles of this Bill, although I reserve my comments on the details of the Bill for a future occasion. I cannot but express my thankfulness to the Government for the careful attention which the Government has been pleased to give to the representations of the British Indian Association on this subject. It has been remarked by the Hon'ble Mr. Bertram that the Committee which was appointed by the Government to consider this question did not contain any representative of the raiyat. I do not know what my hon'ble friend means. He has been long enough in this country, and I believe he was also in this country when the Bengal Tenancy Act of 1885 was introduced. I well remember, although I was very young at the time, the great hue and cry that was raised when the Central Committee of landholders of Bengal and Bihar was called upon to nominate a representative of the zamindars by a section of my community led by the Indian Association of Calcutta, that a representative of the raiyat should also be nominated to sit side by side with the representative of the zamindar on the Imperial Legislative Council. Public meetings were held at the time, and a demand was made upon the Government, and what was the reply of the Government? It was the Government of no less a personage than Lord Ripon; and the reply was that the Government constituted the custodian of the rate-payers, and that there was no better representative of the raiyats than the Government itself. I am sure my friend did not mean to say that the able members of the Civil Service, who constitute the Government, do not protect the interests of the raiyats; I do not mean to say that all the suggestions of the zamindars have been accepted in their entirety, but I am glad to say that their representations have received careful attention.

"I do not at the present stage desire to enter into a criticism of the various provisions of the Bill. Although, as I have said, I cordially support the principles of the Bill, I reserve my comments on some of the details, but I am sure that the measure taken as a whole will be welcomed by the community generally."

"The Hon'ble BABU JOGENDRA CHANDRA GHOSE said:—"Sir, I am a new Member to the Council, and I did not propose to speak on this occasion, but the observations that have fallen from the Hon'ble Babu Bhupendra Nath Basu and the Hon'ble Mr. Bertram oblige me to say a few words in support of the principles of this Bill. It is no good saying that the principles of the Bill in the main are good when you say that you do not approve of the summary procedure for the recovery of rent laid down by this Bill. That is the main provision of this Bill, and those gentlemen who want to get rid of that and still support the Bill do not support it at all, but on the contrary oppose it.

"This Bill is the outcome of the deliberations of a very important and influential Committee consisting of some of the most intelligent landlords of the country, and such officials as are regarded in this country as special friends of the raiyats, and therefore to say that this Bill is meant only in the interests of the landlords is not correct. The Hon'ble Babu Bhupendra Nath Basu thinks there would be great danger if the power of the certificate procedure were conferred on some landlords, and that apprehension has been endorsed by the Hon'ble Mr. Bertram; but if we do give the power of the certificate procedure to the landlords, it would be very improper to give it to all. If that were so, I would certainly oppose it, because all landlords are not good landlords, and the Hon'ble Babu Bhupendra Nath Basu will probably agree with me when I say that that being so, somebody must make a distinction between good landlords and bad landlords; and who is to do that except Government?"

"Then, again, a slur has been cast upon the entire class of landlords that they are always seeking after titles and are subservient to the wishes of the officials. The Hon'ble Member ought to know that during the last one year or so, landlords have never subordinated their wishes to the wishes of officials at a time of stress and strife, probably unwisely. This, therefore, must be understood that the summary procedure which is sought to be laid down by this Act is the central idea of the Act; the landlords have accepted it, and there are so many

provisions in this Bill to which were it not for the certificate procedure, landlords would have the right to object, for example, one matter which has been referred to by the Hon'ble Babu Bhupendra Nath Basu, namely that of compromises. They can only be entered into when approved by the Court. This is certainly opposed to legal ideas, but the officers of Government who probably are more inclined to favour the raiyats than the landlords thought that was necessary, and I for one am prepared to accept it.

"There are many provisions of this Bill which are only in favour of the raiyats, and the landlord would certainly object were it not for the certificate-procedure. Who does not know that the recovery of rent by landlords is a very difficult process? In the first place, they would have to bring suits and then take out executions; when the money is realized, they have to pay their lawyers; and though I belong to the latter class myself, I regret to say that very little goes to the landlord. Now, Sir, I very humbly say that I for one am prepared to support the Bill in its entirety. Certain of its details will be hereafter considered, but as regards the principles of the Bill, no objection can, at this period at least, be taken. When I say this in favour of the Bill, I ought also to put forward certain considerations which influence me in supporting it.

"I am convinced that this Bill is a beneficent measure proceeding out of the good-will which Your Honour bears to the people under your charge. I also know that it has been considered and approved by a very influential Committee, and I myself had the privilege of thoroughly going through its provisions having been consulted by some members of that Committee. But circumstances have arisen since the conception of the measure by Your Honour which have thrown unforeseen difficulties in the way of the scope of its beneficence. Your Honour meant to benefit the whole of Bengal under your charge. Now a very important portion of it is under a different Legislature. Many of the landlords of Western Bengal hold zamindaris in Eastern Bengal, and they would consider it a grievance if they are unable to take full advantage of this measure. It is, therefore, advisable to take such steps as may ensure its being made law in both Bengals. The simplest way to do that would perhaps be to get it passed by the Legislative Council of India. The Bengal Tenancy Act is an Act of the Supreme Council, and ordinarily all amendments of it should be made by that Council. I am aware that by the Indian Councils Act, power has been bestowed on this Council to amend an Act of the Supreme Council, and that the Bengal Tenancy Act has before this been amended by this Council. Still the matter is not quite free from doubt. However that may be, it would certainly be expedient under the present circumstances to get the Bill passed by the Supreme Council. There is probably another course, namely, to get the measure passed both by this Council and by the Council of Eastern Bengal and Assam. But how this Government or this Council can control the action of the other is difficult to see. I place these considerations before Your Honour for your decision. Your Honour had the people of both Bengals under your charge for a long time, and even now the people of Eastern Bengal are deserving of your care."

The Hon'ble Mr. CHAUDHURI said:—"Your Honour—I am opposed to the introduction of this Bill in the Bengal Council. But if it is the pleasure of the Hon'ble Members present here that the Bill should be introduced in this Council, I would take exception to certain novel principles introduced in this Bill. I do not desire to offer now any detailed criticism of the Bill, although the Bill contains many clauses on which detailed criticism will be necessary before they become law. At present, I shall confine my observations only to those provisions of the Bill to which I object as a matter of principle.

"The Bengal Tenancy Act is a Government of India Act which, after considerable deliberation, was passed to determine the rights and obligations of landlord and tenants in the whole of Bengal. But Bengal is no longer one and the same Province. My hon'ble friend, Babu Bhupendra Nath Basu, has anticipated me in objecting to the Bill on account of the Partition. I pointed out in my last Budget speech the confusion that is bound to result from the amending of the land-laws of Bengal in two different ways from

Eastern and Western Bengal. I shall only mention to-day two instances which will convince every reasonable man of the inadvisability of such a course. I come from a part of the new Province which is on the other side of the river Padma. Rajshahi and Pabna to which I belong are only separated from the Murshidabad and Nadia districts of this Province by the river Padma, which is constantly shifting its course. Now, one uniform system of land-laws govern both sides of the river. When the laws are different, in every case of shifting of the boundaries a conflict and confusion in the laws is sure to arise. Take another instance. The Faridpur District of the new Province is only separated from the Nadia District of this Province by an arbitrary line. It is a fact that there are many houses, in the borderland of both, of which the outhouses and inner apartments now fall in two different Provinces. This is not only the case with homestead lands, but there are many agricultural holdings which are also similarly situated. It is obvious, therefore, that any substantial amendment of the Bengal Tenancy Act by this Council will result in serious conflict.

“For instance, it is proposed by this Bill that a decree by a co-sharer landlord should henceforth be regarded as a rent decree when the other co-sharers are made parties. The result of this would be that the tenure or holding would pass in execution of such a decree to the purchaser. The law at present in the new Province is that the decree by a co-sharer is a money-decree, *i.e.*, the tenure or holding does not pass in the execution of such decrees. When a portion of the holding or tenure is in one province and a portion is in another, what will be the result of such a decree after this Bill is passed? No judge on earth can say. Then it is admitted in the Bill that the majority of the estates in these Provinces are held by co-sharer landlords. It is well known that co-sharers do not always live in one province. If one sues any tenant in respect of any such tenures or holdings for arrears of rent and joins his co-sharers in the other province, are the latter bound to regard the decree as rent decree or recognize the title of the purchaser? Surely not. Unless such provisions of the Bill are simultaneously introduced and passed by the Legislature of the new Province, all such legislation will result in endless confusion. What a sad commentary is this on the Partition! What justification is there for setting up a new Legislature if it exists only to copy *in toto* what is done in this Council Chamber?

“But since there is no guarantee that the Legislature of the new Province will continue to copy our measures, I would suggest that Bills of this nature should be introduced in the Council of the Governor General of India to secure the uniformity of the laws. Regarding the merits of the Bill I cannot but take exception to some of the more important innovations sought to be introduced by this Bill.

“First, it seems to me that it is proposed to invest Revenue Officers with certain powers which properly fall within the province of Law Courts. For instance, in clause 24 of the Bill, power is given to Revenue Officers to reject ‘agreements,’ and ‘compromises’ in preparing a record-of-rights. If the ‘agreements’ are unconscionable, it is the function of Law Courts to set them aside. A Revenue Officer does not seem to me to be the proper person to reject them. I presume, that his rejection of an agreement will not amount to its cancellation. In such event, such arbitrary rejection will only precipitate litigation which is neither good for the landlord nor for the tenant. What is worse, however, is the power proposed to be conferred on Revenue Officers to reject ‘compromises.’ The expression ‘compromise’ may include consent decrees of a Court of Law. Thus to invest the Executive Officers—Revenue Officers are ordinarily Executive Officers or the immediate subordinates of such officers—with powers to ignore even the decrees of Law Courts is surely open to serious objections.

“In the second place, I must confess that I do not appreciate the direct intervention of the executive authorities for the reduction of rent, as is proposed under clause 25, in cases where zamindars are believed to be illegally enhancing rents above those recorded in the record-of-rights. There are no doubt landlords, who do such things. But a tenant can surely get

relief in such cases from a Munsif's Court. In case of agrarian disturbances resulting from such illegal enhancement, the State has an undoubted right to interfere and put an end to the cause of the disturbance. But in the absence of actual agrarian disturbances, I presume, the Local Government must proceed upon private report which may not always be reliable. In such cases, interference on the part of the Government is sure to create bad blood between the Government and the landlord on the one hand and the landlord and the tenant on the other. The much simpler remedy of the tenant seeking relief against such illegal enhancement from the Law Courts is free from such objections.

"The third matter regarding which I must also record my firm protest is the granting of the privilege of realizing rent by what is known as the certificate procedure to some selected or approved landlords. It will indeed be a very invidious task on the part of Government to mark out the landlords as good or bad. I am thoroughly at one with my hon'ble friend, Babu Bhupendra Nath Basu, that this would lead on to the utter demoralization of the zamindar class. Every one will attempt to be in the good books of Government. It is seldom that Government sees with its own eyes or hears through its own ears. It is often the local officers who influence the visions of Government. If a zamindar can please a District Magistrate and Collector—he may not be an ideal zamindar or even a good man, and yet he may please the District Officers in many ways—he may be recommended for the privilege of realizing rent from his tenants by the summary procedure. It is the zamindars of rank and position to whom the Government or Government Officials are accessible, and it is often the ambition of such zamindars to please the Government officials any how they can. So, after all, it is this class of people who may ultimately secure the privilege of summarily realizing rent up to the hilt even in times of distress. My sympathies are with the smaller landlords, who are in touch with their tenants and whose weal or woe depend on the crops and contentment of their tenantry. As good wine needs no bush, so a good landlord needs no extraordinary process to collect his ordinary dues."

The Hon'ble BABU JOGENDRA NATH MUKERJEE said:—"Your Honour: my justification for saying a word or two with reference to this Bill is that I come from the mufassal, and naturally I have a very strong interest in the Bill as it has been placed before this Council. It would undoubtedly have been far better if an Act like this could be passed by the Government of India, but I should say the fact that it has been introduced into this Council is not an unmixed evil. I would rather court discussion from Hon'ble Members of this Council than have it discussed before the Supreme Council, because here we get men who come direct from the districts who are in touch with the people, and they at any rate are able to pronounce opinions on the working of this Bill. However, the question of a Bill like this being considered by the Supreme Government is a question of great importance, and no doubt Your Honour's Government will pay due attention to this part of the question when the time comes.

"There are a great many provisions in this Bill which are undoubtedly very good; they clear ideas, remove difficulties and make smooth the working of the Bengal Tenancy Act; and as I have noticed in the course of the working of the Bengal Tenancy Act, Courts and Settlement Officers are sometimes quite at sea as to what they should do in many cases. Yet there are certain principles which require a word or two from me, and one of those principles is that relating to the classification of good and bad landlords. The object of Government, so far as I can make out, is that landlords in respect of whose papers there cannot be any question, and can be considered as reliable, should be afforded certain opportunities of quick recovery of rent; but on the other hand it is open to serious objection as has been pointed out by my friend, the Hon'ble Babu Bhupendra Nath Basu. The question therefore arises: cannot the same object be achieved by different means instead of distinguishing between good and bad landlords?"

"Now, I understand that throughout Bengal, Chapter X will be in operation, and as this Bill contemplates, some evidential value is to be placed on the record-of-rights which was not to be found in the existing Bengal Tenancy Act. If that was made the basis of our operations, and the certificate procedure was done away with, that would probably relieve some objections that have been raised in this Council. At the same time this Council will have to consider how far the record-of-rights will be considered as reliable, and I submit that, side by side with this question of the recovery of rent by an easy and quick process that has to come to the fore-front, we have to consider how these record-of-rights came into existence. We have the Kannapura Estate, where we have got ignorant men who have a special language, peculiar ideas, who cannot be considered as educated at all, and they supply the basis to the superior officers, sometimes a basis has to be formed by somebody swearing by the tail of a cow. If instead of these men we could have a class of men who were better educated and better able to consider the *pros* and *cons* of evidence, we should certainly have a better state of things so far as the record-of-rights is concerned; and if some evidential value was attached to the record-of-rights than is to be found in the existing condition of things, I think the solution of this question might be arrived at in a more satisfactory way. I am not desirous at present to hamper the deliberations of this Council by any hasty remarks. I have studied the Bill to some extent, and I have got to submit a great deal on certain points, and when the proper time comes I will lay them before Your Honour and this Council; but these are general observations which might well be considered.

"I now wish to say a few words with reference to what has fallen from the Hon'ble Babu Radha Charan Pal. He has accepted it as an undisputed fact that the zamindars as a body have accepted the principle of this division of the community of zamindars. We do not know what zamindars were consulted. Some big zamindars who were in touch with Government officials were consulted, but the general body have not been consulted. There are many zamindars who have not been consulted, and how they will take this proposal it is difficult for us to say, so that we must accept the remarks of my friend with these reservations. I do not propose to take up the time of the Council any longer, and with these remarks I beg to resume my seat."

The Hon'ble RAJA BAN BEHARI KAPUR said:—"Your Honour: the Bill which is being introduced in the Council by my colleague, the Hon'ble Mr. Carlyle, is the outcome of the mature deliberation of a Committee appointed by Your Honour to fully consider the advisability of amending the Bengal Tenancy Act of 1885. The Committee was fully representative, and the interests of both the landlords and tenants were carefully discussed and safeguarded.

"The Bill when it passes into law will, on account of the removal of some existing ambiguity and anomalies, be clear and operative on some points.

"The Bill supplies the long-felt omissions, removes defects, and provides improvement wherever it is needed by amendment of the existing clauses and the addition of new clauses on several heads.

"Though the Bill does not supply the want of facility for the collection of rents by the zamindars, and does not go far enough towards making process of recovery of rents less cumbersome for the landlords, yet it will help those estates that have been surveyed and furnished with record-of-rights, as with certain restrictions it contemplates to allow the owners of such estates to use the certificate procedure for the realization of the rents, etc., due to them.

"Certain clauses in the Bill may appear to bear rather hard on the landlords, but the circumstances constrain the Government to reserve some powers to deal with cases of extreme hardship on the tenants of certain areas. Before I conclude, Sir, I beg to say that the Bill before us, when it passes into law, will, in many respects, prove a boon both to the landlords and tenants, and

there is some possibility of its improving the relations between them. Therefore I have the honour to support the introduction of the Bill now before the Council."

The Hon'ble Mr. ALLEN said:—"Your Honour: the Bill now before the Council is probably the most important piece of legislation on rent matters since 1885, and no doubt its provisions will receive the full consideration of this Council at a later stage. I do not propose to consider these matters further at present, more especially as it is hardly likely that the Bill, as drafted, will emerge from the consideration of the Select Committee in precisely its present form. I only wish to detain the Council, in order to assure them, as well as the Hon'ble Mr. Bertram, that some observations of his with regard to the conditions of rent legislation in Bengal are scarcely warranted. The Hon'ble Mr. Bertram has found fault with the Government for not importing into their tenancy legislation certain principles which he considers should find a place there. He wishes our tenancy legislation to be up to date. I should like to take this opportunity of informing the Hon'ble Mr. Bertram that the Bengal Tenancy Act of 1885 is, as a matter of fact, a model piece of rent legislation, and it represents the most up-to-date principles to which he has referred. He has spoken for instance of great principles involved in the three F's: fixity of tenure, fair rent and free sales. Members of this Council who have studied the Act will no doubt be aware that, as regards fair rent and fixity of tenure, these two great principles are embodied in this Act. As regards fixity of tenure, the settlement records show that not less than something like between 80 and 90 *per cent.*, or even more, of the tenants in this Province have occupancy rights, not including the raiyats who hold at fixed rates and enjoy an even stronger position. The occupancy right carries in the fullest sense fixity of tenure and fair rent. The occupancy raiyats's rent cannot be enhanced except by the decree of a Court, and then only on one or other of certain specified grounds; he cannot be ousted from his tenancy, except by a decree of a Court, and then only for certain prescribed reasons. The other principle to which the Hon'ble Mr. Bertram referred that of compensation for unexhausted improvements is, I am happy to say, provided for by section 82 of the Bengal Tenancy Act in its fullest form. I think, therefore, it is only right to say that the very principles for which the Hon'ble Mr. Bertram has contended find at present a place in the existing tenancy legislation of Bengal."

The Hon'ble Mr. MACPHERSON said:—"I should like to make a few remarks with regard to an observation that fell from the Hon'ble Babu Bhupendra Nath Basu. The Hon'ble Member said that in his opinion there was no sufficient case for withdrawing the ordinary procedure as to settlement of disputes between landlords and tenants, that is, with regard to interference of the Courts in the matter of compromises. I believe that papers have already been circulated by the hon'ble mover showing the necessity for the clauses of the Bill in question; and I know that abundant reason is to be found in the records of the Courts and of the Settlement Officers. I look upon these provisions as an extension of the remedial measures for the protection of the weak against the strong, which have been developed in recent years as a principle of modern legislation affecting the land. Those remedial measures began so far as the agricultural tenant in Bengal is concerned, with the acceptance in the Rent Act of 1859, and in a fuller measure in the Bengal Tenancy Act of 1885, of the principle that there should be some interference with the freedom of contract between landlord and tenant. So the Civil Courts have power to interfere in the matter of enforcement of unconscionable contracts, for instance, with regard to levy of excessive interest, the principle being that the Courts should have power to protect when an oppressive contract has been made between persons, one of whom held a dominant position at the time of contract. I look upon these clauses of the Bill as a proper and necessary development of an accepted principle of the law of agricultural tenancy in Bengal."

The Hon'ble Mr. CARLYLE in reply said :—"Your Honour: as questions of principles can again be raised when the motion is to appoint a Select Committee of Members, I will only touch very briefly on the points that have been raised to-day.

"As regards the Hon'ble Babu Bhupendra Nath Basu's objection that the Bill involves legislation in this Province which will differ from that in Eastern Bengal, we are not, of course, in a position to commit the Government of another Province, but we have been in communication with the Government of Eastern Bengal and Assam about this Bill, and I have no doubt, after the Bill has been passed in Council, they will consider what has been done by us, and I hope they may be in a position to accept it as it stands. Of course I cannot pledge the Government of Eastern Bengal and Assam to any course.

"The question of having the Bill introduced in the Supreme Council was considered, and the Hon'ble Babu Jogendra Nath Mukerjee has given very good reasons for our preferring to introduce it here.

"The Hon'ble Mr. Macpherson has dealt very fully with the Hon'ble Babu Bhupendra Nath Basu's objection that the Bill interferes with compromises between landlords and tenants, although in Courts they are at arms length, and although in other cases they are left to take their chance.

"I would draw the attention of the Council, to the fact that in many of the compromises which we object to, the tenants and landlords are not really at arms length at all. The whole suit in Court is a mere fiction, and an engine of oppression on the part of the zamindar who is powerful enough to compel the raiyat to come in and agree to any terms; the object of the zamindars being to give a legal colouring to an otherwise illegal enhancement.

"Another objection of the Hon'ble Babu Bhupendra Nath Basu, in which he was supported by the Hon'ble Mr. Bertram, the Hon'ble Mr. Chaudhuri and the Hon'ble Babu Jogendra Nath Mukherjee, refers to the question of Government selecting the zamindars who are to have summary powers. The suggestion has been made, I must say, for the first time; it never occurred to me before that such an objection could be made that Government will use this power to put pressure on zamindars to compel them to support Government. I think the Hon'ble Babu Jogendra Chandra Ghose was quite right in saying that such a charge was a slur on the zamindars, and I would also point out that it is absurd to suggest that Government could use this power as a bribe to zamindars. If indeed the powers were given to only one or two men, this is conceivable, but if the section is a success it is inconceivable that Government should select its zamindars on purely political grounds.

"With regard to the Hon'ble Mr. Bertram's objection that there was no representative of the raiyats present, when the Committee dealt with the Bill, I would point out that no one would have been better pleased than Government if it had been possible to appoint a representative of the raiyats to take part in our deliberation, but I know of no raiyat in Bengal competent to take part in such discussions. The Secretary of the Committee was Mr. Kerr, Director of Land Records, and I believe the general impression among zamindars is, that the Settlement Department is not unduly favourable to zamindars.

"The Hon'ble Mr. Allen has dealt with the Hon'ble Mr. Bertram's remarks about fair rent and fixity of tenure. As regards the question of free sales, there is no more hotly debated subject than whether the tenant should be given a right of free sale, and the objection to free sales being given does not come from the enemies of the tenants but from their friends. If we confer this right upon them, many fear we will put them in the hands of the *mahajans*.

"As regards the Hon'ble Mr. Chaudhuri's objection that too great powers are being given to Revenue Courts both as regards record-of-rights and settlement of rents, it is impossible to carry out settlements or prepare a record-of-rights on a large scale through the Civil Courts; the thing has been tried and proved a complete failure; rents cannot be settled on a large scale by people sitting in Court.

"I do not quite follow what the Hon'ble Babu Jogendra Nath Mukherjee proposes to substitute for the certificate procedure. He referred to the possibility of attaching more weight to the record-of-rights, but I do not quite understand how he proposes that this should replace the clauses now in the Bill. As regards his objection that the country in general has not been consulted, and that he cannot tell how zamindars will take this Bill, it is now being circulated, and opinions will be received from all parts of the country. A Bill must be prepared in some form or another before it can be circulated for opinion.

The Motion was put and agreed to, and Secretary accordingly read the title of the Bill.

THE BENGAL LOCAL SELF-GOVERNMENT (AMENDMENT) BILL, 1906.

The Hon'ble Mr. McINTOSH moved for leave to introduce a Bill to amend the Bengal Local Self-Government Act of 1889.

The Motion was put and agreed to.

The Hon'ble Mr. McINTOSH then introduced the Bill and moved that it be read in Council. He said:—

"The intention is, that this Bill should be published and circulated for opinions and criticisms before it is further proceeded with. The original Bill, introduced by Mr. Shirres in 1904, has been withdrawn and this one substituted as some further amendments of the Act have been proposed, and these further amendments are included in the present Bill. When Mr. Shirres introduced the Bill in 1904 he drew the attention of Hon'ble Members of Council to two important proposals, namely, the provisions to enable District Boards to pay for the cost of bridges built subsequent to the passing of the Act by levying tolls on them and the provisions enabling a District Board by the imposition of a cess to pay sums guaranteed by them by way of interest or repayment of a loan taken for the construction of a Railway or Tramway. Proposals to this effect are retained in the present Bill. The proposed amendments in other respects are so fully explained in the lengthy Statement of Objects and Reasons that I think I have nothing to add to that statement at present."

The Hon'ble BABU JOGENDRA NATH MUKHERJEE said:—"With Your Honour's permission I would make one or two observations upon this Bill. A very important matter is that relating to district sanitation, and I beg to urge it for the consideration of the Council. The question of district sanitation in Bengal has been brought to the front year after year for some time, and I think advantage should be taken of the opportunity which this Bill affords to introduce something into the Act which will put more life into the important question of district sanitation. We find some provision regarding Municipal water-supply and things like that, and I dare say the existing Act, if it was worked properly, could probably place no impediment in the way of either the Civil Surgeon of the District Board or District Officer in effecting sanitary improvements in the district; but it is one thing to have impediments removed theoretically and it is quite another thing to consider the question from a practical stand-point.

"What I mean to submit in this Council is this: that as matters stand at present there is practically no machinery in the district administration by which the question of district sanitation can be effectively considered. We know that the District Officer's hands are quite full with various matters; he cannot give his undivided attention to this subject; the Civil Surgeon is supposed to be the Health Officer of the district; he also has his jail to attend to; he has got his charitable dispensaries; he has to make tours in the interior to inspect private and public dispensaries, and over and above that his private practice and many other things besides; so that we cannot expect the Civil Surgeon also to pay undivided attention to this most important question of district sanitation.

"It might also be said that while we introduce Local Self-Government, why should not the District Board take this matter up and work out the solution of that problem. To that also I have to say something. We must take things as they come. We all know the District Board is composed of busy men, at least they can only devote a small portion of their time to the work of the District Boards, and we cannot expect the District Board also to take the initiative in matters of this kind.

"I would therefore suggest to Hon'ble Members of this Council and to your Honour's Government whether or not a permanent all-time Health Officer can be introduced in the District Boards whose sole duty would be to consider questions of district sanitation, and I dare say if that were his sole duty, he would place matters before the District Board and thereby some initiative would be taken on these lines. That is the question of principle. I would place before Council for more reasons than one, and because I am perfectly sure that the Government is very anxious to solve the question itself. I find that there is no provision in the law whereby a thing like that could be introduced by legislation. I should like very much if this question was considered, and I would invite criticisms upon it.

"As regards other provisions of the Bill, there are many which remove practical difficulties, and I have nothing to say as regards those; and when the time comes I may have something to say, but that is the chief point I have to urge for consideration at present."

The Hon'ble BABU JOGENDRA CHANDRA GHOSE said:—"Your Honour: as representing the District Boards of the Presidency Division, I feel it my duty to enter my strong protest against the introduction of this Bill. My main grounds are, that a new cess is going to be imposed upon the landlords and tenants for the construction of Railways. When the Road Cess was introduced, it was considered an infringement of the Permanent Settlement. That Act has led to the construction of roads, railways and waterways which are beneficial to the country, but the landlords and tenants of this country are unable to pay further cesses. We have got Railways in abundance and if it were put to the people of this country, I feel bold to say that not one man in this country, whether a raiyat or a landlord, would have a further cess for Railways. Then I find that this Bill authorizes expenditure on hostels. It is a very well-known fact that the education of the masses is sadly neglected in this country. Secondary education, education of the higher classes, is not the proper business of the District Boards, and the burden of providing hostels for schools and colleges or even for medical schools ought not to be cast upon the District Boards; on the contrary, I feel, Sir, that further sums should be placed in the hands of the District Boards for encouraging primary education among the masses. If it were the imposition of a new cess for primary education, I would cordially have supported it, for, as I have said, the education of the masses has been sadly neglected. Now, to impose a further liability upon the District Boards of making and supporting hostels is, in my humble opinion, not wise, as they would in that case be incurring expenditure which they did not incur before.

"One item of expenditure is, for residence for the District Engineer. The District Engineer has for the last 40 years been able to manage without a residence and the District Boards should not now be called upon to furnish him with a residence. The District Boards are in all conscience poor enough and now to make them build houses for District Engineers is, in my humble opinion, not right.

"I ought not to take up Your Honour's time further upon the various provisions of the Bill. I have indicated my main objections and I will only add one word and that is, after the Road Cess Act the Drainage Act was passed which devises a means by which new canals and drainage projects might be carried on. Instead of providing for the imposition of a new cess that procedure would, in my humble opinion, have been better."

The Hon'ble Mr. CHAUDHURI said :—"I join my friend, the Hon'ble Babu Jogendra Chandra Ghose, in protesting against the provision of the Bill, which seeks to confer power on the Local Government to empower District Boards to levy cesses for guaranteeing local railways or tramways. In anticipation of this measure, I had put forward my objections in my last Budget speech, and have no desire to reiterate them. The District Boards can even now give guarantees to local railways. But since they have no power to levy cesses on this account, they take every care to satisfy themselves that the guarantee may not prove a source of ruin to them. I belong to the District Board of Pabna, and I know of one instance where a project of a Railway for one corner of the district, namely, from Serajganj to Ullapara, was pressed upon the District Board with the support of the District Magistrate, who is, I need hardly say, always the Chairman of the Board. Some members sternly opposed this speculative project, on the ground that, if the Railway did not pay its way, the Board will have to face bankruptcy. It is this apprehension that prevented

a railway project from the Government or the District Magistrate is often a mandate to the members of the District Board, where the elected members are practically in a standing minority.

"In future, if a project of the kind was proposed which would but benefit a small section of the community, and the Magistrate happened to support it, the official members will say ditto, and the result would very likely be that a fresh cess will have to be imposed to recoup the drain on the District Board Fund. The Railway may benefit the immediate neighbourhood through which it may pass. But is it fair that the people of the whole district should be taxed for maintaining such a Railway? What would the tax-payers of Calcutta think if the Corporation entered into a speculative transaction with the Tramways Company, and guaranteed interest on the capital expenditure, and then sought to recoup it by the increase of rates and taxes from the general rate-payers of this town? Railways and Tramways are no doubt great conveniences, but it is a fair principle of business that it is only those, who avail themselves of such conveniences, who ought to pay an adequate fare or freight to secure dividend on the capital outlay. On no principle, therefore, can we, the representatives of the ordinary tax-payers of the country, support the project of a Railway cess.

"The details of this Bill, like the one which immediately preceded it, offers much scope for criticism. I shall, however, satisfy myself by pointing out some of its more objectionable features. The proposal made for the abolition of the Sadar Local Boards will go to reduce the elective element in the District Boards, and therefore should not find place in a measure whose avowed object is to confer Local Self-Government on the people.

"This Bill also seeks to legalize payments out of the District Board Funds for a variety of purposes which in no way fall within the scope of local funds. The most astounding provision of this character is the one which says that the District Board Fund may even be saddled with such expenditure as may go to improve the breed of horses, mules and even asses! [Clause 59 (10)]."

The Hon'ble BABU BHUPENDRA NATH BASU said :—"Sir, I rise in support of what has fallen from my friend, the Hon'ble Babu Jogendra Chandra Ghose. The cry has been that we Indians are over-taxed. I am also aware that that cry has been endeavoured to be answered in very high quarters, but the fact of the people's poverty, especially the agricultural people, cannot be disputed or denied. I do not think the country will tolerate it unless it is forced upon them. The levy of additional cesses for the purpose of Railway communications to enable investors to earn dividends will be a cruel impost upon the agricultural population. I would ask Your Honour's Government to consider this proposal, to consider the burden already imposed upon the people and whether it would be advisable, in the interests of investors and capitalists, to place additional burdens upon the people. The

Railways no doubt would be a great advantage to the people in the interior and as that would mean a much larger revenue to the main lines in the country, means may be found by which the large profits earned by Railways should be made available to work their lines and not the cess-payers. They will no doubt contribute to the cost as passengers and as carriers of goods.

"Then as regards the question of saddling District Boards with the burden of maintaining hostels for schools and colleges, I also agree with my friend, the Hon'ble Babu Jogendra Chandra Ghose. I have attempted to show in this Council, on previous occasions, that the expenditure incurred by Government on the education of the people is shamefully inadequate. No civilized Government in the world, taking the East and the West, has spent so very little money on the education of the people. It is an imperial duty which is cast upon the Government to educate its people, and therefore, Sir, it behoves the Government to come to the aid of the people, at least in the higher branches of education. My friend has said that were the further cesses to be levied on Primary Education it might be justified, but whether it might be justified or not is a question which I am not at present prepared to discuss. If that were justifiable, certainly the cost of maintaining schools and colleges for the children of other classes should not be cast upon the poor agriculturists of the soil.

"Passing to another question which my friend, the Hon'ble Babu Jogendra Nath Mukherjee, has raised—the question of having a whole-time Health Officer for District Boards, I am quite sure the sympathies of Your Honour will be with my friend. Your Honour has been pleased to observe on more than one occasion that the sanitation of the district requires much more careful looking after than it receives at present, and as my friend has pointed out, those who are entrusted with this work of sanitation have scarcely any time to devote to it. There was a time in the history of Calcutta itself when the Health Officer of the Corporation of Calcutta was not a whole-time Officer. He was a servant of the Government discharging other duties and devoting a portion of his time to the duties of the Corporation. Having regard to the enormous rate of mortality which prevails in the mufassal, I hope the suggestion of my friend will receive careful consideration at the hands of Your Honour's Government."

The Hon'ble BABU RADHA CHARAN PAL said:—"Sir, I cannot give a silent vote on this occasion, and I regret to say that this motion of the hon'ble mover is opposed by my community with a unanimity almost unprecedented. This question of imposition of cesses was referred to public bodies some time ago, and I well remember it was received with feelings of great regret and, I may say, with dismay. It was discussed in our Committee rooms, and the community submitted their respectful protest through the representative Associations to Government. I regret, however, to find that their representations had no effect upon Government, and this measure which contains provisions for imposition of cesses to guarantee payment of interest on light railways is introduced.

"It is well known that the cry at the present moment is that we are overtaxed; it is also well known that our rulers both here and in England are anxious to see that the people lead a contented life. Sir, over-taxation is the seed of discontent. Perhaps Your Honour may remember, and some of the older Members also, that at one time over-taxation raised a certain amount of discontent in this country, that it attracted the notice of Government, and Lord Northbrook, when vetoing the Bengal Mufassal Municipal Bill of Sir George Campbell, said that he could not, in the presence of such discontent in this country, give his assent to a measure which contained so many provisions of taxation and which would add to the burdens of the people. The burdens of the people are already great; they are groaning under a heavy load of taxation; from one end of the country to the other, there is the cry of the poverty of the overtaxed people. I do not propose at this moment to discuss that question, but there cannot be any doubt that the people of this country are not quite contented with their lot so far as taxation is concerned. No doubt, we are deeply grateful to Government for the blessings of peace, security and protection of life and property which they have

given us; but at the same time, Sir, we are bound to say that we groan under a heavy load of taxation. I therefore beseech Your Honour, in the name of the community to which I belong, not to proceed with this Bill which contains a provision which is so obnoxious and alarming to the people at large, and which will also at this moment when the country is passing through a period which is, I am sure, not very satisfactory to all parties concerned be not conducive to the best interests of the people and of Government.

"It is my duty also to point out that the sanitation of the country is an object which ought to attract the foremost attention of Government. As Government maintains its Army and Navy for the preservation of its subjects, it ought to maintain and equip a proper number of doctors and hospitals for the preservation of the lives of the people and to concert measures for the prevention or mitigation of epidemic diseases which so largely prevail in the villages of Bengal. A well-ordered administration is expected to save the lives of the millions of the people who are entrusted to its charge. If you look round and see how many thousands and thousands of people under Your Honour's protection die every year of malaria, I am sure your sympathy will be roused for the helpless people.

"I hope Your Honour will kindly take into consideration the question which has been raised by my friend, the Hon'ble Babu Jogendra Nath Mukherjee, of making provision for the appointment of a permanent Health Officer in the districts for improving the undrained and water-logged condition of the districts which generates the malaria which is decimating hundreds of thousands of the people at this moment. The cry has often been raised not only in the Press and on the platform, but also in this Council to make some attempt to save the lives of the people. It is said Calcutta is overcrowded, and why? Let any one of us go a couple of miles out of Calcutta, and he will find whole families smitten down by malaria and that is one of the reasons why Calcutta is so much overcrowded. I think the funds of the District Boards for some time to come ought to be devoted mainly, if not wholly, for the improvement of the sanitation of the districts, and I trust when this Bill emerges from the Select Committee, it will meet with the approbation of the public."

The Hon'ble MR. BERTRAM said:—"Your Honour: the Hon'ble Babu Radha Charan Pal talks of 'my people.' I am also one of the people; so also is the Hon'ble Mr. Allen. He represents the Corporation of Calcutta, and I am astonished at the harangue of my hon'ble friend against the introduction of this Bill. The whole of his complaint seems to be that Railways are a curse to the country and should not be encouraged in any way. It seems to me that the object of this Bill with reference to the particular part at issue, which has met with such trenchant criticism from the representative of the Corporation of Calcutta, is that it is possible for a Local Board in the exuberance of their enthusiasm for sanitation in their district, and for improving the connections between zamindars of large estates and other purposes, to encourage a body of capitalists to come forward and advance the money. It is found inconvenient, perhaps, sometimes to cut down any of the improvements for taking away malaria and catching mosquitoes to find the interest; therefore these wretched capitalists, who advance their money are left stranded. Government apparently have recognized that it is necessary to open up the Mufassal by light railways and my reading of the subject has shown me that these District Boards make a fine financial arrangement by these light railways. They are very fine institutions indeed. Look at the Howrah-Amta Light Railway, where the District Board share in the profits and it is a good contribution to the reduction of taxation, under which India is always said to be suffering. My friends, the Hon'ble Babu Radha Charan Pal and the Hon'ble Babu Bhupendra Nath Basu, should go to other countries where they will find that the taxes are higher. In this connection, representing as I do the interests of Commerce, I am very thankful to the hon'ble mover for having introduced a Bill like this and protecting in some way the possible, though I am sure the absolutely remote chance, of those who find the money for light Railways, being left stranded, because the Local Board might have committed itself to some other projects and therefore they have not

got the money to pay the capitalists their interest. The complaint is generally made outside that the District Boards are suffering from sleepiness and they want waking up, and anything that will give them more work to do and encourage them in good deeds should receive the support of this Council and the outside public. My friend, the Hon'ble Babu Radha Charan Pal, who like Janus has two faces has, I am sorry to say, also two voices, because the voice proceeding from the one Janus here to-day has been a totally different one from that where the Hon'ble Mr. Allen presides, and I do not think his opposition to the introduction of this Bill is really sound."

The Hon'ble Mr. CARLYLE said :—"I only want to deal with one point and that is the question of enabling District Boards to impose a new cess. I think the Hon'ble Members who oppose this have entirely overlooked the fact that District Boards who encourage light Railways would considerably add to their revenues. A good system of light Railways is much wanted in where the population is dense, and I believe most of the District Boards could make a large income out of light Railways."

The Hon'ble Mr. McINTOSH in reply said :—"As the Bill will be circulated for opinion, it seems unnecessary to go into the objections which have been raised by certain Hon'ble Members of this Council to-day. These objections will be dealt with when the Bill comes again before the Council. The Hon'ble Babu Bhupendra Nath Basu has raised the general question of the burden of taxation in this country. This does not appear to me to be the time for discussing so difficult and intricate a question, and I therefore refrain from discussing it, but I trust that I may not be taken as agreeing with his views on this subject."

The Motion was put and agreed to, and Secretary accordingly read the title of the Bill.

The Council was then adjourned to Saturday, the 1st December, 1906.

CALCUTTA ;
The 20th November, 1906. }

L. C. ADAMI,
Offg. Secretary to the Bengal Council.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, NOVEMBER 21, 1906.

NOTICES TO MARINERS.

THE following Notices are published for general information.

CALCUTTA, the 17th November 1906.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

JAPAN—HONSHU (NIPON), NORTH-WEST COAST.

Caution—Floating mines.

No. 436 (first publication).—The British Admiralty has given notice (No. 1168 of 1906) that floating mines are still occasionally seen near the north-west coast of Honshu (Nipon), between the Oki islands and Tsugaru strait; vessels are therefore recommended not to navigate along this coast at night. The Japan sea, also, cannot yet be considered entirely free from danger from these mines.

A cautionary note to the above effect has been placed on the chart.

This notice affects the following Admiralty Chart:—Nipon, Kiusiu, and Shikoku, No. 2347: Also Sailing Directions for Japan, &c., 1904, pages 636—682.

NEW ZEALAND—NORTH ISLAND—PORT NICHOLSON.

Lambton harbour—Lights established on wharf.

No. 437 (first publication).—The British Admiralty has given notice (No. 1175 of 1906) that two green fixed lights, placed vertically 8 feet apart, the upper light being elevated 37 feet above high water, have been established near the outer end of Taranaki Street wharf.

These lights are visible from all points of approach for a distance of 3 miles in clear weather.

Approximate position, lat. $41^{\circ} 17\frac{1}{2}'$ S., long. $174^{\circ} 46\frac{1}{2}'$ E.

This notice affects the following Admiralty Charts:—Port Nicholson, No. 1423; Lambton harbour, &c., No. 803: Also List of Lights, part VI, 1906, page 273; and New Zealand Pilot, 1901, page 172.

AUSTRALIA—NEW SOUTH WALES.

Newcastle harbour—Additional beacon light and landing mark established.

No. 438 (first publication).—The British Admiralty has given notice (No. 1180 of 1906) that, on and after 1st September 1906, a *green fixed light*, elevated 30 feet above high water, would be exhibited from a pile-beacon recently erected on the northern side of the entrance to Newcastle harbour, at a distance of 300 yards, S. 58° W., from the existing red pile-beacon with *green fixed light*.

Approximate position, lat. 32° 55½' S., long. 151° 47½' E.

Vessels entering the harbour should keep the above *green fixed lights* in line, bearing S. 58° W., which will lead in least depth of 22 feet at low-water springs, until the lights on the fairway leading towers (*fixed white and fixed red*) come into line, bearing S. 42° W.

(Variation 10° Easterly in 1906.)

This notice affects the following Admiralty Charts:—Port Jackson to port Stephens, No. 1021; Newcastle harbour, No. 2119; Also List of Lights, part VI, 1906, page 231; and Australian Directory, vol. II, 1898, page 81.

CHINA SEA—SINGAPORE STRAIT.

Raffles light.—Limits of obscured sector uncertain.

No. 439 (first publication).—With reference to notice to Mariners No. 367, dated 29th September 1906, issued by this office, the British Admiralty has given further notice (No. 1182 of 1906) that the limits of the sector within which Raffles light is obscured are at present uncertain.

• Further notice will be given.

Approximate position, lat. 1° 10' N., long. 103° 44½' E.

This notice affects the following Admiralty Charts:—Singapore strait, Nos. 2403, 2404; Also List of Lights, part VI, 1906, No. 437; and China Sea Directory, vol. I, 1896, page 201.

CHINA SEA—GULF OF SIAM—CHENTABUN RIVER.

Lemsing.—Light established.

No. 440 (first publication).—The British Admiralty has given notice (No. 1183 of 1906) that, on the 1st September 1906, a *white occulting light every thirty seconds* thus:—light, twenty-five seconds; eclipse, five seconds, elevated about 280 feet above high water, and visible in clear weather from a distance of 12 miles, would be established on Lemsing, at the entrance to Chentabun river.

The exact position of this light is not stated.

Approximate position, lat. 12° 28' N., long. 102° 2½' E.

This Notice affects the following Admiralty Charts:—Gulf of Siam, No. 2414; cape Liant to Koh kut with plan of Chentabun river, No. 2721; Also List of Lights, part VI, 1906, page 113; and China Sea Directory, vol. II, 1906, page 381.

AFRICA SOUTH COAST—CAPE COLONY—ALGOA BAY.

Cape Recife light.—Description given.

No. 441 (first publication).—With reference to Notice to Mariners No. 423, dated the 1st November 1906, issued by this Office, the British Admiralty has given further notice (No. 1197 of 1906) of the following description of the light on cape Recife, Algoa bay:—It is a *white fixed and flashing light every minute*, showing *red* between the bearings of S. 39° W. and S. 71° W., and *white* in other directions; the light-power of the fixed light being 9,000 candles, and of the flash 115,000 candles. The power of the light in the red sector is considerably reduced. Under certain atmospheric conditions the fixed light may become invisible, the flash only appearing.

Approximate position, lat. 34° 1½' S., long. 25° 42' E.

This Notice affects the following Admiralty Charts:—Indian ocean, No. 748a; Hondsdrif bay to port Natal, No. 2095; cape St. Francis to Waterkoo bay, No. 2085; Algoa bay, No. 642; Also, List of Lights, part VI, 1906, No. 15; and Africa Pilot part, III, 1905, page 125.

CHINA SEA—PHILIPPINE ISLANDS—LUZON COAST—LAMON BAY APPROACH.

Makulabo island—Shoal to the South-Westward.

No. 442 (*first publication*).—The British Admiralty has given notice (No. 1199 of 1906) that a shoal of coral and rock of large extent exists south-westward of Makulabo island. A depth of 3 fathoms was found on it situated in a position from which the southern extremity of Makulabo island bears N. 65° E., distant 2½ miles, and the northern extreme of the same island N. 32° E. .

There appeared to be less water on this shoal; an examination of it is in progress.

Approximate position, lat. 14° 24½' N., long. 122° 39' E.

(*Variation Nil in 1906.*)

This Notice affects the following Admiralty Charts:—The Philippine islands, No. 943; Philippine islands between St. Bernardino and Mindoro straits, No. 2577; Also, Eastern Archipelago, part I, 1902, page 374; and Supplement, 1906, page 30.

EASTERN ARCHIPELAGO—SUMATRA WEST COAST—BENKULEN.

Pulo Tikus light—Intended alteration.

No. 443 (*first publication*).—The British Admiralty has given notice (No. 1201 of 1906) that it is intended to alter pulo Tikus light from white fixed to a *white flashing* light every five seconds, the flashes being of very short duration; it will be visible in clear weather from a distance of 16 miles, and exhibited from a white open iron framework support, 98 feet high, erected near the position of the present light.

The light will be of the 5th order.

Approximate position, lat. 3° 50½' S., long. 102° 11' E.

Further Notice will be given when received.

This Notice affects the following Admiralty Chart:—Sumatra with plan of Benkulen, No. 2761; Also, List of Lights, part VI, 1906, No. 463; and China Sea Directory, vol. I, 1896, page 312.

EASTERN ARCHIPELAGO—SUMATRA, EAST COAST—MALACCA STRAIT.

Langsar bay—Light intended.

No. 444 (*first publication*).—The British Admiralty has given Notice (No. 1202 of 1906) that it is intended to establish a *white flashing* light every three seconds on a white open iron framework support, 65 feet high, erected on Pasir Puti, Langsar bay, the duration of each flash being one second. The light will be of the 4th order.

Approximate position, lat. 4° 32½' N., long. 97° 59' E.

Further Notice will be given when received.

This Notice affects the following Admiralty Charts:—Acheh head to Tyengkok bay, No. 2760; Diamond point to Pulo Berhala, No. 1353; and Langsar bay, No. 3574; Also, List of Lights, part VI, 1906, page 63; and China Sea Directory, vol. I, 1896, page 71.

NEW ZEALAND—NORTH ISLAND, EAST COAST.

Little Barrier island—Rock.

No. 445 (*first publication*).—The British Admiralty has given Notice (No. 1203 of 1906) of the existence of a rock, awash at low-water springs off the north-west coast of Little Barrier island, situated in a position from which White cliffs (600 feet) bear S. 75° E., distant about 2 cables, and the northern point of Little Barrier island N. 55° E., distant 2 miles.

This rock is about 60 feet long in a north-easterly and south-westerly direction and 25 feet broad.

Approximate position, lat. $36^{\circ} 10\frac{1}{2}'$ S., long. $175^{\circ} 3\frac{1}{4}'$ E.

(Variation 14° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—*Tutukaka harbour to Mayor island*, No. 2543; *Bream head to Tepaki point*, No. 3565; Also, *New Zealand Pilot*, 1901, page 47; Supplement, 1906, page 4.

COMPASS—Variation of, on certain charts.

No. 446 (*first publication*).—The British Admiralty has given notice (No. 1205 of 1906) that observations obtained during recent years show that the secular change in the variation of the compass is in some cases greatly different from what was anticipated.

The results have been embodied in the variation chart for the Epoch 1907, and this chart should be consulted on all occasions before deciding on the variation to be allowed in shaping course, &c.

The compasses on the charts may be in some cases as much as 2° in error.

INDIA, WEST—BOMBAY COAST.

Caution—Wreck of a Pattimar off Vingorla.

No. 447 (*first publication*)—With reference to Notice to Mariners No. 428, dated the 1st November 1906, issued by this Office, the Bombay Government has given further notice (No. 119 of 1906) that the Master of S.S. *Loodiana* reports that he passed a wrecked Pattimar in lat. $16^{\circ} 41'$ N., long. $73^{\circ} 26'$ E., Vingorla Rock Light-house, bearing N. 5° E. (True), distant 12 miles. The vessel is lying on her side and is laden with logs of timber; she bears the following mark on her port quarter:—240 5 C.

The derelict is a great danger to navigation.

This Notice affects the following Admiralty Charts:—*Kardachi to Vingorla*, No. 826; *Vingorla to Cape Comorin*, No. 827; *Gulf of Kutch to Visiadrug* No. 2736; *Visiadrug to Oochin*, No. 2737; and *Achra River to Cape Ramas*, No. 740; Also, *West Coast of Hindustan Pilot*, 1898, page 168.

The 17th November 1906.

INDIA, WEST—BOMBAY COAST.

Rajpuri Point—Red buoy replaced in position.

No. 432 (*second publication*).—With reference to Notice to Mariners, No. 239, dated 26th June 1906, issued by this office, the Bombay Government has given further notice (No. 116 of 1906) that the red buoy on the north side of the 'Whale Reef,' off Rajpuri Point at the entrance of the Janjira Harbour that had been removed for the south-west monsoon was replaced on the 10th October 1906.

PACIFIC OCEAN, SOUTH—SOLOMON ISLANDS—FLORIDA ISLAND.

Sandfly passage—Pinnacle rock.

No. 433 (*second publication*).—The British Admiralty has given notice (No. 1142 of 1906) that a pinnacle rock, awash, exists nearly in the centre of North channel, Sandfly passage) in a position from which the northern of the two pinnacle rocks at present shown on the chart bears, approximately, S. 78° E. distant about three cables.

It is proposed to place a buoy on this rock.

Approximate position, lat. $8^{\circ} 59'$ S., long. $160^{\circ} 5'$ E.

(Variation 8° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—*Plan of Sandfly passage on No. 3373: Guadalcanar and Florida islands*, No. 1469; Also *Pacific Islands*, vol. I, 1900, page 392.

CHINA SEA—PHILIPPINE ISLANDS—MINDORO ISLANDS.

Port Galera—Colour of light altered.

No. 434 (second publication).—The British Admiralty has given notice (No. 1155 of 1906) that the colour of port Galera light (*fixed*) has been altered from white to red and the power of the light has been increased, so that it is now visible in clear weather from a distance of 7 miles.

In other respects the light is unaltered.

Approximate position, lat. $13^{\circ} 30\frac{1}{2}'$ N., long. $120^{\circ} 57'$ E.

This Notice affects the following Admiralty Chart:—Port Galera, etc., on No. 949: Also List of Lights, Part VI, 1906, No. 660; and Eastern Archipelago, Part I, 1902, page 229; and Supplement, 1906, page 16.

BAY OF BENGAL—CHITTAGONG COAST.

Kurnauli river—Depth of water in the Channels.

No. 435 (second publication).—The Port Officer, Chittagong, has given notice that the following depth of water was found in the channels by soundings taken on the 8th November 1906.

				FT.	IN.
<i>Track No. 1—Outer bar—</i>					
Disc on diamond	11	6
Marks open to the north	13	6
<i>Track No. 2—Inner bar—</i>					
Disc on diamond	11	0
Batten beacon on pillar	12	0
<i>Track No. 3—</i>					
Triangle on cross and ball	17	6
<i>Track No. 4—Guptakhally crossing—</i>					
Tripod on diamond	18	0

The 12th November 1906.

BAY OF BENGAL—ORISSA COAST.

False Point anchorage—Outer Ridge buoy adrift

No. 421 (third publication).—A telegraphic communication has been received from the Port Officer, Outtack and Balasore ports, stating that the Outer Ridge buoy, False Point anchorage, has broken adrift and will be replaced as soon as possible.

The 31st October 1906.

BAY OF BENGAL—BURMA COAST.

Caution—Position of a derelict.

No. 422 (third publication).—A telegraphic communication has been received from the Principal Port Officer, Burma, stating that the Master of the *Taroba* has reported having passed on the 28th. October a derelict, with seas washing over her in lat. $15^{\circ} 47\frac{1}{2}'$ N., long. $93^{\circ} 57\frac{3}{4}'$ E., bearing N. 65° W. (true), distant $13\frac{1}{2}$ miles from Alguada light-house. Mariners are hereby warned.

The 1st November 1906.

AFRICA, SOUTH COAST—CAPE COLONY.

Algoa bay—Cape Recife light.

No. 423 (third publication).—The British Admiralty has given notice (No. 1116 of 1906) that Notice to Mariners No. 926 of 1906, relating to cape Recife light, Algoa bay, is hereby cancelled.

Further Notice will given.

Approximate position, lat. $34^{\circ} 1\frac{3}{4}'$ S., long. $25^{\circ} 42'$ E.

This Notice affects the following Admiralty Charts:—Cape St. Francis to Waterloo bay, No. 2085; Algoa bay, No. 642: Also, List of Lights, part VI, 1906, No. 15; and Africa Pil., part III, 1905, page 125.

Notes.—This cancels Notice to Mariners No. 358, dated 21st September 1906, issued by this office.

CHINA, EAST COAST—MIRS BAY.

Grass island—Shoal spit to the eastward.

No. 424 (third publication).—The British Admiralty has given notice (No. 1120 of 1906) that the 3-fathoms contour line off the east coast of Grass island, Mirs bay, to the south-westward of Kong chau (North Gau), extends in the form of a spit about 80 yards further to the north-eastward than is at present shown on the chart.

A rock, with a depth of 5 feet over it at low water, exists on the north-eastern extremity of this spit at a distance of $1\frac{1}{2}$ cables from the coast of Grass island, from it the summit of Kong chau bears N. 39° E., distant $3\frac{1}{2}$ cables, and Wintz hill N. 75° W. Within the 3-fathoms line the spit quickly shoals to a depth of only 9 feet over boulders.

The passage between Grass island and Kong chau should, therefore, no longer be used.

Approximate position, lat. $22^{\circ} 29'$ N., long. $114^{\circ} 22'$ E.

This Notice affects the following Admiralty Charts:—Mirs bay, Nos. 1964, 3474; Long harbour and approaches, No. 3386: Also, China Sea Directory, vol. III, 1904, page 130.

CHINA, EAST COAST—HONGKONG APPROACH.

Fo tau mun pass—Rocks.

No. 425 (third publication).—The British Admiralty has given notice (No. 1121 of 1906) that a patch of rocks, with a least depth of 2 fathoms over them at low water, exists on the northern side of the Fo tau mun pass, in a position from which the rock (30 feet high) off Fo tau point bears N. 80° E., distant $1\frac{1}{8}$ cables, and the eastern point of Lamtong island S. 11° E.

There is a depth of 3 fathoms close southward of these rocks.

Approximate position, Fo tau point, lat. $22^{\circ} 15\frac{3}{4}'$ N., long. $114^{\circ} 18'$ E.

(Variation 1° Easterly in 1906.)

This Notice affects the following Admiralty Chart:—Hongkong, with plan of Fo tau mun pass, No. 1466: Also, China Sea Directory, vol. III, 1904, page 66.

PERSIAN GULF—KUWEIT APPROACH.

Ras al Arz—Shoal to the southward—Buoy established.

No. 426 (third publication).—The British Admiralty has given notice (No. 1134 of 1906) that a shoal with a depth of 2 fathoms over it, and 7 fathoms around, composed of mud and coral, on which the S.S. *Kola* grounded, exists on the western side of the approach to Kuwait harbour, in a position from which Hill fort bears S. 82° W., distant $3\frac{1}{2}$ miles, and the beacon on Ras al Arz N. 3° W.

A cask, painted red and surmounted by a red flag, has been moored on the shoal; but its existence must not be depended on.

Approximate position, lat. $29^{\circ} 17\frac{1}{2}'$ N., long. $49^{\circ} 7\frac{1}{2}'$ E.

(Variation Nil in 1906.)

This Notice affects the following Admiralty Charts:—Persian gulf, No. 2837b; Kuwait harbour, No. 22: Also Persian gulf Pilot, 1898, page 155; and Supplement, 1905, page 19.

EASTERN ARCHIPELAGO—SUMATRA, SOUTH COAST—LAMPONG BAY.

Telok Betung light—Character altered.

No. 427 (third publication).—With reference to Notice to Mariners No. 374, dated the 6th October 1906, issued by this office, the British Admiralty has given further notice (No. 1139 of 1906) that the character of Telok Betung light has been altered from red fixed to white flashing every three seconds, thus:—light, one second; eclipse, two seconds. The light, which is now visible 12 miles, is of the 6th order.

In other respects the light is unaltered.

Approximate position, lat. $5^{\circ} 26\frac{1}{2}'$ S., long. $105^{\circ} 16\frac{1}{2}'$ E.

This Notice affects the following Admiralty Charts:—Tyingkok bay to Sunda strait, No. 2761; Sunda strait and approaches, No. 2056; Telok Betung, No. 940: Also List of Lights, Part VI, 1906, No. 467; and China Sea Directory, vol. I, 1896, page 364.

INDIA, WEST—BOMBAY COAST.

Caution—Position of a capsized country craft off Mount Dilli.

No. 428 (third publication).—The Bombay Government has given notice (No. 114 of 1906) that the Master of S. S. *Florican* reports that at 3-30 p.m. he passed in latitude $11^{\circ} 55'$ N. and longitude $75^{\circ} 0'E.$, Mount Dilli bearing N. $66^{\circ}E.$, distant 16 miles, a two-masted country craft capsized with sails set and painted top side green and bottom white, number on side board 24050.

Caution.—This derelict is a great danger to navigators.

This Notice affects the following Admiralty Charts:—Mulki to Mount Dilli, No. 746; Visiadrug to Cochin, No. 2737; Vengurla to Cape Comorin, No. 827: Also West Coast of Hindustan Pilot, fourth edition, 1898, page 142.

INDIA, WEST—BOMBAY COAST.

Buoys between Alibag and Vengurla replaced.

No. 429 (third publication).—With reference to Notice to Mariners No. 210, dated the 25th June 1906, issued by this office, the Bombay Government has given further notice (No. 112 of 1906) that the undermentioned buoys were replaced in position on the dates marked against each:—

Alibag Buoy	24th September 1906.
Ambulgad Reef Buoy, Jaitapur			24th
Málvan Harbour Buoys			19th
Chaldea Rock Buoy			24th
Málvan Outer Rock Buoy			21st
Johnstone Castle Rock Buoy			22nd
Vengurla Harbour Buoys			26th
Bhatkal Buoy	...		20th
Murdeshwar Buoy	...		21st

BAY OF BENGAL—SINGAPUR STRAIT.

Cyrene shoal—Wigham buoy to be painted white.

No. 430 (third publication).—The Acting Master Attendant, Straits Settlements, has given notice, dated 17th October 1906, that on and after the 1st December 1906 the superstructure of the Wigham buoy, moored off the Cyrene shoal, Singapur, will be painted white.

BAY OF BENGAL—BURMA COAST.

Caution—Position of a derelict reported.

No. 431 (third publication).—A telegraphic communication has been received from the Principal Port Officer, Burma, stating that the Master of the S. S. *Rampuna* reports having passed a derelict on lat. $16^{\circ} 16'$ N., long. $96^{\circ} 33'$ E. Mariners are hereby warned.

The 5th November 1906.

ST. L. S. WARDEN, COMDR., R.I.M.,
Port Officer of Calcutta.

LIBERALITY OF BABUS RAJ NARAYAN DAS, RADHA CHARAN DAS AND RADHA GOBINDA DAS, ZAMINDARS OF BALASORE.

No. 300Medl, dated Calcutta, the 20th November 1906.

From—H. J. McINTOSH, Esq., Offg. Secretary to the Government of Bengal,
Municipal Department,

To—The Commissioner of the Orissa Division.

I AM directed to refer to Mr. Duke's letter No. 200L.F., dated 1st November 1905, in which he reported that Babus Raj Narayan Das, Radha Charan Das and Radha Gobinda Das, Zamindars of Balasore, had offered to endow the 10 annas 8 pies share of their zamindari right in the estate named Purusotampur, in the district of Puri, for the purpose of feeding the lepers in the Puri Lepor Asylum, and asked that the property might be vested in the Treasurer of Charitable Endowments under the Charitable Endowments Act.

2. I am now to say that the property has been vested in the Treasurer of Charitable Endowments as desired by the donors, and to request that you will be so good as to convey to them an expression of the Lieutenant-Governor's thanks for their liberality and public spirit.

WEATHER AND CROP REPORT.

For the week ending the 18th November 1906.

No.	Name of district.	Rainfall at Sadar station.	Price of common rice, in seers, per rupee.		Character of the weather and state and prospects of the crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
1	BURDWAN ...	Inches. Nil	8	8	Sowing of <i>rabi</i> crops continuing. Prospects of <i>v</i> rice and sugarcane fair. No cattle-disease. F and water sufficient.
2	BIRBHUM ...	Nil	7½	7½	Standing crops doing well. No cattle-disease. F and water sufficient.
3	BANKURA ...	Nil	9½†	9†	Weather seasonable. Prospects of crops Sugarcane doing well. Old common rice selling at 8½ seers a rupee at Sadar. No cattle-disease. Fodder and water sufficient.
4	MIDNAPORE ...	Nil	9	9	Sowings of tobacco and linseed progressing. Pros of <i>bhad i</i> rice fair. Outturn of jute estimated at 75 per cent. Cattle-disease reported from the Dantan. Fodder and water sufficient.
5	HOOGHLY ...	Nil	6½	6½	Weather seasonable. Prospects of <i>aman</i> paddy sugarcane fair. Cultivation of <i>rabi</i> crops commenced in Arambagh. No cattle-disease. Fodder and water sufficient.
6	HOWRAH	Nil	7	7	The harvesting of winter paddy commenced. Outturn of the crop expected to be normal. Standing crops doing well. Common rice selling at 7½ seers at Ulubaria. No cattle-disease. Fodder and water sufficient.
7	24-PARGANAS	Nil	8	7½	Weather seasonable. Lands being prepared for crop, sowings of which have commenced in places. Harvesting of early <i>aman</i> begun. State of standing crops good. Prospects of sugarcane and <i>aj</i> good. Total number of persons on relief during the week in different thanas—Sonarpur 1, Tollygunge 188, Vishnupur 1,354, Behala 1, Calcutta 537, Maheshtala 342, Baranipur 1, Paltan 1,008, Mograhat 1,859, Diamond Harbour 323, Mathurapur 77, Kalpi 223, Joy nagar 24, Dum-Dum 67, Khardaha 90, Barrackpore 30. Condition of cattle good. Fodder and water sufficient.
8	NADIA ...	Nil	8	8	Prospects of standing crops good. Sowing of <i>r</i> crops nearly finished. Harvesting of <i>aman</i> commenced. No cattle-disease. Fodder and water sufficient.
9	MURSHIDABAD	Nil	7	7	Weather seasonable. Standing crops doing well. <i>Rabi</i> sowing continuing. No cattle-disease. Fodder and water sufficient.
10	JESSORE ...	Nil	7½	6½	Weather seasonable. Sowing of <i>rabi</i> crops going on. Harvesting of <i>aman</i> commenced in some places. Condition of the crop fair. No damage by insect. High prices and slight distress. No cattle diseases. Fodder and water sufficient.

No.	Name of district.	Rainfall at Sadar station.	Price of common rice, in seers, per rupee.		Character of the weather and state and prospects of the crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
11	KHULNA ...	Nil	8½	8½	Weather seasonable. State of winter rice fair. Outturn of jute estimated at 80 per cent. Sowing of summer rice commenced. No cattle-disease. Fodder and water sufficient.
12	PATNA ...	Nil	{ 7½ 11½ }	{ 7½ 11½ }	Weather hot in the day and cold at night. Pressing of sugarcane and harvesting of early rice commenced. <i>Rabi</i> -sowings in progress and germination good. No cattle-disease. Fodder and water sufficient.
13	GAYA ...	Nil	{ 9½ 12½ }	{ 8½ 12½ }	Weather cool and clear. Sugarcane and winter rice doing well. Pressing of sugarcane and harvesting of early sown paddy commenced in places. Sowing of <i>rabi</i> crops completed in Nawadah and Aurangabad. Some damage to <i>rabi</i> seedlings by insects in some parts of Pakri Barawan and Nawadah thanas. Prices almost stationary. Fodder and water for cattle sufficient.
14	SHAHABAD ...	Nil	{ 10† 12*	{ 10† 12*	Rain badly wanted for <i>rabi</i> crops. Harvesting of paddy commenced in places. Pressing of Sugarcane in progress. Old common rice selling at 8 seers per rupee at Sadar. Maize selling at 14½ seers at Sasaram. No cattle-disease. Fodder and water sufficient.
15	SARAN ...	Nil	{ 8½ 12*	{ 8½ 12½ }	Weather seasonable. Pressing of sugarcane going on. Poppy sowings commenced. Rain wanted for <i>rabi</i> crops. 2 men, 15 women, 160 children on average daily received cooked food from the District Board funds in the Siwan subdivision; 105 men, 227 women, 316 children on average daily gratuitously relieved by the Hathawa Raj; 75 men, 141 women and 66 children on the District Board test-relief works in the Siwan subdivision; and 175 men, 68 women, 122 children on average daily on the Hathawa Raj relief-works. No cattle-disease. Fodder and water sufficient.
16	CHAMPARAN ...	Nil	{ 8½ 11*	{ 8½ 11*	Weather bright and unseasonably hot in the day, but cool at night. Winter rice suffering much for want of rain throughout the district. Rain also wanted for <i>rabi</i> sowings which are in progress. No cattle-disease. Fodder and water sufficient.
17	MUZAFFARPUR	Nil	{ 7 11½ }	{ 7 11 }	Sky clear. Weather still slightly hot in the day. Early paddy ready for harvesting and being cut in some places. <i>Rabi</i> sowings going on. Common rice and maize selling at 7½ and 11½ seers a rupee, respectively, at Sitamarhi, and 7½ and 11½ seers a rupee respectively, at Hajipur. Daily average for gratuitous relief 4,127. Figures from four kitchens not received. Number of persons on test-work on the 17th instant Katia 7, Boisand 175, Sursau 616, and Banisayedpur 54. Cholera decreasing fast in Sitamarhi but still prevalent in the Sadar subdivision. No cattle disease. Fodder and water sufficient.

* The figures indicate price of maize in seers per rupee.
† New rice.

No.	Name of district.	Rainfall at Sadar station.	Price of common rice, in seers, per rupee.		Character of the weather and state and prospects of the crops, etc.
			This week.	Previous week.

34	COOCH BEHAR	Nil	6½	6½	Weather seasonable. Preparation of lands for tobacco, wheat and mustard in progress. Reaping of <i>aman</i> paddy commenced. Cattle-disease reported from thanas Mathabhanga and Dinuhata. Fodder and water sufficient.

GENERAL SUMMARY.—During the week under report there was no rain in the Province except a very slight shower of 0·04 inches in Darjeeling. Rain is wanted for *rabi* crops in Shahabad, Saran, Champaran, Darbhanga and Purnea. Harvesting of sugarcane has commenced in parts of Bihar. Prospects of *aman* paddy are still reported to be unfavourable in Darbhanga, Champaran, Darjeeling and in parts of Purnea. Some damage has been done to *rabiseedlings* in Gaya. The number of persons receiving gratuitous relief is—24-Parganas 10,493, Saran 994, Muzaffarpur 4,427 and Darbhanga 19,454—total 35,368. The number of persons attending test-works is—Saran 657, Muzaffarpur 882 and Darbhanga 14,213—total 15,752. Cattle-disease exists in seven districts. Fodder and water are generally sufficient. Cholera continues in parts of Muzaffarpur and Bhagalpur. The price of common rice has risen in three and fallen in ten districts.

N. N. BANERJEE,

C. A. OLDHAM,

Director of Agriculture, Bengal

SUMMARY OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN
BENGAL AND IN EASTERN BENGAL AND ASSAM FOR THE
MONTH OF OCTOBER 1906.

DURING the last week of September the weather in the Province was mainly governed by a depression in Eastern Bengal, which gave abundant rain to Assam and Lower Bengal till the 2nd of October. Skies commenced to clear in Chota Nagpur, Orissa and Bihar on the 1st of the month, and by the 3rd were either clear or only lightly clouded over the whole of the reporting area. Monsoon conditions were feebly developed during the next few days, and the only heavy falls recorded took place in North Bengal and Assam. During this period northerly winds were slowly establishing themselves at the head of the Bay and in Bengal and the pressure gradient usually associated with the rains proper was gradually disappearing, leaving the area of uniform pressure which normally obtains in the Bay in October. From the 11th of the month to the 16th the monsoon continued generally to weaken, but moderate to heavy rain fell in North Bengal on the 12th. On the 13th a shallow depression extended over the south of the Bay, which after concentrating slightly passed inland on the 17th, without giving rise to a storm. No change of any importance occurred till the 20th, when it became clear that weather was becoming disturbed to the west of Port Blair. The depression continued to concentrate, and on the 24th had probably developed into a considerable storm. On the 26th it was moving in a north-westerly direction towards Masulipatam and during the next two days its course became more northerly, owing probably to the influence of the hills to the west of the Circars coast. On the 29th it was in the neighbourhood of Waltair, and probably not far from the coast. It continued to move in a north or north-easterly direction during the day, and observations received that night showed that there was considerable danger of its recurring still further in an easterly direction. As this would have brought it dangerously near the head of the Bay by the next morning, it was considered advisable to indicate this contingency by a change of signals in the river ports. Fortunately it continued its northerly course and by 8 A.M. of the 30th had passed inland between Calingapatam and Gopalpur. It appears from the logs of ships that were in its neighbourhood to have been a fairly severe storm in its earlier stages, but it gradually dissipated its energy, and at the time of its arrival at the coast only indicated its existence by heavy rain and moderately strong winds along the Circars and Orissa coasts.

During the last three days of the month rain was fairly general in Bengal under the influence of the depression.

Summary of Temperature.—The average mean of the month was above the normal mean of the month in all the meteorological divisions except Assam. The excess was greatest in Bihar, and as is usually the case in the rains excess in temperature was associated with deficiency in rainfall. The highest temperature 94·9 recorded during the month was reported from Cuttack where the thermometer reached 94·9.

The following table gives the summary of the temperature of each of the seven Meteorological Divisions of the Provinces of Bengal and of Eastern Bengal and Assam for the month of October 1906 :—

METEOROLOGICAL DIVISION.	TEMPERATURE.					
	Highest observed during month.	Lowest observed during month.	Average for month.			Average mean of month above or below normal mean of month.
			Of highest of each day.	Of lowest of each day.	Of mean for each day.	
South-West Bengal	93·1	66·0	88·0	74·5	81·3	+ 0·3
North Bengal	90·7	61·4	86·4	72·9	79·7	+ 1·3
East Bengal	91·8	67·8	87·1	74·4	80·8	+ 0·4
Bihar	94·5	50·6	88·8	72·2	80·5	+ 1·0
Orissa	94·9	63·1	88·6	74·4	81·5	+ 0·5
Chota Nagpur*	93·4	55·5	85·6	68·7	77·2	+ 0·5
Assam	92·5	44·7	82·1	67·6	74·7	— 0·4

* Purulia not included.

Summary of Rainfall.—The rainfall work of the Province has been placed in the hands of the Director of Agriculture, Bengal, and the usual data regarding the actual and normal rainfall during the month will be published by that Department. A short table, however, is attached to this report, giving the rainfall recorded during the month at the head-quarters of the various districts of the Province.

Rainfall was in general defect during the month in Bengal, a few stations only in Lower Bengal and North Bengal showing a considerable percentage excess.

Actual and average rainfall and departure from normal for October 1906.

The average temperature of the corresponding period for 24 years, Surveyor-General's Office	75.5
The extreme variation of temperature	25.0
The maximum temperature	85.9
The highest velocity of the wind in one hour	6 Miles.
The mean relative humidity	73
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	72
The total fall of rain from 11th to 17th November 1906	Nil
The average fall of the corresponding period for 24 years, Surveyor-General's Office	0.14
The total fall from 1st January to 17th November 1906	57.19
The average fall of the corresponding period for 24 years, Surveyor-General's Office	65.26

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Baileys anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

☁, dew.

C. W. PEARCE,

for Director-General of Observatories.

REVENUE DEPARTMENT.

NOTIFICATIONS.

No. 3049 L.R.—The 25th November 1906.—In exercise of the powers vested in him by section 10 of the Sonthal Parganas Settlement Regulation III of 1872, and section 30 of the Sonthal Parganas Rent Regulation II of 1886, the Lieutenant-Governor is pleased to direct that the following rule should be added to Rule 5, and numbered as Rule 5A of the Rules for the conduct of settlement operations in the Sonthal Parganas, published with Notification No. 1967 L.R., dated the 10th April 1900, in Part I, pages 344 to 346 of the *Calcutta Gazette* of the 11th idem, as amended by Notification No. 2431 L.R., dated the 31st July 1903, published in Part I, page 1029 of the *Calcutta Gazette* of the 5th August 1906:—

V-A (1) “If any person, after being served with a notice to appear before a Settlement Officer or an Assistant Settlement Officer for any purpose connected with the preparation of the settlement record, fails, without due cause, to obey the notice, he may be summarily fined by such Settlement Officer or Assistant Settlement Officer in a sum not exceeding Rs. 20. Such fine may be realised by attachment and sale of the moveable property of the defaulter.

(2) “When a fine is inflicted under the above clause, the officer imposing it shall draw up a proceeding describing the nature of the offence, the proof of service of the notice and the plea, if any, of the defaulter.”

(3) “Such orders when passed by an Assistant Settlement Officer shall be subject to appeal or revision by the Settlement Officer.”

No. 3055 L.A.—The 21st November 1906.—It is notified for general information that so much of the Declaration No. 292 L.R., dated the 17th July 1905, published at pages 1310 and 1311, Part I of the *Calcutta Gazette*, dated the 26th idem, for land required to be taken up for Suburban Drainage Main Sewer No. 2, from Chuokerbere Road, North, to Puddopuker Road, as refers to the acquisition of premises Nos. 14, 15, 16, 17-1 and 18 Puddopuker Road, and premises Nos. 9, 9-1, 8, 5-2, 6, 7 and 5 Madhub Chatterji, 2nd Lane, and premises Nos. 37-1, 40, 46 and 46-1 Chuckerbere Road, North, is hereby cancelled.

No. 3059 L.R.—The 21st November 1906.—In exercise of the powers conferred upon him by section 55 of the Bengal Drainage Act, 1890 (Ben. Act VI of 1880), the Lieutenant-Governor is pleased to empower the Covenanted Deputy Collector of Howrah to do all acts, to discharge all functions, and to exercise all powers which may be done, discharged or exercised by a Collector under the said Act, as amended by the Bengal Drainage (Amendment) Act 1902 (Ben. Act II of 1902), in respect of the following schemes:—

- (1) Howrah drainage scheme.
- (2) Rajapur and Burajalla drainage scheme.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

DECLARATION.

T. W. RICHARDSON,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 3336J.—The 22nd November 1906.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for the Chanch Branch of the East Indian Railway at about mile 146½ from Calcutta, and whereas by Declaration No. 1100L.A., dated the 26th February 1906, certain additional land was acquired for a public purpose, viz., for the safety of the Khudia Bridge of Chanch Branch, East Indian Railway, and whereas coal mines are situate under the said land, and whereas the Bengal Coal Company, Limited, have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the mines in question, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Bengal Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Now, therefore, the Lieutenant-Governor of Bengal is pleased to declare, under section 5, sub-section (2), clause (b) of the abovementioned Act XVIII of 1885, that the working shall be carried on by the said Bengal Coal Company, Limited, in the manner and subject to the restrictions below specified, viz.—

That the dip gallery marked G on the plan may be made not more than 8 feet high and 8 feet wide; and that one more gallery only may be driven to cross the acquired land between the east and west abutments of the bridge. This new gallery will be a continuation of the gallery marked H on the plan; and that all other workings of the mine under the acquired land shall be in conformity with the dimensions set forth in Declaration No. 1214-T.R., dated the 12th June 1905, and that in all the above cases no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plan marked LAMA No. 60 signed by the Chief Inspector of Mines.

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

T. W. RICHARDSON,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 3374J.—The 24th November 1906.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for the Bengal Coal Company's Damoodarpore Colliery Assisted Siding and the "Catch Siding" of the East Indian Railway taking off from the Ikrah Branch at about mile 126½, and whereas coal-mines are situate under the said land, and whereas the Bengal Coal Company, Limited, have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the mines, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Bengal Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Now, therefore, the Lieutenant-Governor of Bengal is pleased to declare, under section 5, sub-section (2), clause (b) of the abovementioned Act XVIII of 1885, that the working shall be carried on by the said Bengal Coal Company, Limited, in the manner and subject to the restrictions below specified, viz—

The galleries should be made not more than 12 feet wide and 10 feet high, with centres not less than 62 feet apart, forming coal pillars not less than 50 feet square, and in all the above cases no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plan marked L. A. M. A. No. 62 signed by the Chief Inspector of Mines.

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

For further information apply to the Office Superintendent and Bursar, Civil Engineering College, Sibpur.

SIBPUR,

The 7th June 1906.

B. HEATON,

Principal.

NOTIFICATION.

DEPARTMENT OF MINES IN INDIA.

Regulations made by the Board of Examiners under Rule 30 of the rules applying to coal-mines made under section 20 of the Indian Mines Act, 1901, for the conduct of examinations for managers' certificates of competency.

1. No member of the Board of Examiners shall act as a local examiner, except in emergent cases.

2. When possible, one or more members of the Board of Examiners shall attend every examination on at least one of the days.

3. So far as is practicable, the local examiners shall be—

(a) An Inspector of Mines, who shall be Secretary to the local examiners.

(b) Two Mining Engineers or Colliery Managers who must be the holders of first class certificates. Provided that a Mining Professor may be appointed instead of one of the Mining Engineers or Managers.

4. The remuneration of each local examiner shall be Rs. 150 for each examinations, and a capitation fee of Rs. 2 for each first class candidate and Re. 1 for each second class candidate examined, and travelling expenses and halting allowances on the first class scale under the Civil Service Regulations; but an Inspector of Mines, acting as a local examiner, shall not be entitled to any fee or remuneration whatsoever, beyond the travelling expenses and halting allowances due to him in his official capacity.

5. The subjects for examination shall

(a) *Arithmetic and Handwriting.*

(b) *Practical and Theoretical Coal-mining*, including surface and underground arrangements, sinking, timbering, ventilation, gases met with in coal-mines, a knowledge of plans, surveying and levelling, and of the various instruments used in mining. Questions may also be asked upon geology, sanitation, hydraulics, explosives, safety lamps and similar subjects. The candidates may also be required to show how to arrange the ventilation and haulage of a mine on a given plan.

(c) *Practical Mechanics*, including steam, steam-engines, steam-boilers, pumps and strength of materials; and questions may be asked upon electricity and compressed air as applied to coal-mining.

(d) *The Indian Mines Act, 1901*, and rules made under the Act.

6. The examinations shall be both written and oral, and the subjects and conditions shall be the same for candidates for both classes of certificates; but the examination questions shall be made suitable for each class of certificate.

7. The following shall be the maximum number of marks given for each subject:—

SUBJECT.	FIRST CLASS.			SECOND CLASS.		
	Papers.	Vind voce.	Total.	Papers.	Vind voce.	Total.
(a) Arithmetic and Hand-writing.	50	...	50	50	...	50
(b) Mining ...	60	60	220	140	80	220
(c) Mechanics ...	110	40	150	100	50	150
(d) Indian Mines Act ...	60	20	80	50	30	80
Total ...	380	120	500	340	160	500

8. No candidate who fails to obtain 66 per cent of the total number of marks, or 33 per cent. in either of the subjects of Mining or Mechanics, shall be passed by the examiners, and if a candidate fails to obtain 33 per cent. of the marks given for either of the subjects of Arithmetic and Handwriting or the Indian Mines Act, any marks he may have obtained in such subjects shall not be included when the total is determined.

9. Before each examination each candidate shall declare whether he presents himself for a first or second class certificate. No candidate for a second class certificate shall be eligible at that examination for a first class certificate, but a candidate for a first class certificate, who does not reach the necessary standard, may, nevertheless, at the discretion of the local examiners, be recommended to the Board of Examiners for a second class certificate, if, in their opinion, he has done sufficiently well to deserve it.

10. The Secretary to the local examiners shall report, by registered post, the result of the examinations giving the number of marks obtained by each candidate in each subject, to the President of the Board of Examiners within one month of the close of the examination.

11. The questions which the local examiners intend to put in the examination papers shall be submitted in draft to the Board of Examiners, for approval, at least six weeks before the date of the examination.

12. At least one examination shall be held annually in the Bengal coal-fields; and in other parts of India examinations will be held whenever, in the opinion of the Board of Examiners, the number of candidates in a coal-mining centre justifies the holding of an examination.

The 27th November 1906.

W. H. PICKERING,
Chief Inspector of Mines in India.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 6472B.

Ditto at the Ghazipur Factory consisting of	...	2,200
Total	...	4,400

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the notification issued on the 28th November 1905, and published in the *Government and Exchange Gazettes*, or on personal application at the office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 10th and 19th December 1906, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P.M. of Monday, the 10th December 1906, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Wednesday, the 19th December 1906.

By order of the Board of Revenue, L. P.,

J. P. YAKCHER, for *Offg. Secretary*.

BOARD OF REVENUE, L. P., CALCUTTA, the 24th October 1906.

No. 7054B.

NOTICE is hereby given that the Provision Opium to be brought forward for sale by public auction in the year 1907, will consist of about 26,400 chests prepared at the Patna Factory, each chest of which is believed to contain 1 maund 18 seers 12 chitaks of pure opium, besides 9 seers 6 chitaks used for pasting the leaves of the shell, and about 26,400 chests prepared at the Ghazipur Factory, each chest of which is believed to contain 1 maund 18 seers 12 chitaks of pure opium, besides 9 seers 6 chitaks used for pasting the leaves of the shell, being of the seasons 1904-1905 and 1905-1906 in the proportion marginally noted.

OPIMUM.
THE HON'BLE MR. W. C. MACPHERSON, C.S.I.

Opium manufactured at the Patna Factory.

Supply from 1904-1905	Chests.
Ditto 1905-1906	5,532
Total	26,400

Opium manufactured at the Ghazipur Factory.

Supply from 1904-1905	Chests.
Ditto 1905-1906	10,805
Total	26,400

2. The dates on or about which the sales will be held, and the total quantity of opium, as well as the respective quantities manufactured at the Patna and Ghazipur Factories which will be brought forward for sale every month, are specified below. The Board of Revenue reserve to themselves the right of altering the dates, should circumstances render it expedient to do so. In accordance with the Notification of the Government of India, No. 3494A., dated 22nd June 1906, 2,200 chests of Patna and 2,200 chests of Benares opium will be sold monthly from January to December 1907:—

On or about Tuesday, 3rd December	"	...	2,200	2,200
Total	...	26,400	26,400	52,800

The following are the conditions of sale:—

1. The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2. The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which, provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any

of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

5. A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots

DEPOSIT.

When the amount bid is less than Rs. 1,500 per chest, Rs. 200 per chest.

On bids of Rs. 1,500 and upwards, but less than Rs. 1,000 per chest, Rs. 300 per chest.

On bids of Rs. 1,000 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6. The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7. The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8. No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9. The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10. Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

11. No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12. The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up

again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bond fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remains a sufficient number of lots of the opium to complete the said twenty-five.

15. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—

No. 1, Certificate of the opium advertised for sale;

No. 2, Report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1905-1906, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Board of Revenue.

18. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

R. B. MISRA,
Offg. Secretary.

NOTES AND INSTRUCTIONS.

(1) Failure to forward a correct return to the Chief Inspector of Mines not later than the 1st February in each year will render the managing agent, owner, agent, or manager liable on conviction to a penalty which may extend to Rs. 500.

(2) It will greatly facilitate the preparation of the statistics if the return is despatched as soon as possible after the close of the year.

(3) The output should be given—

- (a) in troy ounces in the case of gold ;
- (b) in carats in the case of gem-stones ;
- (c) in cwts.,—or in cwts. and lbs. where the circumstances require greater particularisation in order to give an accurate estimate of small outputs,—in the case of alum, amber, asbestos, cromite, corundum (not being gem corundum), graphite, jade-stone, mica, steatite and tin ore ; and
- (d) in tons, in the case of clays, coal, coke, iron-ore, limestone, magnesite, manganese-ore, other unspecified metalliferous ores, salt and slate.

(4) The total amount of mineral raised during the year must be given, including, in the case of coal mines, the colliery consumption and the coal made into coke.

(5) The value of the mineral given should be based on the actual or estimated wholesale price of the mineral at the pit's mouth. In the case of coal sold into wagons at the colliery, the cost of loading should be deducted from the selling price.

(6) In the case of mica mines a "plot" is to be regarded as a "pit" for the purposes of statements Nos. II and III and the figures to be entered in columns 4 and 5 of statement No. III relate to the quantity and value of marketable mica consigned.

(7) The average number of persons employed daily should be obtained by dividing the aggregate number of daily attendances (permanent and temporary) by the number of working days.

(8) Every person of or above the age of 12 years should be entered as an adult.

PART II.

Advertisements.

[N. B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette cannot be received after Noon on Monday.]

LAND SALE NOTICES.

NOTICE is hereby given that the undermentioned plot of land, no longer required by the East Indian Railway Company, situated along the East Indian Railway, chord line, in the subdivision of Jamtara, district Sonthal Parganas, will be put up to sale at 12 A.M. on the 10th day of January 1907, corresponding with the 26th Pous 1313, Bengali, in the Court compound, Jamtara.

The purchaser of the plot of land will be subject to the following conditions:—

1st.—The purchaser will have no power to make any excavations on the land nearer than 16 feet from the railway boundary or to plough the land nearer than 3 feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by the noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the plot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plot of land will be sold revenue-free to the highest bidder.

5th.—The purchaser shall be put in possession on receipt by the Subdivisional Officer of the orders of the Board confirming the sale.

APPROXIMATE AREA OF THE PLOT IN
BIGHAS AND ACRES.

Advertisement of Sale.

NOTICE is hereby given that the proprietary rights of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Hooghly will be put up to sale at the Hooghly Collectorate on the 1st December 1906, corresponding with 6th Pous 1313 (B.S.).
The purchaser will be subject to the following conditions of sale :—

The purchaser will be subject to the following conditions of sale:—

Conditions of Sale.

- 1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.
- 2nd.—The sale is to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.
- 3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.
- 4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Number on the district roll.	Name of estate, pargana or thana.	Approximate area in acres.	Government revenue assessed.	REMARKS.

WHEREAS a survey has been made and boundaries demarcated of all municipal and revenue holdings situated in the above area, you are hereby informed that the maps are open to inspection. You are therefore requested to prefer any objection in writing, should you have any, within six weeks of date of this notification after which the boundaries will be finally confirmed.

The maps can be inspected at any time at the Survey Office, 5 Alipore Road, between the hours of 10 A.M. and 4 P.M.

R. B. SMART,

Assistant Superintendent of Survey.

5 Alipore Road, Calcutta, the 20th November 1906

Notification.

THE Dumka *mela* begins on the 1st February next and lasts a fortnight. The *mela* site has now been removed to the heart of the town, and allotments of space will be made free of all charge by the Committee on application.

From the 7th to the 10th February, there will be daily sports, fireworks and amusements for the public in the *mela* grounds, ending with an exhibition of produce and cattle. Rupees 500 will be given away as prizes at the sports, and the same amount or more at the exhibition.

Traders, shop-keepers, exhibitors and itinerant performers are requested to communicate with the Secretary as soon as possible.

W. H. THOMSON,

Sub-divisional Officer.

Dumka, the 13th November 1906.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depot, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PRICES.

THE terms of subscription, and the terms on which current issues and back numbers are sold, are as follows:—

	Without postage.	With Indian postage.	With Foreign postage.
COMPLETE SERIES—

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, NOVEMBER 28, 1906.

NOTICES TO MARINERS.

THE following Notices are published for general information.

CALCUTTA, the 24th November 1906.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

BAY OF BENGAL—CHITTAGONG COAST.

South Patches—Light vessel to be temporarily removed from her station.

No. 448 (first publication).—With reference to Notice to Mariners No. 295, dated the 17th August last, issued by this office, the Port Officer, Chittagong, has given further notice that the South Patches light-vessel will be removed from her station on the 3rd January 1907, and replaced on the 5th March 1907. A red barrel buoy with staff will mark the position during her absence.

Approximate position, lat. $21^{\circ} 29' N.$, long. $91^{\circ} 36' E.$

The 22nd November 1906.

AUSTRALIA—VICTORIA—HOBSON BAY.

Gellibrand point light-house—Fog signal established.

No. 449 (first publication).—With reference to Notice to Mariners No. 289, dated 10th August 1906, issued by this office, the British Admiralty has given further Notice (No. 1210 of 1906) that a fog-horn and a fog rocket have been established at the pile light-house of Gellibrand point, Hobson bay. During thick or foggy weather the horn will be sounded and the rocket fired, alternately, every five minutes.

Approximate position, lat. $37^{\circ} 52\frac{1}{2}' S.$, long. $144^{\circ} 55' E.$

This Notice affects the following Admiralty Charts :—Port Philip, No. 1171b; Hobson bay, No. 624; Also, List of Lights, part VI, 1906, No. 1320; Australia Directory, vol. I, 1897, page 459; and Supplement, 1900, page 17.

The 23rd November 1906.

AUSTRALIA, SOUTH—SPENCER GULF.

Corny point light—Intended red sector.

No. 450 (first publication).—The British Admiralty has given Notice (No. 1211 of 1906), that it is intended, on 1st January 1907, to alter Corny point light, Spencer gulf, to show red over Webb rock between the bearings of N. 50° E. and N. 25° E. in place of the present obscured arc. The red light will be visible in clear weather from a distance of 14 miles.

Approximate position, lat. 34° 54' S., long 137° 1' E.

(Variation 4° Easterly in 1906.)

This Notice affects the following Admiralty Chart :—Gulf of St. Vincent, &c., No. 2389a ; Also, List of Lights, part VI, 1906, No. 1218 ; Australia Directory, vol. I, 1897, page 219 ; and Supplement, 1900, page 14.

KOREA—EAST COAST.

Goshkevitch bay—Rock.

No. 451 (first publication).—The British Admiralty has given Notice (No. 1222 of 1906) of the existence of a rock, with a depth of 2 fathoms over it, in Goshkevitch bay, situated in a position from which the southern extremity of Red island bears N. 64° E., distant 8½ cables, and West point N. 75° W.

Approximate position, lat 42° 18½' N., long. 130° 32½' E.

This rock, named Gyokugan, is steep-to, having depths of 14 to 15 fathoms around it.

(Variation 7° Westerly in 1906.)

This Notice affects the following Admiralty Charts :—Tumen Ula to Strelak bay, No. 2432 ; Goshkevitch bay on chart No. 1186 : Also, Sailing Directions for Japan and Korea, 1904, page 155.

CHINA, NORTH—MANCHURIA—LIAU TUNG GULF.

Kwang tung peninsula, north coast—Mines removed.

No. 452 (first publication).—With reference to Notice to Mariners No. 420, dated 20th October 1906, issued by this office, the British Admiralty has given further Notice (No. 1223 of 1906) that sweeping operations for mines over an area to the northward of a line joining cape Collinson and Iron island in a north-east direction to Kin Chau bay were completed on August 26th last.

The cautionary note respecting mines has therefore been removed from the under-mentioned charts.

Approximate position, Iron island, lat. 38° 56½' N., long. 120° 59' E.

This Notice affects the following Admiralty Charts :—Gulf of Pechili and Liau tung, No. 1256 ; Kwang tung peninsula, No. 1798 ; Pechili strait, No. 1392 : Also, China Sea Directory, vol. III, 1904, pages 634, 635.

PERSIAN GULF—MOUTHS OF THE EUPHRATES.

Shatt-al-Arab—Regulations regarding speed of vessels.

No. 453 (first publication).—The British Admiralty has given notice (No. 1226 of 1906) that, in consequence of the damage caused by vessels proceeding at a high rate of speed in the Shatt-al-Arab and the adjacent rivers and tributaries, the Turkish Government has notified, through the Vali of Basra, that the speed of all vessels after passing Fao must not exceed five knots. Legal proceedings for damages will be taken against Mariners who contravene this regulation.

Approximate position, Fao, lat. 29° 58½' N., long. 48° 29½' E.

This notice affects the following Admiralty Chart :—Shatt-al-Arab, No. 1235 ; Also Persian Gulf Pilot, 1898, page 249 ; and Supplement, 1905, page 28.

EASTERN ARCHIPELAGO—MALACCA STRAIT.

One Fathom Bank light—Alteration postponed.

No. 454 (*first publication*).—With reference to Notice to Mariners No. 2, dated 8th January 1906, issued by this office, the British Admiralty has given further Notice (No. 1227 of 1906) that the alteration in the light exhibited from the One Fathom Bank light-house, Malacca strait, from revolving to a *white group flashing* light, showing groups of four flashes every fifteen seconds, will not be completed before the close of 1907.

Approximate position, lat. $2^{\circ} 53' N.$, long. $101^{\circ} 0' E.$

Further notice will be given when this alteration has been made.

This Notice affects the following Admiralty Charts:—Malacca strait, Nos. 1355 and 794; cape Rachado to Singapore, No. 795; Also List of Lights, Part VI, 1906, No. 423; and China Sea Directory, vol. I, 1896, page 182.

CHINA, NORTH—MANCHURIA, SOUTH COAST.

Ta lien hwan—Regulations relative to, cancelled.

No. 455 (*first publication*).—With reference to Notice to Mariners No. 312, dated the 3rd September 1906, issued by this office, the British Admiralty has given further notice (No. 1228 of 1906) that the regulations respecting Ta lien hwan contained in the above-mentioned notice have been cancelled and are no longer in force. The pecked lines from San shan tau light-house, indicating the limits of the districts, have therefore been erased from the charts, and also the note that inside those pecked lines Japanese harbour regulations are to be followed.

Approximate position of San shan tau light, lat. $38^{\circ} 51\frac{1}{2}' N.$, long. $121^{\circ} 50\frac{1}{2}' E.$

This Notice affects the following Admiralty Chart:—Kwantung peninsula, No. 1798; Also China Sea Directory, vol. III, 1904, page 586.

JAPAN, NAIKAI (INLAND) SEA—SIMONOSEKI STRAIT.

Moji ko—Wreck.

No. 456 (*first publication*).—The British Admiralty has given notice (No. 1244 of 1906) that the wreck of the S.S. *Naka Maru* lies sunk, with masts and funnel above water, in Moji ko, in a position from which Moji machi harbour office flagstaff bears S. $56^{\circ} E.$, distant $3\frac{1}{4}$ cables, and Kojo yama (Moji hill) N. $52^{\circ} E.$

Approximate position, lat. $33^{\circ} 57' N.$, long. $130^{\circ} 57\frac{1}{2}' E.$

(*Variation 4° Westerly in 1906.*)

This Notice affects the following Admiralty Charts:—Simonoseki strait, No. 1578; Moji ko, No. 3114. Also Sailing Directions for Japan, 1904, page 502.

BAY OF BENGAL—BURMA COAST.

Krishna shoal light-vessel will shortly resume her station.

No. 457 (*first publication*).—With reference to Notice to Mariners No. 408, dated 23rd October 1906, issued by this office, a further telegraphic communication has been received from the Principal Port Officer, Rangoon, stating that the Krishna shoal light-vessel will resume her station on or about the 29th November 1906, exhibiting original light. The temporary light-vessel will be withdrawn.

The 24th November 1906.

BAY OF BENGAL—CHITTAGONG COAST.

Kurnafuli river—Depth of water in the channels.

No. 458 (*first publication*).—The Port Officer, Chittagong, has given notice that the following depth of water was found in the channels by soundings taken on the 22nd November 1906.

					Ft.	in.
<i>Track No. 1.—Outer bar—</i>						
Disc on diamond	11	0
Marks open to the north	14	0
<i>Track No. 2.—Inner bar—</i>						
Batten beacon on pillar	12	0
<i>Track No. 3.—</i>						
Triangle on cross and ball	16	6
<i>Track No. 4.—Guptakhally crossing—</i>						
Tripod on diamond	18	0

The 26th November 1906.

JAPAN—HONSHU (NIPON), NORTH-WEST COAST.

Caution—Floating mines.

No. 436 (second publication).—The British Admiralty has given notice (No. 1168 of 1906) that floating mines are still occasionally seen near the north-west coast of Honshu (Nipon), between the Oki islands and Tsugaru strait; vessels are therefore recommended not to navigate along this coast at night. The Japan sea, also, cannot yet be considered entirely free from danger from these mines.

A cautionary note to the above effect has been placed on the chart.

This notice affects the following Admiralty Chart:—*Nipon, Kiusiu, and Shikoku, No. 2347: Also Sailing Directions for Japan, &c., 1904, pages 636—682.*

NEW ZEALAND—NORTH ISLAND—PORT NICHOLSON.

Lambton harbour—Lights established on wharf.

No. 437 (second publication).—The British Admiralty has given notice (No. 1175 of 1906) that two green fixed lights, placed vertically 8 feet apart, the upper light being elevated 37 feet above high-water, have been established near the outer end of Taranaki Street wharf.

These lights are visible from all points of approach for a distance of 3 miles in clear weather.

Approximate position, lat. $41^{\circ} 17\frac{1}{4}'$ S, long. $174^{\circ} 46\frac{3}{4}'$ E.

This notice affects the following Admiralty Charts:—*Port Nicholson, No. 1423; Lambton harbour, &c., No. 803: Also List of Lights, part VI, 1906 page 273; and New Zealand Pilot, 1901, page 172.*

AUSTRALIA—NEW SOUTH WALES.

Newcastle harbour—Additional beacon light and leading mark established.

No. 438 (second publication).—The British Admiralty has given notice (No. 1180 of 1906) that, on and after 1st September 1906, a green fixed light, elevated 30 feet above high water, would be exhibited from a pile-beacon recently erected on the northern side of the entrance to Newcastle harbour, at a distance of 300 yards, S. 58° W, from the existing red pile-beacon with green fixed light.

Approximate position, lat. $32^{\circ} 55\frac{1}{4}'$ S., long. $151^{\circ} 47\frac{1}{2}'$ E.

Vessels entering the harbour should keep the above green fixed lights in line, bearing S. 58° W., which will lead in least depth of 22 feet at low-water springs, until the lights on the fairway leading towers (fixed white and fixed red) come into line, bearing S. 42° W.

(Variation 10° Easterly in 1906.)

This notice affects the following Admiralty Charts:—*Port Jackson to port Stephens, No. 1021; Newcastle harbour, No. 2119: Also List of Lights, part VI, 1906, page 231; and Australian Directory, vol. II, 1898, page 81.*

CHINA SEA—SINGAPORE STRAIT.

Raffles light.—Limits of obscured sector uncertain.

No. 439 (second publication).—With reference to notice to Mariners No. 367, dated 29th September 1906, issued by this office, the British Admiralty has given further notice (No. 1182 of 1906) that the limits of the sector within which Raffles light is obscured are at present uncertain.

Further notice will be given.

Approximate position, lat. $1^{\circ} 10'$ N., long. $103^{\circ} 44\frac{1}{2}'$ E.

This notice affects the following Admiralty Charts:—*Singapore strait, Nos. 2403, 2404: Also List of Lights, part VI, 1906, No. 439; and China Sea Directory, vol. I, 1896, page 201.*

CHINA SEA—GULF OF SIAM—CHENTABUN RIVER.

Lemsing.—Light established.

No. 440 (second publication).—The British Admiralty has given notice (No. 1183 of 1906) that, on the 1st September 1906, a *white occulting light every thirty seconds* thus:—light, twenty-five seconds; eclipse, five seconds, elevated about 280 feet above high water, and visible in clear weather from a distance of 12 miles, would be established on Lem sing, at the entrance to Chentabun river.

The exact position of this light is not stated.

Approximate position, lat. $12^{\circ} 28' N.$, long. $102^{\circ} 2\frac{1}{2}' E.$

This Notice affects the following Admiralty Charts:—*Gulf of Siam*, No. 2414; *cape Liant to Koh kut with plan of Chentabun river*, No. 2721; *Also List of Lights*, part VI, 1906, page 113; and *China Sea Directory*, vol. II, 1906, page 381.

AFRICA SOUTH COAST—CAPE COLONY—ALGOA BAY.

Cape Recife light.—Description given.

No. 441 (second publication).—With reference to Notice to Mariners No. 423, dated the 1st November 1906, issued by this Office, the British Admiralty has given further notice (No. 1197 of 1906) of the following description of the light on cape Recife, Algoa bay:—It is a *white fixed and flashing light every minute*, showing *red* between the bearings of $S. 39^{\circ} W.$ and $S. 11^{\circ} W.$, and *white* in other directions; the light-power of the fixed light being 9,000 candles, and of the flash 115,000 candles. The power of the light in the red sector is considerably reduced. Under certain atmospheric conditions the fixed light may become invisible, the flash only appearing.

Approximate position, lat. $34^{\circ} 1\frac{1}{2}' S.$, long. $25^{\circ} 42' E.$

This Notice affects the following Admiralty Charts:—*Indian ocean*, No. 748a; *Hondeklip bay to port Natal*, No. 2095; *cape St. Francis to Waterloo bay*, No. 2086; *Algoa bay*, No. 642; *Also, List of Lights*, part VI, 1906, No. 15; and *Africa Pilot part, III*, 1905, page 125.

CHINA SEA—PHILIPPINE ISLANDS—LUZON EAST COAST—LAMON BAY APPROACH.

Makulabo island.—Shoal to the South-Westward.

No. 442 (second publication).—The British Admiralty has given notice (No. 1199 of 1906) that a shoal of coral and rock of large extent exists south-westward of Makulabo island. A depth of 3 fathoms was found on it situated in a position from which the southern extremity of Makulabo island bears $N. 65^{\circ} E.$, distant $2\frac{1}{2}$ miles, and the northern extreme of the same island $N. 32^{\circ} E.$

There appeared to be less water on this shoal; an examination of it is in progress.

Approximate position, lat. $14^{\circ} 24\frac{1}{2}' N.$, long. $122^{\circ} 39' E.$

(Variation Nil in 1906.)

This Notice affects the following Admiralty Charts:—*The Philippine islands*, No. 943; *Philippine islands between St. Bernardino and Mindoro straits*, No. 2577; *Also, Eastern Archipelago*, part I, 1902, page 374; and *Supplement*, 1906, page 30.

EASTERN ARCHIPELAGO—SUMATRA WEST COAST—BENKULEN.

Pulo Tikus light.—Intended alteration.

No. 443 (second publication).—The British Admiralty has given notice (No. 1201 of 1906) that it is intended to alter pulo Tikus light from *white fixed* to a *white flashing light every five seconds*, the flashes being of very short duration; it will be visible in clear weather from a

distance of 16 miles, and exhibited from a white open iron framework support, 98 feet high, erected near the position of the present light.

The light will be of the 5th order.

Approximate position, lat. $3^{\circ} 50\frac{1}{2}'$ S., long. $102^{\circ} 11'$ E.

Further Notice will be given when received.

This Notice affects the following Admiralty Chart:—Sumatra with plan of Benkulen, No. 2761; Also, List of Lights, part VI, 1906, No. 462; and China Sea Directory, vol. I, 1896, page 312.

EASTERN ARCHIPELAGO—SUMATRA, EAST COAST—MALACCA STRAIT.

Langsar bay—Light intended.

No. 444 (second publication).—The British Admiralty has given Notice (No. 1202 of 1906) that it is intended to establish a white flashing light every three seconds on a white open iron framework support, 65 feet high, erected on Pasir Puti, Langsar bay, the duration of each flash being one second. The light will be of the 4th order.

Approximate position, lat. $4^{\circ} 32\frac{1}{2}'$ N., long. $97^{\circ} 59'$ E.

Further Notice will be given when received.

This Notice affects the following Admiralty Charts:—Acheh head to Tyinykok bay, No. 2760; Diamond point to Pulo Berhal, No. 1353; and Langsar bay, No. 3574; Also, List of Lights, part VI, 1906, page 63; and China Sea Directory, vol. I, 1896, page 71.

NEW ZEALAND—NORTH ISLAND, EAST COAST.

• Little Barrier island—Rock.

No. 445 (second publication).—The British Admiralty has given Notice (No. 1203 of 1906) of the existence of a rock, awash at low-water springs off the north-west coast of Little Barrier island, situated in a position from which White cliffs (600 feet) bear S. 75° E., distant about 2 cables, and the northern point of Little Barrier island N. 55° E., distant 2 miles.

This rock is about 60 feet long in a north-easterly and south-westerly direction and 5 feet broad.

Approximate position, lat. $36^{\circ} 10\frac{3}{4}'$ S., long. $175^{\circ} 3\frac{1}{4}'$ E.

(Variation 14° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—Tutukaka harbour to Mayor island, No. 2548; Bream head to Tepaki point, No. 3565; Also, New Zealand Pilot, 1901, page 47; Supplement, 1906, page 4.

COMPASS—Variation of, on certain charts.

No. 446 (second publication).—The British Admiralty has given notice (No. 1205 of 1906) that observations obtained during recent years show that the secular change in the variation of the compass is in some cases greatly different from what was anticipated.

The results have been embodied in the variation chart for the Epoch 1907, and this chart should be consulted on all occasions before deciding on the variation to be allowed in shaping course, &c.

The compasses on the charts may be in some cases as much as 2° in error.

INDIA, WEST—BOMBAY COAST.

Caution—Wreck of a Pattimar off Vingorla.

No. 447 (second publication).—With reference to Notice to Mariners No. 428, dated the 1st November 1906, issued by this Office, the Bombay Government has given further notice (No. 119 of 1906) that the Master of S.S. *Loodiana* reports that he passed a wrecked Pattimar in lat. $15^{\circ} 41' N.$, long. $73^{\circ} 26' E.$, Vingorla Rock Light-house, bearing N. $5^{\circ} E.$ (True), distant 12 miles. The vessel is lying on her side and is laden with logs of timber; she bears the following mark on her port quarter:—240·5·C.

The derelict is a great danger to navigation.

This Notice affects the following Admiralty Charts:—*Karachi to Vengorla*, No. 826; *Vengorla to Cape Comorin*, No. 827; *Gulf of Kutch to Viziadrag* No. 2736; *Viziadrag to Cochin*, No. 2737; and *Achra River to Cape Ramas*, No. 740: Also, *West Coast of Hindustan Pilot*, 1898, page 168.

The 17th November 1906.

INDIA, WEST—BOMBAY COAST.

Rajpuri Point—Red buoy replaced in position.

No. 432 (third publication).—With reference to Notice to Mariners, No. 239, dated 26th June 1906, issued by this office, the Bombay Government has given further notice (No. 116 of 1906) that the red buoy on the north side of the 'Whale Reef,' off Rajpuri Point at the entrance of the Janjira Harbour that had been removed for the south-west monsoon was replaced on the 10th October 1906.

PACIFIC OCEAN, SOUTH—SOLOMON ISLANDS—FLORIDA ISLAND.

Sandfly passage—Pinnacle rock.

No. 433 (third publication).—The British Admiralty has given notice (No. 1142 of 1906) that a pinnacle rock, awash, exists nearly in the centre of North channel, Sandfly passage) in a position from which the northern of the two pinnacle rocks at present shown on the chart bears, approximately, S. $78^{\circ} E.$ distant about three cables.

It is proposed to place a buoy on this rock.

Approximate position, lat. $8^{\circ} 59' S.$, long. $160^{\circ} 5' E.$

(Variation 8° Easterly in 1906.)

This Notice affects the following Admiralty Charts:—*Plan of Sandfly passage*, No. 2873: *Guadalcanar and Florida islands*, No. 1469: Also *Pacific Islands*, vol. I, 1900, page 292.

CHINA SEA—PHILIPPINE ISLANDS—MINDORO ISLANDS.

Port Galera—Colour of light altered.

No. 434 (third publication).—The British Admiralty has given notice (No. 1155 of 1906) that the colour of port Galera light (*fixed*) has been altered from white to red and the power of the light has been increased, so that it is now visible in clear weather from a distance of 7 miles.

In other respects the light is unaltered.

Approximate position, lat. $13^{\circ} 30\frac{1}{2}' N.$, long. $120^{\circ} 57' E.$

This Notice affects the following Admiralty Chart:—*Port Galera, etc.*, on No. 949: Also *List of Lights*, Part VI, 1906, No. 660; and *Eastern Archipelago*, Part I, 1902, page 229; and *Supplement*, 1906, page 16.

BAY OF BENGAL—CHITTAGONG COAST.

Kurhāfuli river—Depth of water in the Channels.

*No. 436 (third publication).—*The Port Officer, Chittagong, has given notice that the following depth of water was found in the channels by soundings taken on the 8th November 1906.

					Ft.	In.
<i>Track No. 1—Outer bar—</i>						
Disc on diamond	11	6
Marks open to the north	13	6
<i>Track No. 2—Inner bar—</i>

REPORT ON THE STATE OF THE SALT MARKET FOR THE
SECOND QUARTER OF 1906-1907.

No. 6765B., dated Calcutta, the 12th November 1906.

FROM—PANDIT RAMA BALLABHA MISRA, M.A., Offg. Secretary to the Board of Revenue, L. P.,

TO—The Secretary to the Government of Bengal, Financial Department.

I AM directed to submit the following report on the state of the salt market for the second quarter of the year 1906-1907, comprising the months of July, August and September 1906.

Member in charge :
THE HON'BLE MR. W. C. MACPHERSON, C.S.I.

2. The quantity of salt of every description cleared during the quarter amounted to 21,55,780 maunds, as compared with 33,10,896 maunds in the previous quarter, and 21,78,015 maunds in the corresponding quarter of the previous year. The net amount of duty levied thereon was Rs. 29,43,586, as against Rs. 45,57,288 in the previous quarter, and Rs. 30,40,075 in the corresponding quarter of the previous year.*

* The figures cited for the previous year in paragraphs 2 to 4 of this report do not include figures for the Eastern Bengal district which were transferred on 16th October 1905 to the Province of Eastern Bengal and Assam.

3. The subjoined Table I shows in detail the importations into the port of Calcutta and the total clearances of sea-imported salt during the quarter, as compared with the figures of the corresponding quarters of the two previous years :—

TABLE I.

Total	39,97,063	23,26,457	29,44,195	21,61,823	27,00,352	21,34,017

Compared with the corresponding quarter of the previous year and the same quarter of 1904-1905, importations were less by 8·08 per cent. and 32·3 per cent., respectively, and clearances by 1·3 and 8·3 per cent.

4. Table II shows the quantity of sea-imported salt remaining in the warehouses at the close of the quarter, as compared with the previous four quarters :—

TABLE II.

WHERE STORED.	Second quarter of 1905-1906.	Third quarter of 1905-1906.	Fourth quarter of 1905-1906.	First quarter of 1906-1907.	Second quarter of 1906-1907.
1	2	3	4	5	6
	Mds.	Mds.	Mds.	Mds.	Mds.
Belkoe Government Salt goas	14,22,356	9,27,165	12,09,169	11,75,305	14,34,711
Kidderpore Dock ditto	6,28,978	6,28,681	4,07,851	6,94,857	7,27,569
Ghandali (private bonded salt warehouses)	9,200	10,400	3,000	8,200	13,000
Total	20,60,534	15,64,186	16,20,020	18,78,362	21,75,280

Stocks at the close of the quarter were greater than in any of the previous four quarters.

5. For the reason given in paragraph 5 of the last quarter's report, Table III which showed the despatches of salt from Calcutta by different routes has been omitted from this report. The figures showing such despatches

during the quarter under report will be published as usual in the *Calcutta Gazette* by the Director-General of Commercial Intelligence when they are available.

6. No salt was despatched during the quarter by the East Indian Railway to stations beyond Buxar, as against 405 maunds despatched both in the previous quarter and in the corresponding quarter of the previous year.

7. The quantity of saltpetre salt excised in the refineries of the Lower Provinces during the quarter amounted to 3,516 maunds, as compared with 4,955 maunds in the previous quarter and 3,162 maunds in the corresponding quarter of the previous year.

8. The shipments of Liverpool salt during the quarter for the port of Calcutta, according to the published market reports, amounted to 29,874 tons. It is reported that the vessels noted in the margin* are afloat for Calcutta with cargoes of salt from Hamburg. The quantity given against each ship is approximate only.

9. Table IV shows the average wholesale prices per 100 maunds of Liverpool and other descriptions of salt during each fortnight of the quarter :—

TABLE IV.

DESCRIPTION OF SALT.	Fortnight ending 15th July 1906.	Fortnight ending 31st July 1906.	Fortnight ending 15th August 1906.	Fortnight ending 31st August 1906.	Fortnight ending 15th September 1906.	Fortnight ending 30th September 1906.
1	2	3	4	5	6	7
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Liverpool <i>panga</i>	48 6 10	47 0 0	47 2 0	46 13 1	48 12 8	50 10 3
Hamburg <i>karkatch</i>	51 0 0	50 8 0	46 10 2	45 15 4	47 9 7
Muscat <i>ditto</i>	41 0 0	36 0 0
Bombay <i>ditto</i>	43 6 8	41 10 0	40 3 2	39 2 0	39 0 0	39 0 0
Aden crushed	42 0 0	40 10 8	40 0 0
Salif <i>ditto</i>	43 7 3	43 2 3	43 0 0	42 11 5	42 0 0	42 0 0

During the quarter the prices of Liverpool *panga* fell and rose again while those of Hamburg *karkatch* and Salif crushed rose and fell. The prices of Muscat *karkatch* and Aden crushed fell and those of Bombay *karkatch* showed a downward tendency. There were no imports of Madras salt during the quarter

10. The quantity of sea-imported salt admitted into, and cleared from, bond at the inland warehousing station of Chandbali in the district of Balasore, during the quarter and the corresponding quarter of the previous year, is shown below :—

DESCRIPTION OF SALT.	ADMITTED INTO BOND.		CLEARED.	
	Second quarter of 1906-1906.	Second quarter of 1906-1907.	Second quarter of 1905-1906.	Second quarter of 1906-1907.
	Mds.	Mds.	Mds.	Mds.
English <i>panga</i>	14,200	27,000	16,192	21,768

As compared with the corresponding quarter of the previous year, there was a great increase both in the quantity admitted into bond and in that cleared.

11. The quantity of Madras and Bombay salt imported inland and consumed in each of the districts of the Orissa Division, including the Tributary States, during the quarter and the previous two quarters, is given below :—

**RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE ON
LAND REVENUE ADMINISTRATION FOR THE YEAR 1905-1906.**

REVENUE DEPARTMENT—LAND REVENUE.

Calcutta, the 8th November 1906.

RESOLUTION—No. 3125.

READ—

The Report of the Board of Revenue on Land Revenue Administration for the year 1905-06.

THE Report was submitted to Government punctually.

2. *Collections, balances and remissions.*—The total demands and collections of the year were higher than in any of the four preceding years, and the total remissions and balances the lowest on record.

3. *Road and Public Works Cesses.*—The current demand of cesses slightly increased, while the total collections increased by over half a lakh. The percentage of collections on the current demand rose from 100·8 in the previous year to 101·4. Revaluation operations in Hooghly, Champaran, and Muzaffarpur were completed in the year under review.

4. *Money orders.*—The number of revenue money-orders and the amount of land revenue and cesses remitted thereby continue to increase. The number of rent money-orders shows a slight decrease, but the amount remitted increased. In districts where settlements have been or are still in progress, there is a tendency for the number to increase. The total number of refusals was larger than in the previous year. In Bhagalpur, this is attributed to the fact that some of the landlords still object, on principle, to receiving rent by money-order. The privilege was extended to the tenants of the districts of Cuttack and Bilasore during the year under review.

5. *Coercive measures.*—The Revenue Sale Law continued to be worked with leniency and moderation; and, although the number of defaulters in the payment of Government dues increased by 747, the number of sales declined by 42. The total number of certificates, filed during the year, was 150,446, against 132,076 in the preceding year. The number of cases disposed of fell short of the cases instituted in all the Divisions, except in the Presidency and Chota Nagpur Divisions. There is a marked improvement in the district of the 24 Parganas. The falling off in the number of disposals in the district of Burdwan appears to require further examination.

6. *Condition of the raiyats in Government estates and expenditure on improvements, and education.*—The condition of the raiyats in Government estates throughout the Province was on the whole satisfactory, except where there was a partial failure or loss of the crops in Nadia, Jessore, the Madhupara subdivision of Bhagalpur, and the Kalimpong Khas Mahals in Darjeeling. The expenditure incurred on miscellaneous and sanitary improvements, during the year, amounted to Rs. 1,87,907, against Rs. 1,43,352 in the previous year. There was a large increase in the number of schools and pupils on Government estates. This increase was most marked in Midnapore, where it is attributed to the inducements held out to gurus to establish schools by the grant of allowances. There is also a marked improvement in Chota Nagpur.

7. *Cadastral survey and settlement.*—The new system introduced, during the year, in Ranchi and Midnapore, and also in several minor settlements, under which the control of cadastral survey and khanapuri was transferred to the Settlement Department, has worked satisfactorily. The Munsifs, who were deputed to settlement, took the greatest interest in their work and identified themselves completely with it, and their relations with the other officers on settlement were entirely satisfactory. As it was impossible to give these officers satisfactory training in all branches of the work in six months, their period of training has, with the consent of the High Court, been extended. Copies of zincographic reproductions of village maps in the

Orissa Division were issued for sale. In Bilasore, particularly, they had a wide sale. This is attributed to their usefulness to the public in the amicable adjustment of petty disputes.

8. *Land Registration*.—The Bill to amend the Land Registration Act, 1876, was passed during the year, and came into force on the 11th April 1906. The Board have addressed Commissioners on the subject of the improvements which can be introduced in the Land Registration registers in consequence of the amending Act.

9. *Partition*.—There was a slight increase both in the number of institutions and disposals, as compared with those of the previous year. Institutions slightly exceeded disposals. The general question of expediting *butwara* work is under the consideration of the Board.

10. *Sundarbans*.—The reclamation operations at Frasergunge in the Sundarbans, continued during the year: 3,300 acres were cleared and partly embanked during the cold weather and 27 tenants were settled. More tenants are expected to settle there this year.

11. *Working of the Bengal Tenancy Act, 1885, Act VI (B.C.) of 1862, and Act I (B.C.) of 1879*.—The Tenancy Act is reported to have generally worked smoothly during the year, and there are signs that landlords and tenants are becoming more familiar with its provisions; but illegal exactions and cesses still continue to exist. Where a survey and settlement has been made, they are reported to have declined. It is hoped that in Orissa they will receive a further check by the introduction of the system of payment of rent by money-order. With the sanction of the Secretary of State, the Bill to amend the Bengal Tenancy Act was introduced in the Bengal Legislative Council on the 10th November 1906. The Lieutenant-Governor would be glad to receive the opinion of the Board and the Commissioner of Cioa Nagpur on the large number of rent-suits in Palamau in which damages were granted to the plaintiffs.

12. *Tours and inspections*.—The desirability of curtailing and omitting many details from the part of the Report that deals with tours and inspections, is suggested for the consideration of the Board of Revenue.

13. *Weather and crops, Prices of food, wages, and material condition of the people*.—The rainfall was above the normal. The effect of this was, generally speaking, as follows:—The *bhadoi* crop was seriously injured by excessive rain in July and August; winter rice suffered by the early cessation of the rains; and the *rabi* crops suffered, from want of moisture, at the sowing time, and, later on, from heavy rain in February. Prices of food-grains ruled high. This is due to various causes, such as exports to other provinces, local deficiency in outturn, local damage to the crops and shortage of grain in other places, such as Backergunge, from which large exports are made. Wages show an upward tendency in the districts near Calcutta, owing to the great demand for labour caused by the increased commercial activity of factories and mills, and the development of railways and the coal industry. The condition of the people was generally satisfactory, except where there was a partial failure or loss of the crops, particularly in the Bhagalpur Division, where crops were in some places largely destroyed by floods. Where wages did not rise in proportion to the rise in the prices of food, as in the Orissa Division, the landless classes and labourers were more than usually pinched.

14. The Lieutenant-Governor thanks the Board for their administration of the Land Revenue Department. The names of officers mentioned as deserving of special commendation have been noted by the Lieutenant-Governor and will be recorded by the Appointment Department.

15. Extracts from the Report are appended, giving more detailed information.

By order of the Lieutenant-Governor of Bengal,

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

Extract from the Report of the Board of Revenue on Land Revenue Administration for the year 1905-06.

2. Under the orders of the Government of India, noted on the margin, the districts of Dacca, Mymensingh, Faridpur, Backergunge, Tippera, Noakhali, Chittagong, the Chittagong Hill Tracts, Rajshahi, Dinajpur, Jalpaiguri, Rangpur, Birga, Pabna and Malda which formed part of Bengal, were transferred to the new Province of Eastern Bengal and Assam, and the district of Sambalpur (except the Chandarpur-Patampur zamindari and the Phuljhar zamindari) which formed part of the Central Province, was placed under the Lieutenant-Governor of Bengal and transferred to the Orissa Division. The district of Darjeeling, which was previously included in the Rajshahi Division, was transferred to the Bhagalpur Division.

3. These changes took effect from the 16th October 1905. It was decided by Government that no reference should be made in the Board's Land Revenue Administration Report to the districts transferred to the Province of Eastern Bengal and Assam. Accordingly this report deals only with the districts at present under the Board.

5. The Land Revenue Department of the Board was administered by the Hon'ble Mr. L. Hare, C.I.E., C.S.I., throughout the year. Work in the Partition and Land Acquisition Branches (paragraphs 116 to 125), though included in the Land Revenue Administration Report, was in charge of the Hon'ble Mr. K. G. Gupta, I.C.S., from the 1st April to the 3rd October 1905, and of the Hon'ble Mr. F. A. Slacke, I.C.S., from the 4th October 1905 to the close of the year.

7. The statistics of demands, collections, remissions and balances of land revenue (including malikana, revenue of police lands and quit-rents of Tributary Mahals) for the year under report, the details of which are given in Appendix I, are compared with the figures for the preceding four years in the statement below:—

DEMANDS.			COLLECTIONS.			Remissions.	BALANCES.			Percentage to total collections on total demand.	Percentage of total collections on current demand.	Percentage of current collections on current demand.
Current.	Arrear.	Total.	Current.	Arrear.	Total.		Current.	Arrear.	Total.			
Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.			
2,79,74,773	8,82,145	2,88,56,918	2,73,31,735	6,91,930	2,79,95,665	81,411	6,37,751	1,30,311	7,77,061	87.03	100.00	97.63
2,80,04,392	7,86,805	2,89,56,357	2,71,41,349	4,03,542	2,90,16,732	84,635	4,03,907	1,31,135	7,25,122	97.19	100.00	97.40
2,82,31,286	7,15,349	2,89,47,745	2,76,34,256	5,79,040	2,81,74,256	52,305	5,71,410	1,35,534	7,16,384	97.34	100.00	97.40
2,83,34,632	7,73,184	2,91,09,310	2,76,16,776	6,21,498	2,82,37,274	73,417	6,47,991	1,12,309	8,00,189	97.00	99.65	97.16
2,81,94,038	8,25,757	2,84,09,795	2,76,07,083	6,88,698	2,89,56,591	61,851	5,77,891	1,31,535	7,01,333	97.44	100.00	97.25

* Includes figures for Sambalpur.

11. The amounts remitted during the year were Rs. 1,200 in permanently-settled estates, Rs. 685 in temporarily-settled estates, and Rs. 4,966 in estates held direct by Government, making a total of Rs. 51,851 of which Rs. 17,286 represented remissions of grace, Rs. 15,492 remissions of right, and Rs. 19,073 nominal remissions. The total remissions showed a decrease of Rs. 2,596 as compared with the previous year.

12. The remissions of grace were allowed mainly in estates under direct management on account of death, desertion or poverty of raiyats, failure of crops and deterioration of soil. The largest amount under this head was Rs. 10,691 in Midnapore.

13. The remissions of right were due chiefly to diluvion, acquisition of lands for public purposes and reductions in revenue with retrospective effect. The largest remissions were Rs. 5,306 in Midnapore, Rs. 3,563 in Monghyr, and Rs. 3,819 in Bhagalpur.

14. The remissions of this description were large in Midnapore (Rs. 4,567) and Gaya (Rs. 12,720). The former was on account of Government having abandoned its claim to proprietary rights in respect of the Ghatal and Chetua Circuit embankment lands, and the latter was mainly due to erroneous assessment of lands, non-settlement of relinquished holdings and decrease in rent owing to the conversion of produce rents into cash.

25. The total collections of miscellaneous revenues, including receipts from forest lands in Government estates, were Rs. 5,22,099 as against Rs. 10,59,577 in the previous year. The difference was due to a large decrease, amounting to Rs. 5,66,123, in receipts on

Forest and miscellaneous revenue.

Appendix II.

account of survey and settlement charges in the Bhagalpur Division. Recovery of costs in Monghyr and North Bhagalpur had been practically completed in the previous year, and no area was ready for recovery operations in Purnea during the year under report. The largest amounts realised under the head "Other receipts" were Rs. 57,510 in Burdwan and Rs. 65,107 in the Sonthal Parganas. Almost the whole of the former represented the charges for repairs to Government embankments (*pulbant*) realized from the Burdwan Raj, and the latter consisted mostly of fees for fuel and royalties on *sadai* grass and *Adts*. The total remissions (Rs. 21,888) and balances (Rs. 28,694) were chiefly in respect of fines under the Land Registration Act, VII (B.C.) of 1876 and Act XX of 1848 in the Patna and Bhagalpur Divisions. The balances are in course of recovery.

Road and Public Works cesses.

28. The working of the Cess Act is briefly noticed here, as a separate report on the subject is submitted.

Both cesses were levied at the maximum rate of one anna in the rupee in the 30 districts (including the Sonthal Parganas) of the provinces as now constituted, in which the Act is in force. In the Sonthal Parganas the provisions of the Cess Act were extended by Government Notification No. 480R.P., dated the 25th October 1905, to all parts of the district to which they were not extended by Notifications No. 4782R.P., dated the 21st November 1903, and No. 648T.—F., dated the 19th May 1904, and No. 998R.P., dated the 14th February 1905. The levy of cesses in this district began for the first time from the beginning of the year and then only in a few estates of which the settlement had been completed. The Act is not in force in Angul and the Khondmals, or in Sumbalpur. The current demand of land revenue of the 30 districts was Rs. 2,82,99,982 and the valuation, or gross rental, amounted to Rs. 12,64,57,129. As compared with the preceding year, the current demand of cesses showed an increase of Rs. 6,045, being Rs. 69,55,856 as against Rs. 69,49,811. The collections amounted to Rs. 70,59,858, as compared with Rs. 70,06,476 in the preceding year, the increase being more than half a lakh. The percentage of total collections on the current demand was 101.4 as against 100.8 in the previous year. The collections were above the prescribed standard of 100 per cent on the current demand in 19, and below in 11 districts. Of the latter, six attained percentages above 95, three (Jessore, Hazaribagh and Ranchi) above 90, and two (the Sonthal Parganas and Muzaffarpur) fell below 90. The falling-off in Jessore (from 106.3 to 92.7) was due to the non-payment of cesses by the Tagore and Janbazar Wards' Estates and the withholding of payment by the proprietors of some big estates up to the end of the 15 days' grace allowed by law. In Hazaribagh the decline is ascribed partly to the smaller arrears demanded at the commencement of the year and partly to the fact that a sum of Rs. 8,353 was realized in advance in the preceding year. In Ranchi, where the percentage fell from 116.2 to 91.8, the short collections were due to the non-payment by the Chota Nagpur Estate of the greater portion of the cesses due, owing to its inability to recover the arrears due to it by certain tenure-holders who have obtained protection under the Chota Nagpur Encumbered Estates' Act, VI of 1876. In the Sonthal Parganas, the cesses were imposed for the first time, and since the people are unaccustomed to the demand, a full collection was not to be expected. In Muzaffarpur the percentage of collections was 88.7 as against 99.4 in 1904-05. The fall is ascribed partly to the failure of crops and partly to a general decrease in voluntary payments. It is reported that the issue of certificates was delayed owing to the whole establishment being employed in writing out the new registers necessitated by the revaluation proceedings. The remissions and deductions which amounted to Rs. 69,916 as against Rs. 57,183 in the previous year occurred chiefly in the districts of Burdwan, Gaya, Manbhum, Muzaffarpur, Murshidabad, Patna, Hazaribagh and Singhbhum on a unit of revaluations under section 3 of the Cess Act, erroneous and double assessment and dilution. It is satisfactory to note that the percentage of the outstanding balance on the total demand decreased from 16.1 to 15.2 in the year under review. During the year revaluation proceedings on an extensive scale were in progress in the districts of Burdwan, Birbhum, Bankura, Minlapore, Hooghly, Champaran, Muzaffarpur, Bhagalpur, Manbhum and Palamau. The work in Hooghly, Champaran and Muzaffarpur has been completed.

29. The total number of redemptions effected during the year under the orders of Government was 403 as against 458 in the previous year, and they were mostly in respect of the small rent-paying holdings in the Government estates of Calcutta and the Suburbs, which the proprietors are allowed to redeem by one

Redemption of land revenue.

Appendix VI.

payment of thirty times the yearly rent.

Only 5 estates formed by partition were redeemed under section 11 of the old Partition Act, VIII (B.C.) of 1874, as against 7 in the previous year. The reason for the gradual decrease is that the new Act V (B.C.) of 1897 does not provide for the redemption of petty estates created by partition.

30. The number of revenue money-orders and the amount of land revenue and cesses remitted thereby increased from 200,771 and Rs. 15,70,780 in the preceding year to 216,506 and Rs. 16,23,235, respectively, in the year under report, which indicates the growing popularity of the system among petty landlords. The average value of an order was Rs. 7-3 as against Rs. 7-13-2 in the previous year. The increase in the number of orders is attributed to the reduction in the money-order fees of Rs. 5 and less, and also to the introduction of separate

Remittances of land revenue cesses and rent by means of special money-orders.

Appendix XXX.

forms of money-order for land revenue and cesses. The remittances exceeded a lakh of rupees in each of the districts of Midnapore, Jessore, Shahabad, Muzaffarpur, Monghyr and Cuttack.

31. As in the preceding year, the system of payment of rent by money-order was in force throughout the Province, except in the districts of Cuttack, Balasore, Angul, Darjeeling, the Sonthal Parganas and the Chota Nagpur Division. In the last quarter of the year under review the privilege was extended to the tenants of the districts of Cuttack and Balasore by Government Notification No. 207L.R., dated the 13th June 1906. In paragraph 7 of the Government Resolution on the Report for the year 1904-05 the Board were requested to consider and report whether the system might not now be introduced in the Chota Nagpur Division. It has been decided that the matter will be considered by the Select Committee when dealing with the Chota Nagpur Landlord and Tenant Procedure Act Amendment Bill of 1906. Though the system is not at present in force in this Division, rents remitted by money-orders are accepted in the case of Government *khas* mahals.

32. The total number of money-orders issued during the year in the Lower Provinces, as now constituted, was 37,173 (for a sum of Rs. 5,87,113) as against 37,374 (for Rs. 5,81,951) in 1904-05. There was an increase in the number of money-orders issued in the Bhagalpur, Patna and Orissa Divisions and a decrease in the others. The increase in the amount in the Bhagalpur district was, it is said, chiefly due to the settlement operations, which have enabled the raiyats to ascertain without difficulty from the finally published *khatians* made over to them, the amount payable by them to their landlords. The rise in the district of Purnea is ascribed to the fact that the raiyats are under the impression that such payments would assist them in the determination of their rents in the settlement proceedings in progress.

The total number of refusals and also the percentage of refusals to the number of money-orders issued, rose during the year. The percentage increased markedly (viz., 34.1 in 1905-06 as against 21.6 in 1904-05) in the district of Bhagalpur, and is said to be due to the fact that some of the zamindars still object, on principle, to receiving rents by money-orders. There were no refusals in Puri, and the smallest percentage (11.1) was reported from the district of Patna.

33. Appendices VII and VIII show the operation of the sale laws. During the year under review the number of estates, shares and interest which defaulted rose to 10,591 from 9,841 in 1904-05. The number of sales actually held fell, however, to 798 from 840 in the preceding year, and the percentage of sales to defaults to 7.5 from 8.5 in 1904-05. The amount realized by sale was Rs. 4,48,251, or 4.5 times the revenue demand, as compared with Rs. 6,33,571, or 4.7 in the previous year. One hundred and twenty-eight appeals against sales were preferred before Commissioners, and of these, 24 sales were annulled by the Commissioners under section 2 of Act VII (B.C.) of 1868 and 16 cases were recommended under section 26 of Act XI of 1859 for annulment of the sales on the ground of hardship.

36. Defaults among co-sharers, insolvency of proprietors, diluvion, neglect of agents to pay the revenue demand in time, wilful defaults made with the object of annulling incumbrances, and difficulties experienced by purchasers in getting possession of estates which re-form after diluvion are reported to have been, as usual, the chief causes leading to the sale of estates.

37. The proportions of sales to defaults in the districts in which sales were

District.	Percentage of sales on defaults.	District.	Percentage of sales on defaults.	numerous are noted in the margin. The sale law continued to be administered with leniency and moderation; and the rule that the sales of one <i>kist</i> should be held before the next <i>kist</i> day was generally observed.
Jessore ...	44.8	Hooghly ...	13.0	
Burdwan ...	30.25	Murshidabad ...	14.1	
Bankura ...	24.4	Bhagalpur ...	10.5	
Purnea ...	17.4	Saran ...	10.4	
Nadia ...	17.1	Monghyr ...	7.8	
Khulna ...	14.8	Sonhal Parganas ...	7.6	
24-Parganas ...	14.3	Puri ...	5.7	
Shahabad ...	13.5	Patna ...	5.7	

39. The total number of certificates filed in the several districts of the province as at present constituted, during the year under review was 150,446 as against 132,076 in the preceding year, showing an increase of 18,370.

40. The number of disposals fell short of the cases instituted in all the Divisions, except in the Presidency and Chota Nagpur Divisions. The percentage of the total number of cases disposed of to the total number for disposal was 77.6, as against 80.8 in 1904-05. As in 1904-05, the Orissa Division returns the highest percentage, viz., 86.8. The lowest percentage was reported from the Burdwan Division (72.0). There was a marked improvement in the 24-Parganas, the percentage rising from 65.5 in 1904-05 to 78.1 in the year under review.

The falling-off in the Burdwan Division has been explained by the Commissioner as follows:—

“The falling-off in Burdwan is, in the opinion of the Collector, due to the fact that the office could not maintain the high pressure at which it worked in the

previous year. The Collector adds that it is fairly certain that an all-round average of 1,200 cases per man per annum is not possible in this district.

42. The different stages of procedure at which demands were satisfied are tabulated in the statement below :—

Division.	Number of cases in which payments were made on mere issue of notices.	Number of cases in which payments were made on attachment of property.	Number of cases in which recourse to actual sale was necessary.	Number of cases in which warrants were issued and the amounts were paid without imprisonment of defaulters.	NUMBER OF DEBTORS IMPRISONED.	
					Number released on payment of debt before expiration of imprisonment.	Number released without payment of debt.
Burdwan ...	8,180	25,155	568	637	3	7

Chota Nagpur ...	1,526	2,447	68	700	...	1
Total {	38,318	82,803	5,019	2,221	14	26
	1905-06 38,944	80,040	4,796	2,013	17	41

43. The percentages of cases in which demands were realized on the issue of notice and on attachment of property, to the total number of cases disposed of during the year were 27.0 and 58.1 respectively, as against 25.2 and 59.4 in 1904-05.

44. The working of section 21 of the Certificate Act which permits a judgement-debtor, to redeem his property after sale on certain conditions, continued to be satisfactory. Out of 568, 561, 3,163 and 602 sales held in the Burdwan, Presidency, Patna and Bhagalpur Divisions, respectively, 97, 93, 727 and 127 sales were set aside under this section. Paucity of bidders occasionally causes inadequacy of price, but this is due not to the working of the section, but usually to uncertainty regarding the situation of the property put up for sale, especially in the case of rent-free tenures. And in many districts certain persons make a regular practice of bidding at sales for the sake of the profit of 10 per cent. allowed by the law when the sales are set aside under this section.

59. The expenditure on roads and communications in Government estates amounted to Rs. 92,546, as against a Government grant of Rs. 58,099. The expenditure exceeded the grant in all Divisions except the Burdwan and Presidency Divisions.

61. The condition of the raiyats in the Government estates in the Burdwan Division was generally good, although the crops suffered to some extent in certain khas mahals from heavy rains and defects in drainage. The high price of food-grains that ruled during the year enabled the tenants of the Contai khas mahals to pay off their dues without any difficulty. Public health was not good in Contai owing to outbreaks of cholera and small-pox. The condition of the tenantry is reported to be generally fair in the 24-Parganas. The crops were damaged to a certain extent by floods in the Port Canning Government estate and the Government estates of the Diamond Harbour subdivision, but the condition of the tenants was not materially affected. In Nadia and Jessore their condition was not satisfactory owing to the failure of crops. There was a partial failure of the *rabi* crops in Murshidabad, but the outturn of winter rice was satisfactory. In Khulna the crops were good in all the Government estates except Char Baniary and the tenants were fairly prosperous.

62. The condition of the raiyats in the Patna Division was, on the whole, satisfactory. The tenants of some of the estates in the districts of Patna, Gaya, Shahabad and Saran suffered from plague, and partial damage to the crops caused by heavy rain or want of proper irrigation has been reported from some places in the districts of Patna, Shahabad and Darbhanga. An outbreak of cattle-disease occurred in the Bakhtiyarpur estate in Darbhanga. The condition of the raiyats in the Bhagalpur Division was fair except in the Sonthal Parganas, in the Madhipura subdivision of Bhagalpur and in the Darjeeling hills. In the Sonthal Parganas owing to heavy rains in August and September, the outturn of the *bhadoi* crops was poor, and the early cessation of the monsoon resulted in a deficient winter rice crop. Thus the cultivators could not benefit by the very high prices which have been prevalent owing to outside demand, and those whose supplies were short have been unable to afford these prices. The wet weather in February and March and a heavy fall of hail seriously affected the *mahua* crop which is of value when there is a deficiency in the yield of food-grains. This has caused no real distress, but considerable tension which still continues. Serious loss of crops from floods caused by the rivers from Nepal affected the tenants of the Madhipura subdivision in Bhagalpur, and with a view to afford them some relief, the Board

have sanctioned the suspension until October 1906 of the collection of one-fourth of their rents. As regards the raiyats in the Darjeeling hills, the late Deputy Commissioner (Mr. Garrett) has left the following note:—

"The maize crop was very poor throughout the district. When I went on tour I discovered that the outturn reported by the Police was much in excess of the reality. I have since taken steps with a view to securing greater accuracy in these reports. Owing to the partial failure of the maize this year after a poor crop in 1904, the condition of the raiyats in the Kalimpong khas mahal was far from satisfactory at the close of the year. To add to all their troubles, rinderpest played great havoc with the cattle in some blocks. I have issued Rs. 2,800 in agricultural loans and obtained permission for the raiyats to remove from the forests without charge edible plants, fruits and roots, and they will be able to maintain themselves for the next few months. Should, however, this year's maize crop not be at any rate a fair one, great difficulty will be experienced, and I anticipate that there will be a large number of desertions in the newly-surveyed tracts, where the pinch is being most felt at present."

63. The condition of the raiyats of all the Government estates in the Orissa Division was, on the whole, prosperous during the year under report. In Birso and a few villages of the Government estates in Balasore the outturn was poor, and in a small area of the Khurda Government estate the deficient rainfall in October caused a failure of the *laghu* crops. Takavi advances were liberally given according to requirements. There was no general epidemic disease of a serious nature, but cholera broke out in some villages in Nayanund and Birso, to relieve which proper medical aid was sent. Some 23 raiyats of Banpur in Khurda are reported to have deserted their villages; six of them are living in other villages of the estate, and the remainder have gone to Gaujam and Rangoon in the hope of earning better wages.

The condition of the raiyats in the Hazaribagh khas mahals was good and there were no desertions during the year. In Ranchi, owing to failure of the rains in the latter part of the season, the outturn of the crops was uneven, but on the whole the condition of the tenants was satisfactory. In Palamau much money has been spent of late on original and repair works of irrigation, and the tenants have thus been put in a position to expect a successful instead of an unsuccessful harvest. They have been given loans at reasonable rates of interest for bullocks and seed; and, generally speaking, their condition has been greatly improved. The number of desertions is now small. During the year under report only 111 relinquishments took place, the holdings affected by which were not settled during the year. Seventy-nine holdings deserted in previous years have been resettled and again brought on the rent-roll, while 117 new families settled in the Government villages during the year under review.

In Singhbhum a full crop was harvested and the people are prosperous. Matters of importance to the people of the Kolhan which came prominently into notice during the year, were the prevalence of cattle thefts and the presence of undesirable foreigners, mostly Muhammadan hide-dealers and Biharis in the trade centres of Monoharpur, Jaintgarh and Jagannathpur. A gang of Muhammadans, Ghasis and Hos was successfully prosecuted under section 110 of the Criminal Procedure Code, in the south of the Kolhan, with the result that cattle thefts practically ceased in that part. Two other gangs were similarly prosecuted near Chaibassa. In both cases the prosecution was successful. The Deputy Commissioner reports that the hide-dealers were undoubtedly at the bottom of these systematic thefts. They made advances to the Ghasis who were thus in a measure bound to supply them with hides. A number of these persons and their local agents were ordered by the Deputy Commissioner to leave the Kolhan; but as his powers in enforcing orders of this nature are said to be ill-defined, some difficulty was experienced in obtaining immediate compliance.

68. The new system of transferring the control of Cadastral Survey and Khanapuri to the Settlement Department was introduced in Ranchi and Midnapore and also in several minor settlements. In Ranchi the results were highly satisfactory, largely owing to the amount of European supervision which it was possible to give to the work. In the smaller settlements it is not possible, as a rule, to provide direct European supervision, and difficulty has in some cases been experienced in the control of the amins who have hitherto been accustomed to work under European officers of the Survey Department. These difficulties will, it is anticipated, be removed in time, especially as detailed rules for the working of the new system are now being drawn up by the Settlement Officer of Ranchi, and these will be available for the use of officers in charge of the smaller settlements. Arrangements have been made for training officers who will be required to work the new system next field season. It is hoped to introduce it in Bihar from the field season of 1907-08, and thereafter the Survey Department will only be required in this Province for carrying out the traverse survey.

69. The progress made in the settlement operations under the control of the Director of Land Records, Bengal, for the survey year ending the 30th September 1906, has been described in his report for that year. Appendix XI to the present report gives the results of the settlements of Government and temporarily settled estates, inclusive of the operations under the control of the Director. A net increase in revenue of Rs. 1,06,240 was obtained as against Rs. 37,557 in the preceding year.

79. The large irrigation and drainage schemes which are maintained by the Public Works Department are not noticed in this report. The usual irrigation reservoirs, tanks and wells were maintained last year in the Government estates out of the Improvement grant.

80. A considerable part of the Contai subdivision of Midnapore is water-logged, and the improvement of the drainage in those tracts is urgently necessary. The silt clearance of the 10 khals falling into the Contai nala was completed. The provision of clause (b) of section 76 of Act II (B.C.) of 1882 has been extended to the beds and channels of the khals and in future any person obstructing these water-courses will be proceeded against in the proper court at the discretion of the Collector. A scheme for the drainage of the Argowal circuit has recently been sanctioned by Government at an estimated cost of Rs. 1,29,193, and arrangements are being made to acquire the land and to take up the work.

Burdwan Division : Midnapore.

81. In Hooghly the collections on account of the Rajapur and Howrah schemes including interest amounted to Rs. 21,895 and Rs. 1,500, respectively, leaving balances of Rs. 6,77,183 and Rs. 81,188 as against Rs. 6,83,884 and Rs. 80,838, respectively, at the close of the year 1904-05. The adjustment of the Rajapur Drainage accounts has been completed and notices are being issued upon the landholders inviting objections. The accounts of the Howrah Drainage are being revised, and it is expected that their adjustment will be completed shortly.

Burdwan Division : Hooghly.

82. In the Burdwan district the only irrigation canal is the Eden canal, which is 45½ miles in length. The receipts and working expenses were Rs. 24,452 and Rs. 34,594, respectively, as against Rs. 30,832 and Rs. 43,804 in the year 1904-05. The area irrigated during the year was 26,372 acres as compared with 28,471 acres in the preceding year.

Burdwan Division : Burdwan.

83. As was reported last year, the construction of the Magrahat drainage works in the 24 Parganas has been entrusted to the Public Works Department. The Collector reports that satisfactory progress was made during the year.

Presidency Division : 24 Parganas.

84. Administrative sanction of Government has now been obtained to the scheme for the drainage of the Choruaicol swamp under section 4 of the Bengal Drainage Act at an estimated cost of Rs. 24,644. A Committee has been appointed to carry out the provisions of the Act.

Presidency Division : Nadia.

85. In Murshidabad the proposal for constructing a sluice at Manganpara was abandoned, as it was found that a sluice at Lowjola would be more useful. Administrative sanction to the latter project was obtained during the year, and it will be shortly taken in hand. The projects of the Basantpur out and the excavation of the old drainage channel at Poramari were completed and made over to the Public Works Department. These works are, as reported last year, intended to drain the country subject to the Bhagirathi floods owing to the abandonment of the Laltakuri embankment.

Presidency Division : Murshidabad.

86. In Jessore the District Board spent Rs. 557 and Rs. 76 in executing the work for the improvement of the drainage of the Magura and Narail subdivisions respectively. Two new khals, one from Belmogra to the Gorai and the other from Kakshipara to Saladah, were excavated by the villagers at their own expense. The important scheme of the drainage of the Bhairab Valley was under the consideration of Government during the year. Government expressed its willingness to bear a portion of the cost to the extent of 1½ lakhs, and the District Board have been asked to submit a revised application under section 3 of the Sanitary Drainage Act. The proposal to open out the mouth of the Muchikhali khal in the Magura subdivision of the Jessore district was under the consideration of the authorities. His Honour the Lieutenant-Governor paid a visit to Magura in August last in order to inspect the khal.

Presidency Division : Jessore.

87. Government issued an order under section 3 (1) (a) of the Sanitary Drainage Act in respect of the scheme for the drainage of Bagerhat and the surrounding villages in Khulna. A Committee of Drainage Commissioners has been duly formed, but work was not commenced during the year under report.

Presidency Division : Khulna.

88. Local subscriptions were being raised in Patna and Gaya for the scheme for diverting the water of the Phalgu river into its old channel for the purpose of irrigation, but in consequence of the difficulty experienced in realizing the subscriptions, the proceedings are at a standstill. It is now under consideration whether the scheme should be carried out under the provisions of the Irrigation Act.

Patna Division : Patna and Gaya.

89. In Champaran the Masan *pyne* or canal continued to be useful for irrigation purposes. The management of the *pyne* was entrusted to the District Engineer, and all necessary repairs were executed under his supervision. Out of the total assessment of Rs. 2,853, a sum Rs. 229 only was realized. As subscribers do not pay regularly, the Collector is in consultation with the District Engineer as to the advisability of giving up the management. In Patna and Gaya the old system of irrigation by *pynes* and *akars* and wells continues.

Patna Division : Champaran.

90. There are no irrigation works in this Division maintained by Government. No progress has been made in the Rajmahal Drainage Scheme in the Sonthal Parganas. It was found that the main drain had not been properly completed, and a revised estimate which will include provision for certain cross drains and channels now considered necessary is under preparation by the District Engineer. Loans under the Land Improvement Loans Act were freely granted in the Sonthal Parganas to private individuals for the construction of irrigation bunds and tanks.

Bhagalpur Division.

91. In Cuttack several minor distributaries were constructed for the irrigation of areas not hitherto served by the canals. An irrigation dam at Nariabhanja Killa Sukinda is under construction at a cost of about Rs. 2,000 which was contributed by the proprietor of Sukinda.

Orissa Division: Cuttack.

Orissa Division: Angul.

92. In Angul, eight dams were improved for irrigation purposes at a cost of Rs. 5,000.

Orissa Division: Puri.

93. In the Government estates of Puri ordinary irrigation and drainage works were constructed and repaired at a cost of Rs. 4,335.

94. In Palamau, 28 chief irrigation works were taken in hand. All of these are valuable, and will protect large areas. In Singhbhum 11 new bunds were constructed in the Kolhan Government

Chota Nagpur: Singhbhum, Palamau.

estate at a total cost of Rs. 1,365-10. There is no artificial drainage in this district.

95. The embankments are reported to have been generally maintained in good condition during the year.

Embankments.

96. The 53 miles of Government embankments on the banks of the Damodar and 22 miles on the right bank of the Ajai in the district of Burdwan were efficiently maintained. They and the

Burdwan Division: Burdwan.

country protected by them were nowhere damaged by floods during the year. The breach at Srikrishnapur on the right bank of the Damodar which occurred during the floods of the year 1904, when it was 270 feet wide, was closed by spur works before the flood season of the year under report. The river has now taken a new and more dangerous turn, having shifted towards the south side. As a remedial measure it has been proposed to construct a double line of spurs, for which an estimate has lately been sanctioned, and the work will be completed before the rains set in. The protective works of the Ajai were slightly damaged by the floods of the year. The Kumirkola protective works constructed in 1901-02 and the Berugram Government embankment constructed in 1894 stood well during the year and protected the villages from inundation. The protective works at Shushunpur on the right bank of the river Damodar stood well during the floods of the year and saved the crops of 10 square miles. The main channel of the Damodar below the Begna breach is silting up very rapidly. The bed of the river being higher than the Begna channel, no water can go down the river below Begna during the cold and hot seasons. A proposal to improve the main channel and to prevent the river-water from flowing off through the Begna breach is under the consideration of Government. His Honour Sir Andrew Fraser visited the breach on the 8th March.

97. In Birbhum the Nakasipara to Dobgram embankment on the river Brahmani is out of repair. The Collector is endeavouring to get the zamindars interested to repair it. There is a breach in the

Burdwan Division: Birbhum.

Zamindari Embankment along the Bakreswar river, and it is reported that the repair of the embankment is necessary for the protection of the villages and fields in the neighbourhood. The Executive Engineer, Nadia Rivers Division, reported that the crest of the embankment on the left bank of the river Brahmani near the village of Kundupara in thana Nalhati requires raising. As it forms a part of the embankment in pargana Rukinipur, in the Murshidabad district, for which Government pays a *pulbandi* allowance to the proprietor, the Collector of Murshidabad has been requested to withhold the payment of the *pulbandi* allowance till the crest is raised and the embankment is approved by the authorities.

98. In the year under report there were 26 embankments in Midnapore, of which 3 are maintained by the Executive Engineer of the Balasore Division and the remainder by the Executive Engineer of

Burdwan Division: Midnapore.

the Cossye Division. Of the 26 embankments, 19 are maintained under the contract system and 7 by the apportionment of the actual expenditure incurred by the Public Works Department. The new contract with regard to the 18 embankments maintained by the Executive Engineer of the Cossye Division has been sanctioned for a period of 15 years from April 1904 at an annual *jama* of Rs. 49,763. The contract of another embankment, the Joki Embankment, in the Contai subdivision, which is maintained by the Executive Engineer of the Balasore Division, has been sanctioned for 15 years from 1901-02 at an annual *jama* of Rs. 994. Out of a total demand of Rs. 1,04,284 including the balance of the last year, Rs. 79,055 were realized, including Rs. 6,101 as advance payment. Twenty-four cases were instituted by the Executive Engineer of the Balasore Division under the Bengal Embankment Act, II (B.C.) of 1882, during the year, as against 10 in the previous year. Twenty-three of these ended in conviction and one was withdrawn. All these cases related to the erection of *bandis* on lands within the prohibited area.

99. In Hooghly, out of the total amount of Rs. 40,631 advanced up to the 31st March 1906 for the four projects, viz., (1) the Kumrul sluice, (2) the Madaria Khal Left Embankment, (3) Naya Chak, and (4) the Rampur West drain out, Rs. 28,763 was realized up to the end of the year, leaving a balance of Rs. 11,868: of this balance, a sum of Rs. 10,904 due from the Burdwan Raj having been struck off under the orders of Government, the actual balance unrealised comes to Rs. 964.

Burdwan Division: Hooghly, Howrah.

The Covenanted Deputy Collector of Howrah has been vested with the powers of a Collector under the Embankment Act in respect of the Zamindari Embankment on the Hooghly river. Three projects, viz., (1) "Remodelling of the Chakkasi embankments,"

(2) Filling up of breaches in the Chakkasi embankment, and (3) Remodelling of the embankment from Ulubaria to Champa khal were taken up under section 25 of the Act, as there was imminent danger of loss of life and property within the area protected.

100. In the 24-Parganas the total length of Schedule D embankments was 210 miles,

Presidency Division.

as in the previous year. There are 73 sluices in these embankments, of which 48 are maintained at the cost of Government, while the remainder are *takavi* sluices maintained at the cost of the zamindars. Three Government sluices which were maintained formerly by the Calcutta Corporation were transferred to the Public Works Department during the year under report. All the sluices in the district are reported to be in good order. A retired line of embankment at Akalmegh was under construction during the year. In Murshidabad the Zamindari Embankments are generally in good condition. In a few cases steps were taken to have the necessary repairs carried out by the zamindars concerned, and in two cases the *pulbandi* allowances payable to the zamindars were stopped, as they neglected to execute the repairs. The question of improving the village sites in the area liable to floods owing to the abandonment of the Laltakuri Embankment, is still under consideration in the Public Works Department.

In Khulna new embankments were constructed in the Government Estates of Chandkhali, Katipara and Gobindpur at a cost of Rs. 1,101. The Collector of Khulna reports that the embankments in the Sunderbans area are not properly maintained and the question of revising the form of lease of the lot-holders in order to provide for this is under consideration. There are no embankments in Nadia and Jessore.

101. The Gaudak embankment which runs through the four North Gangetic districts

Patna Division.

of this Division is maintained under the contract system. Out of a total demand of Rs. 74,361, a sum of Rs. 55,338 was collected and Rs. 7,905 adjusted from the previous advance collections. The balance outstanding at the close of the year was Rs. 11,118, out of which Rs. 2,932 from the district of Champaran has been realized since the close of the year. Steps are being taken for the recovery of the balance. The Turki and Daulpur embankments in Muzaffarpur and the Ganges embankments in Darbhanga and the Sakri Bund in Patna and Gaya were maintained under the *takavi* system, and the cost of their upkeep was recovered from the persons benefited by the apportionment of the expenditure incurred.

102. There are three public embankments in this Division, namely (1) the Moughyr

Bhagalpur Division.

Embankment in the Beguserai subdivision, (2) the Chandan Embankment in the Banka subdivision of the Bhagalpur district, and (3) the Bolwa Embankment in Purnea. Government maintains all those; but the cost is recovered from the proprietors of the estates benefited, with the exception of the share which Government itself contributes to the maintenance of the second project on account of the protection it affords to the Banka civil station. As reported last year, arrangements have been made to take the embankment known as the Gupta Bund near Beguserai under the Embankment Act, and notices under section 8 of the Act have been issued.

103. All the embankments which are under the charge of the Public Works Department

Orissa Division.

are maintained at the cost of Government. No breaches of any importance are reported from any of the districts except Cuttack, where some damage was caused by flood to the stone-paved weir across the head of the Janardan *ghai* on the Brahmam which was completed during the year at a cost of Rs. 12,141. Besides the Janardan *ghai* two other *ghais*, Palasi and Simli, on the Kharsua right embankment have been provided with flood escapes. The work of closing three other *ghais* was in progress during the year. The Collector's report in regard to these *ghais* is quoted below :—

"The Subdivisional Officer of Jajpur, within whose jurisdiction the above *ghais* are situated, reported that the effect of closing the *ghais* had been very favourable to the crops in that part of the country which was hitherto seriously affected by floods on account of those *ghais*. The Collector recommended the extension of the system of closing the *ghais* to the other rivers in the district. But as the last rainy season was abnormally low and unfavourable for the observation of the effect of flood action on the *ghais*, the Commissioner has directed to watch the works until a more favourable opportunity of estimating the effects of the floods occurs. A further report has been called for by the Commissioner after the next rainy season."

The embankments in this Division are maintained in good order. A retired line is under construction at Sanktaras in the Surnah right embankment and another at Balda on the Diab left embankment. Slope cutting has been done at Kachramad, on the 7th mile of the Ku khui left embankment where the river had been cutting away the bank. The revetment on the left bank of the Chitratola at Kendupatna has been repaired and extended. In Balasore there were at the beginning of the year 26 embankments of 80 miles in length and at its close 24 embankments of 79 miles, two embankments having been abandoned. In Puri two escapes to discharge 10,000 cubic feet per second each were constructed on the right and left banks of the Khushbhadra river, and a retired line of embankment was constructed at Achootpur on the left bank of the Bhargavi river.

104. In Ranchi a sum of Rs. 3,026 was expended on account of embankments. No particulars have been furnished.

Chota Nagpur Division.

120. The reports indicate that the Act of 1897 continues to work smoothly. No case of enhancement of rents by landlords made immediately after a partition is mentioned. Mr. E. W. Collin, Commissioner of the Presidency Division, states that, as reported last year, the provision* in the new Act for the distribution among the tenants of *parchas* which contain particulars of the holdings and the existing rents serves to check any subsequent attempt on the part of zamindars to enhance the rents.

Working of the Estates Partition Act of 1897.

* Section 48 of Act V (B.C.) of 1897 and Rule 18, Part II, page 51 of the Butwara Manual, 1902.

122. Proceedings for the acquisition of land required by Government or by local bodies, to the extent of 6,269 acres in all, were confirmed by the Board during the year at a total cost of Rs. 31,58,841 as compared with an area of 4,716* acres, costing Rs. 22,08,354* during the preceding year. Detailed particulars for each district will be found in Appendix XVI, which has been prepared in the revised form recently prescribed. The abatements of annual revenue allowed on account of land acquired for the purpose of Government, including those of State Railways, amounted to Rs. 834, and a sum of Rs. 28,494-11-11 was paid to Government as the capitalized value of the Government revenue, amounting to Rs. 1,139-13-11, abated on account of lands taken up for other purposes.

Land Acquisition.

Appendix XVI.

Of the total expenditure incurred, over 18½ lakhs were for acquisition of lands for Government purposes, including those of State Railways, and over 13 lakhs for all other purposes, viz., those of Municipalities, District Boards, Railway Companies, etc. The following projects, of which the cost exceeded Rs. 1,00,000, may be specially mentioned:—

	Rs.
(1) Public offices in the town of Calcutta	8,02,868
(2) Midnapore-Jharia Extension of the Bengal-Nagpur Railway in Bankura	3,50,601
(3) Cossipore-Chitpur terminal improvements, Block No. II, Eastern Bengal State Railway, in the 24-Parganas	1,93,620
(4) Midnapore-Jharia Extension of the Bengal-Nagpur Railway from miles 24 to 41 in Midnapore	1,41,063
(5) Circuit House at Patna for the stay of the Lieutenant-Governor of Bengal when in Bihar	1,33,416
(6) Extension of the Dufferin Victoria Hospital in Calcutta	1,15,314
(7) Staff quarters of the Eastern Bengal State Railway in Calcutta	1,05,000
(8) Staff quarters of the Bengal and North-Western Railway at Sonapur in Saran	1,02,204

The average cost per acre of the lands acquired, for which the proceedings were confirmed during the year, was Rs. 504 against Rs. 468* in the preceding year. Omitting lands of special value, the average cost per acre during the year under review was Rs. 256.

123. Lands for the large projects below named were also under acquisition during the year:—

The extension of the Bengal Veterinary College at Belgachia in the 24-Parganas; the new Nurses' quarters in connection with the Calcutta Medical College Hospital; the new Rifle-range at Jaffarpur in the 24-Parganas for the use of troops at Calcutta, Barrackpore and Dum-Dum; the Bairagnia-Shikarpur Extension of the Tirhut State Railway in Muzaffarpur and Champaran; Bhagalpur-Kachari Extension of the Hajipur-Katihar Branch of the Tirhut State Railway in Bhagalpur; the Purnea portion of the railway line from Katihar to Malda; and the Police School and quarters for Government officers at Ranchi.

124. The most important new projects for the acquisition of land, for which orders were received during the year, were the following:—

- (1) Offices and officers' quarters, etc., for the proposed new district to be made out of part of Midnapore.
- (2) Zone of safety for sanitary purposes at the Lillooan station of the East India Railway in Howrah.
- (3) New jail, police-lines and official residences at Ramkrishnapur, Howrah.
- (4) Extension of Sir Stuart Hogg Market in Calcutta.
- (5) Provision of offices for Private and Military Secretaries and the extension of the stabling of the Government House in Calcutta.
- (6) Sonthal Railways, Bhagalpur-Bausi section, in Bhagalpur.
- (7) Purulia-Ranchi Railway in Ranchi and Manbhum.
- (8) Location of an Engineering College and a Model School and College and a Demonstration farm at Ranchi.
- (9) Experimental Agricultural farm at Patna.
- (10) Siwan-Gojalgau, and Doronda-Maharajganj Extensions of the Bengal and North-Western Railway in Saran.

126. The number of current leases granted under the rules of 1853 in the 24-Parganas and Khulna Sundarbans was the same as in the previous year, viz. 115. The rent payable on account of these leases rose from Rs. 1,01,346 to Rs. 1,01,874. No new cultivation leases were

Waste Lands.

* Revised—excluding the figures for the districts transferred to the Province of Eastern Bengal and Assam.

granted during the year either to large or small capitalists. The number of leases granted to large capitalists at the close of the year was 193 as against 203 in the preceding year. The decrease is due to the determination of ten leases for failure on the part of the lessees to comply with the clearing conditions and to make protective works. The leases were resumed under Government orders. The area covered by the existing leases is 345,571 acres. The revenue payable during the year was Rs. 28,383. The number of leases granted to small capitalists remained nine as in the preceding year, covering an area of 11,842 acres. The present revenue payable for these leases is Rs. 14,729 which will eventually rise to Rs. 14,916.

128. The levy of illegal cesses in addition to rent continues to prevail to a considerable extent, though no suit was brought under section 76 of the Bengal Tenancy Act during the year. Long custom.

Zamindari cesses. traditional homage to landlords and a desire to live in amity with them explain the acquiescence of the tenants to these demands in some cases, while in others excess payments are made for small concessions received. The exactions are reported to be diminishing in areas for which a survey and record-of-rights have been made.

129. In Ranchi disputes between raiyats and petty landlords regarding rates of rent, predial services, etc., are still common. As in the previous year, five cases for commutation of services into their money value were instituted by the zamindars. Two of these were decided according to the prayer of the plaintiffs and one was struck off, as the case appertained to Karra thana where commutation of services had already been ordered to be undertaken by the Settlement Department. The remaining two cases were pending at the close of the year.

135. The following statistics have been compiled in compliance with Government order No. 112, dated the 15th January 1903, to show the net financial results to the State of the loans granted under the Land Improvement Loans Act during the period 1899-1900 to 1905-06. Against a total sum of Rs. 7,31,346 advanced, Rs. 2,89,118 were realized and Rs. 1,286 remitted, leaving a balance of Rs. 4,37,587 at the close of 1905-06, excluding Rs. 3,355 on account of loans outstanding in the Chandrapur and Padampur taluks transferred from the Sambalpur district to Bilaspur in the Central Provinces. The interest that accrued on the total amount of the loans advanced during the period in question was Rs. 67,571, and of this sum Rs. 62,291 were realized and Rs. 409 remitted, leaving a balance of Rs. 4,871. The interest that is demanded is $6\frac{1}{2}$ per cent, and assuming that the money was borrowed by Government at $3\frac{1}{2}$ per cent, or that interest at the latter rate must be recovered unless Government is to lose by the transaction, then the difference between the interest at $6\frac{1}{2}$ and $3\frac{1}{2}$ per cent., amounting to Rs. 24,451, may be set off against the loss already accepted of Rs. 1,695.

138. The following statistics have been compiled in compliance with Government order No. 112, dated the 15th January 1903, to show the net financial results to the State of the loans granted under the Agriculturists' Loans Act during the period 1899-1900 to 1905-06. Out of a total sum of Rs. 12,55,065 advanced, Rs. 8,99,590 were realized (including Rs. 26 paid in excess) and Rs. 2,179 remitted, leaving a balance of Rs. 3,53,322 at the close of 1905-06. The interest that accrued on the total amount of the loans advanced during the period in question was Rs. 92,051, and of this sum Rs. 78,490 were realized (including Rs. 290 collected in advance), and Rs. 393 remitted, leaving a balance of Rs. 13,458. The interest that is demanded is $6\frac{1}{2}$ per cent., and assuming that the money was borrowed by Government at $3\frac{1}{2}$ per cent., or that interest at the latter rate must be recovered unless Government is to lose by the transaction, then the difference between the interest at $6\frac{1}{2}$ and $3\frac{1}{2}$ per cent., amounting to Rs. 26,942, may be set off against the loss already accepted of Rs. 2,572.

140. In the greater part of the Lower Provinces the Bengal Tenancy Act governs the relations between landlord and tenant. It is generally reported that the Act worked smoothly throughout the year under report, and that there are signs that landlords and tenants are becoming more familiar with its provisions. The Collector of Nadia remarks that in several instances proceedings under Chapter X of the Act were instituted on the application of the raiyats, and that they often sought the protection of the Civil Courts when the landlords interfered with their rights. In some places, however, the object of the law is frustrated by powerful and unscrupulous zamindars who endeavour to exact illegal demands, such as marriage fees, periodical services, price of rent receipt forms, *nazar*, etc. It is reported that in the Orissa Division, though the beneficial effect of the Act is understood by all, yet the tenants, being poor, are not always able to preserve their rights in cases where they are violated by the landlords. It is hoped that the introduction of the system of payment of rent by money-order will operate as a salutary check on illegal exactions. In Birbhum also the District Judge has observed the existence of strained relations between landlord and tenant from the increase in the number of rent deposits in the Munsif's Court at Bolepur.

180. This subject is now dealt with in the Director's Settlement Report for the survey year ending 30th September. The orders of the Secretary of State on the question of the maintenance of settlement

Maintenance of land records.

records in Orissa and Bihar have been received. It has been decided that in the temporarily-settled districts of Orissa the records should be kept up continuously, and a scheme for the purpose has been prepared and is under the consideration of the Government of India. With regard to Bihar, however, the decision of the question has been postponed until Government is in a position to frame proposals based on the experience gained of the working of the system in Orissa. An interesting experiment was initiated during the year by Mr. H. Savage, C.S.I., in a small area in the Balasore district with the object of associating the village panchayats with the work of the maintenance of the records. It was found that in the ten years which have elapsed since the record was finally published, there has been an increase of plots by 10 per cent. and that changes have affected about 80 per cent. of the original *khatians*, which have increased in number by 21 per cent. On the recommendations of the last Darjeeling Conference some additions have been made to the Tippera rules for the maintenance of records in Government estates, and the revised rules have been circulated in draft to local officers for remarks.

183. Appendix XXVII shows the mean rainfall of each district for the last five years, and also the normal mean. The rainfall of the province was above the normal during the year in all

Weather and crops.

districts except in the Orissa Division and part of the Chota Nagpur Division. There was abundant rain in the early part of the year in the Burdwan Division which facilitated the preparation of the ground for rice crops; during the sowing and transplanting season rain was plentiful and evenly distributed throughout the Division, so that most of the high lands were brought under cultivation and the crops promised well up to the month of September. A break in the rains in October caused the crops on the high lands to wither, and the outturn was below the normal. The heavy rainfall in Burdwan caused floods in the neighbourhood of the head-quarters town and other places, and was followed by an unprecedented amount of fever in the southern and eastern parts of the district. In Birbhum also widely extended sickness, fever, small-pox and cholera, caused heavy mortality. In the Ghatal subdivision of the Midnapore district the heavy floods and breaches in the Panna, Ghatal, Sakhpur and Chetua circuit embankments and in the right and left Darkessur embankments destroyed the seedlings. The greater part of the flooded area was replanted when the flood subsided, and on the remainder *boro* paddy was sown later on. The heavy downpour in January and February last caused much damage to the *rabi* crops of the Division and the outturn was consequently low. In all the districts of the Presidency Division the mean rainfall in the year under report was much in excess of the normal. The rainfall was, however, not favourably distributed. It was heavy in April and May, scanty in June, and again excessive in July to September. The October rains were sufficient, but there was an entire cessation in November. The rainfall was again abnormally heavy in January and February. In the 24 Parganas there was, on the whole, a good harvest on the higher lands, but the low-lying areas, especially those in the Sundarbans tracts of the Diamond Harbour and Basirhat subdivisions were flooded at the time of planting and the yield of winter rice was below the normal in consequence. In some parts of the district the heavy rain in May induced the people to sow jute, but the drought in June injured the crop. The *rabi* crops were also damaged by excessive rain. In Nadia both the *bhadai* and winter rice crops are said to have suffered greatly. The *rabi* crops also fared badly in consequence of the heavy rains in February. In Murshidabad the *bhadai* rice gave an outturn of 75 per cent., and jute 115 per cent. The winter rice suffered from the cessation of rain in November, while the *rabi* crops were injured by the rain in February. In Jessore the heavy rain between July and September prevented a full crop of winter rice from being sown. The outturn of both autumn and winter rice however was fair, but the *rabi* crops were poor. In Khulna much injury was done to the winter rice in the Bagerhat subdivision by an insect pest. In the Patna Division the mean rainfall of the year was above the average in all the districts of the Division, especially in Darbhanga. The distribution was most uneven and therefore not favourable to the crops. There was delay in the commencement of the rains in June, and this was followed by very heavy rain from the middle of July till the end of September, which caused floods in almost all the districts of the Division with considerable damage to the *bhadai* crops. This rainfall was to some extent favourable to the paddy crop, although in some districts the newly transplanted seedling were washed away, and the fields had to be replanted. The outturn of the winter rice was on the whole good. The season was favourable for the sowing of the *rabi* crops, and prospects were excellent at first, but the cloudy weather in January and the untimely rain in February and in the beginning of March, accompanied by hail in certain districts, did some harm to the crops. The yield was, however, not unsatisfactory on the whole. The rainfall in every district of the Bhagalpur Division was much in excess of the normal, but it was so unseasonably and unequally distributed that it practically benefited no kind of crop. May was unusually rainy everywhere, but in June the rains held off completely, and the monsoon did not set in until the beginning of July. From the middle of that month until towards the middle of September the fall was very heavy; but with the exception of some rain in the third week of October in certain localities, there was very little rain in that month and none fell in November. The weather continued fine

up to the third week of January when there was generally good rain in the Division, but in Monghyr, Bhagalpur and the Sonthal Parganas it was accompanied by a severe hailstorm which caused much damage to the standing crops. The rainfall in February was exceptionally heavy for the season and that of March was also unusual. The general result on the harvests of the year was that the *bhadoi*, after suffering from want of rain in June, was seriously damaged by the excessive fall in July and August: the winter rice except where rain fell in the middle of October, suffered generally from the early cessation of the rains; while the *rabi* crops suffered from want of moisture at sowing time and later on from the heavy rain in February, and in certain tracts also from the hailstorm of the 22nd January. In Monghyr the heavy rains in July and August seriously damaged the *bhadoi* and prolonged flooding of the northern part of the district destroyed not only the *bhatri*, but also the winter rice crops in a large part of that area. The *rabi* crop was much damaged by unseasonable rain in February. The same causes, as in Monghyr, operated in Bhagalpur and there were floods in the Madhipura and Sapaul subdivisions. Owing however to rain in the third week of October, the winter rice was nearly an average crop. In Purnea the harvests were on the whole better than in Bhagalpur, but the *bhatri* and *rabi* were considerably below the average, owing to the heavy rain of July and August in the former case, and rain and cold in February in the latter. Maize and other *bhadoi* crops in the Sonthal Parganas suffered seriously, as elsewhere, from the heavy rain of July and August. The yield of the winter rice was decidedly poor in a good part of the district. The *rabi* crops suffered serious damage from the heavy rain in the spring and also, in part of the district, from hail. In Darjeeling the maize crop was poor throughout the district, and particularly so in the Kalimpong subdivision. The winter rice was up to the average, but the *rabi* crops were poor. The outturn of opium which is grown in Monghyr and Bhagalpur was 75 and 90 per cent., respectively, as against 70 and 100 in the previous year. Tobacco was a better crop than in the previous year. The cultivation of jute is being greatly extended in Purnea at the expense of rice and the crop was estimated at 91 per cent. as against only 81 in the preceding year. The outturn of indigo, the cultivation of which is gradually dying out, was generally poor. The yield of sugarcane, which is grown principally in Bhagalpur and the Sonthal Parganas, was on the whole satisfactory, especially in the latter district where it was a bumper crop. In Orissa the rainfall during the year was below the normal in all the districts, and the lowest in the quinquennium excepting that of 1901-02. Except in Sambalpur the *bhadoi*, the winter rice, and the *rabi* crops throughout the Division suffered on account of the scanty rainfall. It was deficient both at the sowing time and during growth. Over a great part of the Division the rains stopped early in October before the winter rice was in ear, and the outturn was diminished accordingly. A considerable area near the coast, however, received heavy rain in the latter part of October and here the winter rice gave a good yield. The distribution of the rainfall was also uneven and resulted in the loss of crops on high lands. The *rabi* in the Cuttack district was damaged to some extent by the rain of February 1906, which in Angul, however, is reported to have somewhat improved the *rabi*. The total rainfall of the year in Sambalpur was only slightly below the normal. It was not, however, evenly distributed, and want of rain in October led to some shortage in the crops. The rainfall of the year was in excess of the normal in the districts of Ranchi, Palaman and Singhbhum, and slightly below it in Huzaribagh and Manbhum. Its distribution, however, was everywhere most irregular and the crops suffered in consequence. The heaviest downfall was in the month of July, while there was very little rain in October, November and December, when the winter rice was ripening. The *rabi* crops were much damaged by excessive rain and cloudy weather in January and February.

184. Appendix XXIX shows the average prices of the principal food-grains—rice, wheat, barley, gram and maize—and of salt for the Prices of food and labour. past three years.

It will be seen that the prices of food-grains everywhere ruled much higher than in the preceding year except in the Sonthal Parganas where the price of common rice remained practically the same as before; in Balasore and Singhbhum there was a slight fall in the price of wheat, while in Angul it was stationary; the price of barley fell in the districts of Hooghly and Nadia, and in Singhbhum it was the same as in the previous year; in Khulna, Puri and Sambalpur there was a decline in the price of gram, while in Cuttack it remained the same as in the previous year; the price of maize continued to rise except in Manbhum where there was a very slight fall. The cause of the high price of rice in the Burdwan Division is attributed to exports in large quantities in consequence of the failure of crops in other parts of the country; the rise in price of other food-crops was due to the poor outturn. The short harvest in the districts of Buckergunge and Burdwan prevented the usual importation of rice into the Presidency Division, and the result was a rise in the price of common rice as well as other food-grains. In the Patna Division the rise is attributed to the export of grains to other provinces where there has been scarcity rather than to any decrease in the local outturn during the year. The chief cause of the high level of prices in the Bhagalpur Division is said to be the heavy exports to Eastern Bengal and elsewhere. In Darjeeling and the eastern part of Purnea, however, prices rose high before this export set in, and there they are attributed to local deficiency in outturn, the failure of the maize crop having been serious in part of Darjeeling and jute cultivation having largely extended in the Kissanganj subdivision of Purnea at the expense of rice.

Circumstances generally have been such as to lead grain merchants to hold up stocks. Owing to the low outturn of the *bhadoi* and winter rice crops in the Orissa Division and to large exports to other places beyond the Division, the price of rice ruled high throughout the year. The price of common rice in Ranchi was abnormally high owing to successive bad harvests. Wheat, gram and barley are generally imported to Ranchi from the Gaya district and their prices depend on the prices ruling there. In Hazaribagh the high prices of the principal food-grains are ascribed partly to a large export trade owing to higher prices elsewhere; and many cultivators are said to have held on to their stocks in the hope of higher prices later on. The rise in the price of barley and gram in the Manbhum district was due to the damage done to these crops by heavy rains. There was a fall in the price of salt throughout the province except in Sambalpur, and this is due to the reduction of the duty on this commodity.

185. Wages show an upward tendency in several localities. In Bankura the rise as in the previous year was due to the opening of the Bengal-Nagpur Railway which has given extra employment in the district and facilities for obtaining employment elsewhere. In Hooghly and Howrah the continued rise was due to the great demand for labour in mills and factories, and the same cause produced a similar result in the Barrackpore subdivision of the 24-Parganas. In the Diamond Harbour subdivision there was a large demand for common labourers in connection with the Mograhat-Karupukur drainage scheme. In Jessore and Khulna there was a considerable rise in the prices of labour during the year. The Collector of Jessore ascribes it to the rise in the prices of food-grains as well as to the *Swadeshi* movement which it is said, has led many artisans and weavers to resume their former occupations in preference to working for wages. The Collector of Khulna attributes it to the rise in the prices of food-grains, to the greater demand for masons and carpenters, to the improvement in the general condition of the people and to the demand for labourers in the jute season. In the Patna Division the difficulty of obtaining unskilled labour at the old customary rates is becoming more and more apparent. This is probably due to the increase in the number of people who emigrate to large towns, or mills, or to places where railway construction work is in progress and where they can secure perhaps double the wages offered to them at home. In the town of Dughur the wages of common masons and superior blacksmiths showed a slight rise owing to the extension of building operations that is taking place there and elsewhere along the chord line. There was a slight rise in Puri owing to the high price of rice and the demand for labour in the town. In Ranchi the wages of ordinary labourers rose owing to the demand for labour for the construction of the Ranchi-Purulia Railway line, and of several public buildings. Unskilled labour now earns three annas a day while on railway work four annas are paid. In Manbhum also there was an upward tendency owing to the development of Railways and the coal industry and to increased commercial activity in other directions.

186. There was no appreciable change in the material condition of the people in the district of Burdwan. In Birbhum the lower classes suffered somewhat, as owing to the failure of the *rabi* crops they could not get as much local labour as usual, and wages remained the same, while the prices of food-grains rose considerably. The condition of the middle classes was fairly satisfactory. In Bankura the people are generally poor, all the zamindars except the Burdwan Raj are encumbered and consequently give very little assistance to their tenants, who are compelled, when necessary, to borrow money from the local *mahajans* at an exorbitant rate of interest. The Commissioner states that the establishment of Co-operative Credit Societies will benefit such people immensely; two such societies have been created in this district, and he hopes the Collector will be able to induce the cultivators to start others. The condition of the people of Midnapore was good, though prices were comparatively high throughout the district towards the latter part of the year owing to large exports. The condition of the people generally in the Hooghly district continued satisfactory, except in portions of Arambagh, where a large tract is subject to periodical inundations. Many of the raiyats are heavily indebted. The weavers in Arambagh and other places did very well during the year owing to the greater demand for India-made cloth due to the *Swadeshi* movement. Heavy floods in the Hooghly and the Damodar rivers in July caused damage to the crops in parts of the Hooghly and Howrah districts. The produce of food-grains was below the average and prices ruled higher than usual.

187. The material condition of the agricultural classes was not as satisfactory as in the previous year in the districts of the 24-Parganas, Nadia and Jessore. The rise in the price of food-grains was met in Jessore and Khulna by a rise of wages. In the Sadar subdivision of Jessore the rate of unskilled labour is reported to have risen from 5 annas to 8 annas a day. In Murshidabad the harvests were on the whole better than in the previous year, and there was no deterioration in the condition of the agricultural population. The Collector of Khulna says that the harvests in his district, though not so good as in the preceding year, were average, and the high prices were actually advantageous to the agriculturists. The condition of the labouring classes in the manufacturing centres in the 24-Parganas continued to be prosperous. Mr. Bernard notices the general immunity from disease enjoyed by these people, which he attributes to the improved sanitary conditions under which they live. Artisans and skilled labourers are much in request in the 24-Parganas, and their condition is generally satisfactory. The Collector reports that the condition of the middle landless classes is deteriorating for want of sufficiently remunerative employment. This remark, the Commissioner states, is probably equally true for other districts. The Collector of Nadia states that in the Kushtia subdivision the weaving industry received an impetus from the *Swadeshi*

movement and the weavers have prospered in consequence. He remarks that the whole body of artisans in his district constitute only 4·84 per cent. of the population, and the material condition of the people generally has not been much affected. The Collector of Jessore (Mr. B. C. Sen) also notices the effects of the *Swadeshi* movement on the district industries. He says:—

"The native weavers, who had given up their calling owing to competition of foreign piece-goods, resumed their former avocation in view of the sudden demand for cloths made in the country. The hand looms are now in full swing in some places, but there is yet no sign of improvement in the quality of the cloths manufactured, and unless cloths of equally good quality can be offered as cheap as foreign cloths, the movement is doomed to ultimate failure. The sugar industry at Kotechandpur, which was almost in a moribund condition, also received an impetus from the *Swadeshi* movement. The new industry of curing tobacco, started by Mr. Macleod, was in a flourishing condition. Another industry, that of manufacturing safety matches, which found a ready market, was started in the Narail subdivision, and is making fair progress."

There was an outbreak of cholera in the Diamond Harbour subdivision and in parts of the Basirhat and Barrackpore subdivisions in the 21 Parganas. The last named subdivision was also visited by an epidemic of small-pox, but plague, from which it had suffered in the previous year, was happily almost entirely absent. Apart from these visitations the district was healthier than usual. As usual, Nadia and Jessore suffered much from malarial fever. Plague appeared in an epidemic form in the town of Santipur in the former district and the latter was visited by cholera which claimed many victims.

188. The majority of the people in the Patna Division are dependent on agriculture or agricultural labour, and their material condition is consequently directly dependent on the vicissitudes of the season. The poor outturn of the *bhadoi* crops caused some distress, but as the winter paddy and *rahi* yielded a fair outturn, the year was not, on the whole, unfavourable for the agricultural classes, although the landless labourers and people of small means have suffered considerably on account of the high prices of food-grains which have ruled generally. The public health has, generally speaking, been up to the normal standard. Plague was of less extent and intensity than in former years, though the actual cases have in many places taken a very severe and fatal form. This disease was worst in the districts of Patna, Gaya, Shahabad and Saran. In Muzaffarpur and Darbhanga it was not so widespread. In Champaran there were only 34 cases of plague, but fever and cholera were responsible for about 36,000 deaths. There were also outbreaks of cholera in Gaya, Shahabad and Muzaffarpur. There was no change in the standard of living among the different classes of the community.

189. The condition of the people in the Bhagalpur Division has everywhere been depressed, while there has been considerable stress in certain tracts, particularly in the northern half of the Sonthal Parganas and the adjoining portion of Bhagalpur, in the areas in North Monghyr and North Bhagalpur where the crops were to a great extent lost by prolonged inundation from the hill rivers, and in the eastern portion of the Darjeeling district. Added to this, the prices of food-grains maintained an exceptionally high level in the latter part of the year, and this caused much distress among the labouring class and those whose income is fixed. The rise came too late to benefit the agriculturists who had surplus produce to sell, except in the east of Purnea where prices were forced up early owing to the extension of jute cultivation at the expense of rice. The people there were enriched by the jute crop, and so could afford to pay a high price for their food. The strain has been greatest in the Sonthal Parganas, where the harvests have been unsatisfactory for the past two or three years, and the *rahi* crop, which was being looked forward to relieve the tension, turned out most disappointing. But, as in the preceding year, a good outturn of lac, coupled with high prices, proved a compensating feature in the eastern portion of the district, and the stone quarries there have provided a certain amount of employment. In the Jamtara subdivision the poorer classes find a good demand for their labour in the coal-fields of adjoining districts. In the tracts that suffered from inundation in North Monghyr and North Bhagalpur, timely relief was afforded by advances under the Agriculturists' Loans Act, and also by a grant from Babu Kamal Mukerjee's Fund. In the Government estates known as Rajanpur in the Madhepura subdivision the suspension of one-fourth of the rent demand until October next has been sanctioned. As regards Darjeeling, the late Deputy Commissioner, Mr. J. H. E. Garrett, left on record the following remarks:—

"All classes have felt the high prices which have ruled during the year, though the cultivators have suffered most. In the newly-surveyed tract of the Kalimpong khas much far more of the raiwats than usual emigrated for the cold weather seeking work."

Relief was afforded by advances under the Agriculturists' Loans Act in the Kalimpong subdivision—an unusual occurrence in the district of Darjeeling. In the towns of Bhagalpur, Monghyr and Jamalpur, and also in the rural portion of the Monghyr district, plague appeared in epidemic form, though the visitation was not quite so severe or prolonged as in the previous year. It caused much dislocation of business of all kinds and serious inconvenience to the people who deserted the infected localities in large numbers. In the Purnea district there was a severe outbreak of cholera in the autumn, but malarial fever worked much less havoc than in the preceding year.

190. In the Orissa Division the condition of the people on the whole was not unsatisfactory, although the year was not a prosperous one from an agricultural point of view. The outturn of the *bhadoi* and winter crops, though below the average and partially depleted by exports, was sufficient to meet the consumption of the people. Substantial cultivators who had stocks of food-grains from previous years or who reaped more paddy than they

required for their own consumption gained considerably by disposing of their surplus stocks at high prices. Partial failure of the crops owing to deficient rainfall and its uneven distribution necessitated the grant of *takavi* advances in Balasore and Angul, to enable the tenants of the affected tracts to tide over the difficulty of growing crops for the next season. In the villages situated in the Government estate of Khurda, where the crops failed, the tenants will have to be granted remissions of rent, either wholly or in part, according to the circumstance of each villager. Several works of improvement in these villages were sanctioned in order to afford work to the poorer classes. The areas in which the failure was such as to leave the people nothing to sell were comparatively limited. The landless classes, however, were undoubtedly more than usually pinched, for the wages of labour do not readily respond to fluctuations in prices. There has been no material change in the people's standard of living. The material condition of the people of the Sambalpur district was, it appears, much better than that of other parts of the Division. The crops were fair, and though the better prices obtained for them stimulated exports, it is believed that a sufficient stock is maintained in the district for its own requirements.

191. On the whole the people of the Chota Nagpur Division were fairly prosperous. The passing of the amendment of the Chota Nagpur Tenancy Act which prohibits private sales of agricultural holdings, has had a considerable effect, not only directly, but also in reducing the borrowing power of the raiyats; and as this power was usually exercised by the aboriginal tribes in order to launch out into useless and unnecessary expenditure at marriages and other festivals, its restriction has done much good. High prices would have caused some distress in Hazaribagh but for a very abundant *mahua* crop and an ample demand for labour at the coal and mica mines and on the Gaya-Katras Railway line. Advances under the Agriculturists' Loans Act were given to relieve distress caused by frost during the winter of 1904-05. Mr. Lyall writes as follows regarding the Palamau district:--

"The material prosperity of the district as judged by that of the khas mahals has never been so high, for while prior to last year, the utmost we have been able to collect on account of rent was Rs. 78,672, this year no less than Rs. 1,11,615 was realized, and that without any very great difficulty. There has been an undoubted improvement in general prosperity. Labour is more difficult to secure and more expensive. Bazaars settle at higher rates."

In Manbhum and Ranchi the construction of the Ranchi-Purulia Railway afforded work to a large number of the labouring classes. The coal-mines of the former district gave employment to 27,703 labourers. The year was a prosperous one in Singhbhum owing to the good harvests. Plague prevailed sporadically over a considerable area in Palamau. There was also an outbreak in Jheria which, however, was promptly dealt with and suppressed.

192. The immigration of Sonthals and other aborigines into Hooghly and Burdwan for cultivation and work in the coal-mines and brick-fields continued. There was no immigration into Bankura, Birbhum and Midnapore. The number of registered emigrants with dependants who went from Bankura to the Assam tea-gardens was 27 as against 283 in the previous year. The closing of a depôt for the recruitment of coolies by garden sardars under class IV and the special facilities for free emigration under Chapter V of the Emigration Act, account for the decrease in the number of emigrants recruited under Chapter III. The Collector of Midnapore reports that recruitment of coolies to Assam was carried on entirely by free recruiters working under section 92 of Act VI of 1901. As in previous years, a number of emigrants from Chota Nagpur and the Sonthal Parganas came to the Sundarbans tracts and other parts of the 24-Parganas. Some of them settled permanently in the Sundarbans. Sonthals in large numbers went to Murshidabad for earthwork on the railway. There is practically no immigration in the Patna Division. In Champaran there was a fair influx of labourers from other districts for work on the Tribeni Canal and the railway lines. A large number of labourers go to Assam and Eastern Bengal from the North Gangetic districts and Shahabad, but they return home after a few months. Another important form of emigration from the district of Shahabad, is to two grants in Burma, held by Mr. Mylne of Bahe and Babu Hari Har Singh of Dumraon. A considerable number of families are sent yearly by these gentlemen to colonise their grants, and plenty of candidates are apparently available. The emigrants are said to be doing well there. In the Sonthal Parganas no less than 1,184 emigrant coolies were registered for employment in the tea districts as against 704 in the preceding year, the marked increase being due to hard times, while in Monghyr only 36 emigrants were registered as against 98, the falling-off being due to the outbreak of plague during the recruiting season. As usual, a large number of pilgrims visited Puri throughout the year, and more specially during the *Dol* and *Rathjatra* festivals. There was also a great rush of pilgrims on the occasion of the *Raghunath Besh* in April 1905. A few families came from the districts of Gaya and Monghyr and settled in the district of Hazaribagh. There is no immigration into other districts of the Chota Nagpur Division except of labourers who come to work in the mines or on the railways. Including dependants, 6,083 persons were registered as emigrants from the Chota Nagpur Division to Assam to labour in the tea-gardens there. This number does not include those sent from Palamau, for which district no figures have been received, nor does it include the larger number of residents of the district who were somehow or other induced to go to Asansol or Raniganj and were registered there. Cases of fraudulent recruitment are unfortunately not rare. The emigration to the Duars, Calcutta, etc., was on the usual scale.

WEATHER AND CROP REPORT.

For the week ending the 26th November 1906.

No.	Name of district.	Rainfall at Sadar station.	Price of common rice, in seers, per rupee.		Character of the weather and state and prospects of the crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
1	BURDWAN ...	Inches. Nil	8	8	Weather seasonable. Sowing of <i>rabi</i> and harvesting of early winter rice going on. Condition of sugarcane good. No cattle-disease. Fodder and water sufficient.
2	BIRBHUM ...	Nil	9†	7½	Standing crops doing well. Old common rice selling at 7½ seers a rupee. No cattle-disease. Fodder and water sufficient.
3	BANKURA ...	Nil	9½†	9½†	Weather seasonable. Standing crops doing well. Old common rice selling at 8½ seers a rupee. No cattle-disease. Fodder and water sufficient.
4	MIDNAPORE ...	Nil	9	9	Weather seasonable. Sowing of <i>rabi</i> crops commenced. Prospects good. Fodder and water sufficient.
5	HOOGHLY ...	Nil	6½	6½	Weather seasonable. Prospects of winter paddy and sugarcane fair. Reaping of winter paddy commenced and sowing of <i>rabi</i> crops going on in Arambagh. No cattle-disease. Fodder and water sufficient.
6	HOWRAH ...	Nil	7	7	Harvesting of winter paddy commenced. Standing crops doing well. Common rice selling at 7½ seers at Ulubaria. No cattle-disease. Fodder and water sufficient.
7	24-PARGANAS	Nil	8	8	Weather seasonable. Sowing of <i>rabi</i> crops going on and harvesting of early <i>aman</i> begun. State of standing crops good. Prospects of sugarcane and winter rice good. Total number of persons on relief during the week in different thanas—Tollygunge 158, Vishnupur 1,328, Behala 92, Canning 360, Baruipur 1,530, Falta 1,014, Sonarpur nil, Mahestala nil, Mograhat 1,859, Diamond Harbour 322, Mathurapur 77, Kulpi 223, Joynagar 2,407, Dum-Dum 70, Khardaha 89, Barraekpore 30. Condition of cattle good. Fodder and water sufficient.
8	NADIA ...	Nil	8	8	Prospects of standing crops good. Winter rice being harvested. Sowing of <i>rabi</i> crops still going on. No cattle-disease. Fodder and water sufficient.
9	MURSHIDABAD	Nil	7	7	Weather seasonable. Prospects of standing crops favourable. Sowing of <i>rabi</i> crops continuing. <i>Aman</i> paddy being reaped. No cattle-disease. Fodder and water sufficient.
10	JESSORE ...	Nil	7½	7½	Weather seasonable. Sowing of <i>rabi</i> crops going on. Harvesting of <i>aman</i> commenced. Condition fair. High prices and slight distress. Fodder and water sufficient. No cattle-disease.

† New rice.

		Inches.			
11	KHULNA ...	Nil	8½	8½	Weather seasonable. Transplantation of summer rice continuing. No cattle-disease. Fodder and water sufficient.
12	PATNA ...	Nil	{ 7½ 11½ }	{ 7½ 11½ }	Weather cold. Sowing of <i>rabi</i> crops approaching completion. Harvesting of paddy and pressing of sugarcane continuing. No cattle-disease. Fodder and water for cattle sufficient.
13	GAYA ...	Nil	{ 9½† 13½*	{ 9½† 12½ }	Weather cold and clear. Harvesting of paddy and pressing of sugarcane going on. <i>Rabi</i> crops doing well. Prices stationary. No cattle-disease reported. Fodder and water for cattle sufficient.
14	SHAHABAD ...	Nil	{ 9½† 12½*	{ 10† 12*	Harvesting of paddy in progress. Sugarcane-pressing continuing. <i>Rabi</i> crops germinating. Old common rice selling at 8 seers per rupee at Sadar, and makai selling 14½ seers a rupee at Sasaram. No cattle-disease. Fodder and water sufficient.
15	SARAN ...	Nil	{ 9 11½*	{ 8½ 12*	Weather seasonable. Paddy being harvested. Pressing of sugarcane and sowing of poppy going on. Rain wanted for <i>rabi</i> crops. 26 men, 121 women, and 142 children on average daily relieved at kitchens food from the District Board funds in the Siwan subdivision; 73 men, 142 women, 193 children gratuitously relieved by the Hathawa Raj. No person on the District Board test-relief works during the week owing to the rate of wages having been reduced. 43 men, 38 women, and 35 children on average daily on the Hathwa Raj relief-works. No cattle-disease. Fodder and water sufficient.
16	CHAMPARAN ...	Nil	{ 8½ 11½*	{ 8½ 11*	Weather slightly hot in the day, but cold at night. <i>Rabi</i> sowings in progress. Germination good. Rain wanted for <i>rabi</i> crops. Poppy sowings in full sowing. About balance in exports and imports of food-grains since 15th October. Ordinarily exports much in excess at this season. Small-pox among cattle reported in four villages of Dhanaha in the Bettiah subdivision. Fodder and water sufficient.
17	MUZAFFARPUR	Nil	{ 7 12½*	{ 7 11½ }	Weather seasonable. Harvesting of paddy commenced. <i>Rabi</i> -sowings approaching completion. Common rice and maize selling at 7½ and 11½ seers a rupee, respectively, at Sitamarhi, and 7½ and 11½ seers a rupee, respectively, at Hajipur. Test-works and kitchens going on; but numbers decreasing. Daily average for gratuitous relief 4,419. Number of persons on test-works on the 24th instant—Katra 8, Hulsand 135, Sursand 33, and Raunisayedpur 58. Cholera practically died out in Sitamarhi and decreasing in the Sadar subdivision. No cattle-disease. Fodder and water sufficient.

* The figures indicate price of maize in seers per rupee.
† New rice.

1	2	3	4	5	6
18	DARBHANGA ...	Inches. Nil {	6 12*	6 12*	Weather seasonable. Sowing of <i>rabi</i> crops still going on. Number of persons relieved at kitchens on the last day of the week—Sadar thana 2,100, Bahera thana 5,280, Roserha thana 10,069, Madhubani subdivision 1,461, Samastipur subdivision 231. Number of persons on test-works for the last day available—Manihas 65, Ojhoul 290, Dudhia 607, Pindaruch 1,127, Basaitha 666, Ratwara 344, Warisanagar 443, Hathourighat 168, Sakarlohra 803, Gangdah 491, Muza Road 477, Larjaghat 109, Sakar 2, Lagna 776, Balha 3,718, Dasanth 873, Bagmati Bund 558, Ithor 1,821, Tolaparsa 1,137. Cholera reported from Madheypur in the Madhubani subdivision. One authenticated case of plague occurred in Rosera poor-house and no further cases reported. No cattle-disease. Fodder and water sufficient.
19	MONGHYR ...	Nil {	7 11½*	7 11½*	Prospects of winter rice fair, but more rain wanted. Sowing of <i>rabi</i> crops continuing. High prices continuing unchanged. Cattle-disease reported from thanas Surajganj and Berbiglia. Fodder and water sufficient.
20	BHAGALPUR ...	Nil {	8½ 11½*	8½ 11½*	Weather seasonable. <i>Aghani</i> paddy being harvested. Outturn fair. Sowing of <i>rabi</i> crops nearly finished. Rain reported to be badly needed for <i>rabi</i> crops in the Supaul subdivision. <i>Kurthi</i> doing excellently. Cholera reported from thanas Supaul and Pertabganj and cattle-disease reported from thanas Madhipura and Pertabganj. Fodder and water sufficient.
21	PURNA ...	Nil	6½	6½	Weather seasonable. Harvesting of <i>ayhani</i> paddy going on. Paddy on high lands damaged on account of drought. Prospects not favourable at places. <i>Rabi</i> sowings going on, but rain urgently required. Cattle-disease reported from Islampore, thana. Fodder and water sufficient.
22	DARJEELING ...	Nil {	6 12*	6 11*	Weather cold. Hills—Wheat, barley and mustard in fair state. Winter and <i>bhadai</i> rice and <i>marua</i> being harvested. Terai—Cutting of winter rice commenced, sowing of mustard finished. Tobacco being transplanted.
23	SONTHAL PAR- GANAS.	Nil {	11 16½*	12½ 16½*	Weather seasonable. Harvesting of early winter rice commenced. No cattle-disease. Fodder and water sufficient. Deoghur report not received.
24	OUTTACK ...	Nil	10½	10½	<i>Laghu saradh</i> ripening. <i>Guru saradh</i> in ear. Early cotton being plucked. Sugarcane growing well. No cattle-disease. Fodder and water sufficient.
25	BALASORE ...	Nil	10	10	Weather cold. <i>Saradh</i> ripening. Sugarcane and vegetables doing well. <i>Rabi</i> sowings continuing. No cattle-disease. Fodder and water available.
26	ANGUL ...	Nil	11½	11½	Weather cold. Harvesting of winter rice in full swing. <i>Rabi</i> , sugarcane and other crops doing well. No cattle-disease. Fodder and water sufficient.

* The figures indicate price of maize in seers per rupee.

27	PURI ...	Nil	9 $\frac{1}{2}$	8 $\frac{1}{2}$	Weather seasonable. Sugarcane and <i>rabi</i> crops getting on well. <i>Sarad</i> in ear. <i>Laghu</i> paddy being reaped. Miscellaneous crops doing well. Small-pox reported from Khurda and Bhubaneswar. Fodder and water sufficient. No cattle-disease.
28	SAMBALPUR ...	Nil	11 $\frac{1}{2}$	11	Weather cool and occasionally cloudly. Threshing of autumn rice continuing. Reaping of winter rice and harvesting of cotton and <i>maghi til</i> in progress. Condition of standing crops good. Out-turn of <i>bahal</i> paddy estimated at 105 to 120 per cent. No cattle-disease. Fodder and water sufficient.
29	HAZARIBAGH	10	10	Prospects of standing crops good. Harvesting of paddy going on. Cattle-disease reported from two thanas. Fodder and water sufficient.
30	RANCHI ...	Nil	11 $\frac{1}{2}$	11 $\frac{1}{2}$	Weather seasonable. Harvesting of paddy continuing. State of standing crops good. Cattle-disease reported from Lohardaga thana. Fodder and water sufficient.
31	PALAMAU ...	Nil	10 $\frac{1}{2}$	11 $\frac{1}{2}$	Weather seasonable. Harvesting of winter rice going on. Pressing of sugarcane commenced. <i>Rabi</i> crops doing well. A few cases of cattle-disease reported. Fodder and water abundant.
32	MANBHUM ...	Nil	9 $\frac{1}{2}$	9 $\frac{1}{2}$	Weather seasonable. Prospects of crops good. Cattle-disease not reported. Fodder and water sufficient.
33	SINGHBHUM ...	Nil	9	9	Harvesting of winter paddy continuing. Common rice selling at 12 seers a rupee at Seraikella and Kharsawan. Cattle-disease reported from thana Ohakradharpur and outpost Bahragora. Fodder and water sufficient.
34	COOCH BEHAR	Nil	6 $\frac{1}{2}$	6 $\frac{1}{2}$	Weather seasonable. Transplantation of tobacco seedlings and sowing of mustard continuing. Prospects of <i>aman</i> paddy fair. Cattle-disease reported from thanas Mathabhanga and Meckliganj. Fodder and water sufficient.

* New rice.

GENERAL SUMMARY.—There was no rain in the Province during the week. Sowings of *rabi* crops still continue. Rain is reported to be needed for them in Saran, Champaran, Monghyr, Bhagalpur and Purnea. Harvesting of winter rice has commenced in places. Paddy on high lands has suffered from drought in Purnea. Sugarcane is being pressed in parts of Bihar. The number of persons receiving gratuitous relief is:—24 Parganas 9,559, Saran 697, Muzaffarpur 4,419, Darbhanga 19,141,—total 33,816. The number of persons attending test-works is—Saran 121, Muzaffarpur 234, Darbhanga 14,476—total 14,831. Cattle-disease is prevalent in nine districts. Fodder and water are sufficient. Cholera still continues in parts of Muzaffarpur and Bhagalpur, and is also reported from Darbhanga. Small-pox has made its appearance in Puri. The price of common rice has risen in four and fallen in six districts.

The mean pressure of the seven days	Inches.
The average pressure of the corresponding period for 24 years, Surveyor-General's Office	30.037
The total number of hours of bright sunshine	Hours.
The maximum possible number of hours of sunshine	52.9
The mean temperature of the seven days	72.8
The average temperature of the corresponding period for 24 years, Surveyor-General's Office	72.9
The extreme variation of temperature	23.5
The maximum temperature	83.4
The highest velocity of the wind in one hour	Miles.
The mean relative humidity	72
The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office	70
The total fall of rain from 18th to 24th November 1906	Inches.
The average fall of the corresponding period for 24 years, Surveyor-General's Office	Nil
The total fall from 1st January to 24th November 1906	0.01
The average fall of the corresponding period for 24 years, Surveyor-General's Office	57.19
The mean pressure, temperature, etc., are deduced from eye observations.	65.27

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

O, overcast. ☁, dow.

REVENUE DEPARTMENT.

NOTIFICATIONS.

No. 3221 For.—*The 28th November 1906.*—Mr. Gokul Chandra Chatterjee, Officiating Extra Assistant Conservator of Forests, was attached to the Singhbhum Forest Division from the 3rd to the 14th November 1906.

No. 3219 L.R.—*The 27th November 1906.*—Whereas an application has been made by the Nawab Bahadur of Murshidabad, the proprietor of eight-annas share of estate Fatchsingh, bearing tauzi No. 254, so far as it is ijmalī with tauzi No. 253 of the Murshidabad Collectorate, for a survey and preparation of a record-of-rights in respect of all lands situated in the undermentioned nine ijmalī villages of that estate, and whereas the estimated cost of the operation is covered by the deposits already made by the Nawab Bahadur:

In exercise of the powers conferred by section 101 (2) (a) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.O.) of 1898, the Lieutenant-Governor of Bengal is pleased to order that a survey shall be made and a record-of-rights prepared in respect of all lands included within the boundaries of the undermentioned villages in the district of Murshidabad appertaining to the said estate.

The particulars to be recorded in the survey and record-of-rights shall be the following:—

- (a) the name of each tenant or occupant;
- (b) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat, or under-raiyat, and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure;
- (c) the situation, quantity and one or more of the boundaries of the land held by each tenant or occupier;
- (d) the name of each tenant's landlord;
- (e) the money-rent payable at the time the record-of-rights is being prepared, or if a produce-rent, the fact that a produce-rent is paid and the customary terms according to which such rent is paid;
- (f) the mode in which that rent has been fixed—whether by contract, by order of a Court or otherwise;
- (g) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;
- (h) the special conditions and incidents, if any, of the tenancy;
- (i) if the land is claimed to be held rent-free, whether or not rent is actually paid and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;
- (j) the name of each proprietor (including rent-free owner) with the character and extent of his interest, and the situation, quantity, and one or more of the boundaries of each proprietor's private lands, as defined in Chapter XI of the Act;
- (k) the custom of the village regulating the methods of irrigation, and the duties and rights of both landlords and tenants with respect to the use and maintenance of the means of irrigation.

District Murshidabad.

(1) Arajī Chandpara, (2) Jetpur Chak in Rajarampore, pargana Kautanagor, (3) Chak Kalayanpur alias Gope Mahal in Khorsa, (4) Chak Hamidpur and Gangedda in Bithi Gangedda, (5) Bhobanandapur, (6) Hazipur, (7) Chak Hazipur in Palia, (8) Chak Santoshpur in Saiyad Koolata, (9) Kashiipur.

No. 3224 L.A.—*The 28th November 1906.*—Declaration No. 143R., dated the 7th June 1904, published at page 865, Part I of the *Calcutta Gazette* of the 8th idem, regarding the acquisition of land for brick-fields at mile 73 of the Gaya-Katras Railway, in the village of Bara Seraiya, in the district of Hazaribagh, is hereby cancelled.

No. 3225 L.R.—*The 29th November 1906.*—On a report submitted by the Board of Revenue under section 13 of the Bengal Embankment Act, II of 1882, the Lieutenant-Governor, under section 14 of the Act, was pleased to order, in Notification No. 3890T.R., dated the 5th October 1905, published at page 1769, Part I of the *Calcutta Gazette* of the 11th idem, that a sluice should be constructed and certain drainage channels excavated for the protection of the cultivable lands within the Argoal Circuit, in the district of Midnapore, at an estimated cost of Rs. 1,29,193. This

estimate having subsequently been considerably modified, fresh proceedings have been taken under sections 8 to 12, and a fresh report has been submitted under section 13, of the said Act. The following order is therefore issued in supersession of the notification of 5th October 1905, cited above under section 14 of the Bengal Embankment Act, II of 1882:—

Whereas it appears to the Collector of Midnapore that a sluice should be constructed and certain drainage channels excavated, under section 7 (4) of the Bengal Embankment Act, 1882 (Bengal Act II of 1882), for the protection of the cultivable lands within the Argoal Circuit, in the district of Midnapore, and the Collector, after holding an enquiry under section 10 of the said Act, has submitted a report in favour of the execution of the works; and whereas the Collector's report has received the support of the Commissioner of the Burdwan Division and of the Board of Revenue, by whom it has been submitted for the consideration of the Lieutenant-Governor: now, therefore, the Lieutenant-Governor having considered the said report and the Board's recommendation, is pleased to order, under section 14 of the said Act, that the said sluice shall be constructed and the drainage channel shall be excavated, at an estimated cost of Rs. 1,53,535, in accordance with the plans prepared by the Executive Engineer, Balasore Division, and approved by the Chief Engineer, Irrigation Department.

No. 3227 L.R.—The 30th November 1906.—Babu Prafulla Chandra Ghose, Sub-Deputy Collector, now employed as an Assistant Settlement Officer, Midnapore, is allowed leave for six weeks, under article 260 of the Civil Service Regulations, with effect from the 2nd November 1906, or any subsequent date on which he may avail himself of it.

No. 3230 L.R.—The 29th November 1906.—In exercise of the powers conferred by section 101 (2) (a) of the Bengal Tenancy Act (VIII of 1885), as amended by Act III (B.C.) of 1898, the Lieutenant-Governor of Bengal is pleased to direct that a survey shall be made and a record-of-rights prepared in respect of all lands included in estate Bajoh Pattey, tauzi No. 684, in the district of, Hooghly.

The particulars to be recorded in the survey and record-of-rights shall be the following:—

- (a) the name of each tenant or occupant;
- (b) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat; and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure;
- (c) the situation, quantity and one or more of the boundaries of the land held by each tenant or occupier;
- (d) the name of each tenant's landlord;
- (e) the money-rent payable at the time the record-of-rights is being prepared; or if a produce-rent, the fact that a produce-rent is paid, and the customary terms according to which such rent is paid;
- (f) the mode in which that rent has been fixed—whether by contract, by order of a Court, or otherwise;
- (g) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;
- (h) the special conditions and incidents, if any, of the tenancy;
- (i) if the land is claimed to be held rent-free, whether or not rent is actually paid and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;
- (j) the name of each proprietor, with the character and extent of his interest, and the situation, quantity and one or more of the boundaries of each proprietor's private lands as defined in Chapter XI of the Act;
- (k) the custom of the village regarding the methods of irrigation and the duties and rights of both landlords and tenants with respect to the use and maintenance of the means of irrigation.

No. 3231 L.R.—The 29th November 1906.—In exercise of the powers conferred by section 101 (2) (a) of the Bengal Tenancy Act (VIII of 1885), as amended by Act III (B.O.) of 1898, the Lieutenant-Governor of Bengal is pleased to direct that a survey shall be made and a record-of-rights prepared in respect of all lands included in estate Howrah Chur, tauzi Nos. ³⁹⁰³A, ³⁹⁰³C and ³⁹⁰³D, in the district of Hooghly.

2. The particulars to be recorded in the survey and record-of-rights shall be the following:—

- (a) the name of each tenant or occupant;
- (b) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat; and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure;
- (c) the situation, quantity and one or more of the boundaries of the land held by each tenant or occupier;
- (d) the name of each tenant's landlord;
- (e) the money-rent payable at the time the record-of-rights is being prepared, or if a produce-rent, the fact that a produce-rent is paid and the customary terms according to which such rent is paid;
- (f) the mode in which that rent has been fixed—whether by contract, by order of a Court, or otherwise;
- (g) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;
- (h) the special conditions and incidents, if any, of the tenancy;
- (i) if the land is claimed to be held rent-free, whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;
- (j) the name of each proprietor, with the character and extent of his interest, and the situation, quantity and one or more of the boundaries of each proprietor's private lands, as defined in Chapter XI of the Act;
- (k) the custom of the village regarding the methods of irrigation, and the duties and rights of both landlords and tenants with respect to the use and maintenance of the means of irrigation.

No. 3232L.R.—The 29th November 1906.—In exercise of the powers conferred by section 101 (2) (a) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C.) of 1898, the Lieutenant-Governor of Bengal is pleased to direct that a survey shall be made and a record-of-rights prepared in respect of all lands included in estate Narendrapur, tauzi No. 2884, in the district of Hooghly.

The particulars to be recorded in the survey and record-of-rights shall be the following:—

- (a) the name of each tenant or occupant;
- (b) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat, or under-raiyat, and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of the tenure;
- (c) the situation, quantity and one or more of the boundaries of the land held by each tenant or occupier;
- (d) the name of each tenant's landlord;
- (e) the money-rent payable at the time the record-of-rights is being prepared, or, if a produce-rent, the fact that a produce-rent is paid, and the customary terms according to which such rent is paid;
- (f) the mode in which that rent has been fixed, whether by contract, by order of a Court or otherwise;
- (g) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;
- (h) the special conditions and incidents, if any, of the tenancy;
- (i) if the land is claimed to be held rent-free, whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;
- (j) the name of each proprietor, with the character and extent of his interest, and the situation, quantity and one or more of the boundaries of each proprietor's private lands, as defined in Chapter XI of the Act;
- (k) the custom of the village regarding the methods of irrigation and the duties and rights of both landlords and tenants with respect to the use and maintenance of the means of irrigation.

No. 3255 L.R.—*The 3rd December 1906.*—In exercise of the powers conferred upon him by section 101 (1), Bengal Tenancy Act, VIII of 1885, the 24-Parganas. Lieutenant-Governor, with the previous sanction of the Governor-General in Council, is pleased to direct that a survey shall be made and a record-of-rights be prepared in respect of all lands included in the undermentioned 52 villages in pargana Magura, in the district of the 24-Parganas.

The particulars to be recorded in the survey and record-of-rights shall be the following:—

- (a) the name of each tenant or occupant;

EDUCATION DEPARTMENT, BENGAL.

Subordinate Educational Service.

The 27th November 1906.—Babu Srinibas Singh, Sub-Inspector of Schools, Angul (Class VI), is allowed leave of absence for three months, under article 260 of the Civil Service Regulations, with effect from the 3rd December 1906, or such subsequent date as he may avail himself of it.

Babu Ananta Misra, Education Clerk in the office of the Deputy Commissioner of Angul, is appointed to act as a Sub-Inspector of Schools, Angul, and in Class VIII of the Subordinate Educational Service, during the absence, on leave, of Babu Srinibas Singh, or until further orders.

The 28th November 1906.—Miss L. Slane, an Assistant Mistress in the Dow Hill Girls' School, Kurseong, on probation (substantively *pro tempore* in Class VII), is allowed leave of absence from 15th to 30th November 1906, under article 336 of the Civil Service Regulations.

The 30th November 1906.—Babu Bipin Behari Chatterjia, B.A., an Assistant Master in the Hare School (Class VIII), is allowed leave of absence for two months, under article 336 of the Civil Service Regulations, in extension of the leave granted to him under the orders of the 10th October 1906.

Miss E. Phillips, an Assistant Mistress in the Dow Hill Girls' School, Kurseong (Class VI), is allowed leave of absence from the 17th to 30th November 1906, under article 339 of the Civil Service Regulations.

Babu Hanhar Charan, B.A., Assistant Master (Science Teacher), Patna Collegiate School (substantively *pro tempore* in Class VIII), was absent on leave for six days, under article 272 of the Civil Service Regulations, with effect from the 12th November 1906.

Maulvi Abdul Latif, B.A., Deputy Inspector of Schools, Jessore (Class IV), is allowed leave of absence for five months, viz., two months under article 260 of the Civil Service Regulations and three months under article 317 of the Civil Service Regulations, in extension of one month's leave under article 260 of the Civil Service Regulations, granted to him under the orders of the 31st October 1906.

Babu Hari Charan Mukerjee, Sadar Sub-Inspector of Schools, Nadia (Class V), is appointed to act as Deputy Inspector of Schools, Jessore, during the absence, on leave, of Maulvi Abdul Latif, or until further orders.

The 4th December 1906.—Babu Surendra Mohan Guha, a clerk in the office of the Inspector of Schools, Patna Division, on a salary of Re. 25 a month, acted as Head Clerk of the same office and in Class VIII of the Subordinate Educational Service, during the absence, on privilege leave, of Babu Giria Chandra Nandi from the 6th to the 23rd April 1906, both days inclusive.

Babu Raj Krisna Basu, an assistant in the office of the Director of Public Instruction (Class III), is allowed leave of absence for three months, under article 260 of the Civil Service Regulations, with effect from the 2nd January 1907, or the date on which the office re-opens after the Christmas holidays.

He is also permitted to prefix the Christmas holidays to his leave under article 220 of the Civil Service Regulations.

A. EARLE,
Director of Public Instruction, Bengal.

Orders by the Hon'ble the Vice-Chancellor and Syndicate of the Calcutta University.

1. The following dates have been fixed for holding the Medical and Engineering Examinations in 1907 :—

- M. B. Examination—18th March 1907 and following days.
- L. M. S. Examination—15th April 1907 and following days.
- F. E. Examination—15th April 1907 and following days.
- B. E. Examination—8th July 1907 and following days.

2. With effect from March 1907, Bankura has been appointed a centre for holding the Entrance Examination of this University.

SENATE HOUSE,
The 29th November 1906.

C. LITTLE,
Registrar.

NOTIFICATION.

Annual Examination of Pleders in Surveying.

1. The next Survey Examination for Pleders will be held in February 1907.
2. Applications for admission to appear at the examination should in the first place be submitted to the District Judge in whose Court or in Courts subordinate to whom the Pleders ordinarily practise. The District Judge will require evidence from all applicants that they have undergone some training in practical surveying. He will not countersign the application of a candidate who fails to satisfy him on this point; nor will such a candidate be permitted to appear at the examination.

3. Candidates whose applications have been countersigned by the District Judge must submit their applications to the Director of Public Instruction, and these must be received on or before the 15th December 1906. After this date no more applications will be received.

4. The application should state the centre at which the candidate intends to appear, and all particulars as to the length of time the applicant has practised in the Court, and the full address, etc., necessary to secure that letters will reach the applicant.

5. Each application should be accompanied by the prescribed fee of Rs. 30,* which will in no case be refunded.

6. Only pleaders practising in one of the Courts of the Province of Bengal will be eligible for the examination.

7. The examination will be held at three centres, viz., Patna, Cuttack and Sibpur.

8. The subjects for examination are noted below:—

(1) Paper on General Elementary Surveying, including the theodolite and levelling.

(2) Practical examination in the field in—

(a) Chain, and chain and compass surveying.

(b) Plane-tabling.

(c) Plotting.

(d) Levelling.

(e) The use of the theodolite and the permanent and temporary adjustment of instruments.

9. Candidates are required to secure 40 per cent. of the marks in the paper on surveying and 50 per cent. in the practical portion of the examination.

10. The rules regarding the Pleaders' Survey Examination were published in the *Calcutta Gazette* of the 28th September 1904.

11. The programme for the examination will be published in the *Calcutta Gazette*.

CALCUTTA,
The 14th November 1906.

A. EARLE,
Director of Public Instruction, Bengal.

* The fee must be deposited in the Bank or local Treasury, and the receipt for the same should accompany the application. On no account will cash or a money-order be received.

PRACTICAL SURVEYING EXAMINATION FOR PLEADERS.

FORM OF APPLICATION.*

To

THE DIRECTOR OF PUBLIC INSTRUCTION, BENGAL.

SIR,

I REQUEST permission to appear at the Survey Examination for Pleaders to be held in February 1907, under Government Order No. 2047J.—D., dated 9th October 1901.

The Treasury receipt for Rs. 30 paid as fee is sent herewith.

I wish to be examined at the _____ centre.

I have the honour to be,

SIR,

Your most obedient servant,

Dated _____

Particulars to be filled up by the Candidate.

(1) Name.

(2) Father's name.

(3) Residence.

(4) Name of the district where the candidate }
is practising as a Pleader. }

(5) Date of obtaining the B.L. Degree, or of }
passing the Pleadership examination. }

(6) Where the candidate wishes to be examined.

(7) Caste or creed.

* The application is to be submitted through the District Judge in whose Court or in Court subordinate to whom the candidate ordinarily practises as a Pleader.

Programme of Practical Examination for Pleaders at the Sibpur, Patna and Outlack Centres.

Day.	Date.	Hour.	Subject.	Full Marks.	REMARKS.
Monday	18th Feb. 1907	10 A.M. to 1 P.M.	Question-papers	100	In the Examination Hall.
			(Chain and Compass Surveying.	100]	
Tuesday	19th " " and subsequent days.	4-hour periods morning and afternoon.	Plane-table Surveying ... Levelling ... The use of the theodolite and the adjustment of instruments. Plotting ...	100 100 100 100	In the Field. In the Examination Hall.

Each practical test should be suitable for a single uninterrupted period of four hours.

The order and times of the practical tests will depend on the number of candidates to be examined. They will be arranged for each centre by the officer conducting the examination as he thinks fit. They may be altered during the examination as occasion may arise. Candidates are therefore warned to find out on completing each test when their attendance will be next required.

Candidates must bring their own drawing instruments, scales, etc., each day with them. Paper, drawing-boards and field-books will be supplied.

Surveying instruments will be issued to candidates, who will be held responsible for any damage done to them. Tapes will not be supplied, but may be brought by the candidates, if they wish to use them.

CALCUTTA,
The 14th November 1906.

A. EARLE,
Director of Public Instruction, Bengal.

THE CIVIL ENGINEERING COLLEGE, SIBPUR.

The following courses of instruction are provided at this College.—

Admission qualifications—

As general student, B. A., B Course, of Calcutta University or equivalent.

As special student, satisfactory evidence that the candidate can benefit by the instruction.

For further information apply to the Office Superintendent and Bursar, Civil Engineering College, Sibpur.

SIBPUR,

The 7th June 1906.

B. HEATON.

Principal.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 7131B.

NOTICE is hereby given that the First Sale of Opium, the provision of 1904-05, will be held at the Government Opium Sale-room, No. 2 Bankshall Street, on Thursday, the 3rd January 1907, at 11 a.m., and will comprise 4,400 chests, viz.—

Opium manufactured at the Patna Factory consisting of	...	Chests. 2,200
Ditto at the Ghazipur Factory consisting of	...	2,200
Total	...	4,400

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the notification issued on the 27th November 1906, and published in the *Government and Exchange Gazette*, or on personal application at the office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 8th and 21st January 1907, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 p.m. of Tuesday, the 8th January 1907, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 p.m. of Monday, the 21st January 1907.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the Opium manufactured at the Patna and Ghazipur Factories will be brought to sale between the sale now advertised and December next on or about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so:—

DATE.		Manufactured at the Patna Factory; about chests.	Manufactured at the Ghazipur Factory; about chests.	Total; about chests.
On or about Tuesday, 5th February 1907	...	2,200	2,200	4,400
On or about Tuesday, 5th March	"	2,200	2,200	4,400
On or about Tuesday, 2nd April	"	2,200	2,200	4,400
On or about Wednesday, 1st May	"	2,200	2,200	4,400
On or about Tuesday, 4th June	"	2,200	2,200	4,400
On or about Tuesday, 2nd July	"	2,200	2,200	4,400
On or about Tuesday, 6th August	"	2,200	2,200	4,400
On or about Wednesday 4th September	"	2,200	2,200	4,400
On or about Thursday, 3rd October	"	2,200	2,200	4,400
On or about Friday, 1st November	"	2,200	2,200	4,400
On or about Tuesday, 3rd December	"	2,200	2,200	4,400
Total	...	24,200	24,200	48,400

By order of the Board of Revenue, L. P.,

R. B. MISRA, *Offg. Secretary*.

BOARD OF REVENUE, L. P., CALCUTTA, the 1st December 1906.

No. 7054B.

NOTICE is hereby given that the Provision Opium to be brought forward for sale by public auction in the year 1907, will consist of about 26,400 chests prepared at the Patna Factory, each chest of which is believed to contain 1 maund 18 seers 12 chitaks of pure opium, besides 9 seers 6 chitaks used for pasting the leaves of the shell, and about 26,400 chests prepared at the Ghazipur Factory, each chest of which is believed to contain 1 maund 18 seers 12 chitaks of pure opium, besides 9 seers 6 chitaks used for pasting the leaves of the shell, being of the seasons 1904-1905 and 1905-1906 in the proportion marginally noted.

OPIMUM.
THE HON'BLE MR. W. C. MACPHERSON, C.S.I.

Opium manufactured at the Patna Factory.		Chests.
Supply from 1904-1905	...	26,400
Ditto 1905-1906	...	5,638
Total	...	32,038

Opium manufactured at the Ghazipur Factory.		Chests.
Supply from 1904-1905	...	16,800
Ditto 1905-1906	...	10,800
Total	...	27,600

2. The dates on or about which the sales will be held, and the total quantity of opium, as well as the respective quantities manufactured at the Patna and Ghazipur Factories which will be brought forward for sale every month, are specified below. The Board of Revenue reserve to themselves the right of altering the dates, should circumstances render it expedient to do so. In accordance with the Notification of the Government of India, No. 3494A., dated 22nd June 1906, 2,200 chests of Patna and 2,200 chests of Benares opium will be sold monthly from January to December 1907:—

DATES.		Chests manufactured at the Patna Factory.	Chests manufactured at the Ghazi- pur Factory.	Total chests.	
		2	3	4	
On or about Thursday, 3rd January	1907	...	2,200	2,200	4,400

On or about Tuesday, 4th June	"	...	2,200	2,200	4,400
On or about Tuesday, 2nd July	"	...	2,200	2,200	4,400
On or about Tuesday, 6th August	"	...	2,200	2,200	4,400
On or about Wednesday, 4th September	"	...	2,200	2,200	4,400
On or about Thursday, 3rd October	"	...	2,200	2,200	4,400
On or about Friday, 1st November	"	...	2,200	2,200	4,400
On or about Tuesday, 3rd December	"	...	2,200	2,200	4,400
Total		...	26,400	26,400	52,800

The following are the conditions of sale:—

1. The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2. The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for

which, provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

5. A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulter, whilst any profit accruing from such re-sale shall be forfeited to Government.

6. The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7. The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8. No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9. The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10. Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

11. No deposit of public securities under the fifth of the present conditions will be received in this office, except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12. The officer superintending the sale on the part of the Government is to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bond fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remains a sufficient number of lots of the opium to complete the said twenty-five.

15. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—

No. 1, Certificate of the opium advertised for sale;

No. 2, Report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1905-1906, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Board of Revenue.

18. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

R. B. MISRA,
Offy. Secretary.

CALCUTTA,

The 27th November 1906.

The Calcutta Gazette.

WEDNESDAY, DECEMBER 5, 1906.

PART IA.

[Reprinted from the "Gazette of India" of the 1st December 1906.]

The following order, issued by the Government of India in the Home Department, is republished for general information.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

POLICE.

Calcutta, the 27th November 1906.

No. 1126.—Mr. A. B. Barnard, Deputy Director, Criminal Intelligence, is appointed to officiate as Director, during his absence, on leave, of Sir H. A. Stuart, K.C.V.O., C.S.I., I.C.S. or until further orders.

G. B. H. FELL,
for Secy. to the Govt. of India.

The following orders, issued by the Government of India in the Department of Commerce and Industry, are republished for general information.

R. W. CARLYLE,

Chief Secy. to the Govt. of Bengal.

NOTIFICATIONS.

EXPLOSIVES.

RULES UNDER THE EXPLOSIVES ACT, 1884, FOR THE MANUFACTURE, POSSESSION AND SALE OF EXPLOSIVES.

Calcutta, the 29th November 1906.

No. 9045—8.—In exercise of the powers conferred by sections 5 and 7 of the Indian Explosives Act, 1884 (IV of 1884), the Governor-General in Council is pleased to make the following rules to regulate the manufacture, possession and sale of explosives in British India.

All rules heretofore made by the Governor-General in Council or any Local Government under the said Act, for regulating the manufacture, possession or sale of explosives, are hereby cancelled, except rules of the kind referred to in clause (2) of rule 1 of the present rules.

Preliminary.

1. These rules shall not apply to—
- (1) the manufacture, possession or sale of gunpowder in any of the Agency tracts in the Ganjam, Vizagapatam and Godavari Districts of the Presidency of Madras, or
 - (2) the possession of any explosive in any port in which special rules made by the Local Government under the Explosives Act, 1884 (IV of 1884), for regulating the possession of explosives, are for the time being in force.
2. (1) For the purposes of these rules, explosives shall be classified as follows, namely:—

Class 1	Gunpowder.
" 2	Nitrate-mixture.
" 3	Nitro-compound.
" 4	Chlorate-mixture.
" 5	Fulminate.
" 6	Ammunition.
" 7	Firework.

(2) When any explosive falls within more than one of the said classes, it shall be deemed to belong exclusively to the latest of such classes.

3. The expression "gunpowder," as used in these rules, means exclusively gunpowder ordinarily so-called.

4. The expression "nitrate mixture," as used in these rules, means any preparation, other than gunpowder, which is formed by the mechanical mixture of a nitrate with any form of carbon or with any carbonaceous substance not possessed of explosive properties, whether sulphur be or be not added to such preparation, and whether such preparation be or be not mechanically mixed with any other non-explosive substance.

* Further exemptions are made by section 14 of the Indian Explosives Act, 1884, which runs as follows:—

Saving for manufacture, possession, use, sale, transport or importation by Government.

"Nothing in this Act shall apply to the manufacture, possession, use, sale, transport or importation of any explosive—

(a) by order of the Government, or

(b) by any person employed under the Government in the execution of this Act, or as a keeper of a magazine, artisan, soldier, sailor, policeman or otherwise, or enrolled as a volunteer under the Indian Volunteers Act 1869, in the course of his employment or duty as such."

Nitrate-mixture includes among other explosives,—

Chilworth special powder,
Fortis explosive,

Westfallite.

Ripp-Lene,
Safety blasting powder, and

5. (1) The expression "nitro-compound," as used in these rules, means any chemical compound which is possessed of explosive properties or is capable of combining with metals to form an explosive compound, and is produced by the chemical action of nitric acid (whether mixed or not with sulphuric acid), or of a nitrate mixed with sulphuric acid upon any carbonaceous substance, whether such compound is mechanically mixed with other substances or not. Definition and sub-division of "nitro-compound" (class 3).

(a) Nitro-compound shall, for the purposes of these rules, be sub-divided as follows, namely:—

(a) Division 1, comprising—

(i) such explosives as—

Amberite No. 1,
Ballistite,
Blasting gelatine,
Carbonite,
Cordite,

Dynamite,
Gelatine dynamite,
Gelignite,
Lithofracteur,
Nitro-glycerine, and

Stonite, and

(ii) any chemical compound or mechanically mixed preparation which consists, either wholly or partly, of nitro-glycerine or some other liquid nitro-compound; and

(b) Division 2, comprising—

(i) such explosives as—

Amberite No. 2,
Ammonite,
Bellite,
Coopal's powder,
Cotton gunpowder,
E. C. powder,
Gun-cotton ordinarily so-called,

Nitrated gun-cotton,
Picrates,
Picric powder,
Roburite,
Sawdust and gun-cotton powder,
Schultz's powder, and
Tonite (or cotton powder), and

(ii) any nitro-compound, as hereinbefore defined, which is not comprised in Division 1.

6. (1) The expression "chlorate-mixture," as used in these rules, means any explosive containing a chlorate. Definition and sub-division of "chlorate-mixture" (class 4).

(2) Chlorate-mixture shall, for the purposes of these rules, be sub-divided as follows, namely:—

(a) Division 1, comprising—

(i) such explosives as—

Horsley's blasting powder, and
Brain's blasting powder, and

(ii) any chlorate preparation which consists partly of nitro-glycerine or of some other liquid nitro-compound; and

(b) Division 2, comprising—

(i) such explosives as—

Horsley's original blasting powder,
Erhardt's powder,
Reveley's powder,

Hochstadter's blasting charges,
Reichen's blasting charges,
Teutonite, and

Chlorated gun-cotton, and

(ii) any chlorate-mixture, as hereinbefore defined, which is not comprised in Division 1.

definition and sub-
division of "fulmi-
nate" (class 5).

7. (1) The expression "fulminate," as used in these rules, means any chemical compound or mechanical mixture, whether included in any of the foregoing definitions or not, which, from its great susceptibility to detonation, is suitable for employment in percussion-caps or any other appliance for developing detonation, or which, from its extreme sensibility to explosion and from its great instability (that is to say, readiness to undergo decomposition from very slight exciting causes), is especially dangerous.

(2) Fulminate shall, for the purposes of these rules, be sub-divided as follows namely:—

(a) Division 1, comprising such compounds as the fulminates of silver and of mercury, and preparations of those substances, such as are used in percussion-caps, and any preparation consisting of a mixture of a chlorate with phosphorous, or certain descriptions of phosphorous compounds, with or without the addition of carbonaceous matter, and any preparation consisting of a mixture of a chlorate with sulphur, or with sulphuret, with or without carbonaceous matter; and

(b) Division 2, comprising such substances as the chloride and the iodide of nitrogen, fulminating gold and silver, diazobenzol, and the nitrate of diazobenzol.

definition of ammuni-
tion, "percussion-
cap," "detonator,"
"safety fuze" and
"safety cartridge,"
and sub-division of
ammunition" (class 6).

8. (1) The expression "ammunition," as used in these rules, means any explosive included in any of the foregoing definitions, when the same is enclosed in any case or contrivance, or is otherwise adapted or prepared, so as to form—

(a) a cartridge or charge for small-arms cannon or any other weapon, or for blasting, or

(b) a safety or other fuze for blasting or for shells, or

(c) a tube for firing explosives, or

(d) a percussion-cap, a detonator, a fog-signal, a shell, a torpedo, a war-rocket, or any other contrivance other than a firework.

(2) The expression "percussion-cap," as used in these rules, does not include a detonator.

(3) The expression "detonator," as used in these rules, means a capsule or case which is of such strength and construction, and contains fulminate in such quantity, that the explosion of one capsule or case would communicate the explosion to other like capsules or cases.

(4) The expression "safety fuze," as used in these rules, means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction, and contains an explosive in such quantity, that the burning of such fuze would not communicate laterally with other like fuzes.

(5) The expression "safety cartridge," as used in these rules,—

(i) means a cartridge for small-arms, the case of which can be extracted from the small-arm after firing, and which is so closed as to prevent any explosion in one cartridge being communicated to other cartridges; and

(ii) includes a rifle-calibre machine-gun cartridge, if it is as described in clause (i), whether it is for use with a machine-gun having chambers identical with those of rifles or with a machine-gun having special chambers;

Provided that the diameter of the cartridge in either case (i) or case (ii) does not exceed one inch.

(6) Ammunition shall, for the purposes of these rules, be sub-divided as follows, namely:—

(a) Division 1, comprising exclusively—

Safety cartridges,

Safety fuzes for blasting,

Railway fog-signals, and

Percussion-caps; and

- (b) Division 2, comprising any ammunition, as hereinbefore defined, which does not contain its own means of ignition and is not included in Division 1, such as—

Cartridges for small-arms, other than safety cartridges,

Cartridges and charges for cannon, shells, mines, blasting or other like purposes,

Shells and torpedoes containing any explosive,

Fuzes for blasting, other than safety fuzes,

Fuzes for shells,

Tubes for firing explosives, and

War-rockets,

which do not contain their own means of ignition, and

- (c) Division 3, comprising any ammunition, as hereinbefore defined which contains its own means of ignition and is not included in Division 1, such as—

Detonators,

Cartridges for small-arms which are not safety cartridges,

Fuzes for blasting, which are not safety fuzes.

Fuzes for shells, and

Tubes for firing explosives,

containing their own means of ignition.

Explanation.—The expression “ammunition containing its own means of ignition” means ammunition having an arrangement, whether attached to or forming part of the ammunition, which is adapted to explode or fire the ammunition by friction or percussion.

- 9 Fireworks shall, for the purposes of these rules, be sub-divided as follows, namely :— Sub-division
“firework” (c)

- (1) Division 1, comprising firework compositions, that is to say,—

(a) any chemical compound or mechanically mixed preparation of an explosive or inflammable nature, which is used for the purpose of making manufactured fireworks, and is not included in any of the foregoing definitions,

(b) any star, and

(c) (except as declared in the proviso to this rule) any coloured fire composition; and

- (2) Division 2, comprising manufactured fireworks, that is to say, any explosive of class 1, 2, 3, 4, 5 or 6 and any firework composition, when such explosive or composition is enclosed in any case or contrivance, or is otherwise manufactured so as to form a squib, cracker, toy cap or amorce, serpent, rocket (other than a war-rocket), maroon, lance, wheel, Chinese fire, Roman candle, or other article specially adapted for the production of pyrotechnic effects or pyrotechnic signals or sound signals :

Provided that a substantially constructed and hermetically closed metal case containing not more than one pound of coloured fire composition of such a nature as not to be liable to spontaneous ignition shall be deemed to be a “manufactured firework” and not “firework composition.”

Licenses when required.

10. (1) An explosive shall not be manufactured except under, and in accordance with the conditions of, a license granted under these rules for such manufacture. License when
required for ma-
ture.

- (2) Provided that clause (1) of this rule shall not apply—

(a) to the making of a small quantity of an explosive for the purpose of chemical experiment and not for practical use or for sale; or

- (b) to the filling for private use, and not for sale, of any safety cartridges to the amount allowed by these rules to be possessed for private use ; or
- (c) in the case of any person who holds a license under these rules to possess an explosive, and who, duly observing the regulations prescribed in clause (1) of rule 30 in connection with his magazine or licensed premises, fills with the said explosive, for sale or otherwise, cartridges for small-arms ; or
- (d) in the case of any person who holds a license under these rules to possess an explosive, and who, duly observing the regulations prescribed in clause (2) of rule 30 in connection with his magazine or licensed premises, by filling cartridges, making charges, or drying, sifting, fitting or otherwise, adapts or prepares the said explosive for use exclusively in his mine or quarry or in some excavation or work carried on by him or under his control.

license when re-
ad for possession.

11. (1) An explosive shall not be possessed except under, and in accordance with the conditions of, a license granted under these rules for such possession.

(a) Provided that clause (1) of this rule shall not apply to the possession—

- (a) of any explosive by a carrier or other person for the purpose of transport, when the same is being kept or transported in accordance with rules made under the Indian Explosives Act, 1884 (IV of 1884), and for the time being in force for regulating the transport of such explosive ; or
- (b) of any explosive on board any ship in pursuance of the Merchant Shipping Acts for the time being in force, or of any order or regulation for the time being in force thereunder ; or
- (c) by any person who is lawfully entitled under the Indian Arms Act, 1878 (XI of 1878), or the rules for the time being in force thereunder, to possess any explosive coming under the head of ammunition as defined in that Act, of such explosives in such quantities as may be prescribed by the said Act, or rules, or, when no quantities are so prescribed, in reasonable quantities for his own private use ; or
- (d) by any person, of manufactured fireworks in any quantity not exceeding two hundred pounds when the same are obtained and intended for immediate use and not for sale, and are possessed by such person for a period not exceeding fourteen days, and
 - (i) not being in Burma, when they are kept in a substantial receptacle which is exclusively appropriated to the keeping of explosives and is closed and secured so as to prevent unauthorised persons from having access to the explosives ; and (if such fireworks be kept in a municipality in any quantity exceeding fifty pounds) when they are covered by a permit issued by a Magistrate of the first class or a Police-officer not below the rank of Assistant District Superintendent of Police, and
 - (ii) being in Burma, when they are covered by a permit issued free of cost by a Magistrate of the first class or by a Police-officer not below the rank of a District Superintendent of Police requiring them to be kept in a separate closed receptacle in a building or excavation at a safe distance from any dwelling-house, shop or public way, and when they are kept in accordance with the terms of such permit.

(3) Provided also that clause (1) of this rule shall not apply to the possession by any person, for his private use and not for sale, of

- (i) gunpowder in any quantity not exceeding thirty pounds ; or
- (ii) safety cartridges made with gunpowder and containing in all not more than one hundred and fifty pounds of gunpowder ; or
- (iii) cartridges (non-safety) for small-arms, made with gunpowder and containing in all not more than five pounds of gunpowder ; or

- (iv) cartridges for cannon or blasting, made with gunpowder and not containing their own means of ignition, and containing in all not more than thirty pounds of gunpowder; or
- (v) cartridges for small-arms, made with small-arm nitro-compound and containing in all not more than ten pounds of small-arm nitro-compound; or
- (vi) small-arm nitro-compound in any quantity not exceeding ten pounds; or
- (vii) percussion-caps or safety fuzes for blasting; or
- (viii) railway fog-signals, when kept by a railway company for use on their Railway; or
- (ix) any other explosives in any quantity not exceeding ten pounds (whether or not contained in cartridges), or, in the case of detonators, in any quantity not exceeding one hundred in number; provided that the possession of the explosives is covered by a permit issued by a Magistrate of the first class or a Police-officer not below the rank of Assistant District Superintendent of Police.

(4) The quantity of any kind of explosive kept by any person for his private use under clause (3) without a license shall be in substitution for the like quantity of any other kind of explosive (whether gunpowder or not) which might otherwise be so kept by him; and the quantity of such other kind of explosive shall be reduced accordingly. Provided that, if the explosive so kept is in any other form than that of cartridges for small-arms, the explosive of which the quantity is so reduced shall be some explosive other than safety cartridges made with gunpowder.

(5) Notwithstanding anything contained in clause (3) or clause (4) of this rule, clause (1) shall apply to the possession for private use of explosives of the 5th (fulminate) class in any quantity.

12. Nothing in these rules shall be deemed to authorise the manufacture or possession of any explosive in contravention of any prohibition notified under section 6 of the Indian Explosives Act, 1884 (IV of 1884), and for the time being in force.

13. (1) An explosive shall not be sold except under, and in accordance with the conditions of, a license granted under these rules for such sale.

(2) Provided that clause (1) of this rule shall not apply to the sale by any person of an explosive, which he is lawfully entitled to possess for his own private use, to any person who is lawfully entitled to possess the same.

Saving of notifications under section 6 of the Explosives Act, 1884.

License when required for sale.

Grant of licenses.

14. (1) Licenses to manufacture, possess and sell or to possess and sell, or to possess, or to sell from stock kept in a magazine in respect of which a license has been granted under rule 17—

Grant of licenses for manufacture, possession and sale in certain cases.

- (a) an explosive of the 1st (gunpowder) class, or
- (b) small-arm nitro-compound belonging to the 3rd class, or
- (c) an explosive of the 1st division of the 6th (ammunition) class, or
- (d) an explosive of the 7th (firework) class,

may be granted in a Presidency-town or its suburbs or in Rangoon by the Commissioner of Police, and elsewhere by the District Magistrate.

(2) A license granted under this rule shall not entitle the licensee to possess at the same time more than—

- (i) two hundred pounds of gunpowder or small-arm nitro-compound, together with any quantity of explosives contained in ammunition of the 1st division of the 6th (ammunition) class, or
- (ii) two hundred pounds of manufactured fireworks, or
- (iii) sixty pounds of explosives (including gunpowder, small-arm nitro-compound and manufactured fireworks), together with any quantity of explosives contained in ammunition of the 1st division of the 6th (ammunition) class, or
- (iv) any such less quantity of any of the said explosives as the licensing officer may think fit to specify in the license:

Provided that a licensee in the Presidency of Madras, may, if he obtains a permit to this effect from a Magistrate of the 1st class or a Police-officer not below the rank of

Assistant District Superintendent of Police, possess subject to the conditions of his license, for a period of two days at the time of the Dipavali Festival, any quantity of manufactured fireworks not exceeding 1,000 lbs.

(3) Every such license shall specify the place in which alone the explosives referred to in it may be kept; and such place shall (except in the case of a license to sell from stock kept in a magazine in respect of which a license has been issued under rule 17) be approved by the licensing authority.

(4) Notwithstanding anything contained in the foregoing clauses of this rule, any Mamlatdar or Mahalkari in the Presidency of Bombay who is specially authorised by the District Magistrate in this behalf may grant licenses entitling *bona fide* agriculturists residing within the limits of the taluka under the charge of such Mamlatdar or Mahalkari to possess at the same time not more than one hundred pounds of gunpowder and not more than ten safety fuses for use with the same.

(5) Every license granted under this rule shall be in Form A, Form B, Form C, Form D, or Form E, in the Schedule hereto annexed, as the case may be, and shall contain the conditions prescribed therein.

(6) The expression "small-arm nitro-compound", as used in this rule, means a nitro-compound adapted and intended exclusively for use in cartridges for small-arms.

Grant of licenses for manufacture in cases not provided for by rule 14. (1) Licenses to manufacture explosives in cases not provided for by rule 14 may be granted by the Governor General in Council.

(2) Every such license shall be in such form and shall contain such conditions as may be prescribed by the Governor General in Council:

Provided that the conditions so prescribed in the case of the manufacture of any explosive in any quantity shall comprise all the conditions prescribed in these rules and the Forms hereto annexed in the case of the possession of such explosive in such quantity.

Grant of licenses for possession in certain cases not provided for by rule 14. (1) Licenses for the possession, at such places as may be approved by the licensing officer, of explosives other than those specified in rule 14 may, if the explosive is not one of the 5th (fulminate) class, and if the quantity to be possessed at the same time does not exceed sixty pounds, be granted in a Presidency-town or its suburbs or in Rangoon by the Commissioner of Police, and elsewhere by the District Magistrate.

(2) Every such license shall be in Form F in the Schedule hereto annexed and shall contain the conditions prescribed therein.

Grant of licenses for possession in, and sale from, a magazine in certain other cases. (1) Licenses for the possession of explosives in, and the sale of explosives from, a magazine in cases not provided for by rules 14 and 16, may, if the explosive is not one of the 5th (fulminate) class, be granted by the Local Government, or by any officer authorised by the Local Government in this behalf.

(2) An applicant for such a license must submit to the District Magistrate, or, in a Presidency-town or any of its suburbs, or in Rangoon, to the Commissioner of Police, an application in Form G in the Schedule hereto annexed, and shall comply with the conditions embodied therein.

(3) Upon receipt of the said application, the District Magistrate or Commissioner of Police, as the case may be, shall forthwith cause notice to be published of the application and fix a day on which will be heard any persons who object to the establishment of a magazine on the proposed site and who have, not less than seven clear days before the day of hearing, sent to the said District Magistrate or Commissioner of Police, and to the applicant, notice of their intention to appear and object with their name, address and calling, and a short statement of the grounds of their objection.

(4) The day of hearing to be fixed under clause (3) shall be a day following soon after the expiration of a period of one month from the publication and service of the notices prescribed by this rule.

(5) Where the site of the proposed magazine lies within, or within one mile of the limits of the jurisdiction of any Municipal Authority or Port Authority, the applicant shall previously, or service on such Authority, a notice of the application and of the said day of hearing.

(6) The notice by the District Magistrate or Commissioner of Police under clause (3) shall be published, and the notice under clause (5) shall be served, at the cost of the applicant, by the District Magistrate or Commissioner of Police, not less than one month before the said day of hearing.

(7) On consideration of the application, and on making such inquiry as he may deem necessary, the District Magistrate or Commissioner of Police may dissent altogether from the establishment of the magazine on the proposed site, or may assent thereto, either absolutely, or on any conditions requiring additional restrictions or precautions.

(8) On the completion of the inquiry, the District Magistrate or Commissioner of Police shall forward the application and draft license with his recommendation to the Chief Inspector of Explosives, who shall forward to the applicant a statement in Form H in the Schedule hereto annexed, showing the distances which should, in his opinion, be kept clear round the

magazine. The table of distances which will ordinarily be followed is that annexed to these rules.

(9) The said Form H shall be returned, with the third column duly filled in, by the applicant to the Chief Inspector of Explosives, who shall submit it to the licensing authority constituted by clause (1) of this rule, with his recommendations, and with the draft license and a statement in Form I showing the distances which, after considering any representation made by the applicant when returning Form H to him, he considers should be kept clear round the magazine.

(10) The licensing authority may thereupon grant the license as applied for, or with such modifications or restrictions as may be deemed proper, or may reject the application.

(11) A copy of each license granted shall be forwarded to the Chief Inspector of Explosives, and the original license shall be forwarded to the District Magistrate or to the Commissioner of Police, as the case may be, if the license has not been granted by him.

(12) The District Magistrate or Commissioner of Police, when satisfied that the magazine is sufficiently completed according to the license to justify the use thereof, shall confirm the license; and unless and until so confirmed the license shall not come into force.

(13) If the District Magistrate or Commissioner of Police decides not to confirm any license, he shall forthwith inform the Chief Inspector of Explosives.

(14) Every license granted under this rule shall be in Form J in the Schedule hereto annexed, and shall contain the conditions prescribed therein.

18. (1) With the previous sanction of the Governor General in Council, the Local Government may, in cases of urgency and for any period not exceeding six months, grant a license for the possession of explosives under rule 17 in a floating magazine. Grant of license for possession in floating magazine.

(2) Notwithstanding anything contained in clause (14) of rule 17, such licenses shall be in Form K in the Schedule hereto annexed, and shall contain the conditions and restrictions prescribed therein and such further conditions and restrictions (if any) as the Local Government may in any case direct.

19. Licenses for the possession of explosives of the 5th (fulminate) class may be granted by the Governor General in Council in such form, and subject to such conditions, as he may in each case prescribe. Grant of license for possession of fulminates.

20. (1) Licenses for the sale of explosives in cases not provided for by rules 14 and 17 may be granted, in a Presidency-town or its suburbs or in Rangoon, by the Commissioner of Police, and elsewhere by the District Magistrate, to any person licensed to possess the same. Grant of license for sale in cases not provided for by rules 14 and 17.

(2) Every such license shall be in Form L in the Schedule hereto annexed, and shall contain the conditions prescribed therein.

Duration of licenses.

21. All licenses granted under any of these rules except rule 18 shall expire on the 31st day of December of the year for which they are granted. Duration of licenses.

Renewal of licenses.

22. The Local Government may from time to time, renew, on the same or on altered conditions, any license granted by the Governor General in Council under rule 15 for the manufacture of explosives: Renewal of license granted under rule 15.

Provided as follows:—

(1) no such renewal shall admit of the manufacture of any explosive other than that specified in the original license;

(2) every such renewal shall first be approved by an Inspector of Explosives; and

(3) every such renewal shall be for a period not exceeding one year.

23. (1) Any licensee who desires the renewal of a license granted under rule 17 must, before the expiration of the license, submit the license to the Chief Inspector of Explosives with a written application stating the quantity and description of explosives for the storage of which he desires the license to be renewed. Renewal of license granted under rule 17.

(2) On receipt of such application the Chief Inspector of Explosives shall, if there is any variation in the particulars of the license, send to the applicant a statement in Form H in the schedule hereto annexed, showing the distances which should, in his opinion, be kept clear round the magazine.

(3) The procedure prescribed in clauses (9) to (13) of rule 17 shall then be followed, so far as it is applicable.

24. Any license granted under any of these rules other than rule 15 or rule 17 may, unless the circumstances have so changed that the grant of a new license either would not be authorised under the Indian Explosives Act, 1884 (IV of 1884), and these rules, or is deemed objectionable by the licensing authority, be renewed on application made previous to its expiration. Renewal of license.

Duplicate licenses.

Grant of duplicate
license.

25. When a license granted under these rules is lost or accidentally destroyed, a duplicate may be granted to the licensee.

Temporary licenses.

Grant of stock
license on ex-
piration or forfeiture
of license.

26. (1) A person licensed to manufacture, possess or sell any explosives shall, on the expiration or forfeiture of his license, forthwith give notice to the District Magistrate or the Commissioner of Police, as the case may be, of the quantity of such explosives then in his possession, and shall comply with any directions which the said Magistrate or Commissioner may think fit to give in regard to the possession or transport of the same.

(2) On receiving a notice under clause (1) of this rule, the said Magistrate or Commissioner may grant, for a term not exceeding three months, a temporary license for the possession or sale of the actual stock of explosives which is held at the time of the issue of such license.

Fees for licenses.

Amount of fees.

27. The following fees shall be charged for licenses granted under these rules, namely:—

A—Each license granted under rule 14—

- (1) to manufacture, possess and sell the maximum quantity of explosives mentioned in the said rule, or any less quantity exceeding one-half Twenty rupees;
- (2) to manufacture, possess and sell half the quantity of explosives mentioned in the said rule, or any less quantity exceeding one-fourth Ten rupees;
- (3) to manufacture, possess and sell a fourth of the quantity of explosives mentioned in the said rule, or any less quantity Five rupees;
- (4) to possess and sell the maximum quantity of explosives mentioned in the said rule, or any less quantity exceeding one-half Ten rupees;
- (5) to possess and sell half the quantity of explosives mentioned in the said rule, or any less quantity exceeding one-fourth Five rupees;
- (6) to possess and sell a fourth of the quantity of explosives mentioned in the said rule, or any less quantity Two rupees and eight annas;
- (7) to possess explosives Eight annas;

Provided that only one-half of the fees prescribed above shall be charged in the case of licenses, in Form D, to manufacture, possess and sell or to possess and sell fireworks in villages or other rural areas.

B—Each license granted under—

- rule 15 or rule 19 Such fee as the Governor-General in Council may in each case prescribe.
- rule 16 or rule 20 Five rupees.
- rule 17 or rule 18 Twenty rupees.

C—Each license on renewal The same fee as that charged for the original license.

D—Each duplicate license granted under rule 25. Eight annas.

E—Each temporary license granted under rule 26. A fee bearing the same proportion to the fee charged for the annual license as the period covered by the temporary license bears to a full year.

F—Each new license granted under rule 37. One rupee.

28. Notwithstanding anything contained in rule 27—

Exemptions from
payment of fees.

(1) the holder of a license duly granted in Form VI-B, or in Form VII-B, under rule 11 of the rules made under the Indian Arms Act, 1878 (XI of 1878), may on production of such license before the District Magistrate or in a Presidency-town or its suburbs or in Rangoon, before the Commissioner of Police, be granted a license under rule 14 of these rules without payment of any fee, and

(2) no fee shall be charged for licenses granted to contractors, cultivators or other persons to possess gunpowder, fuses or other explosives in reasonable quantities when the same are proved to the satisfaction of the officer granting the license to be required *bona fide* for blasting purposes.

Stamps for pay-
ment of fees.

29. (1) The fees chargeable under these rules shall ordinarily be levied by means of impressed stamps. An application for the grant or the renewal of a license shall bear the proper stamp: provided that if the application is refused, the value of the separate stamp (if any) which may have been already provided by the applicant for the desired license

or renewed license, *minus* the deductions prescribed by section 54 of the Indian Stamp Act, 1899 (II of 1899), may be refunded to the applicant. An application should not be made on the stamped paper intended for the license or renewed license; but where this has been wrongly done, the value of the stamp may be refunded *minus*—

- (i) the value of the stamp which should have been affixed to the application, and
 - (ii) the deductions prescribed as aforesaid.
- (2) Where the fees liable under these rules have been made over to any local body, the fees shall be paid in such manner as that local authority may from time to time direct.

Supplemental provisions.

30. (1) When any person referred to in sub-clause (c) of clause (2) of rule 10 fills cartridges as indicated in that sub-clause he shall see to the observance of the following regulations, namely:—

Regulations to be observed by certain persons who are exempted from taking out a license for manufacture.

- (a) there shall not be in the room in which such filling is being carried on more than five pounds of gunpowder or small-arm nitro-compound or such quantity of any other explosive as is prescribed by the Local Government in this behalf, unless it is made up into safety cartridges;
- (b) no work unconnected with the making of the cartridges shall be carried on in the said room while such filling is being carried on;
- (c) there shall not be in the said room, while such filling is being carried on, any fire or any artificial light except a light of such construction, position and character as no to cause any danger of fire or explosion;
- (d) if filling is done on a magazine premises the said room shall be detached from the magazine, but shall be situated in the immediate neighbourhood thereof, and shall be situated at such distance therefrom as may be specified on the license by the authority granting the same; and
- (e) the licensee shall give notice to the authority which granted his license that he intends to carry on such filling of cartridges as is allowed by this rule.

(2) When any person referred to in sub-clause (d) of clause (2) of rule 10 adapts or prepares explosives as indicated in that clause, he shall see to the observance of the following regulations, namely:—

- (i) there shall not be in the workshop in which such adaptation or preparation is carried on more than one hundred pounds of gunpowder, or such quantity of any other explosive as is prescribed by the Local Government in this behalf;
- (ii) no work unconnected with such adaptation or preparation shall be carried on in the said workshop while such adaptation or preparation is being carried on;
- (iii) the said workshop shall be detached from the magazine or licensed premises, but shall be situated in the immediate neighbourhood thereof, and shall be situated at such distance therefrom as may be specified on the license by the authority granting the same;
- (iv) an explosive of one description shall not be converted into an explosive of another description, and an explosive shall not be unmade or resolved into its ingredients; and
- (v) the licensee shall give notice to the authority which granted his license that he intends to carry on such adaptation or preparation as is allowed by this rule.

31. Any authority granting a license under these rules may, if such authority thinks fit, direct, by an order written on the license, that it shall have the effect of a like license granted by the like authority under the Indian Arms Act, 1878 (XI of 1878).

Power to extend effect of license.

32. (1) Any of the officers mentioned in clause (2) of this rule may, within the areas respectively specified in that clause, but subject to the provisions of the Indian Arms Act, 1878 (XI of 1878), and of any rules for the time being in force thereunder, in cases to which that Act applies—

Powers of inspection, search, seizure, etc.

- (a) enter, inspect and examine any place, carriage or vessel in which an explosive is being manufactured, possessed or sold under a license granted under these rules or any prior rules made under the Indian Explosives Act, 1884 (IV of 1884), or in which he has reason to believe that an explosive has been or is being manufactured, possessed or sold in contravention of the said rules or Act;
- (b) search for explosives therein;
- (c) take samples of any explosives found therein, on payment of the value thereof; and
- (d) seize, detain, remove and, if necessary, destroy or otherwise render harmless any explosive found therein in respect of which he has reason to believe that any of the provisions of the said rules or Act have been contravened.

(2) The officers and areas referred to in clause (1) of this rule are:—

Officers.

Areas.

The Chief Inspector and Inspector of Explosives.
All District Magistrates.
All Magistrates subordinate to the District Magistrate.
The Commissioner of Police, and all Police-officers of rank not below that of Inspector, if specially deputed in this behalf by the Commissioner of Police.
All Police-officers of rank not below that of Inspector.

In all parts of British India.
Within their respective Districts.
Within the areas respectively subject to their jurisdiction.
In Presidency-towns and Rangoon.
Within the respective areas over which their authority extends.

(3) Whenever the Chief Inspector or an Inspector of Explosives, or any Magistrate subordinate to the District Magistrate, or any Police-officer seizes, detains or removes any explosive under this rule, he shall report the fact to the District Magistrate or (in a Presidency-town or its suburbs or in Rangoon) the Commissioner of Police.

(4) Neither the Chief Inspector nor an Inspector of Explosives, nor any Magistrate subordinate to the District Magistrate, nor any Police-officer shall under these rules destroy or otherwise render harmless any explosive without the previous sanction of the District Magistrate or (in a Presidency-town or its suburbs or in Rangoon) the Commissioner of Police, unless the matter appears urgent and fraught with serious public danger.

(5) Whenever any officer destroys any explosive or otherwise renders it harmless, he shall take and keep a sample thereof, and shall, if required, give a portion of the sample to the person owning the explosive or having the same under his control at the time of seizure; and whenever any officer other than the District Magistrate or Commissioner of Police so deals with any explosive, he shall report the circumstances to the District Magistrate or (in a Presidency-town or its suburbs or in Rangoon) the Commissioner of Police.

Production of license or authenticated copy thereof.

33. (1) Every person holding a license, or acting under a license, granted under these rules, shall be bound to produce the same, or an authenticated copy kept at the magazine or place to which the license applies, when called upon to do so by any Inspector of Explosives, any Magistrate, any Police-officer in charge of a police-station, or any Police-officer of higher rank.

(2) Copies of any such license may, for the purposes of this rule, be authenticated free of charge by any of the officers aforesaid or by the authority which granted the license.

Control over officers.

34. All Magistrates and other authorities shall, in the exercise of their functions under these rules, be subject to the control of their immediate executive superiors and of the Local Government.

Penalties.

Fines.

35. Whoever commits any offence mentioned in column 1 of the following table shall be punishable with fine which may extend to the amount mentioned in that behalf in column 2 of that table:—

1	2
Offences.	Fine which may be imposed.
Manufacturing an explosive in contravention of rule 10.	Three thousand rupees.
Possessing an explosive in contravention of rule 11.	One thousand rupees.
Selling an explosive in contravention of rule 13.	Five hundred rupees.
Committing a breach of any condition in a license granted under—	
rule 14 or rule 20	Five hundred rupees.
rule 16, rule 17, rule 18, or rule 19	One thousand rupees.
rule 15	Three thousand rupees.
Possessing or transporting an explosive in contravention of any direction given under rule 26, clause (1).	One thousand rupees.
Failing to produce a license or an authenticated copy thereof, when called upon to do so under rule 33, clause (1).	Two hundred rupees.

Forfeiture of licenses.

36. Every license granted under these rules shall be liable to be forfeited on breach of any of the conditions contained therein.

Exemption from penalties of persons carrying on business of deceased or disabled licensee.

37. If any person licensed to manufacture, possess or sell an explosive dies or becomes bankrupt, or becomes mentally incapable or otherwise disabled, the person carrying on the business of such licensee shall not be liable to any penalty under these rules for carrying on the business or acting under the license during such reasonable time as may be necessary to admit of his making an application to the authority which granted the license for a new license in his own name during the currency of the unexpired portion of the original license.

W. L. HARVEY,

Secretary to the Government of India.

SCHEDULE.

FORM A.

(See rule 14.)

[FEE RUPEES IN STAMPS.]

License to manufacture, possess and sell gunpowder, or small-arm nitro-compound, or an explosive of the 1st Division of the 6th (Ammunition) Class, or (elsewhere than in villages or other rural areas) an explosive of the 7th (Firework) Class.

[Granted in a Presidency-town or its suburbs or in Rangoon by the Commissioner of Police, and elsewhere by the District Magistrate.]

Name, etc., of licensee and place of residence.	Place of business, factory or shop.	Maximum quantity of explosive to be possessed at any one time.	Description and quantity of explosive to be manufactured during the year.	Description and quantity of explosive to be possessed and sold during the year.	Date on which license expires.

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The licensee shall keep records and accounts of all explosives manufactured, of all stock in hand, and of all sales, in such form as the Local Government may from time to time direct.

3. The licensee shall exhibit his stock and his books and records of manufacture and sales to any Magistrate or to any Police-officer not below the rank of Inspector, whenever such Magistrate or officer may call upon him so to do.

4. (1) The explosive shall be manufactured in a tent or lightly constructed building exclusively appropriated for the purpose and, separated from any dwelling-house, highway, street, public thoroughfare or public place by the distance—

(a) in the case of gunpowder or small-arm nitro-compound, of one hundred yards, or

(b) in the case of an explosive of the 1st division of the 6th (ammunition) class, or of the 7th (firework) class, of fifty yards.

(2) In the case of filling cartridges for small arms the operation may, if preferred, be carried out in the upper room of a building to which the conditions in clause (1) as to distance shall not apply: Provided that no more than five pounds of explosive (except such as may be contained in safety cartridges) shall be in the room where the operation is being carried on.

(3) In all other cases the manufacture shall be carried on in a one-storeyed building.

5. The number of persons employed in manufacture in any one building or room shall not exceed six, and only persons actually manufacturing or superintending manufacture shall be allowed inside the place of manufacture.

6. No iron or steel implements shall be used in manufacture. Only copper, gun-metal or wooden tools are permissible.

7. All explosives, as manufactured, shall be removed without delay to a safe place of storage, and no explosives shall be allowed to accumulate in the place of manufacture.

8. Manufacture shall only be carried on between sunrise and sunset.

9. No smoking or lights shall be allowed in or near a room where explosives are being manufactured.

10. All sales of explosives under this license must be effected on the premises shown on the face of the license.

11. An explosive shall not be sold to any child apparently under the age of fourteen years, nor shall any child under that age be employed in manufacture.

12. (1) The explosives possessed by the licensee shall be kept in one or other or both of the following modes:—

Mode A, that is to say, in a building or excavation, which is detached from any dwelling-house, and is separated by the distances prescribed in condition No. 4* from any highway, street, public thoroughfare or public place, and is made and closed so as to prevent unauthorised persons from having access thereto and to secure it from danger from without, and is exclusively appropriated to keeping explosives; and

(a) such a building must be substantially constructed of brick, stone or concrete, or must be a securely constructed fireproof safe; and

(b) such an excavation must be formed in solid rock, or earth, or in mine refuse not liable to ignition, and must not open into, from or out of any mine, quarry, tunnel or underground place which is in use for the carrying on of any work or for the employment of any person.

Mode B, that is to say, in a substantial receptacle (whether or not a fireproof safe) which is closed and secured so as to prevent unauthorised persons from having access thereto, and is exclusively appropriated to the keeping of explosives, and is placed inside a dwelling-house, or inside a building which is not itself qualified for the keeping of explosives in Mode A.

(2) A fireproof safe shall not be used for the keeping of any explosive other than gunpowder or small-arm nitro-compound and cartridges of the 2nd division of the 6th (ammunition), class (not containing their own means of ignition) and made with gunpowder or small-arm nitro-compound, such as cartridges or charges for cannon or blasting purposes.

13. The maximum quantity of explosives allowed to be kept at the same time shall be the following:—

(1) if the only explosive kept be one or more of the following, namely:—

(a) gunpowder;

(b) small-arm nitro-compound; or

(c) ammunition of the first division of the 6th class,
the maximum shall be—

	In Mode A. lbs.	In Mode B. lbs.
gunpowder and small arm nitro-compound, in all	Two hundred.	Fifty.
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class	Any quantity.	Any quantity.

(2) if the only explosive kept be manufactured fireworks
the maximum shall be—

	In Mode A. lbs.	In Mode B. lbs.
manufactured fireworks	Two hundred.	Fifty.

(3) in any other case the maximum shall be—

mixed explosives, including gunpowder, small-arm nitro-compound and manufactured fireworks, etc., in all	Sixty.	Fifteen.
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class	Any quantity.	Any quantity.

Provided that in each of the three cases above-mentioned the aggregate quantity kept on the premises, in Mode A and Mode B together may not in any case exceed the maximum quantity which may be kept in Mode A.

14. With respect to a building or excavation used in Mode A, and a receptacle used in Mode B,—

the interior thereof, and the shelves and fittings therein, shall be so constructed, or so lined and covered, as to prevent the exposure of any iron or steel, or the detaching of any grit, iron or steel or similar substance, in such manner as to come into contact with the explosive;

and such interior, shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean;

* These distances may be reduced to one-half when the building is surrounded by a traverse as high as the eaves of the building.

and, in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom ;

and all articles or substances of an explosive or highly inflammable nature, and all lights, shall be kept at a safe distance from the explosive, and from any room or part of a building, excavation or receptacle containing the same ;

and no person entering any such room or part of a building or any such excavation, or any such receptacle, shall have any iron or steel in his possession, or attached to or on his boots or shoes :

Provided that this condition, so far as it relates to the exposure of iron or steel or similar substances, shall not be obligatory in the case where no explosive is kept other than ammunition of the 1st division of the 6th (ammunition) class.

15. All explosives exceeding five pounds in quantity of the 1st division of the 6th (ammunition) class or of the 2nd division of the 7th (firework) class, and all other explosives exceeding one pound in quantity, shall be kept in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosives from escaping ;

and, when publicly exposed for sale or when sold, the outermost receptacle containing such explosives shall have affixed the name of the explosives in conspicuous characters by means of a brand or securely-attached label or other mark :

Provided that two samples of each kind of firework may be exposed for sale without complying with the foregoing clauses of this condition, if such samples be placed in such a position that no light or fire is, or is likely to be, brought near them.

16. (1) Each description of explosive which may be kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other :

(2) Provided as follows :—

(a) Gunpowder, small-arm nitro-compound and safety fuzes belonging to the 1st division of the 6th (ammunition) class may be kept with each other without any intervening partition or space ;

(b) the various explosives of the 1st division of the 6th (ammunition) class may be kept with each other without any intervening partition or space ;

(c) the various explosives of the 7th (firework) class may be kept with each other without any intervening partition or space.

17. *The licensee shall affix to his shop or place of business a signboard as required by rule 11 of the rules framed under the Indian Arms Act, 1878 (XI of 1878), and shall post up in his shop a copy of section 28 of that Act.

18. *The licensee shall at the time of purchase endorse upon the license of every purchaser holding a license under Form VIII or IX of the forms prescribed under the Indian Arms Act, 1878 (XI of 1878), the following particulars, namely :—

(a) the name and address of the person who takes delivery of the articles sold ;

(b) the nature and amount of articles sold ; and

(c) the date of sale ;

and shall append his signature to the endorsement.

19. A similar endorsement shall be made upon the license of every purchaser holding a license under the Explosives Act for the possession of explosives.

FORM B.

(See rule 14.)

[FEE

RUPEES IN STAMPS.]

License to possess and sell gunpowder, or small-arm nitro-compound, or an explosive of the 1st Division of the 6th (Ammunition) Class or (elsewhere than in villages or other rural areas) an explosive of the 7th (Firework) Class.

[Granted in a Presidency-town or its suburbs or in Rangoon by the Commissioner of Police, and elsewhere by the District Magistrate.]

Name, etc., of licensee and place of residence.	Place of business factory or shop.	Maximum quantity of explosive to be possessed at any one time.	Description and quantity of explosive to be possessed and sold during the year.	Date on which license expires.

*These conditions are to be added only when the authority granting this license directs, in pursuance of rule 31, by an order written on the license, that this license shall have the effect of a like license granted under the Indian Arms Act, 1878 (XI of 1878).

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The licensee shall keep records and accounts of all explosives in stock and of all sales, in such form as the Local Government may from time to time direct.

3. The licensee shall exhibit his stock and his books and records of sales to any Magistrate or to any Police-officer not below the rank of Inspector, whenever such Magistrate or officer may call upon him so to do.

4. All sales of explosives under this license must be effected upon the premises shown on the face of the license.

5. An explosive shall not be sold to any child apparently under the age of fourteen years.

6. (1) The explosives possessed by the licensee shall be kept in one or other or both of the following modes:—

Mode A, that is to say, in a building or excavation, which is detached from any dwelling-house, and is separated by the prescribed distances,* from any highway, street, public thoroughfare or public place, and is made and closed so as to prevent unauthorised persons from having access thereto and to secure it from danger from without, and is exclusively appropriated to keeping explosives; and

(a) such a building must be substantially constructed of brick, stone or concrete, or must be a securely constructed fireproof safe; and

(b) such an excavation must be formed in solid rock or earth or in mine refuse not liable to ignition, and must not open into, from or out of any mine, quarry, tunnel or underground place which is in use for the carrying on of any work or for the employment of any person.

Mode B, that is to say, in a substantial receptacle (whether or not a fireproof safe) which is closed and secured so as to prevent unauthorised persons from having access thereto, and is exclusively appropriated to the keeping of explosives, and is placed inside a dwelling-house, or inside a building which is not itself qualified for the keeping of explosives in Mode A:

(2) A fireproof safe shall not be used for the keeping of any explosive other than gunpowder or small-arm nitro-compound and cartridges of the 2nd division of the 6th (ammunition) class (not containing their own means of ignition) and made with gunpowder or small-arm nitro-compound, such as cartridges or charges for cannon or blasting purposes.

7. The maximum quantity of explosives allowed to be kept at the same time shall be the following:

(1) if the only explosive kept be one or more of the following, namely:—

(a) gunpowder,

(b) small-arm nitro-compound, or

(c) ammunition of the 1st division of the 6th class,
the maximum shall be—

	In Mode A. lbs.	In Mode B. lbs.
gunpowder and small-arm nitro-compound, in all	Two hundred.	Fifty.
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class	Any quantity.	Any quantity.
(2) if the only explosive kept be manufactured fireworks, the maximum shall be—		
manufactured fire-works	Two hundred.	Fifty.
(3) in any other case the maximum shall be—		
mixed explosives, including gunpowder, small-arm nitro-compound and manufactured fireworks, etc., in all	Sixty.	Fifteen.
and, in addition, of explosives contained in ammunition of the 1st division of the 6th class	Any quantity.	Any quantity.

* In the case of gunpowder or small-arm nitro-compound, one hundred yards.

In the case of an explosive of the 1st division of the 6th (ammunition) class or of the 7th (firework) class, fifty yards.

Provided that these distances may be reduced to one-half when the building is surrounded by a traverse as high as the eaves of the building.

Provided that in each of the three cases above-mentioned the aggregate quantity kept on the premises in Mode A and Mode B together may not in any case exceed the maximum quantity which may be kept in Mode A.

8. With respect to a building or excavation used in Mode A, and a receptacle used in Mode B,—

the interior thereof, and the shelves and fittings therein, shall be so constructed or so lined and covered as to prevent the exposure of any iron or steel, or the detaching of any grit, iron or steel or similar substance, in such manner as to come into contact with the explosive;

and such interior, shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean;

and, in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom;

and all articles or substances of an explosive or highly inflammable nature, and all lights, shall be kept at a safe distance from the explosive, and from any room or part of a building, excavation or receptacle containing the same;

and no person entering any such room or part of a building, or any such excavation, or any such receptacle, shall have any iron or steel in his possession, or attached to or on his boots or shoes:

Provided that this condition, so far as it relates to the exposure of iron or steel or similar substances, shall not be obligatory in the case where no explosive is kept other than ammunition of the 1st division of the 6th class.

9. All explosives exceeding five pounds in quantity of the 1st division of the 6th (ammunition) class or of the 2nd division of the 7th (firework) class and all other explosives exceeding one pound in quantity shall be kept in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosives from escaping;

and, when publicly exposed for sale or sold, the outermost receptacle containing such explosives shall have affixed the name of the explosives in conspicuous characters by means of a brand or securely-attached label or other mark:

Provided that two samples of each kind of firework may be exposed for sale without complying with the foregoing clauses of this Condition, if such samples be placed in such a position that no light or fire is, or is likely to be, brought near them.

10. (1) Each description of explosive which may be kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other:

(2) Provided as follows:—

(a) Gunpowder, small-arm nitro-compound and safety fuzes belonging to the 1st division of the 6th (ammunition) class, may be kept with each other without any intervening partition or space;

(b) the various explosives of the 1st division of the 6th (ammunition) class may be kept with each other without any intervening partition or space;

(c) the various explosives of the 7th (firework) class may be kept with each other without any intervening partition or space.

11. *The licensee shall affix to his shop or place of business a signboard as required by rule 11 of the rules framed under the Indian Arms Act, 1878 (XI of 1878), and shall post up in his shop a copy of section 28 of that Act.

12. *The licensee shall at the time of purchase endorse upon the license of every purchaser holding a license under Form VIII or IX of the forms prescribed under the Indian Arms Act, 1878 (XI of 1878), the following particulars:—

(a) the name and address of the person who takes delivery of the articles sold;

(b) the nature and amount of the articles sold; and

(c) the date of sale;

and shall append his signature to the endorsement.

13. A similar endorsement shall be made upon the license of every purchaser holding a license under the Explosives Act, for the possession of explosives.

* These conditions are to be added only when the authority granting this license directs, in pursuance of rule 31 by an order written on the license, that this license shall have the effect of a like license granted under the Indian Arms Act, 1878 (XI of 1878).

FORM C.
(See rule 14.)

[FEE—EIGHT ANNAS, IN STAMPS.]

License to possess gunpowder or small-arm nitro-compound, or an explosive of the 1st division of the 6th (Ammunition) class, or (elsewhere than in villages or other rural areas) an explosive of the 7th (Firework) class.

[Granted in a Presidency-town or its suburbs or in Rangoon by the Commissioner of Police, and elsewhere by the District Magistrate.]

Name, etc., of licensee and place of residence.	Description and quantity of explosive to be possessed during the year.	Place with full details where explosive is to be possessed.	Maximum quantity of explosive to be kept at any one time.	Date on which license expires.

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The licensee shall keep records and accounts of all explosives in stock, in such form as the Local Government may from time to time direct.

3. The licensee shall exhibit his stock and his books and records to any Magistrate or to any Police-officer not below the rank of Inspector, whenever such Magistrate or officer may call upon him so to do.

4. (1) The explosives possessed by the licensee shall be kept in one or other or both of the following modes:—

Mode A, that is to say, in a building or excavation, which is detached from any dwelling-house, and is separated by the prescribed distances* from any highway, street, public thoroughfare or public place, and is made and closed so as to prevent unauthorised persons from having access thereto and to secure it from danger from without, and is exclusively appropriated to keeping explosives; and

(a) such a building must be substantially constructed of brick, stone or concrete, or must be a securely constructed fireproof safe:

(b) such an excavation must be formed in solid rock, or earth, or in mine refuse not liable to ignition, and must not open into, from or out of any mine, quarry, tunnel or underground place, which is in use for the carrying on of any work or for the employment of any person:

Mode B, that is to say, in a substantial receptacle (whether or not a fireproof safe) which is closed and secured so as to prevent unauthorised persons from having access thereto, and is exclusively appropriated to the keeping of explosives and is placed inside a dwelling-house, or inside a building which is not itself qualified for the keeping of explosives in Mode A.

(2) A fireproof safe shall not be used for the keeping of any explosive other than gunpowder or small-arm nitro-compound and cartridges of the 2nd division of the 6th (Ammunition) class (not containing their own means of ignition) and made with gunpowder or small-arm nitro-compound, such as cartridges or charges for cannon or blasting purposes.

5. The maximum quantity of explosives allowed to be kept at the same time shall be the following, namely—

(1) if the only explosive kept be one or more of the following, namely:—

(a) gunpowder,

* In the case of gunpowder or small-arm nitro-compound, one hundred yards.
In the case of an explosive of the 1st division of the 6th (Ammunition) class or of the 7th (Firework) class fifty yards:
Provided that these distances may be reduced to one-half when the building is surrounded by a traverse as high as the eaves of the building.

- (b) small-arm nitro-compound, or
 (c) ammunition of the 1st division of the 6th class,
 the maximum shall be—

	In Mode A. lbs.	In Mode B. lbs.
gunpowder and small-arm nitro-compound, in all and, in addition, of explosives contained in ammunition of the 1st division of the 6th class . . .	Two hundred.	Fifty.
(2) if the only explosive kept be manufactured fireworks, the maximum shall be— manufactured fireworks . . .	Any quantity.	Any quantity.
(3) in any other case the maximum shall be— mixed explosives, including gunpowder, small-arm nitro-compound and manufactured fireworks, etc., in all and, in addition, of explosives contained in ammunition of the 1st division of the 6th class . . .	Two hundred.	Fifty.
	Sixty.	Fifteen.
	Any quantity.	Any quantity.

Provided that in each of the three cases above-mentioned the aggregate quantity kept on the premises in Mode A and Mode B together may not in any case exceed the maximum quantity which may be kept in Mode A.

6. With respect to a building or excavation used in Mode A, and a receptacle used in Mode B,

the interior thereof, and the shelves and fittings therein, shall be so constructed, or so lined and covered, as to prevent the exposure of any iron or steel, or the detaching of any grit, iron, or steel or similar substance, in such manner as to come into contact with the explosive ;

and such interior shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean ;

and, in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom ;

and all articles or substances of an explosive or highly inflammable nature, and all lights, shall be kept at a safe distance from the explosive, and from any room or part of a building, excavation, or receptacle containing the same ;

and no person entering any such room or part of a building, or any such excavation, or any such receptacle, shall have any iron or steel in his possession, or attached to or on his boots or shoes ;

Provided that this condition, so far as it relates to the exposure of iron or steel or similar substances, shall not be obligatory in the case where no explosive is kept other than ammunition of the 1st division of the 6th class.

7. All explosives exceeding five pounds in quantity of the 1st division of the 6th (Ammunition) class or of the 2nd division of the 7th (Firework) class, and all other explosives exceeding one pound in quantity shall be kept in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosives from escaping.

8. (1) Each description of explosive which may be kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other :

(2) Provided as follows :—

(a) Gunpowder, small-arm nitro-compound and safety fuzes belonging to the 1st division of the 6th (Ammunition) class may be kept with each other without any intervening partition or space ;

(b) the various explosives of the 1st division of the 6th (Ammunition) class may be kept with each other without any intervening partition or space ;

(c) the various explosives of the 7th (Firework) class may be kept with each other without any intervening partition or space.

9. The licensee shall at the time of purchase have the following particulars endorsed upon his license by the vendor from whom he purchases, and under the vendor's signature namely :—

(a) the name and address of the person who takes delivery of the articles purchased :

(b) the nature and amount of the articles purchased, and

(c) the date of purchase.

of

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The licensee shall keep records and accounts of all fireworks manufactured, of all stock in hand, and of all sales, in such form as the Local Government may from time to time direct.

3. The licensee shall exhibit his stock and his books of manufacture and sales to any Magistrate or to any Police-officer not below the rank of Inspector, whenever such Magistrate or officer may call upon him so to do.

4. Fireworks shall be manufactured in such place only as may be approved by the District Magistrate, due regard being had to the public safety.

5. All sales of fireworks under this license must be effected upon the premises shown on the face of the license.

6. Fireworks shall not be sold to any child apparently under the age of fourteen years, nor shall any child under that age be employed in manufacture.

7. The manufactured fireworks possessed by the licensee must be kept in a building approved by the District Magistrate, due regard being had to the public safety :

Provided that any quantity not exceeding fifty pounds may be kept inside any other building, if placed in a receptacle exclusively appropriated to the keeping of fireworks.

8. *The licensee shall affix to his shop or place of business a signboard as required by rule 11 of the rules framed under the Indian Arms Act, 1878 (XI of 1878), and shall post up in his shop a copy of section 28 of that Act.

* This condition is to be added only when the authority granting this license directs, in pursuance of rule 31, by an order written on the license, that this license shall have the effect of a like license granted under the Indian Arms Act, 1878 (XI of 1878).

FORM E.

(See rule 14.)

[FEE—EIGHT ANNAS IN STAMPS.]

License to possess gunpowder or safety fuse by bonâ fide agriculturists.

(Granted by Mamlatdars or Mahalkaris in the Bombay Presidency.)

Name, etc., of licensee, and place of residence.	Description and quantity of explosive to be possessed during the year.	Place, with full details, where explosive is to be possessed.	Maximum quantity of explosive (not exceeding 100 lb. gunpowder and 10 safety fuzes to be kept at any one time.	Date on which license expires.

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The explosive shall be kept in a substantially constructed unflammable building approved by such officer as the Local Government may prescribe, or in a fireproof safe separated from any dwelling house, highway, street, public thoroughfare or public place by the prescribed distances,* and made and closed so as to prevent unauthorised persons from having access thereto, and to secure it from danger from without:

Provided that 50 lbs. of gunpowder and 10 safety fuzes may be kept inside a dwelling-house or in any building other than as last aforesaid in a receptacle exclusively appropriated to keeping explosive.

3. All articles or substances of an explosive or highly inflammable nature shall be kept at a safe distance from the explosive and from any room or part of a building, fireproof safe, or receptacle containing the same, and no person entering such room or part of any building or such safe or receptacle shall have any iron or steel in his possession or attached to or on his boots or shoes.

4. Neither the building exclusively appropriated for the purpose of keeping the explosive, nor the fireproof safe or receptacle referred to above, shall have any exposed iron or steel in the interior thereof:

Provided that this condition shall not be obligatory in a building, fireproof safe, or receptacle in which no explosive other than an explosive of the 1st division of the 6th (Ammunition) class is kept.

5. The licensee shall at the time of purchase have the following particulars endorsed upon his license by the vendor from whom he purchases and under the vendor's signature:—

- (a) The name and address of the person who takes delivery of the articles purchased;
- (b) the nature and amount of the articles purchased; and
- (c) the date of purchase.

* In the case of gunpowder, 50 yards.

Conditions.

1. This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. (1) The explosive shall be kept in a substantially constructed building which is exclusively appropriated for the purpose, and is detached from any dwelling-house, and is situated at a safe distance from any highway, street, public thoroughfare or public place, and is made and closed so as to prevent unauthorised persons from having access thereto and to secure it from danger from without:

(2) Provided that any quantity not exceeding fifteen pounds of any such explosive may be kept inside any building not conforming to clause (1) of this condition, if the explosive is placed in a receptacle exclusively appropriated to the keeping of explosives.

3. All articles or substances of an explosive or highly inflammable nature shall be kept at a safe distance from the explosives and from any building or receptacle containing the same.

4. No building exclusively appropriated for the purpose of keeping the explosives, and no receptacle in which the explosives are kept, shall have any exposed iron or steel in the interior thereof.

5. All explosives exceeding one pound in quantity shall be kept in a substantial case, bag, canister or other receptacle, made and closed so as to prevent the explosive from escaping.

6. Each description of explosive which may lawfully be kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other.

7. The licensee shall at the time of purchase have the following particulars endorsed upon his license by the vendor from whom he purchases, and under the vendor's signature, namely:—

- (a) the name and address of the person who takes delivery of the articles purchased;
- (b) the nature and amount of the articles purchased; and
- (c) the date of purchase.

FORM G.

[See Rule 17 (2).]

THE INDIAN EXPLOSIVES ACT, 1884.

Form of application for a license for possession of explosives (other than fulminates) in, and sale from, a Magazine.

The replies to be written in this column.

1. Applicant's Name
- " Calling
- " Address

NOTE.—In cases where the application is made on behalf of a company, the name, calling and address of the company, and the name of the manager or agents, should be given.

2. Situation of the proposed Magazine—
 - Presidency or Province
 - District
 - Village
3. Explosive proposed to be stored—
 - Class
 - Division (if any)
 - Name and description

NOTE.—The class and division (if any) stated should be in accordance with the classification in the General Rules to regulate the manufacture, possession and sale of explosives.

4. Draft license containing the terms which the applicant proposes to have inserted, and specifying such of the matters stated below as are applicable.

NOTE.—A draft license must be attached to this application and must be accompanied by a plan of the proposed magazine and of the site, with the boundaries thereof drawn to scale.

The plan should also show the distance from the proposed magazine of the room (if any) to be used in connection therewith for the filling of cartridges for small arms with explosives, in pursuance of rule 30 (1) of the rules under the Indian Explosives Act, 1884, for the manufacture, possession and sale of explosives, and of the workshop (if any) to be used in connection therewith for the adaptation or preparation of explosives, in pursuance of rule 30(2) of the said rules; and, if both a room and workshop are to be used, the distance of the room from the workshop.

The matters referred to above, and required (so far as applicable) to be specified, are as follows:—

- (a) the boundaries of the land forming the site of the magazine, and either any belt of land surrounding the site which is to be kept clear, and the buildings and works from which it is to be kept clear, or the distance to be maintained between the magazine or any part thereof and other buildings and works (for buildings and works here referred to, see 1st column of table of distances appended to these rules); and
- (b) the situation, character and construction of all the mounds, buildings and works on or connected with the magazine, and the distances thereof from each other; and
- (c) the nature of the work, if any, to be carried on in connection with the magazine and the place at which such work is to be carried on, and the places in the magazine at which explosives, and any articles liable to spontaneous ignition, or inflammable or otherwise dangerous, are to be kept; and
- (d) the situation of each building forming part of the magazine in which the explosive is to be kept, and the maximum amount of explosive to be kept in each such building; and
- (e) any special terms which the applicant may propose by reason of any special circumstances arising from the locality, the situation or construction of any buildings or works, or the nature of any process or otherwise.

Factory or magazine occupied by the Government of India, or any Department under that Government, with the consent, in writing, of the Government of India or such Department.	
Ditto, without such consent	
Viceregal Residence	

In the case of any building or work above-mentioned which is so screened from the magazine by the natural features of the ground or by good and sufficient artificial mounds of earth as not to be visible from any part of such magazine, the distance assigned above as that to be observed between such building or work and the magazine may be reduced by one-half.

In the case of any building or work above-mentioned which is so screened from the magazine by an intervening hill, that a line drawn from any part of such building or work to any part of such magazine would pass through such hill, the distance assigned by this schedule as that to be observed between such building and work and the magazine may be reduced by three-fourths; but if a Government Inspector notifies in writing that in his judgment the intervening hill, in respect of which such reduction is claimed, is not of a character to justify such reduction, this clause, authorising such reduction, shall be deemed not to apply in respect of the said building or work.

* The distances will be required to be kept clear not merely on the first establishment of the magazines but during the continuance of the license.

† This rule also applies to two or more magazines kept on the same premises, when such magazines—

(1) belong to the same occupier, or

(2) are so kept by mutual consent of the respective occupiers.

Secretary or

Conditions.

This license is granted subject to the provisions of the Indian Explosives Act, 1884 (IV of 1884), and the rules thereunder.

2. The licensee shall keep records and accounts of all explosives in stock, and of all sales in such form as the Local Government may from time to time direct.

3. There shall not be at the same time in the magazine any quantity of explosives exceeding the quantity specified in the license.

4. The magazine shall be used only for the keeping of the explosives specified in the license, and of receptacles for, or tools of implements for work connected with, the keeping of such explosives.

5. The interior of the magazine, and the benches, shelves and fittings therein, shall be so constructed or so lined or covered as to prevent the exposure of any iron or steel, and the detaching of any grit, iron, steel or similar substances in such manner as to come into contact with the explosives; and such interior, benches, shelves and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean; and, in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom:

Provided that so much of this condition as relates to precautions against the exposure of any iron or steel and the detaching of any grit, iron, steel or similar substances shall not be obligatory in a building in which no explosive other than an explosive of the first division of the 6th (ammunition) class is kept.

6. The magazine shall have attached thereto a sufficient lightning conductor, which shall be tested at least once during the currency of the license.

7. Before repairs are done to any room or magazine or part thereof, the same shall, as far as is practicable, be cleaned by the removal of all explosives or mixed ingredients thereof, and the thorough washing out of such room, magazine or part; and after such

cleaning these conditions shall cease to apply to such room or part of the magazine until any explosive is again taken into it :

Provided that this condition shall not be obligatory in a magazine in which no explosive other than an explosive of the first division of the 6th (ammunition) class is kept.

8. Except after such cleaning, all tools and implements used in, or in making any repairs to, any part of the magazine shall be made only of wood, copper or brass or some soft metal or material, or shall be covered with some safe and suitable material :

Provided that this condition shall not be obligatory in a magazine in which no explosive other than an explosive of the 1st division of 6th (ammunition) class is kept.

9. Due provision shall be made, by the use of suitable working clothes without pockets, or of suitable shoes, or by searching or otherwise, or by some such means, for preventing the introduction into the magazine of fire, lucifer matches or any substance or article likely to cause explosion or fire, or of any grit, iron or steel ; but this rule shall not prevent the introduction of an artificial light of such construction, position or character as not to cause any danger or fire or explosion :

Provided that so much of this condition as applies to the exclusion of grit, iron or steel shall not be obligatory in a building in which no explosive other than an explosive of the first division of the 6th (ammunition) class is kept.

10. No person shall smoke in any part of the magazine.

11. No person under the age of fourteen years shall be employed in or enter the magazine, except in the presence and under the supervision of some grown-up person, and no explosive shall be sold to any such person.

12. (1) Two or more descriptions of explosives which may lawfully be possessed in a licensed magazine may be possessed in the same magazine if they are separated from each other by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other:

(2) Provided as follows:—
